FOREWORD

Volume 70A of Am Jur 2d brings you an expanded article on SOCIAL SECURITY AND MEDICARE, reflecting the tremendous amount of litigation in this area in the past few years. The new article emphasizes areas of concern to everyone, including coverage (and the coexisting obligation to pay social security taxes), eligibility for benefits, proof of eligibility (including an extended discussion of the process used to prove disability), and appellate rights if benefits are denied. An overview of other topics, such as computation of benefits, the role of private insurance carriers in the Medicare program, and coverage of working aliens is also included, with references provided to the more detailed, technical coverage of these subjects furnished by the publisher's other works, including Social Security Law and Practice, Federal Procedure, L Ed, and Immigration Law Service.

The article on SPACE LAW provides coverage of the National Aeronautics and Space Administration (NASA) procurement process, the Commercial Space Launch Act, and the liability of the government and government contractors for personal injury, death, and property damage caused by space activities (which became a concern with the explosion of the space shuttle Challenger in 1986).

The topic SODOMY includes a discussion of the 1986 Supreme Court case which held that sodomy laws are constitutional.

The article on SPECIAL OR LOCAL ASSESSMENTS has also been completely updated, with a discussion of such matters as whether an assessment is authorized by a city's home rule powers and whether an assessment can be levied to pay for such projects as the conversion of a street into a mall.

Research References are provided throughout the volume to forms and other practice aids found in other publications in the Am Jur family (Pleading and Practice Forms (Revised), Legal Forms 2d, Proof of Facts, and Trials), the TCSL® federal services (Federal Procedure, L Ed, Federal Procedural Forms, L Ed, Immigration Law Service, Social Security Law and Practice, and USCS), the ALR system, and Social Security Disability Claims by Gilbert and Peters, a unit of the Practice Systems Library. In addition, the volume includes the following features designed to help the practitioner:

■■■ *Observations*: point out opportunities that are not obvious or comment on trends or ambiguities in the law.

■■■ *Cautions*: flag pitfalls that may result in the imposition of liability or result in procedural defaults.

■■■ *Recommendations*: provide plans for action.

■■■ *Practice guides*: provide detailed procedures for proceedings before the administrative agencies and courts, as well as suggest some advantageous strategies.

■■■ *Form drafting guides*: provide detailed instructions for the drafting of papers used to obtain benefits and pleadings required for administrative and court proceedings.

The **Table of Statutes and Rules Cited** and **Table of Parallel References** are contained in the front of the volume, and the **Index** for all of the above topics is located at the end of the volume.
