**W**e are very pleased to present to you a copy of Arkitek – an unprecedented portfolio of Ontario architectural practices.

This reference volume will provide you with profiles of many of the outstanding firms in practice today. As you are involved in the awarding of architectural contracts, this valuable marketing vehicle will assist you in making more informed decisions. The book will be published annually to keep you current with the profession, and plans have been made to expand Arkitek 2 across Canada, giving you a broader perspective.

We would like to thank our contributors for their support and the OAA for their encouragement. We take great pride in our first volume and would very much appreciate your comments.
