BIPS DATA BASE

Books In Print Supplement 1978-1979 was produced from the BIPS Data Base of the R. R. Bowker Company. This data base is used to produce a complete, complementary line of bibliographic publications that give booksellers, librarians, publishers, and all other book users access to the latest bibliographic and ordering information. Following is a description of this data base and its publications.

The bibliographic data base was begun in 1948 primarily as a listing of titles included in Bowker's *Publishers' Trade List Annual (PTLA)*. The computerization of this data base during the late nineteen-sixties using the Bibliographic Information Publication System (BIPS) made it possible for Bowker to expand the amount of information included in the bibliographic entries and to increase the number of essential tools of the trade we produced.

During the early nineteen-seventies the data base was greatly expanded to include information from additional publishers whose titles were not included in *PTLA*. Since that time the data base has been composed of and compiled from information received on an on-going basis directly from publishers. Prior to each publication from the data base, publishers review and correct their entries, providing current price, availability, and ordering information and update their list with recently published and forthcoming titles.

The data base includes scholarly, popular, adult, juvenile, reprint, and all other types of books covering all subjects provided they are published or exclusively distributed in the United States and are available to the trade or to the general public for single or multiple copy purchase. All editions and bindings are included: hardcover, paperback, library binding, perfect binding, boards, spiral binding, text editions, teachers' editions, and workbooks.

Bibles as such are excluded, although commentaries, histories, and versions other than the standard English are extensively covered. Free books, books priced at less than 25 cents, unbound materials, pamphlets, periodicals, serials, government publications, puzzles, calendars, maps, microforms, audio-visual materials, and books available only to members of a particular organization,

subscription-only titles or those sold only to schools are omitted. Spanish language books published outside of the United States are not included, but are covered in *Libros En Venta*.

Bibliographic entries contain the following information when available: author, co-author, editor, co-editor, translator, co-translator, title, original title, number of volumes, volume number, edition, whether or not reprinted, Library of Congress number, subject information, series information, language if other than English, whether or not illustrated, grade range, date of publication, type of binding if other than cloth over boards, price, ISBN, imprint, publisher, and distributor, if other than the publisher.

Other data bases of the Data Services Division include: the Department of Bibliography's Textbook Data Base and Publishers' Authority Data Base; and the Serials Bibliography Department's Bowker Serial Bibliography Data Base.

Data Services Division's other computerized publications include: *American Book Publishing Record*, *Irregular Serials and Annuals*, *Ulrich's International Periodicals Directory*, and *Weekly Record*.

How to Use BOOKS IN PRINT SUPPLEMENT 1978-1979

Books in Print Supplement 1978-1979, the seventh edition of an annual publication, is issued six months after the publication of *Books in Print 1978-1979* to update the information that appeared therein. It includes approximately 95,000 titles with price or other major changes, 16,750 titles which have gone out of print, and 25,500 titles received since *Books in Print 1978-1979* which have been published or announced from July 1978 to July 1979, plus an additional 8,000 titles published prior to July 1978.

The *Supplement* includes author and title indexes. The subject index lists titles new to the data base since *Subject Guide to Books in Print 1978-1979*. A listing of the publishers represented plus any others which have indicated changes of name or address since *Books in Print* is also included.

Like *Books in Print*, the *Supplement* was produced from records stored on magnetic tape, edited by computer programs, and set in type by computer-controlled photocomposition.

AUTHOR AND TITLE INDEXES

Each of these indexes includes a single alphabetical listing of all corrected titles, those which have gone out of print or are out of stock indefinitely, those which were cancelled or postponed, and new titles. The notations "o.p." or "O.S.I." at the end of an entry indicate that the book is either out of print or out of stock indefinitely. All titles with price or other major changes and new titles which appear in the *March, 1979* issue of *Forthcoming Books* are also included.

ALPHABETICAL ARRANGEMENT OF AUTHOR AND TITLE INDEXES

Within each index entries are filed alphabetically by word, with the following exceptions:

Initial articles of titles in English, French, German, Italian, and Spanish are deleted from the title index.

M' Mc and *Mac* are filed as if they were *Mac* and are interfiled with other names beginning with

Mac; for example, Macan, McAnally, Macardle, McAree, McArthur, Macarthur, M'Aulay, Macaulay, McAuley. Within a specific name grouping *Mc* and *Mac* are interfiled according to the given name of the author; for example, Macdonald, Agnes; McDonald, Annie L.; MacDonald, Austin F.; Macdonald, Betty. Compound names are listed under the first part of the name, and cross-references appear under the last part of the name.

Entries beginning with initial letters (whether authors' given names or titles) are filed first, e.g., Smtih, H. C., comes before Smith, Harold A.; B E A M A Directory comes before Baal, Babylon.

Numerals, including year dates, are written out in most cases and filed alphabetically:

Seven years in Tibet
Seventeen
Seventeen famous operas
Seventeen-Fifteen to the present
Seventeen party book
Seventeen reader
Seventeenth century

U.S., UN, Dr., Mr., and St. are filed as though they were spelled out.

SPECIAL NOTE ON HOW TO FIND AN AUTHOR'S COMPLETE LISTING

In sorting author listings by computer it is not possible to group the entire listing for an author together unless a standard spelling and format for each name is used. If an author's name is given in various forms by the contributing publishers, his listings in the author index may be divided into several groups.

Variant forms of an author's first and middle names may not be adjacent in the filing sequence, as in Aiken, Conrad and Aiken, Conrad P. or Jung, C. G. and Jung, Carl G. For most surnames, variant forms of entry will fall close together, but for the most common surnames (Smith, Brown, etc.) it is suggested you check specifically for all variant forms of first and middle names.

Foreign names which may or may not be given with a prefix will not be adjacent in the filing sequence, such as: Balzac and de Balzac and Goethe or von Goethe. German names with umlauts may appear in two alphabets because of the varying treatment of the umlauted vowel: Müller, F. Max or Mueller, F. Max. Acronyms for names of corporate authors may appear in two or more groups of listings if one form is presented with no space between initials — UNESCO, and another with spaces, U N E S C O .

You will find cross-references to the variant forms of an author's name wherever we anticipated that his listings might not be filed together.

INFORMATION INCLUDED IN AUTHOR, TITLE, AND SUBJECT ENTRIES

Entries in all indexes include the following bibliographic information, when available: author, co-author, editor, co-editor, translator, co-translator, title, number of volumes, edition, Library of Congress number, series information, language if other than English, whether or not illustrated, grade range, year of publication, type of binding if other than cloth over boards, price, International Standard Book Number, publisher's order number, imprint and publisher. When an entry includes the prices for both the hardcover and paperback editions, the publication date within the entry refers to the hardcover binding; however, when the paperback binding is the only one included in the entry, the publication date is the paperback publication date. (Information on the International Standard Book Numbering System developing in the United States and other English-speaking countries is available from R. R. Bowker Company.)

GENERAL EDITORIAL POLICIES

In order to insure that the essential information in these listings is uniform, complete, and easy to find, the following editorial policies have been maintained:

When two authors or editors are responsible for a book, full bibliographic information is included in the author entry for the author or editor named first, and a cross-reference directs the user from the second author or editor to the primary entry; e.g., Wilson, Robert E., jt. auth. see Fensch, E. A. If more than two authors or editors are responsible for a certain publication, only the name of the first is given followed by *et al.*

Titles of single volumes as part of a set are given if the volumes are sold singly. Cross-references from single volume titles to set title are included whenever the former are distinctive. Some series are also listed in the title index.

Although the *Supplement* is designed to provide accurate, updated price and out-of-print information until the publication of *Books in Print 1979-1980*, a certain amount of additional price changes will occur and a certain number of titles will become unavailable in the interim.

A Bowker tool for keeping up with new titles is *Forthcoming Books*, a separate bimonthly publication which provides author-title indexes to all books due to appear in the coming 5 month period. In addition, it cumulates all books that have appeared since July 1978. Yearly subscriptions are available at \$29.75 U.S.A., single copies for \$7.50 U.S.A.

All prices are subject to change without notice. Most prices are list prices. Lack of uniformity by the participating publishers prohibits indicating trade discounts. A lowercase "a" follows some of the trade edition prices and indicates that a specially priced library edition is available; "t" indicates a tentative price; "g" a guaranteed binding on a juvenile title; and "x" a short discount—20% or less. PLB indicates a publishers' library binding. YA indicates that a title may be used for young adults.

Publishers' names, in most instances, are abbreviated. A key to the abbreviations together with the complete addresses of the various publishing firms will be found in the Key to Publishers' Abbreviations.

SUBJECT INDEX

The subject index supplements *Subject Guide to Books in Print 1978-79* by listing titles published or announced for publication prior to July 1979 which did not appear in *Subject Guide to Books in Print 1978-1979*. It follows the headings assigned by the Library of Congress. Some books have been assigned a single heading, some two, three or more headings, and therefore some books appear two, three or more times in the subject index. Wherever official LC classification was unavailable, generally because the publication date was too recent or is in the future, provisional headings were assigned.

Headings and cross-references have been updated to conform with the latest supplement to the Eighth Edition of *Library of Congress Subject Headings* although many subheadings have been consolidated where they seem too cumbersome for the needs of the *Subject Guide to Books in Print* and this *Supplement*, and a few were changed when the needs of these books seemed to diverge from LC practice.

Where the Library of Congress does not assign subject headings to cataloged books, they are usually omitted from this subject listing. For example:

Fiction is omitted except where a work's background (biographical, historical, etc.) seemed extensive and authentic enough to warrant mention. However, collections of works of fiction may be included, and of course, criticism.

Poetry and drama are omitted, at least as regards works by a single author best sought in *Books in Print* or the Author Index of the *Supplement*. However, collections and criticism are included.

Juvenile fiction, like adult fiction, is usually omitted, though juvenile nonfiction (at least above the picture-book level) is represented. In some cases, juvenile titles have been set apart under a heading such as AERONAUTICS—JUVENILE LITERATURE. In other cases, juvenile titles are listed with adult books and are identified by grade range.

Bibles as such are omitted, though commentaries, histories, and versions other than the standard English are extensively covered.

Books priced at less than 25 cents are not listed.

Subject headings are arranged alphabetically:

ACCOUNTING
ACETYLENE
ACTING
ACTINOMYCETES
ADAMS, HENRY, 1838-1918
ADHESIVES

Many of the main entries are broken down still further:

ACCOUNTING
ACCOUNTING—DICTIONARIES
ACCOUNTING—EXAMINATIONS,
QUESTIONS
ACCOUNTING—LAW
ACCOUNTING—PROBLEMS,
EXERCISES

There are also many cross-references:

ACCOUNTING

see also Auditing; Bookkeeping; Business Losses; Business Mathematics; Cost Accounting; Depreciation; Financial Statements; Income Accounting; Inventories; Liquidation; Machine Accounting; Productivity Accounting; Tax Accounting

ACCOUNTING — FORMS, BLANKS, etc.
see Business — Forms, Blanks, etc.

ACCOUNTS, COLLECTING of
see Collecting of Accounts.

Headings, patterned after those used in the card catalog in the Library of Congress, are explicit rather than general. Thus books on cost accounting are under COST ACCOUNTING, not under ACCOUNTING. Books on actors are under ACTORS and ACTRESSES, not under THEATER.

Similarly, look first under PLASTICS rather than CHEMISTRY, or under ACRYLATES rather than PLASTICS.

In looking for books on painting, search past the main entry to the various subheadings:

PAINTING
PAINTING — DICTIONARIES
PAINTING — EARLY WORKS TO
1800
PAINTING — HISTORY

PAINTING — STUDY AND
TEACHING
PAINTING — TECHNIQUE
PAINTING, AMERICAN
PAINTING, INDUSTRIAL
PAINTINGS

Note the sequence of the above cited headings and subheadings. The editors of the *Subject Guide* took as a guideline the *Filing Rules for the Dictionary Catalogs of the Library of Congress*, as prepared by the Processing Department of the Library of Congress.

Other typical examples of the sequences used are:

ART
ART—HISTORY
ART, AMERICAN
ART OBJECTS
ART OBJECTS—COLLECTORS
AND COLLECTING
BIBLE—COMMENTARIES
BIBLE—COMMENTARIES—N.T.
BIBLE—COMMENTARIES—N.T.
GOSPELS
GREAT BRITAIN
GREAT BRITAIN—HISTORY
GREAT BRITAIN—PARLIAMENT
GREAT BRITAIN—PARLIAMENT—
HOUSE OF COMMONS

Although a constant effort is made to maintain consistency and to avoid splitting entries on a given subject among several headings, a certain amount is inevitable. The Library of Congress updates its subject headings constantly but cannot make such updating retroactive to cards and catalogs previously issued. For example, LC is now subdividing the heading EVOLUTION according to the subject matter of the material processed, e.g., HUMAN EVOLUTION; PLANTS—EVOLUTION. If old entries which belong in more precise subdivisions did not indicate by their titles where they should have been listed, a few were left under the main entry.

The editor's first principle is to list books where the user will be most likely to look for them with as many references as seem necessary. If an official heading is one under which the lay user might not think to look, additional popular cross-references have been added.

Each entry is filed alphabetically by author, or title when there is no author cited, under the appropriate subject. Filing rules are the same used in the author and titles indexes.

KEY TO PUBLISHERS' AND DISTRIBUTORS' ABBREVIATIONS

Publishers' and distributors' names, in most instances, are abbreviated. A key to the abbrevia-

tions together with the complete ordering addresses of these firms will be found in the *Key to Publishers' & Distributors' Abbreviations* at the end of this *Supplement*. This key includes any publisher name or ordering address changes that have occurred since *Books in Print 1978-1979*. Also included are those publishers who are not represented in the *Supplement* but who have submitted changes of name or ordering address.

Entries in this "Key" are arranged alphabetically by the abbreviations used in the bibliographic entries. The full name and ordering address for the publisher or distributor follows the abbreviation. For example:

ALA

American Library Association,
50 E. Huron Street,
Chicago, IL 60611
(0-8389)

▲ THIS IS THE PUBLISHERS' INTERNATIONAL
STANDARD BOOK NUMBER PREFIX.

If an entry contains a "Pub. by" note after the price, the title should be ordered from the company whose abbreviation appears at the end of the entry. For example, an entry for a book published by Melbourne U Pr., but distributed by International Scholarly Book Services, Inc., will convey this information in the form "Pub. by Melbourne U Pr." after the price with "Intl Schol Bk Serv." at the end of the entry.

The R. R. Bowker Company has used its best efforts in collecting and preparing material for inclusion in *Books in Print Supplement 1978-1979* but does not assume, and hereby disclaims, any liability to any party for any loss or damage caused by errors or omissions in *Books in Print Supplement 1978-1979* whether such errors or omissions result from negligence, accident, or any other cause.
