## Book Team

Editor *Carol J. Mills*  
Developmental Editor *Connie Balus-Haukinson*  
Production Editor *Carla D. Kipper*  
Designer *Christopher E. Reese*  
Art Editor *Kathleen M. Timp*  
Photo Editor *Lori Hancock*  
Permissions Coordinator *Vicki Krug*  
Art Processor *Brenda A. Erzen*

Vice President and Chief Executive Officer *Beverly Kolz*  
Vice President, Publisher *Kevin Kane*  
Vice President, Director of Sales and Marketing *Virginia S. Moffat*  
Vice President, Director of Production *Colleen A. Yonda*  
National Sales Manager *Douglas J. DiNardo*  
Marketing Manager *Craig Johnson*  
Advertising Manager *Janelle Keeffer*  
Production Editorial Manager *Renée Menne*  
Publishing Services Manager *Karen J. Slaght*  
Royalty/Permissions Manager *Connie Allendorf*

# BRIEF CONTENTS

- 1 A View of Life 1
- 2 The Scientific Method 13

## Part I The Cell 21

- 3 Basic Chemistry 23
- 4 The Chemistry of Life 41
- 5 Cell Structure and Function 61
- 6 Membrane Structure and Function 83
- 7 Cellular Energy 103
- 8 Photosynthesis 119
- 9 Cellular Respiration 137

## Part II Genetic Basis of Life 155

- 10 Cell Reproduction: Mitosis 157
- 11 Cell Reproduction: Meiosis 169
- 12 Mendelian Patterns of Inheritance 183
- 13 Chromosomes and Genes 197
- 14 Human Genetics 211
- 15 DNA: The Genetic Material 231
- 16 Gene Activity 245
- 17 Regulation of Gene Activity 259
- 18 Recombinant DNA and Biotechnology 277

## Part III Evolution 291

- 19 Darwin and Evolution 293
- 20 Process of Evolution 311
- 21 Origin and History of Life 331
- 22 Human Evolution 355

## Part IV Diversity of Life 377

- 23 Classification of Living Things 379
- 24 Viruses and Kingdom Prokaryotae 395
- 25 Kingdom Protocista 411
- 26 Kingdom Fungi 429
- 27 Kingdom Plantae 443
- 28 Kingdom Animalia: Introduction to Invertebrates 465
- 29 Kingdom Animalia: Protostomes 483
- 30 Kingdom Animalia: Deuterostomes 503

## Part V Plant Structure and Function 527

- 31 Plant Structure 529
- 32 Nutrition and Transport in Plants 551
- 33 Growth and Development in Plants 567
- 34 Reproduction in Plants 585

## Part VI Animal Structure and Function 609

- 35 Animal Organization and Homeostasis 611
- 36 Circulatory System 627
- 37 Lymphatic System and Immunity 649
- 38 Digestive System and Nutrition 667
- 39 Respiratory System 683
- 40 Excretory System 697
- 41 Nervous System 711
- 42 Sense Organs 733
- 43 Musculoskeletal System 749
- 44 Endocrine System 767
- 45 Reproduction in Animals 785
- 46 Development in Animals 803

## Part VII Behavior and Ecology 823

- 47 Animal Behavior 825
- 48 Ecology of Populations 839
- 49 Interactions within Communities 849
- 50 Ecosystems: The Flow of Energy and the Cycling of Materials 859
- 51 The Biosphere 875
- 52 Environmental Concerns 891

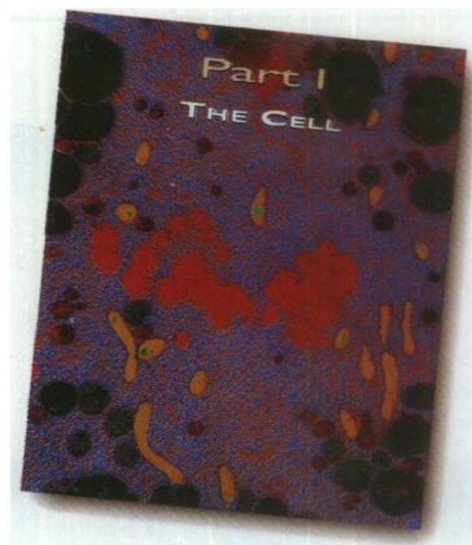

List of Readings	xvii
Biology and Technology	xviii
Preface	xix

## **A VIEW OF LIFE**

<b>HOW TO DEFINE LIFE</b>	<b>3</b>
Living Things Are Organized	3
Acquire Materials and Energy	4
Living Things Respond	4
Living Things Reproduce and Develop	5
Living Things Have Adaptations	5
<b>LIFE HAS UNITY AND DIVERSITY</b>	<b>6</b>
<b>ECOSYSTEMS CONTAIN POPULATIONS</b>	<b>6</b>
Coral Reefs, a Marine Ecosystem	7
Tropical Rain Forests, a Terrestrial Ecosystem	8
■ <b>OF HUMAN INTEREST</b>	
Tropical Rain Forests: Can We Live Without Them?	9
The Human Population	9
<b>HOW LIVING THINGS ARE CLASSIFIED</b>	<b>10</b>
Biological Relationships	11
Summary	11
Study Questions	11
Objective Questions	12
Concepts and Critical Thinking	12
Selected Key Terms	12

## **THE SCIENTIFIC METHOD**

<b>SCIENTISTS HAVE A METHOD</b>	<b>14</b>
Example of Scientific Method	15
<b>SOME EXPERIMENTS HAVE A CONTROL</b>	<b>16</b>
Example of a Controlled Experiment	16
<b>SOME INVESTIGATIONS ARE OBSERVATIONAL</b>	<b>17</b>
Example of Observational Data	17
<b>WHAT SCIENCE DOESN'T DO</b>	<b>18</b>
Summary	18
Study Questions	19
Objective Questions	19
Concepts and Critical Thinking	20
Selected Key Terms	20

## **BASIC CHEMISTRY**

<b>MATTER IS COMPOSED OF ELEMENTS</b>	<b>24</b>
Elements Contain Atoms	25
■ <b>OF HUMAN INTEREST</b>	
Imaging the Body	26
Atoms Have Chemical Properties	27
<b>ATOMS FORM COMPOUNDS AND MOLECULES</b>	<b>30</b>
Opposite Charges in Ionic Bonding	30
Sharing in Covalent Bonding	31
Ionization Releases Ions	33
Reactions in Cells	33
<b>WATER IS ESSENTIAL TO LIFE</b>	<b>34</b>
Water Has Unique Properties	34
Water and Acids and Bases	36
Summary	38
Study Questions	38
Objective Questions	39
Concepts and Critical Thinking	39
Selected Key Terms	40

## 4

### THE CHEMISTRY OF LIFE

CELLS CONTAIN ORGANIC MOLECULES	43
Small Molecules Have Functional Groups	43
Large Organic Molecules Have Monomers	44
Condensation Is the Reverse of Hydrolysis	44

SIMPLE SUGARS TO POLYSACCHARIDES	45
Starch and Glycogen Are Similar	46
Cellulose and Chitin Are Similar	46

FATTY ACIDS TO LIPIDS	48
Fats and Oils Are Similar	48
Waxes Are Different	49

OF HUMAN INTEREST	
Nutrition Labels	50
Phospholipids Have a Polar Group	51
Steroids Have Carbon Rings	51

AMINO ACIDS TO PROTEINS	52
Peptide Bonds Join Amino Acids	52
Proteins Can Be Denatured	52
Proteins Have Levels of Structure	54

NUCLEOTIDES TO NUCLEIC ACIDS	56
ATP (Adenosine Triphosphate)	57

Summary	58
Study Questions	59
Objective Questions	59
Concepts and Critical Thinking	60
Selected Key Terms	60

## 5

### CELL STRUCTURE AND FUNCTION

CELLS MAKE UP LIVING THINGS	62
Cells Are Small	63

A CLOSER LOOK	
Microscopy of Today	64

PROKARYOTIC CELLS ARE LESS COMPLEX	66
------------------------------------	----

EUKARYOTIC CELLS ARE MORE COMPLEX	67
Nucleus Stores Genetic Information	70
Ribosomes Coordinate Protein Synthesis	71
The Endomembrane System Is Elaborate	71

A CLOSER LOOK	
The Microscopic Scale	72
Energy-Related Organelles	75
Cytoskeleton Contains Filaments and Microtubules	76

Biological Relationships	80
Summary	80
Study Questions	81
Objective Questions	81
Concepts and Critical Thinking	82
Selected Key Terms	82

## 6

### MEMBRANE STRUCTURE AND FUNCTION

MEMBRANE MODELS HAVE CHANGED	84
------------------------------	----

THE PLASMA MEMBRANE IS COMPLEX	86
The Membrane Is Fluid	87
The Membrane Is a Mosaic	88
Cell-Cell Recognition	88

RESEARCH REPORT	
Microscopes, Yeasts, and Membrane Synthesis	89

### HOW MOLECULES CROSS THE PLASMA MEMBRANE 90

Use of Diffusion and Osmosis	91
Use of Transport by Protein Carriers	94
Use of Membrane-Assisted Transport	96

THE CELL SURFACE IS MODIFIED	98
The Extracellular Matrix Plays a Dynamic Role	98
Plant Cells Have Cell Walls	98
Tissue Cells Have Junctions	98

Summary	100
Study Questions	101
Objective Questions	101
Concepts and Critical Thinking	102
Selected Key Terms	102

## 7

### CELLULAR ENERGY

WORK REQUIRES ENERGY	104
Energy Can Be Exchanged	105
Energy Cannot Be Recycled	105
Living Things Obey Energy Laws	106

METABOLISM INVOLVES ENERGY EXCHANGES	107
Metabolism Utilizes Pathways	107
Enzymes Speed Reactions	107
Factors That Affect Enzymatic Speed	110

ATP IS METABOLIC ENERGY	114
How ATP Is Built Up	114
How ATP Is Used	115
Energy Flows Through Systems	115

Summary	116
Study Questions	116
Objective Questions	116
Concepts and Critical Thinking	117
Selected Key Terms	118

## 8

### PHOTOSYNTHESIS

SUNLIGHT IS SOLAR ENERGY	120
PHOTOSYNTHESIS OCCURS IN CHLOROPLASTS	122
Chloroplasts Have Two Parts	123
Photosynthesis Has Two Sets of Reactions	123

SOLAR ENERGY IS CAPTURED	124
Electrons Have Two Pathways	124
Chemiosmosis Produces ATP	126
The Thylakoid Membrane Is Organized	126

CARBOHYDRATE IS SYNTHESIZED	127
The Calvin Cycle Has Three Stages	127
Environmental Effects on Photosynthesis	129

PHOTOSYNTHESIS TAKES OTHER ROUTES	130
C <sub>4</sub> Plants Flourish When It Is Hot and Dry	130
CAM Plants Have an Alternative Way	131

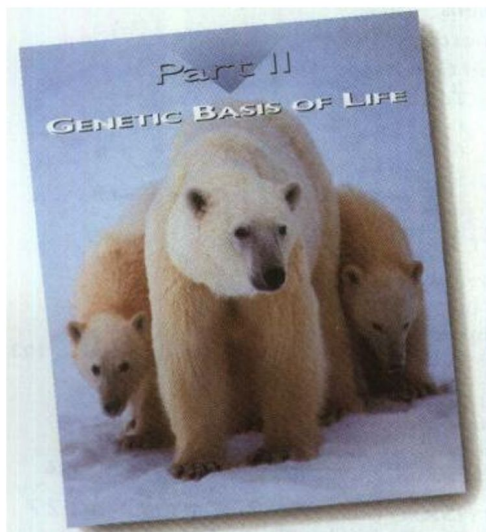

RESEARCH REPORT	
Life After Photosynthesis	132

Summary	133
Study Questions	134
Objective Questions	134
Concepts and Critical Thinking	135
Selected Key Terms	135

## CELLULAR RESPIRATION

- HOW CELLS ACQUIRE ATP 139
  - Cellular Respiration Requires Breathing 140
- GLYCOLYSIS AND FERMENTATION ARE ANAEROBIC 140
  - Glycolysis Takes Glucose to Pyruvate 140
  - Fermentation Is Wasteful 142
- OF HUMAN INTEREST
  - Exercise: A Test of Homeostatic Control 143
- AEROBIC RESPIRATION OCCURS IN MITOCHONDRIA 144
  - Transition Reaction Is the First Step 144
  - The Krebs Cycle Finishes Glucose Breakdown 145
  - The Electron Transport System Produces Most ATP 146
  - Calculating the Energy Yield from Glucose Metabolism 148
- METABOLIC PATHWAYS ARE INTERRELATED 149
  - Degradation Provides Metabolic Energy 149
  - Anabolic Reactions Use Metabolic Energy 149
- Biological Relationships 150
- Summary 150
- Study Questions 151
- Objective Questions 151
- Concepts and Critical Thinking 152
- Selected Key Terms 153
- Suggested Readings for Part I 153
- Critical Thinking Case Study for Part I 154

## CELL REPRODUCTION: MITOSIS

- CELL DIVISION OCCURS IN ALL ORGANISMS 158
  - Cell Division Serves Two Functions 158
  - The Chromosomes Are Numbered 159
- HOW EUKARYOTIC CELLS CYCLE 160
  - How the Cycle Is Controlled 160

- HOW EUKARYOTIC CELLS DIVIDE 162
  - How Animal Cells Divide 162
  - How Plant Cells Divide 165
- HOW PROKARYOTES REPRODUCE 166
  - The Chromosome Is Singular 166
  - Division Is by Fission 166
- Summary 167
- Study Questions 167
- Objective Questions 168
- Concepts and Critical Thinking 168
- Selected Key Terms 168

## CELL REPRODUCTION: MEIOSIS

- HALVING THE CHROMOSOMAL NUMBER 170
  - Life Cycles Vary 170
  - Chromosomes Come in Homologous Pairs 170
- HOW MEIOSIS OCCURS 172
  - Meiosis Has Two Divisions 172
- MEIOSIS HAS PHASES 174
  - Prophase I 174
  - Metaphase I 174
  - Anaphase I 174
  - Telophase I 175
  - Interkinesis 175
  - Meiosis II 175
- VIEWING THE HUMAN LIFE CYCLE 176
  - Comparison of Meiosis with Mitosis 176
  - Oogenesis and Spermatogenesis Produce the Gametes 178
- MEIOSIS IS IMPORTANT 179
  - Biological Relationships 179
  - Summary 180
  - Study Questions 180
  - Objective Questions 181
  - Concepts and Critical Thinking 182
  - Selected Key Terms 182

## MENDELIAN PATTERNS OF INHERITANCE

- INTRODUCING GREGOR MENDEL 184
  - Blending Theory of Inheritance 184
  - Mendel Breaks with Past 184
- MENDEL DID A MONOHYBRID CROSS 186
  - Modern Genetics Has an Explanation 187
  - Doing Monohybrid Genetics Problems 188
  - Figuring the Probable Results 188
  - Mendel Did a Testcross 190
- MENDEL DID A DIHYBRID CROSS 191
  - Doing Dihybrid Genetics Problems 192
  - Dihybrids Can Be Tested Also 193
- Summary 194
- Study Questions 194
- Objective Questions 195
- Additional Genetics Problems 195
- Concepts and Critical Thinking 196
- Selected Key Terms 196

## CHROMOSOMES AND GENES

- GOING BEYOND MENDEL 198  
 Dominance Has Degrees 198  
 Genes That Interact 199  
 Several Alleles for One Trait 199  
 Environment Affects the Phenotype 200  
 Genes That Add Up 200
- CHROMOSOMES CONTAIN GENES 202  
 Sex Chromosomes Determine Gender 202  
 Genes That Are on the X Chromosome 202  
 Genes Are Linked 204  
 Mapping the Chromosomes 205
- CHROMOSOMES UNDERGO MUTATIONS 206  
 Changing Chromosomal Number 206  
 Changing Chromosomal Structure 207
- Biological Relationships 208  
 Summary 208  
 Study Questions 209  
 Objective Questions 209  
 Additional Genetics Problems 210  
 Concepts and Critical Thinking 210  
 Selected Key Terms 210

## HUMAN GENETICS

- COUNTING THE CHROMOSOMES 212  
 Nondisjunction Causes Abnormalities 213  
 X and Y Numbers Also Change 215
- OF HUMAN INTEREST  
 Detecting Genetic Disorders 216
- CONSIDERING AUTOSOMAL TRAITS 218  
 There Are Patterns of Inheritance 218  
 Some Disorders Are Dominant 220
- A CLOSER LOOK  
 Unexpected Repeats 222  
 Blood Type Is by Multiple Alleles 224  
 Some Disorders Are Recessive 224
- CONSIDERING SEX-LINKED TRAITS 226  
 Some Disorders Are X-Linked 226  
 Some Traits Are Sex-Influenced 227
- CONSIDERING POLYGENIC INHERITANCE 228  
 Summary 228  
 Study Questions 229  
 Objective Questions 229  
 Additional Genetics Problems 230  
 Concepts and Critical Thinking 230  
 Selected Key Terms 230

## DNA: THE GENETIC MATERIAL

- SEARCHING FOR THE GENETIC MATERIAL 232  
 Bacteria Can Be Transformed 233  
 Viruses Also Have Genetic Material 233
- FINDING THE STRUCTURE OF DNA 235  
 Making Use of Nucleotide Data 235  
 Base Sequence Varies 236  
 Making Use of Diffraction Data 236  
 Watson and Crick Build a Model 236
- DNA CAN BE REPLICATED 238  
 Replication Is Semiconservative 239
- A CLOSER LOOK  
 Aspects of DNA Replication 240  
 Replication Errors Do Occur 241  
 Prokaryotic Versus Eukaryotic Replication 241
- A CLOSER LOOK  
 Barbara McClintock and the Discovery of Jumping Genes 242
- Summary 243  
 Study Questions 243  
 Objective Questions 244  
 Concepts and Critical Thinking 244  
 Selected Key Terms 244

## GENE ACTIVITY

- WHAT GENES DO 246  
 Genes Specify Enzymes 246  
 Genes Specify a Polypeptide 247
- HOW GENES ARE EXPRESSED 248  
 RNA Is Involved 248  
 Several Steps Are Involved 248
- HOW GENES CODE FOR AMINO ACIDS 249  
 Finding the Genetic Code 249  
 The Code Is Universal 249
- HOW TRANSCRIPTION OCCURS 250  
 Messenger RNA Is Formed 250  
 Messenger RNA Is Processed 251
- HOW TRANSLATION OCCURS 252  
 Ribosomal RNA Is Structural 252  
 Transfer RNA Transfers Amino Acids 252  
 Translation Requires Three Steps 253
- LET'S REVIEW GENE EXPRESSION 255
- MUTATIONS ARE BASE CHANGES 256  
 Frameshift Mutations Are Drastic 256  
 Point Mutations Can Be Drastic 256  
 Cause and Repair of Mutations 256
- Summary 257  
 Study Questions 257  
 Objective Questions 258  
 Concepts and Critical Thinking 258  
 Selected Key Terms 258

## REGULATION OF GENE ACTIVITY

- PROKARYOTES UTILIZE OPERONS 260**  
 Looking at the *Lac* Operon 260  
 Looking at the *Trp* Operon 260  
 Translational Control 261

- EUKARYOTES UTILIZE VARIOUS METHODS 262**  
 Looking at Transcriptional Control 263

- **A CLOSER LOOK**  
*What's in a Chromosome?* 264  
 Looking at Posttranscriptional Control 266  
 Looking at Translational Control 267  
 Looking at Posttranslational Control 267

- CANCER IS A FAILURE IN GENETIC CONTROL 268**

- **RESEARCH REPORT**  
*Reflections of a Cancer Researcher* 269  
 How Cancer Begins 269  
 Can Cancer Be Prevented? 273

- Summary 274  
 Study Questions 275  
 Objective Questions 275  
 Concepts and Critical Thinking 276  
 Selected Key Terms 276

## RECOMBINANT DNA AND BIOTECHNOLOGY

- CLONING OF A GENE 278**  
 Choosing a Vector 278  
 Making Recombinant DNA 279  
 Getting the Product 279

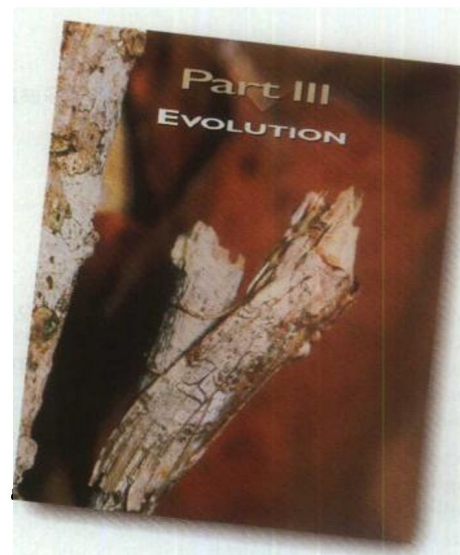

- BIOTECHNOLOGY PRODUCTS ARE MANY 280**  
 Hormones and Similar Types of Proteins 280  
 Safer Vaccines 280

- REPLICATING SMALL DNA SEGMENTS 281**  
 Analyzing DNA Segments 281

- MAKING TRANSGENIC ORGANISMS 283**  
 Transgenic Bacteria Perform Services 283  
 Transgenic Plants Are Here 284  
 Transgenic Animals Are Here 284

- GENE THERAPY IS A REALITY 285**  
 Some Methods Are *Ex Vivo* 285  
 Some Methods Are *In Vivo* 285

- MAPPING THE HUMAN CHROMOSOMES 286**  
 Summary 287  
 Study Questions 287  
 Objective Questions 287  
 Concepts and Critical Thinking 288  
 Selected Key Terms 288  
 Suggested Readings for Part II 288  
 Critical Thinking Case Study for Part II 289

## DARWIN AND EVOLUTION

- THE WORLD WAS READY 295**  
 Mid-Eighteenth Century Contributions 295  
 Late-Eighteenth Century Contributions 296

- DARWIN DEVELOPS A THEORY 297**  
 Descent Does Occur 297  
 Natural Selection Provides a Mechanism 300

- **A CLOSER LOOK**  
*Alfred Russel Wallace* 301  
 Darwin Writes a Book 303

- EVIDENCE ACCUMULATES 304**  
 Fossils Tell a Story 304  
 Biogeographical Separations 305  
 Anatomical Similarities 306  
 Biochemical Differences 307

- Summary 308  
 Study Questions 308  
 Objective Questions 309  
 Concepts and Critical Thinking 309  
 Selected Key Terms 310

## PROCESS OF EVOLUTION

- WHAT CAUSES VARIATIONS? 312**  
 Gene Mutations 312  
 Chromosomal Mutations 312  
 Recombination 312

- HOW TO DETECT EVOLUTION 313**

- WHAT CAUSES EVOLUTION? 315**  
 Genes Mutate 315  
 Mating Is Not Always Random 315  
 Gene Flow Brings New Genes 315  
 Genetic Drift Promotes Changes 316

- ADAPTATION OCCURS NATURALLY 318**  
 Fitness 318  
 Types of Selection 318  
 Variations Are Maintained 321

- CONSIDERING SPECIATION 322**  
 What Is a Species? 322  
 How Do Species Arise? 324

## RESEARCH REPORT

*Origin and Adaptive Radiation of the Hawaiian  
Silversword Alliance* 326

*Biological Relationships* 326

*Summary* 328

*Study Questions* 328

*Objective Questions* 329

*Additional Genetics Problems* 330

*Concepts and Critical Thinking* 330

*Selected Key Terms* 330

## ORIGIN AND HISTORY OF LIFE

### ORIGIN OF LIFE 333

*The Atmosphere Forms* 333

*Small Organic Molecules Evolve* 333

*Macromolecules Evolve and Interact* 334

*A Protocell Evolves* 334

*A Self-Replication System Evolves* 335

### HISTORY OF LIFE 336

*Fossils Tell a Story* 336

*Earth's Crust Is Dynamic* 338

*How the Story Unfolds* 340

### A CLOSER LOOK

*Real Dinosaurs, Stand Up!* 346

*Studying Evolutionary Lineages* 350

*Summary* 352

*Study Questions* 353

*Objective Questions* 353

*Concepts and Critical Thinking* 354

*Selected Key Terms* 354

## HUMAN EVOLUTION

### PRIMATES LIVE IN TREES 357

*What Are Primate Characteristics?* 357

### PRIMATES ARE DIVERSE 357

*Prosimians Came First* 357

*Anthropoids Followed* 359

### THE HOMINIDS BREAK AWAY 362

*First Hominids Walked Erect* 362

### RESEARCH REPORT

*Origin of the Genus Homo* 364

*Homo habilis Made Tools* 365

*Homo erectus Traveled* 366

*Modern Humans Originated How?* 367

*Neanderthals Were Archaic* 368

*Cro-Magnon Were Modern Humans* 368

*We Are One Species* 370

*Biological Relationships* 371

*Summary* 371

*Study Questions* 372

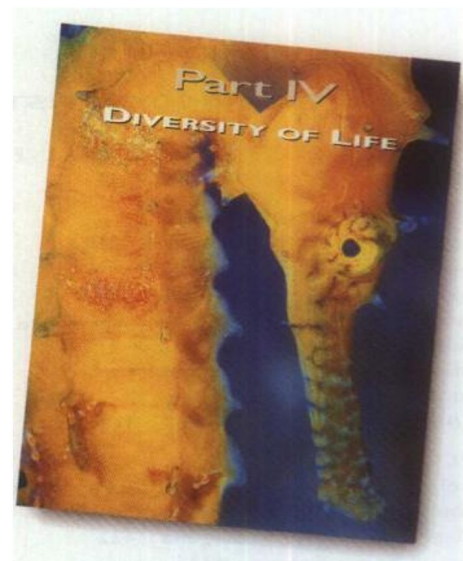

*Objective Questions* 372

*Concepts and Critical Thinking* 373

*Selected Key Terms* 373

*Suggested Readings for Part III* 373

*Critical Thinking Case Study for Part III* 375

## CLASSIFICATION OF LIVING THINGS

### NAMING AND CLASSIFYING ORGANISMS 380

*Assigning a Two-Part Name* 380

*Now Let's Classify* 382

### RESEARCH REPORT

*Spider Webs and Spider Classification* 386

### CONSTRUCTING PHYLOGENETIC TREES 387

*What Are Our Data?* 388

*Who Constructs Phylogenetic Trees?* 390

*Cladistics Is Objective* 391

*Phenetics Is Numerical* 391

### A CLOSER LOOK

*How to Construct a Cladogram* 392

*Summary* 393

*Study Questions* 393

*Objective Questions* 393

*Concepts and Critical Thinking* 394

*Selected Key Terms* 394

## VIRUSES AND KINGDOM PROKARYOTAE

### VIRUSES ARE PARTICLES 396

*Viruses Are Noncellular* 397

*Viruses Replicate* 398

*Viruses Cause Infections* 400

### PROKARYOTES ARE CELLULAR 401

*Prokaryotic Structure Is Simple* 402

*Prokaryotes Reproduce Asexually* 403

*Prokaryotic Nutrition Is Diverse* 404

### HOW PROKARYOTES ARE CLASSIFIED 405

*Archaeobacteria Came First* 405

*Eubacteria Are Prevalent* 406

*Some Bacteria Cause Infections* 407

*Biological Relationships* 408

*Summary* 408

*Study Questions* 409

*Objective Questions* 409

*Concepts and Critical Thinking* 410

*Selected Key Terms* 410

## 25

### KINGDOM PROTOCTISTA

HOW THE EUKARYOTIC CELL EVOLVED 412  
Classification of Protoctists 413

ALGAE ARE PLANTLIKE 413  
Green Algae Are Most Plantlike 413

 **RESEARCH REPORT**  
*Behavior In a Unicellular Alga* 415  
Brown Algae and Golden Brown Algae Are Biochemically Alike 417  
Dinoflagellates Have Two Flagella 418  
Euglenoids Are Flexible 418  
Red Algae Are Source of Agar 419

PROTOZOA ARE ANIMAL-LIKE 420  
Amoeboids and Relatives Move by Pseudopods 420  
Ciliates Move by Cilia 421  
Zooflagellates Move by Flagella 422  
Sporozoa Form Spores 423

 **A CLOSER LOOK**  
*Life Cycles Among the Protoctists* 424

SLIME MOLDS AND WATER MOLDS ARE FUNGUSLIKE 425  
Slime Molds Are Ameboid 425  
Water Molds Are Filamentous 426

*Biological Relationships* 426  
*Summary* 426  
*Study Questions* 427  
*Objective Questions* 427  
*Concepts and Critical Thinking* 428  
*Selected Key Terms* 428

## 26

### KINGDOM FUNGI

WHAT FUNGI ARE LIKE 430  
Most Fungi Are Filamentous 431  
Most Fungi Produce Spores 431

HOW FUNGI ARE CLASSIFIED 432  
Zygospore Fungi Form Zygospores 432  
Sac Fungi Form Ascospores 435  
Yeasts Are Single Cells 435  
Club Fungi Have Basidiospores 437

 **OF HUMAN INTEREST**  
*Deadly Fungi* 438  
Imperfect Fungi Reproduce Asexually Only 439

FUNGI FORM SYMBIOTIC RELATIONSHIPS 439  
Lichens Are Soil Formers 439  
Mycorrhizae Are "Fungus Roots" 440

*Summary* 440  
*Study Questions* 441  
*Objective Questions* 441  
*Concepts and Critical Thinking* 442  
*Selected Key Terms* 442

## 27

### KINGDOM PLANTAE

BRYOPHYTES ARE DIVERSE 445  
Liverworts Are Bryophytes 446  
Mosses Are Bryophytes 446  
Uses of Bryophytes 448  
Adaptation of Bryophytes 448

VASCULAR PLANTS INCLUDE SEEDLESS AND SEED PLANTS 448

 **OF HUMAN INTEREST**  
*The First Forests* 449

FERNS AND ALLIES ARE THE SEEDLESS VASCULAR PLANTS 450  
Psilotophytes Are Wisk Ferns 450  
Club Mosses Have Club-Shaped Strobili 451  
Horsetails Resemble Horses' Tails 451  
Ferns Are Leafy 452  
Uses of Ferns 452  
Adaptation of Ferns 452

GYMNOSPERMS HAVE NAKED SEEDS 454  
Conifers Have Cones 454  
Cycads Fed Dinosaurs 456  
Ginkgo Trees Adorn Parks 456  
Gnetophytes 457  
Uses of Gymnosperms 457  
Adaptation of Gymnosperms 457

ANGIOSPERMS HAVE COVERED SEEDS 457  
Origin and Evolution of Angiosperms 457  
How Flowering Plants Are Classified 458  
The Flower Contains Modified Leaves 458

 **A CLOSER LOOK**

## 28

### KINGDOM ANIMALIA: INTRODUCTION TO INVERTEBRATES

HOW ANIMALS EVOLVED AND ARE CLASSIFIED 466

MULTICELLULARITY EVOLVES 468  
Sponges Have Pores 468

TWO TISSUE LAYERS EVOLVE 470  
Cnidaria Have Radial Symmetry 470  
Cnidarian Diversity 471  
*Hydra* and *Obelia* in Depth 472

BILATERAL SYMMETRY EVOLVES 474  
Flatworms Are Flat 474

 **A CLOSER LOOK**  
*Presence of a Coelom* 478

A PSEUDOCOELOM EVOLVES 478  
Roundworms Are Nonsegmented 479

*Summary* 480  
*Study Questions* 481  
*Objective Questions* 481  
*Concepts and Critical Thinking* 482  
*Selected Key Terms* 482

## KINGDOM ANIMALIA: PROTOSTOMES

THREE-PART BODY PLAN 486  
Mollusks Have Soft Bodies 486

SEGMENTATION EVOLVES 490  
Annelids Are Segmented Worms 490

■ **OF HUMAN INTEREST**  
Bloodsuckers 492

JOINTED APPENDAGES EVOLVE 493  
Arthropods Have Jointed Appendages 493  
Chelicerates Have Pincerlike Appendages 494  
Crustacea Have a Calcified Exoskeleton 495  
Uniramia Breathe with Tracheae 496

■ **A CLOSER LOOK**  
Evolutionary Relationships Among the  
Protostomes 499

Summary 500

Study Questions 500

Objective Questions 501

Concepts and Critical Thinking 502

Selected Key Terms 502

## KINGDOM ANIMALIA: DEUTEROSTOMES

RADIAL SYMMETRY, AGAIN? 504  
Echinoderms Have a Spiny Skin 504

CHORDATE CHARACTERISTICS EVOLVE 506  
Invertebrate Chordates 507

VERTEBRATE BODY PLAN EVOLVES 509  
Lampreys and Hagfishes 509

JAWS EVOLVE 510  
Cartilaginous Fishes Include Sharks 510  
Bony Fishes Are Most Numerous of Vertebrates 510

LIMBS EVOLVE 512  
Amphibians 512

AMNIOTE EGG EVOLVES 514  
Reptiles 514

■ **A CLOSER LOOK**  
Venomous Snakes Are Few 516

WINGS AND FEATHERS EVOLVES 519  
Birds Have Feathers 519

HOMEOTHERMY PAYS OFF 519  
Mammals Have Hair and Mammary Glands 519  
Mammals That Lay Eggs 519  
Mammals That Have Pouches 520  
Mammals That Have Placentas 520

Biological Relationships 521

Summary 522

Study Questions 522

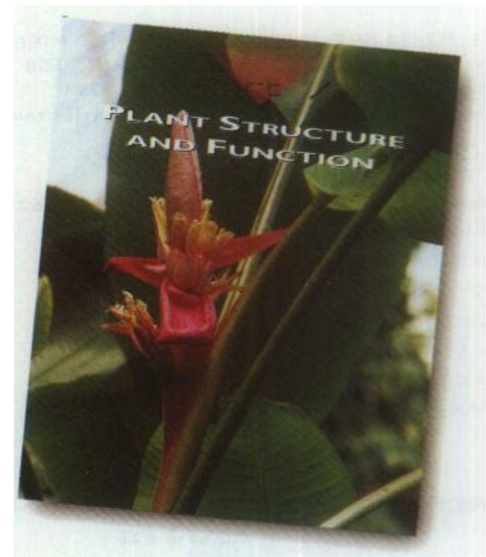

Objective Questions 523

Concepts and Critical Thinking 523

Selected Key Terms 523

Suggested Readings for Part IV 524

Critical Thinking Case Study for Part IV 525

## PLANT STRUCTURE

PLANTS HAVE ORGANS 530  
Roots Anchor 530  
Stems Support 530  
Leaves Photosynthesize 531

MONOCOT VERSUS DICOT PLANTS 532

PLANT ORGANS HAVE TISSUES 533  
Epidermal Tissue Protects 533  
Ground Tissue Fills 534  
Vascular Tissue Transports 534

HOW DICOT ROOTS ARE ORGANIZED 536  
Tissues of a Dicot Root 537  
How Monocot Roots Are Organized 537  
How Roots Differ 538

■ **A CLOSER LOOK**  
Tree Rings Tell a Story 539

HOW STEMS ARE ORGANIZED 540  
Herbaceous Stems Are Nonwoody 540  
How Stems Become Woody 542  
How Stems Differ 544

■ **A CLOSER LOOK**  
Paper Comes from Plants 545

HOW LEAVES ARE ORGANIZED 546  
How Leaves Differ 546

Summary 548

Study Questions 549

Objective Questions 549

Concepts and Critical Thinking 550

Selected Key Terms 550

## NUTRITION AND TRANSPORT IN PLANTS

HOW WATER MOVES THROUGH  
A PLANT 552  
Water Potential Is Critical 553  
Xylem Transports Water 554  
Opening and Closing of Stomates 556

■ **RESEARCH REPORT**  
Competition for Resources and Biodiversity 557

<b>PLANTS REQUIRE INORGANIC NUTRIENTS</b>	<b>558</b>
How Are Requirements Determined?	558
What Affects Mineral Availability?	558
How Minerals Are Taken in and Distributed	560

<b>HOW ORGANIC NUTRIENTS ARE TRANSPORTED</b>	<b>562</b>
Phloem Transports Organic Nutrients	562
Phloem Transport Uses Positive Pressure	562

## CIRCULATORY SYSTEM

- TRANSPORTING IN INVERTEBRATES 628
  - With a Cavity 628
  - With an Open or a Closed System 628
- TRANSPORTING IN VERTEBRATES 630
  - Comparing Circulatory Pathways 631
- TRANSPORTING IN HUMANS 632
  - The Heart Pumps Blood 632
-  **A CLOSER LOOK**
  - William Harvey and Circulation of the Blood 634
  - The Vessels Conduct Blood 636
  - Blood Pressure Drops Off 637
-  **OF HUMAN INTEREST**
  - Cardiovascular Disease 638
- CARDIOVASCULAR DISORDERS OCCUR 638
  - Hypertension Is a Concern 638
  - Stroke and Heart Attack Kill 638
- BLOOD IS TRANSPORT MEDIUM 641
  - Blood Cells Are Varied 641
  - Servicing the Cells 642
  - Know Your Blood Type 644
- Summary 646
- Study Questions 646
- Objective Questions 647
- Concepts and Critical Thinking 647
- Selected Key Terms 648

## LYMPHATIC SYSTEM AND IMMUNITY

- LYMPHATIC SYSTEM HELPS CIRCULATORY SYSTEM 650
  - Lymphatic Vessels Transport One Way 650
  - Lymphoid Organs Assist Immunity 651
- SOME DEFENSES ARE NONSPECIFIC 652
  - Barring Entry 652
  - Phagocytizing the Enemy 652
  - Chemo Warfare 654
- OTHER DEFENSES ARE SPECIFIC 654
  - B Cells Make Plasma and Memory Cells 655
  - How Antibodies Work 656
  - How Antibodies Differ 656
-  **A CLOSER LOOK**
  - Susumu Tonegawa and Antibody Diversity 657
  - T Cells Become Cytotoxic, Helper, Memory, or Suppressor Cells 658
  - Activating Cytotoxic and Helper T Cells 659
-  **OF HUMAN INTEREST**
  - The AIDS Epidemic 660
- IMMUNITY CAN BE INDUCED 661
  - Active Immunity Is Long-Lived 661
  - Passive Immunity Is Short-Lived 662
  - Lymphokines Boost White Blood Cells 662
  - Monoclonal Antibodies Have Same Specificity 663
- IMMUNITY HAS SIDE EFFECTS 663
  - Allergies: Overactive Immune System 663
  - Tissue Rejection: Foreign MHC Proteins 664
  - Autoimmune Diseases: The Body Attacks Itself 664

- Biological Relationships 664
- Summary 665
- Study Questions 665
- Objective Questions 665
- Concepts and Critical Thinking 666
- Selected Key Terms 666

## DIGESTIVE SYSTEM AND NUTRITION

- COMPARING DIGESTIVE TRACTS 668
  - Gut Is Complete or Incomplete 668
  - Feeding Is Continuous or Discontinuous 669
  - Dentition Is Suitable 670
- HUMANS HAVE A COMPLETE TRACT 671
  - Mouth Receives Food 671
  - Esophagus Conducts Food 672
  - Stomach Stores Food 672
  - Small Intestine Absorbs Nutrients 674
-  **A CLOSER LOOK**
  - Hormonal Control of Digestive Juices 676
  - Two Accessory Organs Help Out 676
  - Large Intestine Absorbs Water 677
- NUTRITION AFFECTS HEALTH 678
  - Vitamins Activate Metabolism 678
  - Minerals Are for Structure and Function 679
- Summary 680
- Study Questions 681
- Objective Questions 681
- Concepts and Critical Thinking 682
- Selected Key Terms 682

## RESPIRATORY SYSTEM

- HOW ANIMALS EXCHANGE GASES 684
  - In the Water 684
  - On the Land 686
- HOW HUMANS EXCHANGE GASES 688
  - Breathing In and Out 689
  - Exchanging and Transporting Gases 691
  - Transporting O<sub>2</sub> and CO<sub>2</sub> 691
- KEEPING THE RESPIRATORY TRACT HEALTHY 692
  - The Tract Gets Infected 692
  - The Lungs Have Disorders 692
- Summary 694
- Study Questions 694
- Objective Questions 694
- Concepts and Critical Thinking 695
- Selected Key Terms 696

## 40

### EXCRETORY SYSTEM

#### EXCRETION IS FOR HOMEOSTASIS 698

- Eliminating Nitrogenous Wastes 698
- Maintaining Osmotic Balance 700

#### ANIMALS HAVE ORGANS OF EXCRETION 701

- Planaria Have Flame Cells 701
- Earthworms Have Nephridia 701
- Insects Have Malpighian Tubules 701

#### HUMANS HAVE A URINARY SYSTEM 702

- Kidneys Have Three Regions 702
- How Urine Is Made 704
- Tonicity and pH Are Regulated 706
- When Kidneys Fail 707

Biological Relationships 708

Summary 708

Study Questions 709

Objective Questions 709

Concepts and Critical Thinking 710

Selected Key Terms 710

## 41

### NERVOUS SYSTEM

#### HOW THE NERVOUS SYSTEM EVOLVED 712

#### NEURONS ARE NERVE CELLS 714

- Transmitting the Nerve Impulse 715
- Transmitting at Synapses 718

#### OF HUMAN INTEREST

Alzheimer Disease 719

#### PERIPHERAL NERVOUS SYSTEM CONTAINS NERVES 720

- Somatic System Serves Skin and Muscles 721
- Autonomic System Serves Internal Organs 723

#### CENTRAL NERVOUS SYSTEM: BRAIN AND SPINAL CORD 724

- Spinal Cord Communicates 724
- The Brain Commands 724

#### A CLOSER LOOK

Five Drugs of Abuse 728

Summary 730

Study Questions 730

Objective Questions 731

Concepts and Critical Thinking 731

Selected Key Terms 732

## 42

### SENSE ORGANS

#### SENSING CHEMICALS 734

- Tasting with Taste Buds 735
- Smelling with the Nose 735

#### SENSING LIGHT 736

- Seeing with the Eye 737

#### RESEARCH REPORT

Ion Channels and Vision 741

#### SENSING MECHANICAL STIMULI 742

- Responding to Gravity and Sound 742

#### OF HUMAN INTEREST

Protect Your Hearing 746

Summary 747

Study Questions 747

Objective Questions 747

Concepts and Critical Thinking 748

Selected Key Terms 748

## 43

### MUSCULOSKELETAL SYSTEM

#### COMPARING SKELETONS 750

- A Water-Filled Cavity 750
- Exoskeletons or Endoskeletons 751

#### HUMANS HAVE AN ENDOSKELETON 753

- How Bones Differ and Grow 753
- Bones Make Up the Skeleton 754
- Joints Join Bones 758

#### HOW MUSCLES FUNCTION 759

- On a Macroscopic Level 759
- On a Microscopic Level 760
- Exercise Has Benefits 762

Summary 764

Study Questions 764

Objective Questions 764

Concepts and Critical Thinking 765

Selected Key Terms 765

## 44

### ENDOCRINE SYSTEM

#### HORMONES AFFECT CELLULAR METABOLISM 768

- Steroid Hormones Activate DNA 768
- Peptide Hormones Activate Enzymes 769

#### A CLOSER LOOK

Insect Growth Hormones 770

#### HUMAN ENDOCRINE SYSTEM 771

- Hypothalamus Controls the Pituitary Gland 771
- Thyroid Gland Speeds Metabolism 774
- Parathyroid Glands Regulate Calcium 775
- Adrenal Glands Contain Two Parts 776
- Pancreas Is Both Endocrine and Exocrine Gland 777

#### OF HUMAN INTEREST

- Dangers of Anabolic Steroids 779
- Testes Are in Males and Ovaries Are in Females 780
- Still Other Endocrine Glands 780

#### ENVIRONMENTAL SIGNALS IN THREE CATEGORIES 781

- Redefinition of a Hormone 781

Summary 782

Study Questions 783

Objective Questions 783

Concepts and Critical Thinking 784

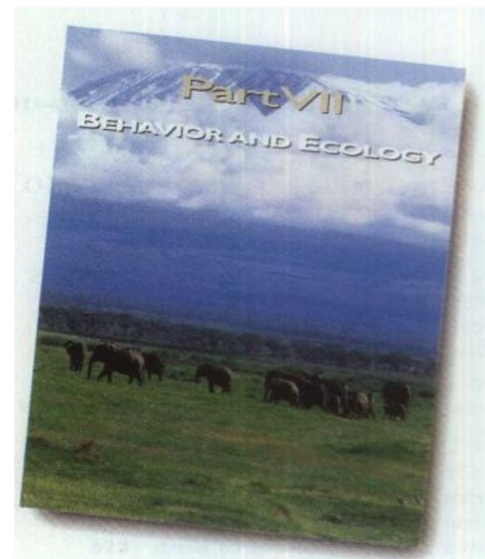

Selected Key Terms 784

## REPRODUCTION IN ANIMALS

- HOW ANIMALS REPRODUCE 786**  
Asexual Versus Sexual Reproduction 786  
Reproductive Organs Are Primary or Accessory 787  
Protecting Zygote and Embryo 788  
Finding a Mate 789
- MALES HAVE TESTES 790**  
Ejaculation 791  
Testes Produce Sperm and Hormones 793  
Hormonal Regulation in Males 793
- FEMALES HAVE OVARIES 794**  
Ovaries Produce Eggs and Hormones 795  
Events Following Fertilization 797  
Estrogen and Progesterone Are Female Sex Hormones 798
- HUMANS VARY IN FERTILITY 798**
- SEXUALLY TRANSMITTED DISEASES 798**  
AIDS Is Preventable 799  
Genital Herpes Can Reoccur 800  
Genital Warts Can Cause Cancer 800  
Gonorrhea Can Cause PID 800  
Chlamydia Can Be Confused with Gonorrhea 800  
Syphilis Has Three Stages 800
- Summary 800  
Study Questions 801  
Objective Questions 801  
Concepts and Critical Thinking 802  
Selected Key Terms 802

## DEVELOPMENT IN ANIMALS

- DEVELOPMENT HAS STAGES 804**  
How Yolk Affects the Stages 806  
Neurulation Produces the Nervous System 807
- CELLS BECOME SPECIALIZED AND EMBRYOS TAKE SHAPE 808**  
How Cells Become Specialized 808  
How Morphogenesis Occurs 809
- HUMANS ARE EMBRYOS AND THEN FETUSES 811**  
Embryos Don't Look Human 812  
The Placenta Fulfills Needs 815  
Fetuses Look Human 816  
Birth Has Three Stages 816
- DEVELOPMENT CONTINUES 817**  
Aging Has Causes 817
- Biological Relationships 817  
Summary 817  
Study Questions 818  
Objective Questions 818  
Concepts and Critical Thinking 819  
Selected Key Terms 819  
Suggested Readings for Part VI 820  
Critical Thinking Case Study for Part VI 821

## ANIMAL BEHAVIOR

- BEHAVIOR HAS A GENETIC BASIS 826**
- BEHAVIOR UNDERGOES DEVELOPMENT 828**  
Birds Learn to Sing 829
- BEHAVIOR IS ADAPTIVE 830**  
Females Choose 830  
Males Compete 831
- ANIMALS ARE SOCIAL 833**  
Communication Is Varied 833
- SOCIOBIOLOGY AND ANIMAL BEHAVIOR 835**  
Altruism Versus Self-Interest 835
- Summary 836  
Study Questions 837  
Objective Questions 837  
Concepts and Critical Thinking 838  
Selected Key Terms 838

## ECOLOGY OF POPULATIONS

- POPULATIONS TEND TO GROW 840**  
Uninhibited Growth Is Rare 841  
Inhibited Growth Is Common 841  
Who Survives Best? 843  
Age Structure Predicts Population Growth 843
- STRATEGIES FOR EXISTING 844**
- THE HUMAN POPULATION IS GROWING 845**  
Countries Differ in Their Growth 845
- A CLOSER LOOK**  
U.S. Population Will Grow 846
- Summary 847  
Study Questions 847  
Objective Questions 848  
Concepts and Critical Thinking 848  
Selected Key Terms 848

## 49

### INTERACTIONS WITHIN COMMUNITIES

- WHEN ORGANISMS COMPETE 850  
 Humans Interfere 851  
 Competition Affects Niches 851
- WHEN ORGANISMS ARE PREDATORS 852  
 Prey Population Size Is Affected 852  
 Prey Defend Themselves 853  
 Mimicry Can Help 853
-  **OF HUMAN INTEREST**  
 Lyme Disease, a Parasitic Infection 854
- WHEN ORGANISMS DEPEND ON ANOTHER 854  
 Parasitism Is Destructive 854  
 Commensalism Is Not Harmful 855  
 Mutualism Is Beneficial to Both 856

Summary 857  
 Study Questions 857  
 Objective Questions 857  
 Concepts and Critical Thinking 858  
 Selected Key Terms 858

## 50

### ECOSYSTEMS: THE FLOW OF ENERGY AND THE CYCLING OF MATERIALS

- ECOSYSTEMS ARE ORGANIZED 860  
 Communities Undergo Succession 860
- ENERGY FLOWS IN AN ECOSYSTEM 863  
 Food Chains Become Food Webs 863
-  **A CLOSER LOOK**  
 Marine Enclosures for Whole-Ecosystem Studies 864  
 Populations Form a Pyramid 865
- CHEMICALS CYCLE IN AN ECOSYSTEM 866  
 Carbon Cycles 866  
 Nitrogen Cycles 868
- PHOSPHORUS CYCLES 869  
 Humans Influence the Phosphorus Cycle 869
- WATER CYCLES 870
- HUMAN FOOD CHAIN VERSUS NATURAL FOOD WEB 871  
 Summary 872  
 Study Questions 872  
 Objective Questions 873  
 Concepts and Critical Thinking 873  
 Selected Key Terms 874

## 51
