

# EVOLUTIONS IN COMPUTER COMMUNICATIONS

proceedings of the  
fourth international  
conference on computer  
communication

# EVOLUTIONS IN COMPUTER COMMUNICATIONS

proceedings of the fourth international conference  
on computer communication  
Kyoto, 26–29 September, 1978

editor

H. Inose

*Sponsored by*

*The International Council for Computer Communication (ICCC)*

*Hosted by*

*Nippon Telegraph & Telephone Public Corporation (NTT)  
Kokusai Denshin Denwa Co., Ltd. (KDD)*

# Table of Contents

## Opening Ceremony—1

## Opening Address of the Fourth International Conference on Computer Communication—3

## Keynote Session—5

### Session 131

#### Operating Experiences of Data Networks (No. 1)—7

The Public Switched Data Network of the Deutsche Bundespost: Three years of Experience with the Electronic Data Switching System EDS — Future Development of EDS

G. ALTEHAGE and W. STAUDINGER—9

DDX-2 Field Trial Experience

R. NAKAMURA, S. TOMITA and S. YOSHIDA —17

Performance Evaluations in CYCLADES

M. GIEN and J.-L. GRANGE—23

The EIN Project: The End of the Beginning

D. L. A. BARBER—33

### Session 132

#### Internetworking—39

International Data Networks — UK Post Office Experience and Plans

M. L. FORD and F. W. DAVIES—41

Datapac Internetworking for International Services

A. M. RYBCZYNSKI, D. F. WEIR and I. M. CUNNINGHAM—47

Planning for International Data Network Service — The VENUS Project —

H. ICHIHARA—57

An Overview of Database Access and Remote

Computing Communications Service

S. WERNIKOFF—63

### Session 133

#### Mini- and Micro-Computer Applications—69

Communication Control Processor for Computer Networks: Performance Evaluation

Y. TANAKA, H. MATSUNAGA, C. MATSUDA and T. YAMAMOTO—71

A Microprocessor-Based Synchronous

Communications Subsystem for Minicomputers

H. M. SCHLESINGER and R. H. ROSENBAUM —77

Performance Considerations in the Design of a Microprocessor Based Display Terminal Controller

K. NOMURA—83

Design of a Private Packet Network

S. YAMAGUCHI, T. HYODO and T. KATO—89

### Session 141

#### Operating Experiences of Data Networks (No. 2) —95

The British Post Office Experimental Packet Switched Service (EPSS) — A Review of Development and Operational Experience

D. E. HADLEY and B. R. SEXTON—97

DATAPAC — Initial Experience with a Commercial Packet Network

C. I. MCGIBBON, H. GIBBS and S. C. K. YOUNG —103

The TYMNET II Engine

L. TYMES and J. RINDE—109

Development and Initial Operating Experience of the SWIFT System

D. ROBINSON—115

### Session 142

#### Flow Control Studies—121

Analysis of Flow-Controls in Switched Data Network by a Unified Model

G. PUJOLLE—123

Comparison of Two Packet Network Protocols for Flow Control of Customer Virtual Circuits

F. R. MAGEE, JR.—129

A Computer Network Flow Control Study

G. A. DEATON, JR. and D. J. FRANSE—135

Evaluation of Flow Control Schemes for Packet Switched Network

I. TAKENAKA, K. KAWASHIMA, M. TAKEDA and M. NOMURA—141

### Session 143

#### Ring Networks and Applications of Fiber Optics—147

Computer Communication Interfaces Based on Two-Input/Output-Pair Automata and Their Implementation in the LABOLINK Network

K. IWAMA, Y. KAMBAYASHI and S. YAJIMA  
—149

An In-House Network Configuration for  
Distributed Intelligence

R. YATSUBOSHI, T. TSUDA, K. YAMAGUCHI  
and Y. INOUE—155

Ring Century Bus — An Experimental High Speed  
Channel for Computer Communications

N. OKUDA, T. KUNIKYO and T. KAJI—161

A New Ring-Structured Microcomputer Network  
H. JAFARI, T. LEWIS and J. SPRAGINS—167

#### **Session 211**

**Issues in Computer Communications Planning—175**

Japan's Future Public Network for Computer  
Communication

T. TAKATSUKI—177

Plans for a Digital Data Network in Australia

D. J. GANNON and A. J. MCKENZIE—183

The EURONET Telecommunication and  
Information Network

G. W. P. DAVIES, J-Y GRESSER, P. T. F. KELLY  
and J. R. THOMAS—189

Transaction Network Service

M. D. BALKOVIC—195

The Public Data Network in the Nordic Countries

A. H. KVEST—201

#### **Session 212**

**Computer Communication Policy and  
Standards—207**

National and International Policy Issues in  
Computer Communications

D. A. DUNN—209

Some Social Criteria for Implementing  
Telecommunications Policies

P. CHAN—215

International Data Flow: Personal Privacy and  
Some Other Matters

W. L. FISHMAN—221

Evolution of Standards Through the ITU

T. OKABE—229

#### **Session 213**

**Distributed Processing and Software—237**

Considerations on the Design of a  
Network-Oriented Operating System

T. HAYASHI and T. SAKAI—239

Pseudo-Dynamic Resource Allocation in  
Distributed Databases

G. LE LANN—245

Resource Integration and Data Sharing on  
Heterogeneous Resource Sharing System

M. TAKIZAWA, E. HAMANAKA and T. ITO—253

A Study of Centralized and Distributed Processing

Z. FUKUDA—259

Network Job Entry Facility for JES2

R. O. SIMPSON and G. H. PHILLIPS—265

#### **Session 221**

**X.25 Protocol—271**

X.25 Test Facilities on Datapac

D. F. WEIR, D. F. PRATER and X. N. DAM—273

End-To-End Protocol Based on CCITT X.25 and  
its Implementation

H. OHBA, S. YOSHITAKE, S. MUTOH and  
T. NISHIMURA—281

A Multiline Data Link Control Procedure

G. MAINGUENAUD and B. JAMET—289

#### **Session 222**

**Privacy and Security—295**

The Growing Pains in a Computerized Society

J. FREESE—297

New Perceptions in Applying Patent and Copyright  
Law to Protection for Computer Software

G. K. DAVIDSON—299

The Impact of Cryptography in the Design of Data  
Services

L. GUILLOU and B. LORIG—303

Data Protection in Medical Information Systems

H. UENO and A. WATANABE—309

#### **Session 223**

**Topological Design of Computer Network—315**

A Heuristic Approach to the Optimization of  
Centralized Communication Networks

C. R. DE BACKER—317

A Network Optimization by Mixed Integer  
Programming

S. MATSUI—323

Topological Design of Computer-Communication  
Nets with Minimum Number of Through-Nodes

W. H. KIM and A. S. DONIA—329

An Integrated Approach to Optimally Locating  
Network Access Facilities

W. CHOU, F. FERRANTE, M.

BALAGANGADHAR and L. GERKE—335

#### **Session 231**

**Computer Network Architectures (No. 1)—345**

Honeywell's Distributed Systems Environment

G. M. BOOTH—347

Systems Network Architecture: A Perspective

E. H. SUSSENGUTH—353

DCA-A Distributed Communications Architecture

J. P. McGOVERN—359

#### **Session 232**

**Social Aspect of Computer Communication—369**

Present Situation and Future Trends of On-Line  
Information Processing in Japan — A Consideration  
Based on State of Computer Usage and Users'  
Intention —

N. HORI, A. TAKENO and Y. HAYASHI—371

New Services, on Public Data Networks and the  
Quality of Life

B. LORIG and L. GUILLOU—377

The Intelligence Revolution: Looking Toward  
2000 A.D.

R. R. PANKO—383

Future Perspectives for Information Utility

Y. MASUDA—387

### **Session 233**

#### **Analytic Techniques—393**

Loop-Free Distributed Adaptive Routing

C. NEBLOCK and U. W. POOCH—395

Trade-Off of File Directory Systems for Data Base

H. TOMINAGA, S. TAJIMA and K. SAITO—405

Extended Optimum Channel Capacity Assignment  
Problems for Message-Switching Networks

M. KOMATSU, H. NAKANISHI, H. SANADA and

Y. TEZUKA—411

### **Session 241**

#### **Computer Network Architectures (No. 2)—417**

Towards a Methodology for Representing

Computer Network Architectures

K. KUEMMERLE and E. PORT—419

General Purpose Computer/Terminal Network

Architecture — its Natural Structure and the

Implications on Interface Standards

E. LOHSE and J. S. FOLEY—427

Extending Digital's Network Architecture to Use  
X.25

G. E. CONANT—433

### **Session 242**

#### **Applications—441**

A Design Study for Reuters' Packet-Switched  
Network Using Simulation Techniques

G. MURPHY, I. McCURRACH, W. L. PRICE and

C. M. SOLOMONIDES—443

Kintetsu Computer Network System

T. KAWATA—449

The Real Time Sales Information System in

Kawasaki Steel Corporation

S. SAKAKURA, H. SHIMAZU and T. KOHDA

—455

A Self-Configuring Console for Telephone  
Switching Office Maintenance

B. KASKEY—461

New Data Communication System for Nationwide  
Banking Activities and Development of its Software

Y. YOSHINO and Y. FUJITA—467

### **Session 243**

#### **Fundamental Theories—473**

An Easily Diagnosable Network for Computing  
Systems

T. AE and S. OSAKI—475

Queueing Analysis of Integrated Switched  
Networks

M. WATANABE, H. MIYAHARA and

T. HASEGAWA—481

An Algorithm for Designing Multidrop  
Teleprocessing Networks

T. YOSHIMURA—487

Designing Reliable Packet-Switched  
Communication Networks

K. MARUYAMA—493

### **Session 311**

#### **Computer Network Architectures (No. 3)—499**

Network Architecture Developments in Japan

K. NAEMURA—501

User Level Protocols for and Field Trial on the  
Experimental Inter-University Computer Network  
in Japan

H. INOSE, S. ASANO, K. HASEBE, T. SAKAI,  
H. KITAGAWA, K. TABATA and M. KATO—507

An Effective Utilization Method of Public PSN  
in DONA

N. SUGIURA, Y. NISHIZAWA, Y. MATSUSHITA  
and Y. SEKI—513

A Logical Structure for a Heterogeneous Computer  
Communication Network Architecture

T. KAWAOKA, T. ABE and A. SHIRAIISHI—519

### **Session 312**

#### **Satellite Packet Switching (No. 1)—525**

International Broadcast Packet Satellite Services

E. V. HOVERSTEN and H. L. VAN TREES—527

On the Measured Performance of Packet Satellite  
Access Schemes

L. KLEINROCK and M. GERLA—535

Adaptive Retransmission Randomization Schemes  
for a Packet Switched Random Access Broadcast  
Channel

A. FUKUDA, K. MUKUMOTO and

T. HASEGAWA—543

### **Session 313**

#### **New Services—549**

Integrating Voice and Data Traffic in a Broadcast  
Network Using Random Access Scheme

A. PAN—551

Evaluation of Different Data Communication  
Media within an Integrated Telecommunication  
System

R. PARODI, E. DIVANO and L. MUSUMECI  
—557

A Character Recognition Communication System  
H. KAIYOH, K. KOMORI and K. NAKAJIMA

—565

The Speech Filing Migration System

D. ZEHEB and S. J. BOIES—571

### **Session 321**

#### **Packet Switching—575**

DATAPAC Subscriber Service Update System  
Architecture and Operation

D. L. JEANES, A. K. TRIVEDI, W. J. OLDER  
and K. G. HAYWARD—577

DDX Packet Switched Network and its Technology  
M. MATSUMOTO, J. MIZUSAWA and H. OHNISHI  
—583

Development of a Packet Switching Node Prior to  
Opening of the French PTT Network, to Help  
Future Users Debug their Network Access  
Software

C. BERTIN, J. C. ADAM, P. GUINAUDEAU and  
Y. MATRAS—589

Packet Switching as an Additional Public Service  
Offered by the Deutsche Bundespost  
F. HILLEBRAND—595

#### **Session 322**

**Satellite Packet Switching (No. 2)—599**

SRUC: A Technique for Packet Transmission on  
Multiple Access Channels

F. BORGONOVO and L. FRATTA—601

Simulation and Analysis of Satellite Packet  
Switching Computer Networks

W. SZPANKOWSKI, K. ONO and Y. URANO  
—609

Analysis of Framed ALOHA Channel in Satellite  
Packet Switching Networks

H. OKADA, Y. IGARASHI and

Y. NAKANISHI—617

Evaluation and Measurement of the Performance  
Parameters for a High-Speed Computer-to-  
Computer Satellite Link

S. W. ULMER—623

#### **Session 331**

**Facsimile and Video Communication—629**

DIDON, the Experimental Data Packet  
Broadcasting System of the French Administration  
Y. NOIREL—631

Network and System Concepts for Packet Switched  
Data and Facsimile Communications

H. MORI, S. ANDO, J. MATSUMOTO and  
Y. WAKAHARA—637

Store-and-Forward Facsimile Switching System

A. YAJIMA, A. MORIDERA and A. INOUE—643

On Facsimile Application for Data Communication  
Network

M. HIROYAMA, M. TANIGUCHI, T. MORI and  
T. KAYANO—649

#### **Session 332**

**Network Interfacing—655**

Distributed Communication Processing in a Packet  
Switched Computer Communication Network

K. ONO, Y. URANO, K. SUZUKI and

A. KUREMATSU—657

Front end Processing of User Protocol with Public  
Telephone Network

H. KAWAI, Y. EBIHARA, J. YAEGASHI, K.  
TAKAHASHI and S. NOGUCHI—663

On Open Systems Architecture

H. ZIMMERMANN and N. NAFFAH—669

Evolution Toward a Universal Interface for Data  
Communications

H. C. FOLTS—675

#### **Session 341**

**Issues on Computer Communications and Activities  
of International Organizations (Oral Presentation)  
—681**

#### **Session 342**

**Recent Development of Computer Networks—683**

X.25 and Datagram Based Networks in Berlin  
(West)

H. W. STRACK-ZIMMERMANN, F. H. VOGT and  
M. WILHELM—685

Development of Compatible User Networks in PIX  
H. SARBINOWSKI—691

Architecture and the Service Facilities Provided  
by RPCENT — The Italian Network Among  
Education and Research Institutions

F. CANESCHI, E. FERRO, L. LENZINI,

M. MARTELLI, C. MENCHI, M. SOMMANI and  
F. TARINI—695

The System Concept of the Computer Network  
DELTA

D. CARL, W. DAMES, D. HAMMER, V. HEYMER,  
G. HOFFMANN, H. W. MEIER, C. SATTTLER and  
I. WENDE—703

#### **Session 411**

**Interactive Computer Based Office Support  
System—709**

The Wired World of the Office of the Future:

Applications and Impacts of Computerized

Conferencing in the Multi-National Organization

S. R. HILTZ and M. TUROFF—711

Facsimile Transmission in Message Processing  
Systems with Data Management

P. T. KIRSTEIN and S. YILMAZ—717

Research on Human Interface Considerations for  
Interactive Text Generation

K. E. WIMMER—727

Communication in the Office-of-the Future: where  
the Real Payoff may be

J. H. BAIR—733

Organizational Impacts of Office Automation

G. C. EDWARDS—741

#### **Session 412**

**Design Considerations of Computer Networks—747**

Automatically Verified Data Transfer Protocols

J. HAJEK—749

Reliability and Security: Primary Considerations  
in Network Design

R. D. COOP—757

Thirty Nine Steps to a Computer Network

J.-L. GRANGE and M. I. IRLAND—763

Method of Synthesis of Communication Networks  
for Computers

V. G. LAZAREV and N. YA. PARSHENKOV—771

**Session 421****Teletex and Text Communication—775**

Human Factors in Display Terminal Procedures

D. W. DAVIES and D. M. YATES—777

Technical Aspects of New Public Text

Communication Services

H. FLAKE—785

Some Studies in Sweden Indicate Teletex as a

Possible New Public Service

T. LARSSON—791

**Session 422****Protocol Design Considerations—795**

Design Considerations in Developing Systems

Network Architecture

E. M. THOMAS—797

Application Protocol Design Based on a Unified

Communication Model

E. RAUBOLD, G. SCHULZE, B. STRUIF,

J. BOERGER, M. HEINZE and W. WILHELM—803

Specification and Verification of End-to-End

Protocols

A. DANTHINE and J. BREMER—811

Concept and Design Considerations of Hierarchical

Database Access Protocol for Distributed Database

M. SAITO, S. KAWAZU, T. IZUOKI, and

S. ISHIGAKI—817

**Session 431****Computer Communications Present and Future**

(Panel Discussion)—823

**Closing Ceremony—825****Program Participants and Reviewers—827**

Participants in the Fourth International

Conference on Computer Communication—828

Reviewers for the International Conference

on Computer Communication—830

**Council Executive and Conference Committees  
—831**

Executive Committee of The International Council

for Computer Communication—833

Organization Committee of the Fourth

International Conference on Computer

Communication—834

Executive Committee of the Fourth International

Conference on Computer Communication—836

Program Committee of the Fourth International

Conference on Computer Communication—837

Program Advisory Committee of the Fourth

International Conference on Computer

Communication—838

Local Arrangements Committee of the Fourth

International Conference on Computer

Communication—839

Registration Committee of the Fourth

International Conference on Computer

Communication—840

Finance Committee of the Fourth International

Conference on Computer Communication—840

Publicity Committee of the Fourth International

Conference on Computer Communication—841

**Session Schedule—842**

## Opening Ceremony

Chairman

**B. OGUCHI**  
Senior Managing Director  
and Chief Engineer  
NTT, Japan

President, ICC

**P. E. JACKSON**  
Manager, Systems Planning,  
Bell-Northern Research  
Canada

# Opening Address of the Fourth International Conference on Computer Communication

"Computer and Telecommunication  
Utilities in Modern Society"

Y. KITAHARA  
Executive Vice-President, NTT  
Japan

## Keynote Session

### Keynote Speeches:

1211

**Data Networks as New Information Infrastructure:  
A Challenge to International Co-operation**

**H.P. GASSMANN**  
OECD, France

1212

**Computer Communications from the Information  
Processing Viewpoints**

**K.W. UNCAPHER**  
Univ. of Southern California, U.S.A.

1213

**Computer Communications from the  
Telecommunications Viewpoints**

**M. YAMAUCHI**  
Res. and Develop. Bureau, NTT, Japan

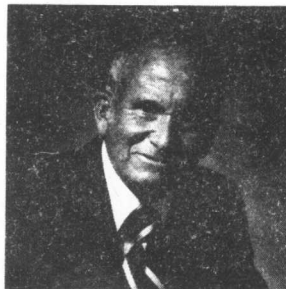

### Chairman

**Y. NAKAGOME**  
KDD  
Japan

**H. P. GASSMANN**  
OECD  
France

**K. W. UNCAPHER**  
Univ. of Southern  
California  
U. S. A.

**M. YAMAUCHI**  
R&D Bureau, NTT  
Japan

## Operating Experiences of Data Networks (No. 1)

### Papers

1311

The Public Switched Data Network of the  
Deutsche Bundespost: Three Years of Experience  
with the Electronic Data Switching System EDS —  
Future Development of EDS

G.ALTEHAGE and W. STAUDINGER  
FTZ, DBP, F.R. Germany

1312

DDX-2 Field Trial Experience

R. NAKAMURA, S. TOMITA and S. YOSHIDA  
Musashino ECL, NTT, Japan

1313

Performance Evaluations in CYCLADES

M. GIEN and J.-L. GRANGE  
IRIA, France

1314

The EIN Project: The End of the Beginning

D.L.A. BARBER  
NPL, U.K.

### Organizer and Chairman

P.T.F. KELLY  
UKPO, U.K.

Vice Chairman  
T. TAKATSUKI  
NTT, Japan
