#### 注 意

医学是一门不断发展的科学。由于新的研究及临床实践在不断丰富人们的知识,因此在药物使用及治疗方面也在谋求各种变化。本书编者及出版者核对了各种信息来源,并确信本书内容完全符合出版时的标准。然而,鉴于不可避免的人为错误和医学学科的发展,不管是编者、出版者还是其他参与本书出版的工作者均不能保证此书中的内容百分之百正确。因此,他们不能对由此类错误引起的后果负责。

我们提倡读者将本书内容与其他资料进行确证。例如,我们希望读者对他们将要使用的每一种药品的说明书仔细阅读,以确证本书的有关信息是正确的,且推荐的药品用量及禁忌证等没有变化。该建议对新药或非常用药尤为重要。

# CONTRIBUTORS

**Thomas E. Andreoli**

The Nolan Chair in Internal Medicine, Professor and  
Chairman of Internal Medicine, University of Arkansas  
College of Medicine, Little Rock

*Posterior Pituitary and Water Metabolism*

**Lowell B. Anthony**

Associate Professor of Medicine, Louisiana State Univer-  
sity School of Medicine, New Orleans

*Disorders of Vasodilator Hormones: Carcinoid Syndrome and  
Mastocytosis*

**Andrew Arnold**

Associate Professor of Medicine, Harvard Medical  
School; Physician, Massachusetts General Hospital, Bos-  
ton

*Pathogenesis of Endocrine Tumors*

**John P. Atkinson**

Professor of Medicine and Molecular Microbiology,  
Washington University School of Medicine, St. Louis

*Autoimmunity and the Endocrine System*

**Daniel G. Bichet**

Professor of Medicine, University of Montreal Faculty of Medicine, Montréal, Quebec, Canada

*Posterior Pituitary and Water Metabolism*

**F. Richard Bringhurst**

Associate Professor of Medicine, Harvard Medical School; Physician, Massachusetts General Hospital, Boston

*Hormones and Disorders of Mineral Metabolism*

**Emery N. Brown**

Assistant Professor of Anesthesia, Harvard Medical School; Assistant in Anesthesia, Massachusetts General Hospital, Boston

*Measurement of Hormones*

**Bruce R. Carr**

Paul C. MacDonald Professor of Obstetrics and Gynecology, The University of Texas Southwestern Medical Center, Dallas

*Disorders of the Ovaries and Female Reproductive Tract; Fertility Control and Its Complications*

**M. Linette Casey**

Associate Professor of Biochemistry and of Obstetrics and Gynecology, The University of Texas Southwestern Medical Center, Dallas

*Endocrine Changes of Pregnancy*

**William W. Chin**

Professor of Medicine, Harvard Medical School; Chief, Division of Genetics, and Senior Physician, Brigham and Women's Hospital, Boston

*Mechanism of Action of Hormones That Act at the Cell Surface*

**James H. Clark**

Professor Emeritus of Cell Biology, Baylor College of Medicine, Houston

*Mechanisms of Action of Hormones That Act as Transcription-Regulatory Factors*

**Felix A. Conte**

Professor of Pediatrics, University of California, San Francisco

*Disorders of Sex Differentiation*

**Philip E. Cryer**

Irene E. and Michael M. Karl Professor of Medicine, Washington University School of Medicine, St. Louis

*Glucose Homeostasis and Hypoglycemia*

**Terry F. Davies**

Florence and Theodore Baumritter Professor of Medicine, Mount Sinai School of Medicine, New York

*The Thyroid Gland*

**Marie B. Demay**

Assistant Professor of Medicine, Harvard Medical School; Assistant Physician, Massachusetts General Hospital, Boston

*Hormones and Disorders of Mineral Metabolism*

**Robert G. Dluhy**

Associate Professor of Medicine, Harvard Medical School; Senior Physician, Brigham and Women's Hospital, Boston

*Endocrine Hypertension*

**George S. Eisenbarth**

Professor of Pediatrics, Medicine, and Immunology,  
University of Colorado School of Medicine, Denver

*Immunoendocrinopathy Syndromes*

**Robert V. Farese, Jr.**

Professor of Pathology and Medicine, Gladstone Institute of Cardiovascular Disease, University of California, San Francisco

*Disorders of Lipid Metabolism*

**Delbert A. Fisher**

Professor Emeritus of Pediatrics and Internal Medicine, University of California, Los Angeles, School of Medicine, Los Angeles; Chief Scientific Officer, Quest Diagnostics-Nichols Institute, San Juan Capistrano, CA

*Endocrinology of Fetal Development*

**Jeffrey S. Flier**

Professor of Medicine, Harvard Medical School; Physician, Beth Israel Deaconess Medical Center, Boston

*Eating Disorders: Obesity, Anorexia Nervosa, and Bulimia Nervosa*

**Daniel W. Foster**

Donald W. Seldin Distinguished Chair and Chairman of Internal Medicine, The University of Texas Southwestern Medical School, Dallas

*Principles of Endocrinology; Diabetes Mellitus; Eating Disorders: Obesity, Anorexia Nervosa, and Bulimia Nervosa*

**Andrew G. Frantz**

Professor of Medicine, Columbia University College of Physicians and Surgeons, New York

*Endocrine Disorders of the Breast*

**Robert F. Gagel**

Professor of Medicine, University of Texas M.D. Anderson Cancer Center, Houston  
*Multiple Endocrine Neoplasia*

**James E. Griffin**

Diana and Richard C. Strauss Professor in Biomedical Research and Professor of Internal Medicine, The University of Texas Southwestern Medical Center, Dallas  
*Disorders of the Testes and the Male Reproductive Tract; Fertility Control and Its Complications*

**Melvin M. Grumbach**

Edward B. Shaw Professor of Pediatrics, University of California, San Francisco  
*Disorders of Sex Differentiation; Puberty: Ontogeny, Neuroendocrinology, Physiology, and Disorders*

**Joel F. Habener**

Professor of Medicine, Harvard Medical School; Associate Physician, Massachusetts General Hospital, Boston  
*Genetic Control of Hormone Formation*

**Ian D. Hay**

Professor of Medicine, Mayo Medical School, Rochester, MN  
*The Thyroid Gland*

**Eva Horvath**

Associate Professor of Pathology, University of Toronto Faculty of Medicine, Toronto, Ontario, Canada  
*The Anterior Pituitary*

**C. Ronald Kahn**

Mary K. Iacocca Professor of Medicine, Harvard Medical School; Director, Elliott P. Joslin Research Laboratory, Boston

*Mechanism of Action of Hormones That Act at the Cell Surface*

**David R. Karp**

Assistant Professor of Internal Medicine, The University of Texas Southwestern Medical Center, Dallas

*Autoimmunity and the Endocrine System*

**Stanley G. Korenman**

Professor of Medicine and Associate Dean, University of California, Los Angeles, School of Medicine, Los Angeles

*Sexual Function and Dysfunction*

**Kalman Kovacs**

Professor of Pathology, University of Toronto Faculty of Medicine, Toronto, Ontario, Canada

*The Anterior Pituitary*

**William J. Kovacs**

Associate Professor of Medicine, Vanderbilt University School of Medicine, Nashville

*The Adrenal Cortex*

**Barbara E. Kream**

Professor of Medicine, University of Connecticut Health Center, Farmington

*Metabolic Bone Disease*

**Guenther J. Krejs**

Professor and Chairman of Internal Medicine, Karl Franzens University, Graz, Austria

*Non-Insulin-Secreting Tumors of the Gastroenteropancreatic System*

**Henry M. Kronenberg**

Professor of Medicine, Harvard Medical School; Chief, Endocrine Unit, Massachusetts General Hospital, Boston

*Principles of Endocrinology; Hormones and Disorders of Mineral Metabolism*

**Lewis Landsberg**

Irving S. Cutter Professor and Chairman of Medicine, Northwestern University Medical School, Chicago

*Catecholamines and the Adrenal Medulla*

**P. Reed Larsen**

Professor of Medicine, Harvard Medical School; Chief, Thyroid Division, and Senior Physician, Brigham and Women's Hospital, Boston

*Principles of Endocrinology; The Thyroid Gland*

**Edward R. Laws, Jr.**

Professor of Neurosurgery and Internal Medicine, University of Virginia School of Medicine, Charlottesville

*The Anterior Pituitary*

**Marc E. Lippman**

Professor of Medicine and Pharmacology and Director, Lombardi Cancer Center, Georgetown University Medical School, Washington, DC

*Endocrine-Responsive Cancer*

**Joseph A. Lorenzo**

Professor of Clinical Medicine, University of Connecticut Health Center, Farmington

*Metabolic Bone Disease*

**Paul C. MacDonald†**

Professor of Obstetrics and Gynecology, Director, Cecil H. and Ida Green Center for Reproductive Biology Sciences, The University of Texas Southwestern Medical Center, Dallas

*Endocrine Changes of Pregnancy*

**Robert W. Mahley**

Professor of Pathology and Medicine and Director, Gladstone Institute of Cardiovascular Disease, University of California, San Francisco

*Disorders of Lipid Metabolism*

**John A. Oates**

The Thomas F. Frist, Sr., Professor of Medicine and Pharmacology, Vanderbilt University School of Medicine, Nashville

*Disorders of Vasodilator Hormones: Carcinoid Syndrome and Mastocytosis*

**Bert W. O'Malley**

Professor and Chairman of Cell Biology, Baylor College of Medicine, Houston

*Mechanisms of Action of Hormones That Act as Transcription-Regulatory Factors*

**David N. Orth**

Professor of Medicine, Vanderbilt University School of Medicine, Nashville

*The Adrenal Cortex*

---

†Deceased.

**Charles Y. C. Pak**

Robert T. Hayes Distinguished Chair in Mineral Metabolism Research and Professor of Internal Medicine, The University of Texas Southwestern Medical Center, Dallas  
*Kidney Stones*

**Kenneth S. Polonsky**

Professor of Medicine, University of Chicago Medical Center, Chicago  
*Glucose Homeostasis and Hypoglycemia*

**Lawrence G. Raisz**

Professor of Medicine, University of Connecticut Health Center, Farmington  
*Metabolic Bone Disease*

**W. Brian Reeves**

Associate Professor of Internal Medicine, University of Arkansas College of Medicine, Little Rock  
*Posterior Pituitary and Water Metabolism*

**Seymour Reichlin**

Research Professor of Medicine, University of Arizona College of Medicine, Tucson  
*Neuroendocrinology*

**Edward O. Reiter**

Professor of Pediatrics, Tufts University School of Medicine; Chairman of Pediatrics, Baystate Medical Center Children's Hospital, Springfield, MA  
*Normal and Aberrant Growth*

**L. Jackson Roberts II**

Professor of Pharmacology and Medicine, Vanderbilt University School of Medicine, Nashville

*Disorders of Vasodilator Hormones: Carcinoid Syndrome and Mastocytosis*

**Ron G. Rosenfeld**

Professor and Chairman of Pediatrics, Oregon Health Sciences University, Portland

*Normal and Aberrant Growth*

**William T. Schrader**

Vice President for Endocrine Research, Ligand Pharmaceuticals, La Jolla, CA

*Mechanisms of Action of Hormones That Act as Transcription-Regulatory Factors*

**Gino V. Segre**

Associate Professor of Medicine, Harvard Medical School; Associate Physician, Massachusetts General Hospital, Boston

*Measurement of Hormones*

**Robert J. Smith**

Associate Professor of Medicine, Harvard Medical School; Elliott P. Joslin Research Laboratory, Boston

*Mechanism of Action of Hormones That Act at the Cell Surface*

**Gordon J. Strewler**

Professor of Medicine, Harvard Medical School, Boston; Chairman of Medicine, Brockton/West Roxbury Veterans Administration Medical Center, West Roxbury, MA

*Humoral Manifestations of Malignancy*

**Dennis M. Styne**

Professor and Chairman of Pediatrics, University of California, Davis

*Puberty: Ontogeny, Neuroendocrinology, Physiology, and Disorders*

**Michael O. Thorner**

Kenneth R. Crispell Professor and Chairman of Internal Medicine, University of Virginia School of Medicine, Charlottesville

*The Anterior Pituitary*

**Ming-Jer Tsai**

Professor of Cell Biology, Baylor College of Medicine, Houston

*Mechanisms of Action of Hormones That Act as Transcription-Regulatory Factors*

**Roger H. Unger**

Touchstone West Distinguished Chair in Diabetes and Professor of Internal Medicine, The University of Texas Southwestern Medical Center, Dallas

*Diabetes Mellitus*

**Mary Lee Vance**

Professor of Medicine and Neurosurgery, University of Virginia Health Sciences Center, Charlottesville

*The Anterior Pituitary*

**Charles F. Verge**

Lecturer in Pediatrics, University of New South Wales, Sydney, Australia

*Immunoendocrinopathy Syndromes*

**Karl H. Weisgraber**

Professor of Pathology and Associate Director, Gladstone Institute of Cardiovascular Disease, University of California, San Francisco

*Disorders of Lipid Metabolism*

**Gordon H. Williams**

Professor of Medicine, Harvard Medical School; Senior Physician, Brigham and Women's Hospital, Boston

*Endocrine Hypertension*

**Jean D. Wilson**

Charles Cameron Sprague Distinguished Chair in Biomedical Research and Clinical Professor of Internal Medicine, The University of Texas Southwestern Medical Center, Dallas

*Principles of Endocrinology; Disorders of the Testes and the Male Reproductive Tract; Endocrine Disorders of the Breast*

**James B. Young**

Professor of Medicine, Northwestern University Medical School, Chicago

*Catecholamines and the Adrenal Medulla*
