About IDG Books Worldwide

Welcome to the world of IDG Books Worldwide.

IDG Books Worldwide, Inc., is a subsidiary of International Data Group, the world's largest publisher of business and computer-related information and the leading global provider of information services on information technology. IDG was founded more than 25 years ago and now employs more than 5,700 people worldwide. IDG publishes more than 200 computer publications in 63 countries (see listing below). Forty million people read one or more IDG publications each month.

Launched in 1990, IDG Books is today the fastest-growing publisher of computer and business books in the United States. We are proud to have received 3 awards from the Computer Press Association in recognition of editorial excellence, and our best-selling ...For Dummies series has more than 10 million copies in print with translations in more than 20 languages. IDG Books, through a recent joint venture with IDG's Hi-Tech Beijing, became the first U.S. publisher to publish a computer book in the People's Republic of China. In record time, IDG Books has become the first choice for millions of readers around the world who want to learn how to better manage their businesses.

Our mission is simple: Every IDG book is designed to bring extra value and skill-building instructions to the reader. Our books are written by experts who understand and care about our readers. The knowledge base of our editorial staff comes from years of experience in publishing, education, and journalism — experience which we use to produce books for the '90s. In short, we care about books, so we attract the best people. We devote special attention to details such as audience, interior design, use of icons, and illustrations. And because we use an efficient process of authoring, editing, and desktop publishing our books electronically, we can spend more time ensuring superior content and spend less time on the technicalities of making books.

You can count on our commitment to deliver high-quality books at competitive prices on topics customers want to read about. At IDG, we value quality, and we have been delivering quality for more than 25 years. You'll find no better book on a subject than an IDG book.

John Kilcullen
President and CEO
