Praise for Coaching Youth Football

"I first met Joe Galat at the age of 14 at the Cape Cod Massachusetts Football Camp. Getting the opportunity to learn the game the right way from Joe at a young age not only increased the chances of me being successful on the field but also increased my chances of staying injury free. Joe went on to coach in the NFL with the New York Giants and Houston Oilers. Joe coached a number of great players during his years in the NFL, including two Hall of Famers, Harry Carson and Elvin Bethea. In Coaching Youth Football, along with its online course, Coaching Youth Football: The AYF Way, Joe breaks down football fundamentals into simple, teachable techniques that are easy to grasp and execute and will be a great benefit to those serious about learning how to coach the great sport of football."

Howie Long Football Analyst 2000 Pro Football Hall of Fame Inductee Eight-Time Pro Bowl Selection

"I am proud to say that I have coached youth football for the past several years and have come to the realization that it involves far more than just Xs and Os. Promoting academic achievement, preparing for the season, ordering equipment, getting coaches to share a vision, coaching kids who are new to the game, and dealing with parents—the infrastructure of the organization alone can be a challenge to many rookie coaches. Joe Galat's *Coaching Youth Football* provides you with all the essentials to ensure your time spent with your kids and parents will be *prime* time."

Deion Sanders NFL and MLB All-Star

"Coaching Youth Football by Joe Galat is the youth coach's playbook on the fundamentals of youth coaching. It provides essential information on coaching a youth football team—from the first day of practice to the final game of the season."

Jim Tressel Head Football Coach The Ohio State University

"Joe Galat was my linebackers coach when I was head coach of the New York Giants. Joe's insight on the basic fundamentals of the game detailed in this book will help everyone who is interested in teaching safe football techniques."

John McVay
Former NFL Head Coach
Former San Francisco 49ers Vice President of Football Operations
1989 NFL Executive of the Year

"Greater than my experience as one of Joe's Yale players in the early '70s is the fortune I've enjoyed for more than two decades through my marriage to Kathy Johnson, Olympic medalist in gymnastics. This relationship has reaffirmed for me the paramount lesson imbued by my dear old friend and coach: There is more to be gleaned from sport than mere winning and losing. Joe Galat's focus on fundamentals, team orientation, character development, and, above all, enjoying the process is completely consistent with the elements for enduring success long after the roar of the crowd has dimmed."

Brian Patrick Clarke Actor and Former Yale Football Player

"Joe Galat's book and course on coaching football will assist football coaches and administrators at any level. It is a valued tool for developing players on the fundamentals of football so they may reach their potential on the field. More important, Galat's approach of using the values learned in football to teach life skills will be of great benefit."

Floyd A. Keith
Executive Director
Black Coaches and Administrators

To my favorite coaches: Faye, Gregg and Tracy, Shane and Tracy, Joe and Diana, Adam and Jamie, and Jessica and Norman

To my children's children: Nic, Gabrielle, Abigail, Max, Gabriel, Grace, Isabella, Mia, and Aiden

Welcome to Çoaching

Coaching young people is an exciting way to be involved in sport. But it isn't easy. Some coaches are overwhelmed by the responsibilities involved in helping athletes through their early sport experiences. And that's not surprising because coaching youngsters requires more than bringing the balls to the field and letting them play. It also involves preparing them physically and mentally to compete effectively, fairly, and safely in their sport and providing them with a positive role model.

This book will help you meet the challenges and experience the many rewards of coaching young athletes. You'll learn how to meet your responsibilities as a coach, communicate well and provide for safety, and teach tactics and skills while keeping them fun, and you'll learn strategies for coaching on game day. There are more than 70 drills and games included to help you with your practices. We also provide a sample practice plan and season plan to help guide you throughout your season. For access to some of this information online, visit the following Web site: www.HumanKinetics.com/CYFootball5E/ExtraPoints. Such materials are marked with this symbol in the text:

This book serves as text for two online courses developed by the American Sport Education Program (ASEP). *Coaching Youth Football: The AYF Way* is the official coach-certification course of American Youth Football (AYF). Coaches and administrators affiliated with AYF can visit www.AYFCoaching.com for more information or to register for the course.

The ASEP *Coaching Youth Football* online course is available to all youth sport organizations and coaches. For more information about this course or other ASEP courses and resources, please contact us at the following address:

ASEP

P.O. Box 5076 Champaign, IL 61825-5076 800-747-5698 www.ASEP.com

Welcome From American Youth Football

On behalf of the national staff and the many volunteers of American Youth Football (AYF), I welcome you to *Coaching Youth Football*.

This book, like all American Sport Education Programs (ASEP), details the most important components of participation, safety, and sportsmanship. In *Coaching Youth Football*, not only will coaches confirm their existing ideas on coaching, but they will also find many new ideas. Some of the techniques and drills will be familiar; others have been closely guarded by their inventors.

Football, one of the greatest team sports in history, is a laboratory of life's lessons. From AYF to the professional ranks, there are no shortcuts. Every fundamental technique a player learns helps to expand his knowledge of the complex sport of football, and repetition in practice is required to hone his skills at each position. The experience of seeing a young player learn a new skill because of your instruction is unforgettably rewarding. "A teacher affects eternity," and one of the highest levels of teaching is coaching.

I encourage the support staff of your association to also review this valuable and important resource. A successful team needs a community of volunteers, administrators, parents, trainers, and coaches working toward the goal of teaching football for its values and enjoyment.

Football is America's game. It is no coincidence that many community and national leaders have been former football players. Thanks to football coaches everywhere who provided us with a positive experience, we are now dedicated to giving back to our next generation. Nothing is more important than helping kids.

To those we call coach: Thank you!

Joe Galat President American Youth Football, Inc.

Appendix 215 Glossary 228 About the Authors 232	

you are like most youth-league coaches, you have probably been recruited from the ranks of concerned parents, sport enthusiasts, or community volunteers. Like many rookie and veteran coaches, you probably have had little formal instruction on how to coach. But when the call went out for coaches to assist with the local youth football program, you answered because you like children and enjoy football and perhaps because you wanted to be involved in a worth-while community activity.

Your initial coaching assignment may be difficult. Like many volunteers, you may not know everything there is to know about football or about how to work with children. In our society, anyone involved in football needs to have a high level of credibility. As a coach, you also have a significant responsibility to the sport of football and to the young people whom you will coach. *Coaching Youth Football* presents the basics of coaching football effectively. For access to some of this information online, visit the following Web site: www.HumanKinetics.com/CYFootball5E/ExtraPoints. Such materials are indicated by this symbol in the outside margin of the text:

To start, we look at your responsibilities and what's involved in being a coach. We also talk about what to do when your child is on the team you coach, and we examine five tools for being an effective coach.

Your Responsibilities as a Coach

Coaching at any level involves much more than designing scoring plays for offense or drawing up defenses that keep the other team away from your goal line. Coaching involves accepting the tremendous responsibility you face when parents put their children into your care. As a football coach, you'll be called on to do the following:

1. Provide a safe physical environment.

Playing football holds inherent risks, but as a coach you're responsible for regularly inspecting the fields and equipment used for practice and competition (see the "Facilities and Equipment Checklist" in the appendix on page 216).

Before the start of the season, make sure you explain to the players and parents that football is a contact sport. Everyone should understand that the players will experience the following during the course of the year:

- They will get bumps and bruises.
- They will be tired and will need extra rest.
- They will need to increase their fluid intake to stay hydrated.

Teach players and parents the importance of keeping their equipment in good working order (see chapter 3 for more information). You should reassure them

that you will be teaching the safest techniques in order to help players avoid injury and that you have a safety plan in place (see chapter 4 for more information).

2. Communicate in a positive way.

As you can already see, you have a lot to communicate. You'll communicate not only with your players and their parents but also with the coaching staff, officials, administrators, and others. Communicate in a way that is positive and that demonstrates that you have the best interests of the players at heart (see chapter 2 for more information). Psychologists who study children have found that the level of a child's understanding varies with age. Reports indicate that the average age at which a child can safely navigate crossing a two-lane road is eight years. Most children think that an automobile driver can see them if they can see the driver (Whitebread and Neilson 1996). This implies that young players may not be capable of judging the angle needed for tackling a ballcarrier or the arch of a football on a long pass. A good coach will understand that the players perceive the game according to their age.

COACHING TIP Although it may take more thought and may require you to plan ahead, always explain to parents what you are trying to accomplish as a staff. In addition, explain to players what you want them to do rather than what they should not do.

3. Teach the fundamental skills of football.

When teaching the fundamental skills of football, keep in mind that football is a game, and therefore, you want to be sure that your players have fun. We ask that you help all players be the best they can be by creating a fun, yet productive, practice environment (see chapter 5 for more information). To help your players improve their skills, you need to have a sound understanding of offensive, defensive, and special-teams skills (see chapters 7 to 9 for more information).

The fundamental skills required for playing football can be better taught if you provide mental images and key words for the tasks you are teaching. Sport psychologists are employed by most professional sport teams. Although the relaxation techniques and mental rehearsal exercises used by professional teams are more sophisticated, we will introduce the basic learning concepts to you. In the following chapters, we provide some common images and key words used to teach football (e.g., "eyes up," "hit on the rise," "uncoil," "wrap up the ballcarrier," "drive the man," "snowplow him back," and "pancake him"). As a coach, you will soon develop your own fun vocabulary.

4. Teach the rules of football.

Introduce the rules of football and incorporate them into individual instruction (see chapter 3 for more information). Many rules can be taught in the first practice, including properly aligning the offense, avoiding illegal procedures, and
