IMPORTANT NOTICE!

Any earnings illustrations and potential income possibilities given throughout this book DO NOT represent claims of actual earnings and are NOT used as enticement to participate in any marketing program or plan. They are simply mathematical projections, possibilities and models based upon combined and possible compensation plans with specific levels of participation and performance.

Also, any expense or potential profit illustrations are based upon the author's personal business experiences and estimates quoted at the time and place of writing. All figures should be personally verified by the reader for current accuracy in his or her own personal circumstances.

With any of the opportunities presented in this book, as with any other legitimate business or money-making opportunity, you must set your own goals and choose the income strategies and marketing methods and systems available that you think best fit your needs and will best help you to reach your goals.

The actual earnings any individual can achieve or benefits that can be derived from any programs or opportunities an individual chooses to participate in are solely dependent upon each person's activities and performance.

It is the opinion of the author that while business and money-making opportunities represent perhaps the best way for a person to achieve financial independence, with risks that can be calculated, controlled and limited in comparison to other ways to enhance one's financial status, there is indeed risk involved in any and all money-making and business ventures and all possibilities should be weighed carefully before proceeding. He also believes that a business should never be attempted or built on "scared" or borrowed money that the person cannot afford to put at risk.

The illustrations, projections and models in this book are used only to demonstrate some of the many possible marketing strategies a person may choose to build a successful business or organization and what efforts, time and money might be necessary to attain a particular income goal.

Introduction

What you'll learn in this book.

This book is about FREEDOM! Personal financial FREEDOM!

This book is also about making America strong and wealthy -- one person at a time! My plan can do it! In fact, I GUARANTEE it because my plan is to do it for you! The question is: will you be the next person?

I believe you are about to read the most remarkable book ever written about how to achieve total personal financial freedom!

How can I make such a claim? Well, I'm not new to the financial

independence field. I've been in the business of teaching people how to achieve financial independence for more than 14 years. This is my 14th publication (apparently I'm good for about one a year) and I can tell you this book is without a doubt the most spectacular one I've ever written. I've spent and made millions in researching hundreds, perhaps thousands of ways to make money. I speak from experience.

At the end of this book, I've included a letter from my accountant which lists my business references as well as the number for the local consumer protection agency. I welcome you to "check me out."

I'm no "lightweight" when it comes to making money. I was able to retire from day-to-day operations of my publishing business when I was only 39 years old! Not bad for someone who barely finished high school! I'm not telling you this to brag. I thought it best to let you know a little about me because I want you to know, that I know what I'm talking about when it comes to personal financial freedom. I have achieved it. I'm writing to you from experience -- not guess work.

I'm so convinced that you'll NEVER find a better book on how to achieve personal financial independence that this book **DOES NOT NEED A MONEY-BACK GUARANTEE!** Why? Because YOU DID NOT PAY A PENNY FOR THIS BOOK! It's being given to you **ABSOLUTELY FREE!** I can NEVER make you a refund for this book because you never paid a red cent for it! Why

am I giving you this book FREE OF CHARGE?

Think about this. If all the other authors and programs claim you can make a fortune with their new book or program, why do they make you pay for it FIRST -- IN ADVANCE? Why wouldn't they let you see it first, study it to your heart's content, and let you be the judge of its value?

Why wouldn't they let you decide what you think it's worth AFTER you've actually made all the money you want from it? And then, and only then, let you decide what price you're willing to pay for it and when you're willing to pay it!

I do! Why? Because while others *claim* to have the best plan to achieve financial independence -- I ACTUALLY DO! And I'm willing to PROVE it to you by giving you this book ABSOLUTELY FREE with NO STRINGS ATTACHED -- NO OBLIGATION OF ANY KIND -- EVER! (You DO NOT owe me, nor do I want you to pay me, a penny for this book now or ever!)

I will prove to you beyond a shadow of a doubt that I have the absolute best plan for personal financial freedom and independence available. My competitors can't afford to reveal themselves and their opportunities to you without cost. Most of them know you wouldn't pay a dime for them once you saw them. The other reason I send you my book ABSOLUTELY FREE is that

what I'm about to teach you is so incredible, so powerful, that as good as I am at writing sales letters, if I tried to tell you what I offer in this book in a few pages of a sales letter, you simply would not believe it!

So you get this entire book, the whole kit and caboodle, with all the information, and my references and letters of testimony from other readers so that you can make an educated decision on your own AFTER you've had all your questions and concerns answered and checked everything out to your satisfaction!

NOTICE: It has come to my attention that some people are sending my book to people and charging them for it or asking them to pay a small shipping and handling fee to get it. **THIS PRACTICE IS ABSOLUTELY PROHIBITED!** This book is yours **FREE OF CHARGE** -- we will not let you pay a penny to preview it. If you paid someone to get it, contact them immediately and demand your money back! I would also appreciate your notifying my office of this person or company so that we might take whatever action is necessary to stop them.

This is the book your banker, broker, investment and financial adviser, credit card and loan company AND ESPECIALLY YOUR BOSS HOPES YOU NEVER READ! It's also a book that can actually MAKE YOU MONEY!

I say with full confidence, NOTHING else comes close to what you're about to learn. Once you learn to take advantage of the financial secrets, methods and techniques in this book, you'll never be the same again!

I'm purposely making this one of the shortest books I've ever written! Why? I believe the BEST plans are the SIMPLE plans that anyone can follow easily and quickly. So I'm going to make this so simple that you can be on your way towards personal financial freedom within minutes of finishing this book! In fact, I'm adding a feature that will make it IMPOSSIBLE for you to fail! How? BY DOING EVERYTHING FOR YOU!

Two questions usually come to mind when I tell people, "I'll do everything for them." One -- "You building a business and income for me sounds expensive! I can't imagine you come cheap! What's it going to cost me?" And two -- "Why would you want to do it for me?"

The answer to the first question is, "In the end -- NOTHING -- ZERO!" In fact, I've developed a very unique method and system so that the end cost to you is BETTER THAN FREE! (In Section Three, you'll learn how and you'll also learn how your new "Rich Uncle Don" can help you become wealthy too!)

I actually have THREE answers to the second question of why I would want to do this for anyone -- including you. I'll handle two of them now and

the third one will be evident to you in Section Three.

First, "Because I'm ticked off!"

I'm tired of watching people fail in money-making program after program -- even ones I've created and perfected! I'm tired of people taking my tested and proven systems and NOT following my instructions EXACTLY or NOT sticking with anything long enough to see the results. And I'm mostly upset with every self-proclaimed expert who says, "Heck, even though Don spent a small fortune creating and perfecting the system, I can do it better than he can!"

I've come to the conclusion that I must "put my money where my mouth is!" This time I'm not only prepared to show you how to do it -- I'm prepared to do it for you!

I've proven that I can help people become successful IN SPITE OF THEMSELVES, if they just "keep their hands off" and allow me to work my marketing, money-making magic.

I believe the BEST way to teach someone something, is to actually do it for them in the beginning. Then they will know exactly how to duplicate my success. Once you become successful in this business, I believe you won't want to stop -- you'll continue to build your business and income bigger and bigger every month!

Once you experience how it's done, and the results have been proven beyond a shadow of a doubt, I can turn it over to you and you can "take the ball and run with it." In fact, once I've helped you become successful, I don't think I or anyone would be able to stop you!

This is my new "mentor" teaching method. There is simply no better way to learn than to follow in the footsteps of someone who's done it before you. In this case, me.

I have designed the best program ever to help people achieve personal financial freedom, with the most simple, sure-fire, foolproof, money-making system to speed up the process! A way to become personally financially independent in the least amount of time with the least amount of effort. (In fact, with my "Do It For You" option, you'll see how I can help you get started on the road to personal financial freedom with NO WORK on your part at all!)

Now you may CHOOSE not to do anything with what you learn here, but that will be your choice, because after today you WILL know how to "make it happen." From this day forward, you can make excuses to your friends, your family and yourself, or you can MAKE MONEY, but you can't MAKE BOTH! After today you will have the knowledge and power in your hands to change your life -- FINANCIALLY! And it stands to reason, achieving financial freedom will seriously affect your personal freedom! This brings me to the second reason why I would want to do this for anyone.

I truly love this country. It should be no surprise to you that our country is in big, big trouble. Pick a problem, any problem. Crime, drugs, illiteracy, corrupt self-serving politicians, the national deficit that threatens our entire economy, etc. How can all of this exist in the greatest country on earth? The land of the free and the brave -- the land of democracy? What happened? What went wrong?

Well, now it's time for you to get a little insight into why I wrote this book, what I believe it can do, what it can mean to you, and why I chose the title, "How To Make America Strong and Wealthy -- One Person at a Time!"

I'm not going to wave the flag and fill you with a lot of "rah rah." I'll be very brief on this point. I'm just going to state the facts as I see them and my plan (which can include you) to "make a difference" that can literally change America -- ONE PERSON AT A TIME!

I sincerely want to do my part to save my country -- and I believe I've found a way! I know that may sound hokey to you, but let me explain and you'll see what I mean.

I think there are two basic problems: The first is our political system and the second is that people are NOT personally financially independent. Now watch how one can affect the other and change our country in the process.

Democracy is the greatest form of government there is. Even when it's at its worst -- it's better than the next best form of government, whatever that may be. But here's the problem the way I see it, and also the solution the way I see it. See if you don't agree.

Doesn't it strike you just a little funny that politicians will take millions of dollars in campaign funds to run for an office that pays less than \$100,000 per year? What's wrong with this picture?

The problem is evident. As soon as someone running for office takes a dime in campaign contributions what happens? They OWE someone something, don't they? Would that someone have a special interest in the way that politician votes? Of course! Might that politician be swayed in his or her judgement and voting power when it comes to making tough decisions that affect us all when he or she OWES someone something? Would these special interest people or groups want something in return from the politicians they helped elect? Of course they would -- and they do!

Wouldn't those millions of dollars be better spent providing some benefit or service to the people?

I'm drawing some very broad strokes here and I'm NOT saying all politicians are corrupt, but "one hand washing the other" is a fact of life, especially political life if you hope to get elected and STAY in office. I'm also

sure that many well-intentioned patriotic people have run for office planning to "do the right thing" when they got into office. But once they got into the "system," they realized it was hopeless unless they played the game the way it has to be played -- by the "golden rule" of politics -- "He who has the gold makes the rules!"

A taste of power and money with a little greed thrown in for good measure can do strange things to people. It takes very strong-principled individuals to be able to shun the trappings of power and money. People who are already financially independent can't be swayed as easily by the temptations of financial independence -- they've already got it.

My goal for this book and my revolutionary money-making system is to help people (perhaps YOU) become personally financially independent so that those well-intentioned, strong-principled people who have the answers and know what has to be done can run for office -- from the smallest local office, to the biggest in the land -- and NOT take a dime from anyone! THEN, they can do what's right and needed, NOT what they have to do because they owe someone something.

Yes! Good, honest and responsible, financially independent people CAN make a difference. They CAN change this country and do what's needed to turn this country around! Of course, this kind of "grassroots" movement will take money -- and lots of it! But this will be their OWN money and because

they won't owe anyone anything, they will choose to run for office, NOT for what the office can provide them, but for what they can do for the people!

I'm not suggesting that a life in politics is the answer. In fact, quite the contrary. I believe very few people have the answers we need to solve today's problems or the inclination or talent needed to be effective leaders. However, I hope those people do come forward when the time is right for them. So, let me give you another perspective on how becoming personally financially independent can change your life AND help America to become strong and wealthy -- one person at a time.

This is my dream for what this book can do. Help people -- individuals -- YOU -- to become personally financially independent! It CAN be done -- ONE PERSON AT A TIME and as you're about to learn, there's no reason the next person couldn't be you.

You see, there's a lot of good that can be done when you become personally financially independent. Imagine having more money and free time than you've ever dreamed about. Having money -- lots of money -- and becoming personally financially independent is not only GOOD, it's your right, and in fact, your patriotic duty to pursue it! (And when you see how easy it can be to attain it, you'll understand why I'm so proud of this book and the good it can do for people -- for YOU!)

I know it seems like I'm totally down on our political system, but I NEVER forget to thank my lucky stars that I live in such a great country where I still CAN say what I want to say and am free to pursue my dreams and help you pursue yours.

It's been said that the best thing you can do to help the poor, is NOT to become one of them. I'll elaborate on that theme. The best thing you can do to help the poor is NOT to become one of them AND to extend the knowledge, opportunity and help for others to choose not to be poor also. I am not making light of those less fortunate, I am proposing a possible solution with my book.

Think about this. Do you really believe that people commit crimes against others, that they rob and steal, because they have enough money? Do you think most people choose to do drugs because they have too much time and money on their hands? Or do you think most people who choose a life of crime do so because they are frustrated, desperate and feel completely helpless and hopeless -- that life has dealt them a bad hand? Do you think that possibly their frustration with the "system," and their feeling of hopelessness at never being able to have the education or income necessary to break the vicious cycle of despair, drives them in the direction of a life of crime and drugs?

Can you, in your wildest imagination, think that an innocent child wakes up one day and says, "I think I'll choose a life of crime and drugs!" Absurd, isn't it? Most people who choose such a lifestyle feel that they have no other

choice.

Do you think the horrendous problems we have in this country today, with crime and drugs, exist because people have too much money or financially rewarding careers? Or do you agree with me, that it's the feeling of desperation they experience that they will NEVER have either, after trying and working and struggling in a system where the cards are stacked against them.

People just need a fair chance! That's what my book is all about.

Did you know there's another way you can help America to become strong and wealthy -- one person at a time? Once you become personally financially independent, there's another way, other than running for political office, to solve these problem. It's so simple most people overlook it. Government WANTS you to overlook it. You see, the term "independent" scares many people in power. They would rather have you "dependent" upon them and what they offer so they have more control over you.

The other way YOU can help America become strong and wealthy -- one person at a time -- with YOU being that one person, is to stop any and all dependency you have on government by taking personal responsibility for your own life!

Can you tell me why we all strive in our early years to become
