

The background of the cover is a photograph of a desert canyon. In the foreground, there are several tall, jagged rock spires (hoodoos) made of reddish-brown sandstone. The canyon walls are also made of similar rock, with some horizontal layering visible. The ground is a mix of sandy soil and small green shrubs. In the distance, more rock formations and a winding path can be seen. The lighting suggests it might be late afternoon or early morning, with long shadows and warm tones.
