PREFACE

The *First Principles of Business Law* (FPBL) materials are a convenient and effective way to study business law.

This text book provides a clear and concise explanation of the essential topics that are normally covered in a Business Law curriculum. The information in each chapter is carefully structured to provide a narrative that is easy to follow and which builds understanding in manageable steps. Tables, diagrams and indexes are also included. The text book is a convenient starting point for each topic.

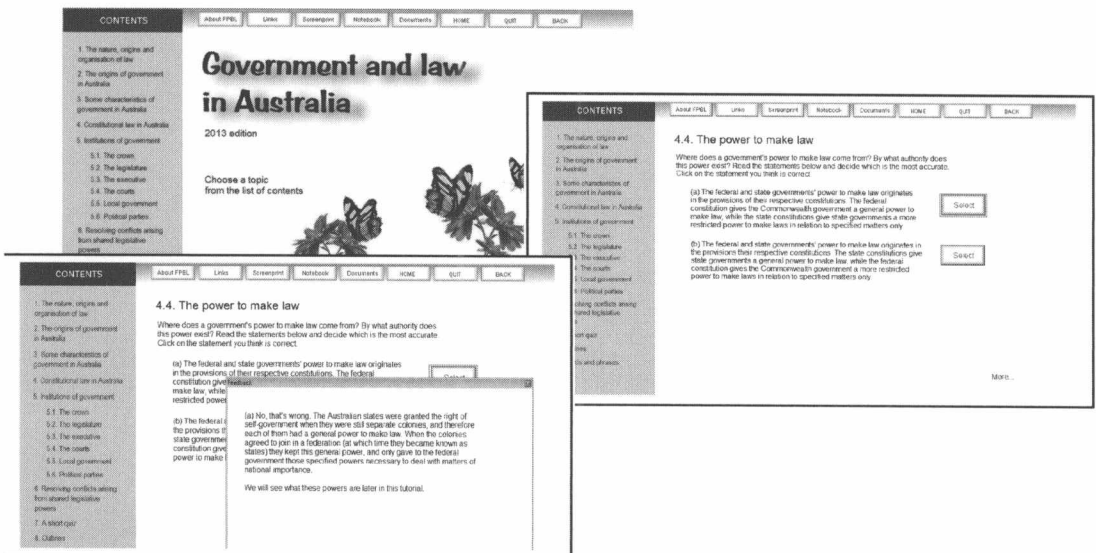

The e-tutorials, once installed on your computer, provide an additional dimension to your learning. Each e-tutorial consists of carefully sequenced examples and questions. Instant feedback is given as the questions are answered. The e-tutorials are an excellent way of gaining a proper understanding of how legal concepts and rules of law work in practical situations. The e-tutorials are also an effective way of preparing for written assignments and exams.

You can use the materials in your own way and at your own speed. To begin with, you should start by reading a chapter of the book and then work through the associated tutorial. Take breaks whenever you need them, and go over the materials more than once until you have really absorbed the things you need to know. With a little experimentation, you will soon find how best to use the FPBL materials.

DOWNLOAD THE FIRST PRINCIPLES OF BUSINESS LAW E-TUTORIALS

The FPBL e-tutorials provide you with hundreds of examples and questions to help you learn the law and understand how it is applied in different situations. Each time you answer a question, you get instant feedback. You can work at your own speed, without being hurried. Go over the examples as often as you like until you have learned what you need to know. Try working through the tutorials with a friend, and discuss the examples and answers until you are sure you understand them. There is an e-tutorial for each chapter of the FPBL textbook.

- Download the FPBL e-tutorial software from the ALC webpage at www.ALCware.com. Choose between the PC version and the Mac version.
- You should read the installation instructions on the ALC webpage before you install the software onto your computer. This will help you to avoid common mistakes.
- When you have installed the software, you will be prompted to register your installation. Original purchasers of this book have a licence to register ONE installation. To register, just follow the on-line prompts that appear when you start up the program, and use the **certificate number** on the card inside this book.
- If you have any problems with registering, or with your installation, please see the troubleshooting section on the ALC webpage. If you need further help you should email alcware@netro.com.au.
- To register additional installations of the FPBL software, you can purchase a licence online from the ALC webpage.
