

Fourteenth Edition

TEXTBOOK OF MEDICINE

VOLUME II

Edited by

PAUL B. BEESON, M.D.

Distinguished Physician, United States Veterans Administration,
University of Washington School of Medicine;
Formerly Nuffield Professor of Clinical Medicine, University of Oxford

WALSH McDERMOTT, M.D.

Professor of Public Affairs in Medicine, Cornell University Medical College;
Attending Physician, The New York Hospital; Special Advisor to the
President, Robert Wood Johnson Foundation

(内部交流)

W. B. SAUNDERS COMPANY · Philadelphia · London · Toronto / 1975

Contents

PART I. THE NATURE OF MEDICINE

1. On Becoming a Clinician, <i>Paul B. Beeson</i>	1
2. Science, Clinical Medicine, and the Spectrum of Disease, <i>Alvan R. Feinstein</i>	3
3. The Care of the Patient with Terminal Illness, <i>W. P. L. Myers</i>	6
4. Medicine in Modern Society, <i>Walsh McDermott</i>	12

PART II. GENETIC PRINCIPLES

5. Introduction, <i>Alexander G. Bearn</i>	15
6. Pedigree Analysis in Inherited Disease, <i>Alexander G. Bearn</i>	17
7. Inborn Errors of Metabolism and Molecular Disease, <i>Alexander G. Bearn</i>	22
8. Polygenic and Multifactorial Inheritance, <i>Alexander G. Bearn</i>	26
9. Pharmacogenetics, <i>Alexander G. Bearn</i>	27
10. Population Genetics, <i>Alexander G. Bearn</i>	28
11. Heredity and Environment, <i>Alexander G. Bearn</i>	29
12. Congenital Malformations, <i>Alexander G. Bearn</i>	30
Chromosomes and Their Disorders, <i>Park Gerald</i>	31
13. Introduction	31
14. Meiotic and Mitotic Nondisjunction	33
15. Changes in Chromosome Number	34
16. Changes in Chromosomal Structure	35
17. Prevention and Management of Genetic Disease, <i>Alexander G. Bearn</i>	36
18. Genetic Counseling, <i>Arno G. Motulsky</i>	37

PART III. ENVIRONMENTAL FACTORS IN DISEASE

19. Man and His Environment, <i>Howard H. Hiatt</i>	40
20. Chemical Contamination of Water and Air, <i>Walsh McDermott</i>	43
Food Poisoning, <i>Harold P. Lambert</i>	47
21. Introduction	47
22. Bacterial Food Poisoning	47
23. Botulism	49

24. <i>Poisonous Plants and Animals</i>	50
25. <i>Chemical Food Poisoning</i>	52
26. <i>Common Accidental Poisoning, Robert J. Haggerty</i>	52
<i>Heavy Metal Poisoning, Edmund B. Flink</i>	57
27. <i>Introduction</i>	57
28. <i>Arsenic Poisoning</i>	57
29. <i>Lead Poisoning</i>	58
30. <i>Mercury Poisoning</i>	60
31. <i>Antimony Poisoning</i>	62
32. <i>Cadmium Poisoning</i>	62
33. <i>Thallium Poisoning</i>	62
34. <i>Carbon Monoxide Poisoning, Bertram D. Dinman</i>	63
<i>Disorders Due to Heat and Cold, Paul Webb</i>	64
35. <i>Introduction</i>	64
36. <i>Heat Stroke</i>	64
37. <i>Heat Syncope</i>	65
38. <i>Heat Exhaustion</i>	65
39. <i>Hypothermia</i>	65
40. <i>Radiation Injury, Niel Wald</i>	66
41. <i>Electric Shock, Charles E. Billings</i>	72
<i>Motion Sickness and Problems of Air Travel,</i> <i>Harold V. Ellingson</i>	73
42. <i>Motion Sickness</i>	73
43. <i>Problems of Air Travel</i>	74
<i>Alterations in Atmospheric Pressure, Robert L. Johnson</i>	75
44. <i>Introduction</i>	75
45. <i>Direct Effects of Changes in Atmospheric Pressure</i>	76
46. <i>Indirect Effects of Changes in Atmospheric Pressure</i>	76
47. <i>Drowning, Charles J. Stahl</i>	80
48. <i>Leeches as Agents of Disease (Hirudiniasis),</i> <i>Philip D. Marsden</i>	82
<i>Arthropoda of Medical Importance, Philip D. Marsden</i>	83
49. <i>Introduction</i>	83
50. <i>Pentastomida (Pentastomiasis, Porocephalosis,</i> <i>Porocephaliasis, Lingulatulosis, Armilliferosis)</i>	83
51. <i>Tick Paralysis</i>	83
52. <i>Scabies</i>	84
53. <i>Myiasis (Maggots)</i>	85
54. <i>Ectoparasitic Insects (Fleas and Lice)</i>	86
55. <i>Arthropods as Mechanical Carriers of Disease</i>	87
56. <i>Arthropods as Intermediate Hosts of Infectious Disease</i>	87
<i>Venom Diseases</i>	88

CONTENTS

vii

57.	Snakebite, <i>Sherman A. Minton, Jr.</i>	88
58.	Marine Venoms, <i>Sherman A. Minton, Jr.</i>	92
59.	Venomous Arthropods, <i>Philip D. Marsden</i>	93

PART IV. IMMUNE DISEASE

60.	Introduction, <i>Henry G. Kunkel</i>	96
	The Primary Immunodeficiency Diseases, <i>Robert A. Good</i>	104
61.	Introduction	104
62.	X-Linked Infantile Agammaglobulinemia	104
63.	DiGeorge's Syndrome	106
64.	Severe Combined Immunodeficiencies (SCID, Swiss Type Immunodeficiency)	106
65.	Severe Combined Immunodeficiencies with Adenosine Deaminase Deficiency	107
66.	Thymoma with Immunodeficiency	107
67.	Common Variable Immunodeficiency	107
68.	Isolated Absence of Immunoglobulins—Selective Deficiency of IgA	108
69.	Immunodeficiency Diseases with Ataxia Telangiectasia and Wiskott-Aldrich Syndrome	108
70.	Other Primary Immunodeficiencies	109
71.	Serum Sickness, <i>Fred S. Kantor</i>	110
72.	Drug Allergy, <i>Fred S. Kantor</i>	111
73.	Allergic Rhinitis (Hay Fever), <i>Fred S. Kantor</i>	114
74.	Vasomotor Rhinitis, <i>Fred S. Kantor</i>	117
75.	Urticaria, <i>Fred S. Kantor</i>	117
76.	Angioneurotic Edema, <i>Fred S. Kantor</i>	119
77.	Insect Stings, <i>Fred S. Kantor</i>	120

PART V. CONNECTIVE TISSUE DISEASES ("COLLAGEN DISEASES") OTHER THAN RHEUMATOID ARTHRITIS

78.	Introduction, <i>K. Frank Austen</i>	121
79.	Systemic Sclerosis (Scleroderma), <i>Edward D. Harris, Jr.</i>	124
80.	Polymyositis and Dermatomyositis, <i>H. Richard Tyler</i>	128
81.	Systemic Lupus Erythematosus, <i>Peter H. Schur</i>	131
82.	Periarteritis Nodosa (Polyarteritis Nodosa), <i>K. Frank Austen</i>	136

PART VI. DISEASES OF THE JOINTS, *Charles L. Christian*

83.	Introduction	140
	Arthritis Associated with Known Infectious Agents	140
84.	Bacterial Arthritis	140
85.	Viral Arthritis	141

86.	<i>Other Forms of Infectious Arthritis</i>	142
87.	Rheumatoid Arthritis.....	142
	Variants of Rheumatoid Disease.....	149
88.	<i>Felty's Syndrome</i>	149
89.	<i>Sjögren's Syndrome</i>	149
	Other Forms of Polyarthritis of Unknown Etiology.....	150
90.	<i>Ankylosing Spondylitis (Marie-Strümpell Spondylitis, von Bechterew's Syndrome, Rheumatoid Spondylitis)</i>	150
91.	<i>Juvenile Rheumatoid Arthritis</i>	151
92.	<i>Psoriatic Arthritis</i>	152
93.	<i>Reiter's Syndrome</i>	153
94.	<i>Palindromic Rheumatism</i>	153
95.	<i>Intermittent Hydrarthrosis</i>	153
96.	Diseases with Which Arthritis Is Frequently Associated.....	154
97.	Miscellaneous Forms of Arthritis	156
98.	Degenerative Joint Disease (Osteoarthritis).....	158
99.	The Painful Shoulder	161
100.	Nonarticular Rheumatism	162

PART VII. GRANULOMATOUS DISEASES OF UNPROVED ETIOLOGY

101.	Introduction, <i>Paul B. Beeson</i>	164
102.	Sarcoidosis, <i>D. Geraint James</i>	164
103.	Polymyalgia Rheumatica and Cranial Arteritis (Temporal Arteritis, Giant Cell Arteritis, Polymyalgia Arteritica), <i>Paul B. Beeson</i>	175
104.	Lethal Midline Granuloma, <i>Paul B. Beeson</i>	176
105.	Wegener's Granulomatosis, <i>Paul B. Beeson</i>	176
106.	Weber-Christian Disease (Relapsing Febrile Nodular Nonsuppurative Panniculitis, Panniculitis), <i>Paul B. Beeson</i>	177
107.	Fibrosing Syndromes (Multifocal Fibrosclerosis), <i>Paul B. Beeson</i>	178
108.	Eosinophilic Syndromes, <i>Paul B. Beeson</i>	179

PART VIII. MICROBIAL DISEASES

109.	Introduction to Microbial Diseases, <i>Walsh McDermott</i>	182
------	--	-----

SECTION ONE. VIRAL DISEASES, 182

110.	Introduction to Viral Diseases, <i>Edwin D. Kilbourne</i>	182
------	---	-----

Viral (and Filter-Passing Microbial) Infections of the Respiratory Tract, 184

111.	The Common Cold (Acute Coryza), <i>George Gee Jackson</i>	184
112.	Rhinoviral Respiratory Disease, <i>George Gee Jackson</i>	187
113.	Viral Pharyngitis, Laryngitis, Croup, and Bronchitis, <i>George Gee Jackson</i>	188

CONTENTS

114.	Adenoviral Infections, <i>George Gee Jackson</i>	189
115.	Respiratory Syncytial Viral Disease, <i>George Gee Jackson</i>	191
116.	Parainfluenza Viral Diseases (Croup), <i>George Gee Jackson</i>	192
117.	Influenza, <i>Edwin D. Kilbourne</i>	193
<i>Viral Diseases Characterized by Cutaneous Lesions, 199</i>		
118.	Measles (Morbilli. Rubeola), <i>Edwin D. Kilbourne</i>	199
119.	Rubella (German Measles), <i>Edwin D. Kilbourne</i>	203
120.	Exanthemata Associated with Enteroviral Infections. <i>Edwin D. Kilbourne</i>	205
121.	Variola and Vaccinia, <i>C. Henry Kempe</i>	206
122.	Orf (Ecthyma Contagiosum, Contagious Pustular Dermatitis), <i>Clayton E. Wheeler, Jr.</i>	212
123.	Molluscum Contagiosum, <i>Clayton E. Wheeler, Jr.</i>	212
124.	Foot-and-Mouth Disease (Aphthous Fever), <i>Walsh McDermott</i>	213
125.	Mumps, <i>Dorothy M. Horstmann</i>	213
<i>Enteroviral Diseases, Albert Z. Kapikian, 216</i>		
126.	Coxsackieviruses, Echoviruses, and Newly Recognized Enteroviruses: Introduction.....	216
127.	Herpangina.....	217
128.	Hand, Foot, and Mouth Disease (Vesicular Stomatitis and Exanthem).....	218
129.	Acute Lymphonodular Pharyngitis.....	218
130.	Epidemic Pleurodynia or Bornholm Disease (Epidemic Myalgia, Devil's Grip).....	218
131.	Cardiac Manifestations of Coxsackievirus Infections.....	220
132.	"Aseptic Meningitis" Due to Coxsackie- and Echoviruses.....	221
133.	Exanthemata and "Aseptic Meningitis with Rash" Due to Coxsackie- and Echoviruses.....	221
134.	Acute Undifferentiated Respiratory and Nonrespiratory Illness Due to Coxsackie- and Echoviruses.....	221
135.	Coxsackie- and Echoviruses in Diarrheal Diseases of Infants.....	222
136.	Acute Hemorrhagic Conjunctivitis (Epidemic Conjunctivitis).....	222
<i>Arthropod-Borne Viral Fevers, Viral Encephalitides, and Viral Hemorrhagic Fevers (Arboviruses and Arenaviruses, 223</i>		
137.	Introduction, <i>Karl M. Johnson</i>	223
	Undifferentiated Fevers.....	224
138.	Dengue, <i>Karl M. Johnson</i>	224
139.	West Nile Fever, <i>Karl M. Johnson</i>	225
140.	Fevers Caused by Group A Arboviruses: Chikungunya, O'nyong-nyong, Mayaro, and Ross River, <i>Karl M. Johnson</i>	225
141.	Colorado Tick Fever, <i>Gordon Meiklejohn</i>	227
142.	Rift Valley Fever, <i>Karl M. Johnson</i>	227

143.	<i>Sandfly Fever, Karl M. Johnson</i>	228
	<i>Arthropod-Borne Viral Encephalitides, Karl M. Johnson</i>	229
144.	<i>Introduction</i>	229
145.	<i>Western Equine Encephalitis</i>	230
146.	<i>Eastern Equine Encephalitis</i>	231
147.	<i>Venezuelan Equine Encephalitis</i>	232
148.	<i>California Encephalitis</i>	234
149.	<i>St. Louis Encephalitis</i>	234
150.	<i>Japanese B Encephalitis</i>	235
151.	<i>Murray Valley Encephalitis</i>	236
152.	<i>Tick-Borne Group B Arbovirus Diseases: Russian Spring-Summer Encephalitis, Louping Ill, Kyasanur Forest Disease, Omsk Hemorrhagic Fever</i>	236
	<i>Viral Hemorrhagic Fevers</i>	238
153.	<i>Introduction, Karl M. Johnson</i>	238
154.	<i>Yellow Fever, Wilbur G. Downs</i>	238
155.	<i>Hemorrhagic Fever Caused by Dengue Viruses, Karl M. Johnson</i>	241
156.	<i>Crimean Hemorrhagic Fever, Karl M. Johnson</i>	242
157.	<i>Hemorrhagic Diseases Caused by Arenaviruses: Argentine and Bolivian Hemorrhagic Fevers and Lassa Fever, Karl M. Johnson</i>	243
158.	<i>Epidemic Hemorrhagic Fever: Hemorrhagic Nephrosonephritis, Karl M. Johnson</i>	244
 <i>Viral Diseases (Presumptive), Paul B. Beeson, 246</i>		
159.	<i>Cat Scratch Disease</i>	246
160.	<i>Nonbacterial Gastroenteritis (Epidemic Nausea, Epidemic Vomiting, Winter Vomiting Disease, Epidemic Diarrhea)</i>	247
161.	<i>Epidemic Neuromyasthenia (Iceland Disease, Benign Myalgic Encephalomyelitis)</i>	247
 SECTION TWO. RICKETTSIAL DISEASES, 248		
162.	<i>Introduction, Edward S. Murray</i>	248
163.	<i>The Typhus Group, Edward S. Murray</i>	249
164.	<i>Rocky Mountain Spotted Fever (Spotted Fever, Tick Fever, Tick Typhus [England], Fiebre Manchada [Mexico], Fiebre Petequial [Colombia], Febere Maculosa [Brazil], Herbert L. Ley, Jr.</i>	255
165.	<i>Tick-Borne Rickettsioses of the Eastern Hemisphere, Herbert L. Ley, Jr.</i>	257
166.	<i>Rickettsialpox, Herbert L. Ley, Jr.</i>	258
167.	<i>Scrub Typhus (Tsutsugamushi Disease, Mite-Borne Typhus, Japanese River Fever, Tropical Typhus, Rural Typhus), Herbert L. Ley, Jr.</i>	259
168.	<i>Trench Fever (Five-Day or Quintana Fever, Shin Bone Fever, Volhynian Fever), Herbert L. Ley, Jr.</i>	261

169.	Q Fever, <i>Herbert L. Ley, Jr.</i>	262
170.	Bartonellosis (Carrión's Disease, Oroya Fever, Verruga Peruana), <i>Herbert L. Ley, Jr.</i>	263
Diseases Caused by Chlamydiae, 264		
171.	Trachoma and Inclusion Conjunctivitis, <i>Ernest Jawetz</i>	264
172.	Lymphogranuloma Venereum, <i>Ernest Jawetz</i>	267
173.	Psittacosis (Ornithosis, Parrot Fever), <i>David E. Rogers</i>	268
SECTION THREE. MYCOPLASMAL DISEASES, Robert B. Couch, 270		
174.	Introduction.....	270
175.	Pneumonia and Other Respiratory Diseases Caused by <i>M. pneumoniae</i>	271
176.	Genitourinary Disease Caused by Mycoplasmas.....	274
SECTION FOUR. BACTERIAL DISEASES, 275		
177.	Introduction, <i>Walsh McDermott</i>	275
178.	Hospital-Associated Infections: Endogenous Microbial Disease, <i>Jay P. Sanford</i>	275
Pneumonia, 277		
179.	Introduction, <i>Walsh McDermott</i>	277
180.	Pneumococcal Pneumonia, <i>Edward W. Hook</i>	277
	Klebsiella and Other Gram-Negative Bacterial Pneumonias, <i>Jay P. Sanford</i>	286
181.	Introduction.....	286
182.	Pneumonia Due to <i>Klebsiella pneumoniae</i> (Friedländer's Pneumonia).....	287
183.	Pneumonia Due to Aerobic Gram-Negative Bacilli Other Than <i>Klebsiella pneumoniae</i>	288
Streptococcal Diseases, 290		
184.	Introduction, <i>Gene H. Stollerman</i>	290
185.	Group A Streptococcal Infection, <i>Gene H. Stollerman</i>	291
	Clinical Syndromes of Group A Streptococcal Infection, <i>Gene H. Stollerman</i>	294
186.	Streptococcal Sore Throat.....	294
187.	Streptococcal Skin Infections.....	297
188.	Hemolytic Streptococcal Pneumonia.....	298
189.	Treatment of Group A Streptococcal Infection and Chemoprophylaxis of Nonsuppurative Complications. <i>Gene H. Stollerman</i>	298
190.	Prophylaxis of Streptococcal Infection, <i>Gene H. Stollerman</i>	299
191.	Rheumatic Fever, <i>Richard M. Krause</i>	300
192.	Infective Endocarditis (Bacterial Endocarditis, Prosthetic Valve Endocarditis), <i>Paul B. Beeson</i>	308

Staphylococcal Infections, F. Robert Fekety, 317

193. Introduction	317
194. Cutaneous Staphylococcal Infections	320
195. Staphylococcal Pneumonia.....	321
196. Staphylococcal Osteomyelitis.....	322
197. Staphylococcal Bacteremia and Endocarditis	323
198. Staphylococcal Gastroenteritis and Enterocolitis	325

Diseases Caused by Neisseria, 325

199. Gonococcal Disease, Donald Kaye	325
200. Meningococcal Disease, Harry A. Feldman.....	330
201. Bacterial Meningitis, Robert G. Petersdorf	336
202. <i>Hemophilus influenzae</i> Infections, Walsh McDermott	340
203. Whooping Cough (Pertussis), Stephen I. Morse	341
204. Granuloma Inguinale, Walsh McDermott	343
205. Diphtheria, Heonir Rocha.....	344

Clostridial Diseases, 347

206. Introduction, Emanuel Wolinsky	347
207. Clostridial Myonecrosis (Gas Gangrene), Emanuel Wolinsky	347
208. Other Clostridial Diseases, Emanuel Wolinsky	350
209. Clostridial Gastroenteritis, Emanuel Wolinsky	350
210. Tetanus, Alexander Crampton Smith	350

Anaerobic Bacteria, 356

211. Disease Due to Nonsporeforming Anaerobic Bacteria, Sydney M. Finegold	356
--	-----

Typhoid Fever and Salmonellosis, 360

212. Typhoid Fever, Abram S. Benenson	360
213. Salmonella Infections Other Than Typhoid Fever, Edward W. Hook	364

Other Bacterial Infections, 367

214. Enteric Bacterial Infections, Calvin M. Kunin	367
215. Shigellosis, Leighton E. Cluff.....	371
216. Cholera (Asiatic Cholera), Leighton E. Cluff	374
217. Plague, Fred R. McCrumb, Jr.....	376
218. Tularemia, Theodore E. Woodward.....	378
Diseases Caused by <i>Malleomyces</i> , Leighton E. Cluff	381
219. Glanders (Farcy).....	381
220. Melioidosis	382
221. Anthrax, Leighton E. Cluff.....	383
222. Listeriosis, Leighton E. Cluff.....	384
223. Erysipeloid of Rosenbach, Leighton E. Cluff	386

CONTENTS

xiii

224.	Actinomycosis, <i>John P. Utz</i>	386
225.	Nocardiosis, <i>John E. Bennett</i>	387
226.	Brucellosis (Undulant Fever, Malta Fever), <i>Vernon Knight</i>	388

Diseases Due to *Mycobacteria*, 391

227.	Tuberculosis, <i>Roger Des Prez</i>	391
228.	Pulmonary Tuberculosis, <i>Robert Goodwin</i>	396
	Extrapulmonary Tuberculosis, <i>Roger Des Prez</i>	403
229.	Introduction.....	403
230.	Principles of Drug Therapy.....	403
231.	Tuberculosis of the Pleura.....	403
232.	Endobronchial Tuberculosis.....	403
233.	Tuberculosis of the Larynx.....	403
234.	Gastrointestinal Tuberculosis.....	404
235.	Miliary Tuberculosis.....	404
236.	Tuberculous Meningitis.....	405
237.	Tuberculomas.....	406
238.	Tuberculous Pericarditis.....	406
239.	Tuberculous Peritonitis.....	407
240.	Tuberculous Lymphadenitis.....	407
241.	Genitourinary Tuberculosis.....	407
242.	Tuberculosis of Bones and Joints.....	408
243.	Rare Forms of Tuberculosis.....	409
244.	Diseases Due to <i>Mycobacteria</i> Other Than <i>M. tuberculosis</i> and <i>M. leprae</i> , <i>Robert Goodwin</i>	410
245.	Leprosy (Hansen's Disease), <i>M. H. R. Waters</i>	412

Treponemal Diseases, *Thorstein Guthe*, 416

246.	Syphilis.....	416
	Nonsyphilitic Treponematoses: Yaws, Bejel, Pinta.....	427
247.	Introduction.....	427
248.	Yaws (<i>Frambesia Tropica</i> , <i>Pian</i> , <i>Bbuja</i> , <i>Parangi</i> , <i>Patek</i>).....	428
249.	Bejel (Endemic Syphilis, Nonvenereal Childhood Syphilis, <i>Belesh</i> , <i>Dichuchwa</i> , <i>Njovera</i> , <i>Skerljevo</i>).....	431
250.	Pinta (Mal del Pinto, <i>Carate</i>).....	432

Spirillary and Leptospiral Diseases, 434

251.	Relapsing Fevers (Recurrent Fever, Famine Fever, Tick Fever, Mianeh Fever, Carapate Disease, Kimputu), <i>Thorstein Guthe</i>	434
252.	Phagedenic Tropical Ulcer, <i>Thorstein Guthe</i>	436
253.	The Rat-Bite Fevers (Sodoku, Haverhill Fever), <i>Thorstein Guthe</i>	437
254.	Leptospirosis, <i>Jay P. Sanford</i>	438

SECTION FIVE. THE MYCOSES, 442

255.	Introduction, <i>John P. Utz</i>	442
256.	Histoplasmosis, <i>John P. Utz</i>	442
257.	Coccidioidomycosis (Valley Fever), <i>Demosthenes Pappagianis</i>	444
258.	Blastomycosis (North American), <i>John P. Utz</i>	446
259.	Paracoccidioidomycosis (South American Blastomycosis), <i>John P. Utz</i>	447
260.	Maduromycosis (Mycetoma. Madura Foot), <i>John P. Utz</i>	448
261.	Chromomycosis, <i>John P. Utz</i>	449
262.	Cryptococcosis (European Blastomycosis, Torulosis), <i>John E. Bennett</i>	449
263.	Sporotrichosis, <i>John P. Utz</i>	451
264.	Mucormycosis, <i>John E. Bennett</i>	452
265.	Aspergillosis, <i>John E. Bennett</i>	453
266.	Candidiasis (Candidosis, Moniliasis, Thrush), <i>John E. Bennett</i>	454

SECTION SIX. CHEMOTHERAPY OF MICROBIAL DISEASE, 455

267.	Drugs and Microbes, <i>Walsh McDermott</i>	455
268.	Antimicrobial Therapy, <i>Richard B. Roberts</i>	459

PART IX. PROTOZOAN AND HELMINTHIC DISEASES

269.	Introduction, <i>Philip D. Marsden</i>	471
------	--	-----

SECTION ONE. PROTOZOAN DISEASES, 472

270.	Introduction, <i>Philip D. Marsden</i>	472
271.	Malaria, <i>Thomas C. Jones</i>	472
	Trypanosomiases.....	481
272.	African Trypanosomiasis (African Sleeping Sickness, <i>Maladie du Sommeil, Schlafkrankheit</i>), <i>W. E. Ormerod</i>	481
273.	Chagas' Disease, <i>Heonir Rocha</i>	484
274.	Pneumocystosis, <i>Thomas C. Jones</i>	488
	Leishmaniasis, <i>Anthony D. M. Bryceson</i>	490
275.	Introduction.....	490
276.	Visceral Leishmaniasis (Kala-Azar, Potos).....	490
277.	Cutaneous Leishmaniasis of the Old World (Oriental Sore).....	493
278.	Cutaneous Leishmaniasis of the New World (Including American Mucocutaneous Leishmaniasis or Espundia).....	494
279.	Amebiasis, <i>Richard Knight</i>	496
	Other Protozoan Diseases.....	500
280.	Introduction, <i>Philip D. Marsden</i>	500
281.	Giardiasis, <i>Philip D. Marsden</i>	500
282.	Trichomoniasis, <i>Thomas C. Jones</i>	501

CONTENTS

xv

283.	<i>Balantidiasis, Philip D. Marsden</i>	501
284.	<i>Coccidiosis, Philip D. Marsden</i>	502
285.	<i>Primary Amebic Meningoencephalitis, Philip D. Marsden</i>	502
286.	<i>Toxoplasmosis, Thomas C. Jones</i>	502
 SECTION TWO. HELMINTHIC DISEASES, 506		
287.	<i>Introduction, Philip D. Marsden</i>	506
 <i>The Cestodes (Tapeworms), Philip D. Marsden, 507</i>		
288.	<i>Introduction</i>	507
289.	<i>Diphyllobothrium latum (The Fish Tapeworm)</i>	508
290.	<i>Taenia saginata (The Beef Tapeworm)</i>	509
291.	<i>Taenia solium (The Pork Tapeworm Causing Human Cysticercosis Due to Cysticercus cellulosae)</i>	509
292.	<i>Treatment of Infections with Adults of the Fish, Beef, and Pork Tapeworm</i>	510

PART X. DISORDERS OF THE NERVOUS SYSTEM AND BEHAVIOR

317.	Introduction, <i>Fred Plum</i>	540
------	--------------------------------------	-----

SECTION ONE. CONSCIOUSNESS AND ITS DISTURBANCES, 540

318.	Introduction, <i>Fred Plum</i>	540
319.	The Pathogenesis of Stupor and Coma, <i>Fred Plum</i>	541
320.	Delirium and Exogenous Metabolic Brain Disease, <i>Jerome B. Posner</i>	544
321.	Sleep and Its Disorders, <i>Fred Plum</i>	552

SECTION TWO. FOCAL DISTURBANCES OF HIGHER NERVOUS FUNCTION, *Norman Geschwind, 555*

322.	Language, Aphasia, and Related Disorders	555
323.	Aphasia	555
324.	Other Disorders of the Higher Functions	556
325.	Memory	557

SECTION THREE. DEMENTIA, *Paul R. McHugh, 558*

326.	Introduction	558
327.	Alzheimer's Disease	560
328.	Pick's Disease	560
329.	Creutzfeldt-Jakob Disease	561
330.	Huntington's Chorea	561
331.	Treatment of the Demented Patient	561

SECTION FOUR. PSYCHOLOGIC ILLNESS IN MEDICAL PRACTICE, *Paul R. McHugh, 562*

332.	The Concept of Disease in Psychiatry	562
	Functional Psychoses	563
333.	Introduction	563
334.	Schizophrenia	564
335.	Manic-Depressive Psychosis	567
336.	Personality Disorders and Neurotic Symptoms	569

SECTION FIVE. PSYCHOLOGIC TESTING IN CLINICAL MEDICINE, *Paul R. McHugh, 578*

337.	Introduction	578
------	--------------------	-----

CONTENTS

xvii

338. Intelligence	578
339. Personality	579

SECTION SIX. MEDICAL ASPECTS OF SEXUALITY, *Harold I. Lief*, 581

SECTION SEVEN. DRUG ABUSE, ADDICTION, AND INTOXICATION, 585

340. Introduction, <i>Robert B. Millman</i>	585
341. The Opiates, <i>Robert B. Millman</i>	586
342. Central Nervous System Depressants, <i>Robert B. Millman</i>	590
343. Central Nervous System Stimulants, <i>Robert B. Millman</i>	592
344. Cannabis (Marijuana and Hashish), <i>Robert B. Millman</i>	594
345. Psychedelics, <i>Robert B. Millman</i>	595
346. Miscellaneous Inhalants, <i>Robert B. Millman</i>	596
347. Alcohol Abuse and Alcohol-Related Illness, <i>Jack H. Mendelson</i>	597
348. Acute Drug Poisoning, <i>Fred Plum</i>	602

SECTION EIGHT. PROMINENT NEUROLOGIC SYMPTOMS AND THEIR MANAGEMENT, 606

349. Pain, <i>Jerome B. Posner</i>	606
350. Headache, <i>Fred Plum</i>	614
351. Hearing Loss, <i>J. R. Nelson</i>	619
352. Dizziness and Vertigo, <i>David A. Drachman</i>	621
353. Syncope, <i>Albert Heyman</i>	626
354. Hyperventilation, <i>Albert Heyman</i>	629

SECTION NINE. NEUROLOGIC DIAGNOSTIC PROCEDURES, *Richard P. Schmidt*, 630

355. Introduction	630
356. Roentgenologic Examinations	630
357. Radioisotope Procedures	632
358. Electrodiagnostic Examinations	632
359. Echoencephalography	633
360. New and Developing Techniques	633

SECTION TEN. THE EXTRAPYRAMIDAL DISORDERS, 634

361. Introduction, <i>Melvin D. Yahr</i>	634
The Parkinsonian Syndrome (Paralysis Agitans, Shaking Palsy), <i>Melvin D. Yahr</i>	636
362. Introduction	636
363. Paralysis Agitans (Parkinson's Disease)	636
364. Secondary or Symptomatic Parkinsonism	636
365. Management of the Parkinsonian Syndrome	637
366. Essential Tremor (Familial Tremor), <i>Melvin D. Yahr</i>	640

367.	Senile Tremor, <i>Melvin D. Yahr</i>	640
	The Choreas, <i>Melvin D. Yahr</i>	640
368.	Introduction	640
369.	Acute Chorea (Sydenham's or Infectious Chorea, St. Vitus' Dance)	641
370.	Hereditary Chorea (Chronic Progressive Chorea, Huntington's Chorea)	642
371.	Senile Chorea	642
372.	Tics (Habit Spasms), <i>Melvin D. Yahr</i>	642
373.	Athetosis (Mobile Spasms), <i>Melvin D. Yahr</i>	643
374.	Dystonia Musculorum Deformans (Torsion Dystonia), <i>Melvin D. Yahr</i>	643
375.	Spasmodic Torticollis, <i>Melvin D. Yahr</i>	644
376.	Hemiballism, <i>Melvin D. Yahr</i>	645
377.	Idiopathic Autonomic Insufficiency (Idiopathic Orthostatic Hypotension, Shy-Drager Syndrome), <i>Fred Plum</i>	645

SECTION ELEVEN. CEREBROVASCULAR DISEASES, *Fletcher H. McDowell*, 646

378.	Introduction	646
379.	Cerebral Ischemia and Infarction	647
380.	Intracranial Hemorrhage	663

**SECTION TWELVE. INFECTIONS AND INFLAMMATORY DISEASES OF THE
CENTRAL NERVOUS SYSTEM AND ITS COVERINGS, 670**

381.	Introduction, <i>Philip R. Dodge</i>	670
382.	Aids to Diagnosis in Intracranial and Intrapinal Inflammatory Disease, <i>Philip R. Dodge</i>	670
383.	Parameningeal Infections, <i>Morton N. Swartz</i>	672
384.	Spinal Epidural Infections, <i>Philip R. Dodge</i>	677
385.	Transverse Myelitis or Myelopathy, <i>Philip R. Dodge</i>	678
386.	Syphilitic Infections of the Central Nervous System, <i>Philip R. Dodge</i>	680

SECTION THIRTEEN. VIRAL INFECTIONS OF THE NERVOUS SYSTEM, 684

387.	Introduction, <i>Richard T. Johnson</i>	684
388.	Herpes Zoster, <i>Richard T. Johnson</i>	684
389.	Viral Meningitis and Encephalitis, <i>Dorothy M. Horstmann</i>	687
390.	Herpes Simplex Encephalitis, <i>J. Richard Baringer</i>	691
391.	Cytomegalovirus Infections, <i>James B. Hanshaw</i>	694
392.	Acute Anterior Poliomyelitis, <i>Fred Plum</i>	696
393.	Rabies (Hydrophobia, Lyssa), <i>Hilary Koprowski</i>	701
	Encephalitic Complications of Viral Infections and Vaccines, <i>Donald Silberberg</i>	704
394.	Introduction	704
395.	Acute Disseminated Encephalomyelitis	704

424.	<i>Anomalies of the Craniovertebral Junction, Spine, and Meninges</i>	746

**SECTION EIGHTEEN. NONMETASTATIC EFFECTS OF CANCER ON THE
NERVOUS SYSTEM, Jerome B. Posner, 747**

**SECTION NINETEEN. INJURIES OF THE HEAD AND SPINE,
Russel H. Patterson, Jr., 751**

425. Injuries of the Head	751
426. Injuries of the Spine.....	756
427. Severe Spinal Cord Dysfunction and Paraplegia	757

**SECTION TWENTY. DEGENERATIVE AND HEREDOFAMILIAL DISEASES
OF THE CENTRAL NERVOUS SYSTEM, Donald J. Reis, 759**

Motor Neuron Disease.....	759
428. Introduction	759
429. Amyotrophic Lateral Sclerosis.....	759
430. The Progressive Muscular Atrophies	761
The Spinocerebellar Degenerations	762
431. Introduction	762
432. Friedreich's Ataxia	763
433. Roussy-Levy Syndrome (Hereditary Areflexic Dystaxia, Hereditary Ataxia with Muscular Atrophy).....	764
434. Hereditary Spastic Paraplegia	764
435. Hereditary Spastic Ataxia (Sanger-Brown's and Marie's Ataxia)	764
436. Olivopontocerebral Atrophy	764
437. Cerebello-olivary Degeneration (Holmes Type of Hereditary Ataxia, Late Corticocerebellar Atrophy)	765
438. Bassen-Kornzweig Syndrome (Acanthocytosis, Abetalipoproteinemia)	765
439. Parenchymatous Cerebellar Degeneration	765
440. Dyssynergia Cerebellaris Myoclonica (Familial Myoclonus and Ataxia)	765
441. Syringomyelia	766
Neurocutaneous Syndromes	767
442. Multiple Neurofibromatosis (Von Recklinghausen's Disease)	767
443. Tuberous Sclerosis (Epiloia, Bourneville's Disease)	767
444. Sturge-Weber-Dimitri Disease (Encephalotrigeminal Angiomatosis)	768
445. Von Hippel-Lindau Disease	768
446. Ataxia Telangiectasia (Louis-Bar Syndrome)	769

**SECTION TWENTY-ONE. MECHANICAL LESIONS OF THE NERVE ROOTS AND
SPINAL CORD, Albert J. Aguayo, 769**

447. Symptoms of Nerve Root and Spinal Cord Compression.....	769
448. Laboratory Aids to Investigation	772
449. Management of Patients with Suspected Nerve Root or Spinal Cord Compression	773
