For U.S. Government End Users, Adobe agrees to comply with all applicable equal opportunity laws including, if appropriate, the provisions of Executive Order 11246, as amended, Section 402 of the Vietnam Era Veterans Readjustment Assistance Act of 1974 (38 USC 4212), and Section 503 of the Rehabilitation Act of 1973, as amended, and the regulations at 41 CFR Parts 60-1 through 60-60, 60-250, and 60-741. The affirmative action clause and regulations contained in the preceding sentence shall be incorporated by reference in this Agreement.

# Contents

<b>Getting Started</b>	About Classroom in a Book .....	1
	Prerequisites .....	1
	Installing the program .....	2
	Installing the Classroom in a Book fonts .....	2
	Copying the Classroom in a Book files .....	2
	Additional resources .....	3
	Adobe Certification .....	4
<b>Working with FrameMaker Documents</b>	<b>Lesson 1</b>	
	Getting started .....	8
	Exploring the document window .....	8
	Applying predefined paragraph formats .....	17
	Applying predefined character formats .....	20
	Writing a short memo .....	22
	Moving on .....	27
	Review questions .....	27
<b>Defining Paragraph Formats</b>	<b>Lesson 2</b>	
	Creating a custom document .....	32
	Copying text .....	35
	Setting up rulers and the grid .....	35
	Creating a side-head area .....	37
	Displaying the Paragraph Designer .....	39
	Formatting headings .....	40
	Formatting body text .....	44
	Formatting numbered lists .....	45
	Formatting bulleted lists .....	51
	Creating a chapter title .....	55
	Deleting unneeded formats .....	57

	Moving on .....	58
	Review questions .....	58
<b>Defining Colors and Character Formats</b>	<b>Lesson 3</b>	
	Defining custom colors and tints .....	62
	Adding color to paragraph formats .....	66
	Adding color to autonumbers .....	67
	Emphasizing words and phrases .....	70
	Moving on .....	73
	Review questions .....	73
<b>Page Layout</b>	<b>Lesson 4</b>	
	Changing column layout .....	78
	Displaying master pages .....	79
	Numbering pages .....	82
	Creating a running footer .....	84
	Finishing the footers .....	87
	Moving on .....	88
	Review questions .....	88
<b>Graphics</b>	<b>Lesson 5</b>	
	Adjusting header and footer frames for graphics .....	93
	Importing a graphic .....	98
	Masking part of a graphic .....	100
	Copying the graphics .....	103
	Drawing lines and rectangles .....	104
	Aligning and distributing objects .....	107
	Copying the graphics .....	109
	Moving on .....	110
	Review questions .....	110
<b>Document Editing</b>	<b>Lesson 6</b>	
	Viewing the document .....	114
	Turning off the display of graphics .....	115
	Defining a user variable .....	116

Inserting variables .....	117
Finding and changing text .....	118
Changing a variable definition .....	120
Using the Thesaurus .....	121
Checking spelling .....	124
Viewing the finished article with graphics .....	127
Moving on .....	127
Review questions .....	128

## Tables

### Lesson 7

Inserting a table .....	132
Filling in the table .....	135
Adding rows and columns .....	136
Rearranging information .....	138
Formatting text in table cells .....	142
Resizing columns .....	146
Changing the table format .....	148
Straddling table cells .....	154
Reusing a table format .....	154
Moving on .....	155
Review questions .....	155

## Customizing Tables

### Lesson 8

Viewing a sample table .....	160
Importing text into a table .....	161
Formatting headings .....	164
Formatting body cells .....	167
Formatting the table title .....	170
Setting basic table properties .....	172
Resizing columns .....	173
Using tabs in table cells .....	175
Defining ruling styles .....	176
Setting table ruling .....	177
Using custom ruling and shading .....	180

	Moving on .....	184
	Review questions .....	184
<b>Anchored Frames and Graphics</b>	<b>Lesson 9</b>	
	Editing text containing anchored frames .....	188
	Importing a graphic .....	189
	Importing a second graphic .....	194
	Anchoring graphics in the column .....	195
	Using art in the margin .....	197
	Copying anchored frames .....	200
	Using inline graphics .....	201
	Reusing anchored frames .....	202
	Using run-in art .....	204
	Creating a drop cap .....	206
	Moving on .....	208
	Review questions .....	208
<b>Cross-References and Footnotes</b>	<b>Lesson 10</b>	
	Inserting a paragraph cross-reference .....	212
	Displaying the source of a cross-reference .....	215
	Inserting an external cross-reference .....	216
	Creating a cross-reference format .....	217
	Using the new cross-reference format .....	219
	Inserting a spot cross-reference .....	219
	Resolving cross-references .....	222
	Inserting footnotes .....	224
	Changing how footnotes look .....	226
	Moving on .....	230
	Review questions .....	230
<b>Books</b>	<b>Lesson 11</b>	
	Creating a book file .....	234
	Adding documents to the book .....	236
	Opening files from the book window .....	238

Adding a table of contents .....	239
Generating the table of contents .....	240
Setting up chapter numbering .....	242
Fixing the pagination .....	244
Changing the layout .....	246
Adding a title .....	248
Formatting the entries .....	251
Changing the contents of entries .....	254
Moving on .....	257
Review questions .....	257

## Indexes

### Lesson 12

Adding an index to the book .....	262
Changing the layout .....	265
Adding a title .....	267
Updating the page footer .....	270
Formatting the entries .....	272
Formatting page numbers .....	275
Fixing bad line breaks .....	276
Adding index entries .....	280
Editing index entries .....	282
Moving on .....	288
Review questions .....	288

## Conditional Text

### Lesson 13

Viewing conditional text .....	292
Setting up your document .....	295
Creating condition tags .....	296
Adding conditional text .....	298
Tagging text as you type .....	304
Adding a conditional graphic .....	305
Adding conditional table rows .....	310
Saving versions of a conditional document .....	312

	Moving on .....	313
	Review questions .....	313
<b>Hypertext and PDF</b>	<b>Lesson 14</b>	
	Creating a hypertext TOC and index .....	318
	Using cross-references as hypertext links .....	322
	Testing hypertext links .....	326
	Adding navigation buttons .....	328
	Saving as PDF .....	335
	Moving on .....	338
	Review questions .....	338
<b>Web Publishing</b>	<b>Lesson 15</b>	
	About WebWorks Standard Edition .....	342
	Viewing the finished document .....	343
	Saving as HTML .....	344
	Viewing the results in a Web browser .....	346
	Refining the mappings .....	348
	Specifying a graphic format .....	352
	Adding hypertext links .....	352
	Splitting the document into multiple Web pages .....	356
	Seeing the results in HTML .....	357
	Advanced topics .....	360
	Moving on .....	368
	Review questions .....	368
<b>Review Questions &amp; Answers</b>	<b>Appendix A</b> .....	371
<b>Copying the Sample Files (UNIX)</b>	<b>Appendix B</b> .....	383
	Copying the sample files from a local CD-ROM drive .....	383
	<b>Index</b> .....	387

# Getting Started

Welcome to Adobe® FrameMaker®—the complete publishing system that provides all the tools you'll need for word processing, graphics, page design, and book building. With FrameMaker, you can create a wide range of top-quality documents, in printed form or online—books, technical manuals, reports, specifications, hypertext help systems, Adobe Acrobat® documents, presentations, and even World Wide Web pages.

## About Classroom in a Book

*Adobe FrameMaker Classroom in a Book*® is part of the official training series for Adobe publishing software developed by experts at Adobe Systems. The lessons are designed to let you learn at your own pace. If you're new to Adobe FrameMaker, you'll learn the fundamental concepts and features you'll need to master the program. If you've been using Adobe FrameMaker for a while, you'll find Classroom in a Book teaches many advanced features, including tips and techniques for using this exciting publishing tool.

Although each lesson provides step-by-step instructions for creating a specific project, there's room for exploration and experimentation. You can follow the book from start to finish, or do only the lessons that correspond to your interests and needs. Special review lessons summarize what you've covered. Screen illustrations vary among the Windows, Macintosh, and UNIX platforms—platform differences are mentioned only when they are substantial.

## Prerequisites

Before beginning to use *Adobe FrameMaker Classroom in a Book*, you should have a working knowledge of your operating system and its conventions. You should know how to use a mouse and standard menus and commands. You should also know how to copy, open, save, print, and close files. If you need to review these techniques, see your Microsoft® Windows®, Macintosh® (Mac™ OS), or UNIX® documentation.

## Installing the program

You must purchase the Adobe FrameMaker software separately. For complete instructions on installing the software, see the Introduction to the *Adobe FrameMaker User Guide*.

## Installing the Classroom in a Book fonts

To ensure that the lesson files appear on your system with the correct fonts, you may need to install the Classroom in a Book font files. The fonts for the lessons are located in the Fonts folder on the FrameMaker Classroom in a Book CD. If you already have these on your system, you do not need to install them. If you have ATM® (Adobe Type Manager®), see its documentation on how to install fonts. If you do not have ATM, installing it from the CIB CD will automatically install the necessary fonts.

Some of the lessons may require fonts which might not be installed on your system. If necessary, FrameMaker will automatically substitute similar fonts, and will display a font substitution dialog box. To reformat the document using available fonts, click OK.

(UNIX) The UNIX-compatible fonts are in a .tar format on the FrameMaker Classroom in a Book CD. Use the .tar command sequence appropriate to your workstation's operating system. For installation of the UNIX fonts, consult your System Administrator or the workstation's user manual.

 *You can also install the Classroom in a Book fonts by copying all the files in the fonts folder on the Adobe FrameMaker Classroom in a Book CD to the fonts folder within the folder in which you installed FrameMaker on your hard disk. Doing so makes the fonts available to FrameMaker but not to other applications.*

## Copying the Classroom in a Book files

The Classroom in a Book CD includes folders containing all the electronic files for the lessons. Each lesson has its own folder, and you must copy the folders to your hard drive to do the lessons. To save room on your drive, you can install only the necessary folder for each lesson as you need it, and remove it when you're done.

To install the Classroom in a Book files:

- 1 Insert the *Adobe FrameMaker Classroom in a Book* CD into your CD-ROM drive.
- 2 Create a folder named FM\_CIB on your hard drive.
- 3 Copy the lessons you want to the hard drive:
  - To copy all of the lessons, drag the Lessons folder from the CD into the FM\_CIB folder.
  - To copy a single lesson, drag the individual lesson folder from the CD into the FM\_CIB folder.

If you are installing the files in UNIX, follow the instructions in Appendix B, “Copying the Sample Files (UNIX).”

If you are installing the files in Windows, you need to unlock them before using them. You don’t need to unlock the files if you are installing them in Mac OS.

- 4 In Windows, unlock the files you copied:
  - If you copied all of the lessons, double-click the unlock.bat file in the FM\_CIB/Lessons folder.
  - If you copied a single lesson, drag the unlock.bat file from the Lessons folder on the CD into the FM\_CIB folder. Then double-click the unlock.bat file in the FM\_CIB folder.

## Additional resources

*Adobe FrameMaker Classroom in a Book* is not meant to replace documentation that comes with the program. Only the commands and options used in the lessons are explained in this book. For comprehensive information about program features, refer to these resources:

- The *Adobe FrameMaker User Guide*. Included with the Adobe FrameMaker software, this guide contains a complete description of all features.
- Online Help, an online version of the *User Guide*, which you can view by choosing Help > Contents. (For more information, see Lesson 1, “Getting to Know the Work Area.”)
- The Adobe Web site ([www.adobe.com](http://www.adobe.com)), which you can view by choosing Help > Adobe Online if you have a connection to the World Wide Web.

## **Adobe Certification**

The Adobe Training and Certification Programs are designed to help Adobe customers improve and promote their product proficiency skills. The Adobe Certified Expert (ACE) program is designed to recognize the high-level skills of expert users. Adobe Certified Training Providers (ACTP) use only Adobe Certified Experts to teach Adobe software classes. Available in either ACTP classrooms or on site, the ACE program is the best way to master Adobe products. For Adobe Certified Training Programs information, visit the Partnering with Adobe Web site at <http://partners.adobe.com>.

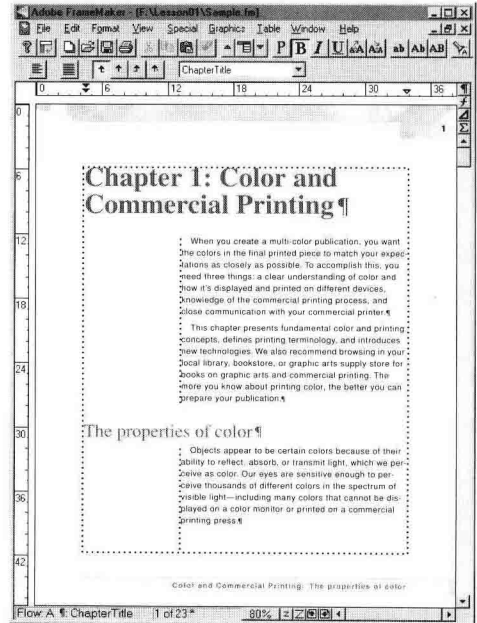

# Lesson 1

## 1

# Working with FrameMaker Documents

*The FrameMaker document window contains aids for writing, illustrating, viewing, and navigating within a document. The look of a document is determined by its template, which provides page layouts and predefined formats for paragraphs and selected text.*

In this lesson, you'll learn how to do the following:

- Show and hide document window guides
- Display pages and zoom in on them
- Format paragraphs by applying formats from a document's Paragraph Catalog
- Format words and phrases by applying formats from a document's Character Catalog
- Create a document from a standard template

## Getting started

During this lesson, you'll save documents as you work on them. If you haven't already done so, you should copy the folder containing the sample documents, and then start FrameMaker.

1 Copy the lessons folders as described in "Installing the program" on page 2.

2 If FrameMaker isn't already running, do one of the following to start it:

- (Windows) Double-click the FrameMaker icon, if it is visible, or choose Start > Programs > Adobe > FrameMaker 6.0 > Adobe FrameMaker 6.0. (If you installed FrameMaker in a folder other than Adobe, choose that folder from the Start > Programs menu.) After a few moments, the FrameMaker application window appears.
- (Macintosh) Double-click the FrameMaker icon. After a few moments, the FrameMaker menus appear.
- (UNIX) In a UNIX window, change to your home directory. Enter **maker** to start the U.S. Edition, or **maker -l** (lowercase *L*) **ukenglish** to start the English-language version of the International Edition. After a few moments, the main FrameMaker window appears.

## Exploring the document window

Before you begin work on a document of your own, you'll take a quick look at the FrameMaker document window. This window appears when you create or open a document.
