SUMMARY OF BOOKS PUBLISHED IN 1959

This is the annual cumulation of the Book Lists which appeared weekly in *The Bookseller* and monthly in *Current Literature* during 1959.

The figures, set out in detail on the opposite page, show a total output of 20,690 titles, 1,453 less than the record in 1958, in spite of the fact that the first six months of 1959 showed an increase of 339. Many titles scheduled for publication later in 1959 were postponed owing to the printing dispute in the summer which lasted for nearly seven weeks.

The figures since 1937 (the pre-war record year) are as follows:

Her Majesty's Stationery Office continues to issue a huge mass of papers, pamphlets and other material. It is practicable only to record the more important items and they appear in a separate section under *Government Publications* at the end of Section I. Each title is, of course, recorded under main entry and title entry in the Alphabetical List in Section II.

It will be of interest here to state that since 1941 the Book Lists contained in the Annual Volumes of *Whitaker's Cumulative Book List* have recorded each year over a thousand titles more than has any comparable list. These volumes form the *only* complete guide to British book publishing. In the totals of books recorded no book priced at less than sixpence is counted, although many are listed as having some general interest and for the convenience of book trade reference.

Every effort is made to maintain this Book List at the highest peak of efficiency, and the Editor will always welcome constructive criticism, and especially particulars of books which may not previously have been brought to his notice.

LIST OF PUBLISHERS

The following is a List of Publishers, with their full addresses, and, wherever possible, their telephone numbers and telegraphic addresses revised to date. In some few cases the addresses are doubtful, but the publisher's name is left in so that corrections may be made as soon as the new address is known. It will be noticed that several names have been admitted that might not usually be given as recognised publishers, the reason being that at least one book has been recently issued by them, and their address may therefore be required.
