About the Authors

Dan Holme

A graduate of Yale University and Thunderbird, the American Graduate School of International Management, Dan has spent 10 years as a consultant and trainer, delivering solutions to tens of thousands of IT professionals from the most prestigious organizations and corporations around the world. His clients have included AT&T, Johnson & Johnson, HP, Boeing, Home Depot, and Intel, and he has recently been involved in supporting the design and implementation of Active Directory at several enterprises, including Raytheon, NBC 10 Olympics, and General Electric. Dan is the Director of Training & Consulting for Intelliem, which specializes in boosting the productivity of IT professionals and users by creating advanced, customized solutions that integrate clients' specific design and configuration into productivity-focused training and knowledge management services (info@intelliem.com). From his base in sunny Arizona, Dan travels to client sites around the world and then unwinds on his favorite mode of transportation—his snowboard. It takes a village to raise a happy geek, and Dan sends undying thanks and love to those without whom sanity would be out of reach: Lyman, Barb & Dick, Bob & Joni, Stan & Marylyn & Sondra, the Friels, Mark & Derrick, Ken & Craig, Curt & James, and Maddie. And an extra thanks from “Danny Dash” to Craig, Antonio, Art, and all the Mikes of Torino for a medal-winning experience!

Orin Thomas

Orin is a writer, speaker, trainer, and systems administrator who works for the certification advice Web site Certtutor.net. His work in IT has been varied: He's done everything from providing first-level networking support to acting as systems administrator for one of Australia's largest companies. He founded the Melbourne Infrastructure Administrators group, writes regularly for Windows IT Pro magazine, and has co-authored several books for Microsoft Press. He holds a variety of certifications and a bachelor's degree in science with honors from the University of Melbourne. Orin would like to thank his beautiful wife Oksana and awesome son Rooslan for their constant unconditional love and support. He'd also like to thank Karen Szall, Maria Gargiulo, Ken Jones, Dan Holme, and the rest of the team at Microsoft for their help in getting this second edition of the 70-290 training kit out the door.

Contents at a Glance

Part 1 Learn at Your Own Pace

1	Introducing Microsoft Windows Server 2003	1-3
2	Administering Microsoft Windows Server 2003	2-1
3	User Accounts	3-1
4	Group Accounts	4-1
5	Computer Accounts	5-1
6	Files and Folders	6-1
7	Backing Up Data	7-1
8	Printers	8-1
9	Maintaining the Operating System	9-1
10	Managing Hardware Devices and Drivers	10-1
11	Managing Microsoft Windows Server 2003 Disk Storage	11-1
12	Monitoring Microsoft Windows Server 2003	12-1
13	Recovering from System Failure	13-1

Part 2 Prepare for the Exam

14	Managing and Maintaining Physical and Logical Devices (1.0)	14-3
15	Managing Users, Computers, and Groups (2.0)	15-1
16	Managing and Maintaining Access to Resources (3.0)	16-1
17	Managing and Maintaining a Server Environment (4.0)	17-1
18	Managing and Implementing Disaster Recovery (5.0)	18-1

Practices

Installing and Configuring Windows Server 2003 SP1	1-16
Creating and Managing User Objects	3-11
Creating Multiple User Objects	3-27
Managing User Profiles	3-39
Securing and Troubleshooting Authentication	3-57
Joining a Computer to an Active Directory Domain	5-9
Managing Computer Accounts	5-16
Troubleshooting Computer Accounts	5-23
Setting Up Shared Folders	6-10
Configuring File System Permissions	6-25
Auditing File System Access	6-36
Administering IIS	6-47
Performing Different Backup Types	7-8
Restoring Data	7-16
Advanced Backup and Restore	7-33
Installing and Configuring a Printer	8-9
Advanced Printer Configuration and Management	8-25
Installing Device Drivers	10-8
Configuring Devices	10-15
Recovering from System Failure	13-11

Tables

Table 2-1: Common MMC Menus and Commands	2-4
Table 2-2: MMC User Modes	2-6
Table 2-3: Default Components of Terminal Server and Remote Desktop	2-14
Table 2-4: Remote Desktop Settings	2-16
Table 3-1: User Properties on the First Page of the New Object-User Dialog Box	3-4
Table 3-2: User Properties on the Second Page of the New Object-User Dialog Box	3-6
Table 3-3: User Account Properties	3-9
Table 3-4: Parameters for the Dsquery Command	3-20
Table 3-5: Password Policies	3-45
Table 3-6: Account Lockout Policies	3-46
Table 4-1: Security Group Scope and Membership	4-5
Table 4-2: Special Identities and Their Representation	4-9
Table 4-3: Membership Configuration	4-13
Table 4-4: Ldifde Commands (Primary)	4-17
Table 6-1: Share Permissions	6-7
Table 6-2: IIS Directory Permissions	6-46

Table 6-3: Application Execute Permissions	6-46
Table 8-1: Sales Printer	8-38
Table 8-2: Marketing Printer	8-39
Table 9-1: CAL Licensing Modes	9-32
Table 9-2: Licensing Status Symbols	9-36
Table 10-1: Device Manager Tasks Case Scenario Exercise	7-37
Table 10-2: Driverquery Command Parameters	10-5
Table 10-3: Driver Failure Recovery Options	10-18
Table 10-4: Device Failure Troubleshooting	10-20
Table 11-1: Server Roles and Objects To Be Monitored	11-15
Table 11-2: WMIC Aliases	11-28
Table 11-3: WMIC Verbs	11-29
Table 12-1: How to Complete Common Disk Management Tasks from the Command Prompt	12-19
Table 12-2: RAID Performance and Costs	12-39

Troubleshooting Labs

Chapter 2	2-48
Chapter 3	3-62
Chapter 4	4-26
Chapter 5	5-27
Chapter 6	6-52
Chapter 7	7-39
Chapter 8	8-41
Chapter 10	10-24
Chapter 11	11-45
Chapter 12	12-32

Case Scenario Exercises

Chapter 2	2-48
Chapter 3	3-60
Chapter 4	4-25
Chapter 5	5-26
Chapter 6	6-50
Chapter 7	7-37
Chapter 8	8-38
Chapter 9	9-38
Chapter 10	10-23
Chapter 11	11-44
Chapter 12	12-31

	Lesson Review	1-24
	Lesson Summary	1-24
	Questions and Answers	1-25
2	Administering Microsoft Windows Server 2003	2-1
	Why This Chapter Matters	2-1
	Before You Begin	2-2
	Lesson 1: The Microsoft Management Console	2-3
	The MMC	2-3
	Extending the MMC with Snap-ins	2-5
	Building a Customized MMC	2-5
	Console Options	2-6
	Practice: Building and Saving Consoles	2-7
	Lesson Review	2-8
	Lesson Summary	2-8
	Lesson 2: Managing Computers Remotely with the MMC	2-9
	Setting Up the Snap-in for Remote Use	2-9
	Practice: Adding a Remote Computer for Management (Optional)	2-11
	Lesson Review	2-11
	Lesson Summary	2-12
	Lesson 3: Managing Servers with Remote Desktop For Administration	2-13
	Enabling and Configuring Remote Desktop For Administration	2-13
	Remote Desktop Connection	2-14
	Configuring the Remote Desktop Client	2-15
	Terminal Services Troubleshooting	2-17
	Practice: Installing Terminal Services and Running Remote Administration	2-18
	Lesson Review	2-19
	Lesson Summary	2-20
	Lesson 4: Using Remote Assistance	2-21
	Introducing Remote Assistance	2-21
	Configuring Remote Assistance	2-22
	Creating an Invitation for Assistance	2-22
	Accepting an Invitation for Assistance	2-24
	Offering Remote Assistance to a User	2-24
	Securing Remote Assistance	2-25
	Firewall Constraints to Remote Assistance	2-26
	Practice: Using Remote Assistance through Windows Messenger	2-27
	Lesson Review	2-28
	Lesson Summary	2-28

Lesson 5: Terminal Server	2-29
Installing and Configuring a Terminal Server Environment	2-29
Managing and Troubleshooting Terminal Server	2-32
Managing Sessions and Processes	2-41
Practice: Preparing Terminal Server	2-44
Lesson Review	2-46
Lesson Summary	2-47
Case Scenario Exercise	2-48
Troubleshooting Lab	2-48
Chapter Summary	2-49
Exam Highlights	2-50
Key Points	2-50
Key Terms	2-50
Questions and Answers	2-51
 3 User Accounts	 3-1
Why This Chapter Matters	3-1
Before You Begin	3-2
Lesson 1: Creating and Managing User Objects	3-3
Creating User Objects with Active Directory Users And Computers	3-3
Managing User Objects with Active Directory Users And Computers	3-7
Practice: Creating and Managing User Objects	3-11
Lesson Review	3-13
Lesson Summary	3-14
Lesson 2: Creating Multiple User Objects	3-15
Creating and Utilizing User Object Templates	3-15
Importing User Objects Using Csvde	3-16
Utilizing Active Directory Command-Line Tools	3-17
Utilizing VBScript to Automate User Administration	3-27
Practice: Creating Multiple User Objects	3-27
Lesson Review	3-30
Lesson Summary	3-31
Lesson 3: Managing User Profiles	3-32
User Profiles	3-32
Local User Profiles	3-33
Roaming User Profiles	3-33
Creating a Preconfigured User Profile	3-35
Creating a Preconfigured Default Profile	3-36
Creating a Preconfigured Group Profile	3-38
Configuring a Mandatory Profile	3-38

Practice: Managing User Profiles	3-39
Lesson Review	3-42
Lesson Summary	3-43
Lesson 4: Securing and Troubleshooting Authentication	3-44
Securing Authentication with Policy	3-44
Auditing Authentication	3-49
Administering and Troubleshooting User Authentication	3-50
Practice: Securing and Troubleshooting Authentication	3-56
Lesson Review	3-58
Lesson Summary	3-58
Case Scenario Exercise	3-59
Requirement 1	3-59
Requirement 2	3-60
Requirement 3	3-61
Troubleshooting Lab	3-61
Chapter Summary	3-62
Exam Highlights	3-63
Key Points	3-63
Key Terms	3-64
Questions and Answers	3-65

4 Group Accounts	4-1
Why This Chapter Matters	4-1
Before You Begin	4-2
Lesson 1: Understanding Group Types and Scopes	4-3
Group Scope	4-4
Group Conversion	4-8
Special Identities	4-9
Practice: Changing the Group Type and Scope	4-10
Lesson Review	4-11
Lesson Summary	4-11
Lesson 2: Managing Group Accounts	4-12
Creating a Security Group	4-12
Modifying Group Membership	4-13
Practice: Modifying Group Membership	4-13
Lesson Review	4-14
Lesson Summary	4-14
Lesson 3: Using Automation to Manage Group Accounts	4-15
Using Csvde	4-15
Using Ldifde	4-16

Creating Groups with Dsadd	4-19
Retrieving Group Attributes with Dsget	4-20
Finding the Domain Groups to Which a User Belongs	4-20
Modifying Groups with Dsmod	4-21
Moving and Renaming Groups with Dsmove	4-22
Deleting Groups with Dsrm	4-22
Using VBScript to Automate Group Administration	4-23
Practice: Using Ldifde to Manage Group Accounts	4-23
Lesson Review	4-25
Lesson Summary	4-25
Case Scenario Exercise	4-25
Troubleshooting Lab	4-26
Chapter Summary	4-26
Exam Highlights	4-27
Key Points	4-27
Key Terms	4-27
Questions and Answers	4-28
5 Computer Accounts	5-1
Why This Chapter Matters	5-1
Before You Begin	5-2
Lesson 1: Joining a Computer to a Domain	5-3
Creating Computer Accounts	5-3
The Computers Container vs. OUs	5-8
Practice: Joining a Computer to an Active Directory Domain	5-9
Lesson Review	5-11
Lesson Summary	5-12
Lesson 2: Managing Computer Accounts	5-13
Managing Computer Object Permissions	5-13
Managing the Computer Object	5-14
Configuring Computer Properties	5-14
Finding and Connecting to Objects in Active Directory	5-15
Practice: Managing Computer Accounts	5-16
Lesson Review	5-17
Lesson Summary	5-18
Lesson 3: Troubleshooting Computer Accounts	5-19
Deleting and Disabling and Resetting Computer Accounts	5-19
Recognizing Computer Account Problems	5-21
Practice: Troubleshooting Computer Accounts	5-23

Lesson Review	5-24
Lesson Summary	5-25
Case Scenario Exercise	5-26
Troubleshooting Lab	5-27
Chapter Summary	5-29
Exam Highlights	5-29
Key Points	5-29
Key Terms	5-30
Questions and Answers	5-31

6	Files and Folders	6-1
	Why This Chapter Matters	6-1
	Before You Begin.	6-2
	Lesson 1: Setting Up Shared Folders	6-3
	Sharing a Folder	6-3
	Managing a Shared Folder	6-5
	Configuring Share Permissions	6-7
	Managing User Sessions and Open Files	6-10
	Practice: Setting Up Shared Folders	6-10
	Lesson Review	6-11
	Lesson Summary	6-12
	Lesson 2: Configuring File System Permissions	6-13
	Configuring Permissions	6-13
	Inheritance	6-17
	Effective Permissions	6-20
	Resource Ownership	6-23
	Practice: Configuring File System Permissions	6-25
	Lesson Review	6-30
	Lesson Summary	6-31
	Lesson 3: Auditing File System Access	6-32
	Configuring Audit Settings	6-32
	Enabling Auditing.	6-34
	Examining the Security Log	6-34
	Practice: Auditing File System Access	6-36
	Lesson Review.	6-37
	Lesson Summary	6-38
	Lesson 4: Administering Internet Information Services	6-39
	Installing IIS 6.0	6-39
	Administering the Web Environment	6-40
	Configuring and Managing Web and FTP Sites	6-41

	Securing Files on IIS	6-44
	Practice: Administering IIS	6-47

7	Backing Up Data	7-1
	Why This Chapter Matters	7-1
	Before You Begin	7-2
	Lesson 1: Fundamentals of Backup	7-3
	Introducing the Backup Utility	7-3
	Determining a Backup Strategy	7-6
	Combining Backup Types	7-7
	Practice: Performing Different Backup Types	7-8
	Lesson Review	7-11
	Lesson Summary	7-12
	Lesson 2: Restoring Data	7-14
	Restoring with the Backup Utility	7-14
	Restore Options	7-15
	Practice: Restoring Data	7-16
	Lesson Review	7-18
	Lesson Summary	7-19
	Lesson 3: Advanced Backup and Restore	7-20
	Understanding VSS	7-20
	Backup Security	7-21
	Managing Media	7-21
	Backup Options	7-23
	The Ntbackup Command	7-26
	Scheduling Backup Jobs	7-28
	Shadow Copies of Shared Folders	7-29
	Practice: Advanced Backup and Restore	7-33
	Lesson Review	7-35
	Lesson Summary	7-36
	Case Scenario Exercise	7-37

Questions and Answers	7-42

8 Printers 8-1

Why This Chapter Matters	8-1
Before You Begin	8-1
Lesson 1: Installing and Configuring Printers	8-3
Understanding the Windows Server 2003 Printer Model	8-3
Installing a Printer on Windows Server 2003	8-4
Configuring Printer Properties	8-6
Connecting Clients to Printers	8-8
Practice: Installing and Configuring a Printer	8-9
Lesson Review	8-13
Lesson Summary	8-15
Lesson 2: Advanced Printer Configuration and Management	8-16
Managing Printer Properties	8-16
Setting Up a Printer Pool	8-20
Configuring Multiple Logical Printers for a Single Printer	8-21
Windows Server 2003 Printer Integration with Active Directory	8-21
Internet Printing	8-24
Practice: Advanced Printer Configuration and Management	8-25
Lesson Review	8-27
Lesson Summary	8-28
Lesson 3: Maintaining, Monitoring, and Troubleshooting Printers	8-29
Maintaining Printers	8-29
Monitoring Printers	8-30
Troubleshooting Printers	8-33
Practice: Troubleshooting a Printer	8-35
Lesson Review	8-36
Lesson Summary	8-37
Case Scenario Exercise	8-38
Think Through Your Solution	8-38
Set Up the Printers	8-38
Create Printer Users Groups	8-39
Assign Permissions to the Printers	8-39
Configure a Performance Log	8-40

Troubleshooting Lab	8-41
Analyze the Solution	8-41
Change the Printer Driver	8-41
Chapter Summary	8-42
Exam Highlights	8-42
Key Points	8-42
Key Terms	8-43
Questions and Answers	8-44
9 Maintaining the Operating System	9-1
Why This Chapter Matters	9-1
Before You Begin	9-2
Lesson 1: Windows Server Update Services	9-3
Understanding WSUS	9-4
Designing a WSUS Infrastructure	9-7
Installing WSUS on a Windows Server 2003 Computer	9-9
Configuring and Administering WSUS	9-11
The Automatic Updates Client	9-21
Configuring Automatic Updates Through Group Policy	9-23
Lesson Review	9-25
Lesson Summary	9-26
Lesson 2: Service Packs	9-27
Downloading and Extracting Service Packs	9-27
Deploying Service Packs with Group Policy	9-28
Lesson Review	9-28
Lesson Summary	9-29
Lesson 3: Administering Software Licenses	9-30
Obtaining a Client Access License	9-30
Per-Server Licensing	9-31
Per-Device or Per-User Licensing	9-31
Administering Site Licensing	9-33
Lesson Review	9-37
Lesson Summary	9-38
Case Scenario Exercise	9-38
Chapter Summary	9-43
Exam Highlights	9-44
Key Points	9-44
Key Terms	9-44
Questions and Answers	9-45

10	Managing Hardware Devices and Drivers	10-1
	Why This Chapter Matters	10-1
	Before You Begin.	10-2
	Lesson 1: Installing Hardware Devices and Drivers	10-3
	Devices and Drivers.	10-3
	Using Device Manager.	10-4
	Users, Administrators, and Device Installation.	10-6
	Driver Signing Options	10-6
	Identifying Unsigned Device Drivers	10-7
	Managing Hardware Using Control Panel	10-7
	Enumerating Hardware with System Information	10-8
	Practice: Installing Device Drivers.	10-8
	Lesson Review	10-9
	Lesson Summary	10-10
	Lesson 2: Configuring Hardware Devices and Drivers	10-11
	Updating Drivers	10-11
	Rolling Back Drivers	10-12
	Uninstalling Drivers	10-13
	Reactivating an Uninstalled Device	10-14
	Resource Configuration	10-14
	Disabling and Enabling Devices	10-15
	Practice: Configuring Devices	10-15
	Lesson Review	10-16
	Lesson Summary	10-17
	Lesson 3: Troubleshooting Hardware Devices and Drivers	10-18
	Recovering from Device Disaster	10-18
	Device Manager Status Codes	10-20
	Troubleshooting Modems and Network Cards	10-21
	Lesson Review	10-21
	Lesson Summary	10-22
	Case Scenario Exercise	10-23
	Troubleshooting Lab	10-24
	Chapter Summary	10-25
	Exam Highlights	10-25
	Key Points	10-25
	Key Terms.	10-26
	Questions and Answers	10-27
