CIRCUITS AND  
SYSTEMS

电路与系统

I: FUNDAMENTAL THEORY AND APPLICATION

JANUARY 2000 VOLUME 47 NUMBER 1

I 辑：“基础理论与应用”

IEEE Institute of Electrical & Electronics Engineers, Inc.

# IEEE CIRCUITS AND SYSTEMS SOCIETY

The IEEE Circuits and Systems Society is an organization of IEEE members with professional interest in the field of circuits and systems theory. All members of the IEEE are eligible for membership in the Society and will receive this TRANSACTIONS upon payment of the annual Society membership fee of \$7.00, plus an annual subscription fee of \$14.00. For information on joining, write to the IEEE at the address below. *Member copies of Transactions/Journals are for personal use only.*

## IEEE TRANSACTIONS ON CIRCUITS AND SYSTEMS—I: FUNDAMENTAL THEORY AND APPLICATIONS

Editor-in-Chief

M. N. S. SWAMY  
Department of Electrical and Computer Engineering  
Concordia University  
1455 de Maisonneuve Blvd. West  
Montreal, Quebec H3G 1M8  
Canada

### Analog and Mixed Signal Integrated Circuits

RANJIT GHARPUREY  
Texas Instruments Inc.  
P.O. Box 660199, MS 8755  
Dallas, TX 75266  
USA

### Analog Circuit and Filter Principles

P. V. ANANDA MOHAN  
Transmission R&D  
ITI Limited  
Bangalore, 560016  
India

GAETANO PALUMBO  
Dipart. Elett. Elettron.  
e Sistem.  
Univ. Catania  
Viale Andrea Doria, 6  
I-95125, Catania  
Italy

NARENDRA M. K. RAO  
Data Path Sys. Inc.  
5883 Rue Ferrari  
San Jose, CA 95138  
USA

### Cellular Neural Networks

PETER SZOLGAY  
Analogic and Neural  
Comput. Lab.  
Comput. Automat. Institut.  
Hungarian Academy Sci.  
Kende u. 13-17  
H-1111, Budapest  
Hungary

### Chaos and Bifurcations

MARIO DI BERNARDO  
Dept. Eng. Mathemat.  
Univ. Bristol  
Bristol, BS8 1TR  
U.K.

CHI K. TSE  
Dept. Electron. Infor. Eng.  
The Hong Kong  
Polytech. Univ.  
Kowloon, Hong Kong  
China

### Computational Methods

RONALD TETZLAFF  
Institut. Applied Physics  
Johann Wolfgang  
Goethe Univ.  
Robert Mayer St. 2-4  
D-60325, Frankfurt  
Germany

### Digital Circuits and Filters

WU-SHENG LU  
Dept. Elect. Comput. Eng.  
Univ. Victoria  
Victoria, BC, Canada  
V8W 3P6

### Digital Integrated Circuits

RAMALINGAM SRIDHAR  
Dept. Comput. Sci. Eng.  
State Univ. NY, Buffalo  
226 Bell Hall  
Buffalo, NY 14260  
USA

ROBERT W. NEWCOMB  
Dept. Elect. Eng.  
Univ. Maryland  
College Park, MD 20742  
USA

### General Circuits and Systems Theory

P. K. RAJAN  
Dept. Elect. Comput. Eng.  
Tennessee Technol. Univ.  
P.O. Box 5004  
Cookeville, TN 38505  
USA

LEONID M. ROYTMAN  
Dept. Elect. Eng.  
City College, City Univ.  
of New York  
141 Street & Convent Ave.  
New York, NY 10031  
USA

### Graphs, Networks, and Applications

K. THULASIRAMAN  
School. Comput. Sci.  
Univ. Oklahoma  
200 Felgar St.  
Norman, OK 73019  
USA

### Multidimensional Signals and Systems

SANKAR BASU  
IBM Thomas J. Watson  
Res. Cntr.  
P.O. Box 218  
Yorktown Heights, NY  
10598  
USA

### Neural Networks

FATHI M. SALAM  
Dept. Elect. Comput. Eng.  
Michigan State Univ.  
East Lansing, MI 48824  
USA

MARCO GILLI  
Dept. Elect.  
Polytechnic Turin  
Corso Duca degli  
Abruzzi 24  
I-10129, Torino  
Italy

### Nonlinear Circuits and Systems

MACIEJ J. OGORZALEK  
Dept. Elect. Eng.  
Univ. Mining and Metallurgy  
al. Mickiewicza 30  
30-059 Krakow  
Italy

GIANLUCA SETTI  
Dipt. di Ingegneria  
Univ. Ferrara  
Via Saragat 1  
44100, Ferrara  
Poland

### Power Electronics and Systems

HENRY S. H. CHUNG  
Dept. Elect. Eng.  
City Univ. Hong Kong  
Tat Chee Ave.  
Kowloon, Hong Kong,  
China

### Signal Processing

M. OMAIR AHMAD  
Dept. Elect. Comput. Eng.  
Concordia Univ.  
1455 de Maisonneuve  
Blvd. West  
Montreal, PQ, Canada  
H3G 1M8

WASFY B. MIKHAEL  
Dept. Elect. Comput. Eng.  
Univ. Central Florida  
P.O. Box 162450  
Orlando, FL 32816  
USA

### Simulation/Modeling and Analysis

YOONDONG PARK  
Dept. Biomedical Eng.  
Univ. Southern  
California  
OHE 500, Univ. Park  
Los Angeles, CA 90089  
USA

### Systems and Control

GUANRONG CHEN  
Dept. Electron Eng.  
City Univ. Hong Kong  
Tat Chee Ave.  
Kowloon, Hong Kong  
China

### Wavelets, Filter Banks, and Applications

P. P. VAIDYANATHAN  
Dept. Elect. Eng.  
California Instit. Technol.  
Pasadena, CA 91125  
USA

## THE INSTITUTE OF ELECTRICAL AND ELECTRONICS ENGINEERS, INC.

### Officers

BRUCE A. EISENSTEIN, *President*  
JOEL B. SNYDER, *President-Elect*  
DAVID J. KEMP, *Secretary*  
DAVID A. CONNER, *Treasurer*  
LYLE D. FEISEL, *Vice President, Educational Activities*

RALPH W. WYNDRUM, JR., *Director, Division I—Circuits and Devices*

MICHAEL S. ADLER, *Vice President, Publication Activities*  
ANTONIO BASTOS, *Vice President, Regional Activities*  
DONALD C. LOUGHRY, *Vice President, Standards Association*  
ROBERT A. DE'NT, *Vice President, Technical Activities*  
MERRILL W. BUCKLEY, *President, IEEE USA*

### Executive Staff

DANIEL J. SENESE, *Executive Director*

RICHARD D. SCHWARTZ, *Business Administration*  
W. THOMAS SUTTLE, *Professional Activities*  
MARY WARD-CALLAN, *Technical Activities*  
JOHN WITSKEN, *Information Technology*

### IEEE Periodicals

#### Transactions/Journals Department

*Staff Director:* FRAN ZAPPULLA  
*Editorial Director:* VALERIE CAMMARATA  
*Production Director:* ROBERT SMREK  
*Transactions Manager:* GAIL S. FERENC  
*Electronic Publishing Manager:* STEPHEN COHEN  
*Managing Editor:* ROBERT W. DAVIDSON  
*Associate Editor:* MARY RINKER

### Acknowledgment

Reprint authorized by  
The Institute of Electrical  
and Electronics Engineers,

IEEE TRANSACTIONS ON CIRCUITS AND SYSTEMS—I: FUNDAMENTAL THEORY AND APPLICATIONS (ISSN 1057-7122) is published monthly by the Institute of Electrical and Electronics Engineers, Inc. Responsibility for the contents rests upon the authors and not upon the IEEE, the Society/Council, or its members. IEEE Corporate Office: 3 Park Avenue, 17th Floor, NY 10016-5997. IEEE Operations Center: 445 Hoes Lane, P.O. Box 1331, Piscataway, NJ 08855-1331. NJ Telephone: +1 732 981 0060. Price/Publication Information: Individual copies: IEEE Members \$10.00 (first copy only), nonmembers \$20.00 per copy. (Note: Add \$4.00 postage and handling charge to any order from \$1.00 to \$50.00, including prepaid orders.) Member and nonmember subscription prices available upon request. Available in microfiche and microfilm. Copyright and Reprint Permissions: Abstracting is permitted with credit to the source. Libraries are permitted to photocopy for private use of patrons, provided the per-copy fee indicated in the code at the bottom of the first page is paid through the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923. For all other copying, reprint, or republication permission, write to Copyrights and Permissions Department, IEEE Publications Administration, 445 Hoes Lane, P.O. Box 1331, Piscataway, NJ 08855-1331. Copyright © 2000 by the Institute of Electrical and Electronics Engineers, Inc. All rights reserved. Periodicals Postage Paid at New York, NY and at additional mailing offices. Postmaster: Send address changes to IEEE TRANSACTIONS ON CIRCUITS AND SYSTEMS—I: FUNDAMENTAL THEORY AND APPLICATIONS, IEEE, 445 Hoes Lane, P.O. Box 1331, Piscataway, NJ 08855-1331. GST Registration No. 125634188. Printed in U.S.A.

# IEEE CIRCUITS AND SYSTEMS SOCIETY

The IEEE Circuits and Systems Society is an organization of IEEE members with professional interest in the field of circuits and systems theory. All members of the IEEE are eligible for membership in the Society and will receive this TRANSACTIONS upon payment of the annual Society membership fee of \$7.00, plus an annual subscription fee of \$14.00. For information on joining, write to the IEEE at the address below. *Member copies of Transactions/Journals are for personal use only.*

## IEEE TRANSACTIONS ON CIRCUITS AND SYSTEMS—I: FUNDAMENTAL THEORY AND APPLICATIONS

Editor-in-Chief

## INFORMATION FOR AUTHORS

The IEEE TRANSACTIONS ON CIRCUITS AND SYSTEMS—I: FUNDAMENTAL THEORY AND APPLICATIONS is published monthly with a distribution of over 11,000 copies. The field of interest covered includes analog, passive, switched-capacitor, and digital filters; electronic circuits, networks, and graph theory; system theory; discrete, IC, and VLSI circuit design; multidimensional circuits and systems; large-scale systems and power networks; nonlinear circuits and systems, wavelets, filter banks, and applications; neural networks; and signal-processing. Submissions dealing with applications of circuits and systems are strongly encouraged. This TRANSACTIONS consists of three sections.

- 1) *Papers*—Contributions in this section describe excellent and useful new results, ideas, or innovations that advance significantly the state-of-the-art in circuits and systems; alternatively, they may present excellent tutorial expositions on topics of current interest.
- 2) *Transactions Briefs*—Contributions in this section describe good new ideas, results, or innovations that advance measurably the state-of-the-art in circuits and systems.
- 3) *Circuits and Systems Expositions (CASE)*—Contributions in this section present, in a clearly readable manner, expositions on topics of interest to TRANSACTIONS readers. These papers lucidly explain new or old topics in a tutorial fashion. They must possess a new or innovative slant in the method of presentation.

Submission of a contribution is taken to manifest the fact that the submission has not been submitted, accepted, published, or copyrighted elsewhere. However, manuscripts submitted to or accepted by this TRANSACTIONS may also be submitted for oral presentation at the IEEE International Symposium on Circuits and Systems or other conferences sponsored by the IEEE Circuits and Systems Society.

Contributions which are of general interest and of value to the entire IEEE membership should be submitted for publication in the PROCEEDINGS OF THE IEEE. Tutorial papers or papers of general interest which deal with the tools of the engineering profession should be submitted to the IEEE CIRCUITS AND DEVICES MAGAZINE (see F below). Contributions dealing with computer aids for the design of integrated circuits and systems should be submitted to IEEE TRANSACTIONS ON COMPUTER-AIDED DESIGN OF INTEGRATED CIRCUITS AND SYSTEMS (see E below).

To avoid publication delays, please send all manuscripts to the Editor-in-Chief and observe the following guidelines.

### A. Submission of a Paper or Transactions Brief

- 1) Send seven copies of your Paper or five copies of a Transactions Brief to the Editor-in-Chief. Each copy should be complete with illustrations (if any), keywords, and abstract. See the front cover of this issue for the name and address of the Editor-in-Chief.
- 2) Manuscripts submitted as Papers should state the significance of the problem in the Introduction.
- 3) The length of a manuscript submitted as a paper should not exceed the equivalent of 30 double-spaced typewritten pages (8 1/2 x 11) including figures, and a Transactions Brief should not exceed six double-spaced typewritten pages and six figures of moderate size, or eight double-spaced typewritten pages but no figures.
- 4) Enclose originals for the illustrations, in the style described below. Alternatively, good quality copies may be sent initially, but the originals should be ready to be sent immediately upon acceptance of the paper or Transactions Brief.
- 5) Enclose a separate signed letter giving your preferred address (including zip code), telephone, fax number, and e-mail address (if available) for correspondence and return of proofs.
- 6) If the manuscript has been presented, published, or submitted for publication elsewhere, please so inform the Editor-in-Chief. Our primary objective is to publish technical material not available elsewhere, but on occasion we publish papers of unusual merit that have appeared or will appear before other audiences.

### B. Submission of Circuits and Systems Expositions (CASE)

- 1) Send seven copies of your manuscript directly to the Editor-in-Chief, each copy complete with illustrations (if any), keywords, and abstract.
- 2) Manuscripts should be intelligible to an average senior undergraduate electrical engineering student. The length of the manuscript is not a relevant criterion for its acceptability as an exposition paper. The chief criterion would be lucidity of exposition, as well as accuracy of technical content.
- 3) Enclose originals for the illustrations, in the style described below. Alternatively, good quality copies may be sent initially, but the originals should be ready to be sent immediately upon acceptance of the paper.
- 4) Enclose a separate signed letter giving your preferred address (including zip code), telephone, fax number, and e-mail address (if available) for correspondence and return of proofs.

### C. Style for Submission of Manuscript

- 1) The manuscript should be typewritten using double space; use one side of sheet only. (Good office-duplicated copies are acceptable.)
- 2) Provide an informative 100- to 250-word abstract, and index terms at the head of the manuscript.
- 3) Provide a separate double-spaced sheet listing all footnotes, beginning with "Manuscript received \_\_\_\_\_" and "Affiliation of author" and continuing with numbered footnotes. Acknowledgment of financial support is often placed at the end of the footnote.
- 4) References may appear as numbered footnotes, or in a separate bibliography at the end of the paper, with items referred to by numerals in square brackets, e.g., [12]. In either case, references should be complete and in IEEE style (see item 6).

*Style for papers:* Author, first initials followed by last name, title, volume, inclusive page numbers, month, and year.

*Style for books:* Author, title, location and publisher, year, chapter or page numbers (if desired). See this or previous issues for examples.

- 5) Provide a separate sheet listing all figure captions, in proper style for the typesetter, e.g., "Fig. 6. The final wide-band amplifier design."
- 6) For further information see the booklet *Information for IEEE Transactions and Journal Authors*, available from the IEEE Periodicals Department, 445 Hoes Lane, P.O. Box 1331, Piscataway, NJ 08855-1331, or by email to "trans@ieee.org" or by fax at +1 732 562 0545.

### D. Style for Illustrations

Figures and photos should be the original proofs and not copies. Photos must be glossy prints without screens. Laser prints are not acceptable in place of photos or where greyscale graphics are involved. All line drawings and photos should be in black and white, unless color is specifically requested. Font size should be readily legible when the drawing is reduced to a 1 or 2 column width and as much as a 4:1 reduction from the original. All original materials should not be larger than 22 x 28 cm (8 1/2 by 11 in.). Do not import electronic graphics into your paper.

### E. IEEE Transactions on Computer-Aided Design of Integrated Circuits and Systems

This TRANSACTIONS is published monthly. Original contributions and tutorial expositions relating to the design, development, integration, and application of computer aids for the design of integrated circuits and systems are considered.

### F. IEEE Circuits and Devices Magazine

The IEEE Circuits and Devices Magazine is published bimonthly. It is the primary organ for communications within Division I. It also publishes technical articles of general interest which deal with the tools of the engineering profession.

### G. IEEE International Symposium on Circuits and Systems

This annual symposium, sponsored by the IEEE Circuits and Systems Society, features the presentation of original research papers and invited papers by researchers from both industry and universities. The symposium provides a forum for discussion of topics in circuit and system theory and is held every year. For information on the forthcoming symposiums, contact the VP-Conferences of the IEEE Circuits and Systems Society for programs.

### H. Page Charges

After a manuscript has been accepted for publication, the author's institution will be approached with a request to pay a page charge of \$110 per page to cover part of the cost of publication. If the page charge is honored, the author will receive 100 free reprints (without covers). Otherwise IEEE will charge a mandatory page charge of \$175 per page for each page in excess of 10. Detailed instructions will accompany the page proofs.

### I. Copyright

It is the policy of the IEEE to own the copyright to the technical contributions it publishes. To comply with IEEE copyright policy, authors are required to sign an IEEE Copyright Transfer Form before publication in either the print or electronic medium. The form is provided upon acceptance of their manuscript. Authors must return a signed copy of this form with their manuscript.

### J. Special Issues

Special issues of this TRANSACTIONS may be proposed to the Editor-in-Chief by any individual when a new, unique, exciting, and/or timely subject area is identified.

### K. Electronic Form of Final Manuscript

For final printed production of the manuscript, the author will need to provide a disk (5 1/4" or 3 1/2") and two paper copies of the peer-approved version. Please be certain that changes made to the paper version are incorporated into your disk version and include an ASCII version of the file. Note the operating system (DOS, MAC, UNIX, etc.) and the software used on the label of the disk. Check that your files are complete, including: abstract, text, references, footnotes, biographies, and figure captions. IEEE can process most commercial software, but not page layout programs. Do not send Postscript files. The preferred programs are TeX, LaTeX, and Word Perfect (use standard macros). At IEEE, LaTeX style files can be obtained by e-mail at "help@ep.ieee.org". Authors of accepted manuscripts can e-mail their final version to "tcase@ieee.org". Two paper copies of the e-mail file along with the original figures and photos should be sent to the Editor-in-Chief.

# IEEE CIRCUITS AND SYSTEMS SOCIETY

The IEEE Circuits and Systems Society is an organization of IEEE members with professional interest in the field of circuits and systems theory. All members of the IEEE are eligible for membership in the Society and will receive this TRANSACTIONS upon payment of the annual Society membership fee of \$7.00, plus an annual subscription fee of \$14.00. For information on joining, write to the IEEE at the address below. *Member copies of Transactions/Journals are for personal use only.*

## INFORMATION FOR AUTHORS

The IEEE TRANSACTIONS ON CIRCUITS AND SYSTEMS—I: FUNDAMENTAL THEORY AND APPLICATIONS is published monthly with a distribution of over 11,000 copies. The field of interest covered includes analog, passive, switched-capacitor, and digital filters; electronic circuits, networks, and graph theory; system theory; discrete, IC, and VLSI circuit design; multidimensional circuits and systems; large-scale systems and power networks; nonlinear circuits and systems, wavelets, filter banks, and applications; neural networks; and signal processing. Submissions dealing with applications of circuits and systems are strongly encouraged. This TRANSACTIONS consists of three sections.

- 1) *Papers*—Contributions in this section describe excellent and useful new results, ideas, or innovations that advance significantly the state-of-the-art in circuits and systems; alternatively, they may present excellent tutorial expositions on topics of current interest.
- 2) *Transactions Briefs*—Contributions in this section describe good new ideas, results, or innovations that advance measurably the state-of-the-art in circuits and systems.
- 3) *Circuits and Systems Expositions (CASE)*—Contributions in this section present, in a clearly readable manner, expositions on topics of interest to TRANSACTIONS readers. These papers lucidly explain new or old topics in a tutorial fashion. They must possess a new or innovative slant in the method of presentation.

Submission of a contribution is taken to manifest the fact that the submission has not been submitted, accepted, published, or copyrighted elsewhere. However, manuscripts submitted to or accepted by this TRANSACTIONS may also be submitted for oral presentation at the IEEE International Symposium on Circuits and Systems or other conferences sponsored by the IEEE Circuits and Systems Society.

Contributions which are of general interest and of value to the entire IEEE membership should be submitted for publication in the PROCEEDINGS OF THE IEEE. Tutorial papers or papers of general interest which deal with the tools of the engineering profession should be submitted to the IEEE CIRCUITS AND DEVICES MAGAZINE (see F below). Contributions dealing with computer aids for the design of integrated circuits and systems should be submitted to IEEE TRANSACTIONS ON COMPUTER-AIDED DESIGN OF INTEGRATED CIRCUITS AND SYSTEMS (see E below).

To avoid publication delays, please send all manuscripts to the Editor-in-Chief and observe the following guidelines.

### A. Submission of a Paper or Transactions Brief

- 1) Send seven copies of your Paper or five copies of a Transactions Brief to the Editor-in-Chief. Each copy should be complete with illustrations (if any), keywords, and abstract. See the front cover of this issue for the name and address of the Editor-in-Chief.
- 2) Manuscripts submitted as Papers should state the significance of the problem in the Introduction.
- 3) The length of a manuscript submitted as a paper should not exceed the equivalent of 30 double-spaced typewritten pages (8 1/2 x 11) including figures, and a Transactions Brief should not exceed six double-spaced typewritten pages and six figures of moderate size, or eight double-spaced typewritten pages but no figures.
- 4) Enclose originals for the illustrations, in the style described below. Alternatively, good quality copies may be sent initially, but the originals should be ready to be sent immediately upon acceptance of the paper or Transactions Brief.
- 5) Enclose a separate signed letter giving your preferred address (including zip code), telephone, fax number, and e-mail address (if available) for correspondence and return of proofs.
- 6) If the manuscript has been presented, published, or submitted for publication elsewhere, please so inform the Editor-in-Chief. Our primary objective is to publish technical material not available elsewhere, but on occasion we publish papers of unusual merit that have appeared or will appear before other audiences.

### B. Submission of Circuits and Systems Expositions (CASE)

- 1) Send seven copies of your manuscript directly to the Editor-in-Chief, each copy complete with illustrations (if any), keywords, and abstract.
- 2) Manuscripts should be intelligible to an average senior undergraduate electrical engineering student. The length of the manuscript is not a relevant criterion for its acceptability as an exposition paper. The chief criterion would be lucidity of exposition, as well as accuracy of technical content.
- 3) Enclose originals for the illustrations, in the style described below. Alternatively, good quality copies may be sent initially, but the originals should be ready to be sent immediately upon acceptance of the paper.
- 4) Enclose a separate signed letter giving your preferred address (including zip code), telephone, fax number, and e-mail address (if available) for correspondence and return of proofs.

### C. Style for Submission of Manuscript

- 1) The manuscript should be typewritten using double space; use one side of sheet only. (Good office-duplicated copies are acceptable.)
- 2) Provide an informative 100- to 250-word abstract, and index terms at the head of the manuscript.
- 3) Provide a separate double-spaced sheet listing all footnotes, beginning with "Manuscript received \_\_\_\_\_" and "Affiliation of author" and continuing with numbered footnotes. Acknowledgment of financial support is often placed at the end of the footnote.
- 4) References may appear as numbered footnotes, or in a separate bibliography at the end of the paper, with items referred to by numerals in square brackets, e.g., [12]. In either case, references should be complete and in IEEE style (see item 6).  
*Style for papers:* Author, first initials followed by last name, title, volume, inclusive page numbers, month, and year.  
*Style for books:* Author, title, location and publisher, year, chapter or page numbers (if desired). See this or previous issues for examples.
- 5) Provide a separate sheet listing all figure captions, in proper style for the typesetter, e.g., "Fig. 6. The final wide-band amplifier design."
- 6) For further information see the booklet *Information for IEEE Transactions and Journal Authors*, available from the IEEE Periodicals Department, 445 Hoes Lane, P.O. Box 1331, Piscataway, NJ 08855-1331, or by email to "trans@ieee.org" or by fax at +1 732 562 0545.

### D. Style for Illustrations

Figures and photos should be the original proofs and not copies. Photos must be glossy prints without screens. Laser prints are not acceptable in place of photos or where greyscale graphics are involved. All line drawings and photos should be in black and white, unless color is specifically requested. Font size should be readily legible when the drawing is reduced to a 1 or 2 column width and as much as a 4:1 reduction from the original. All original materials should not be larger than 22 x 28 cm (8 1/2 by 11 in.). Do not import electronic graphics into your paper.

### E. IEEE Transactions on Computer-Aided Design of Integrated Circuits and Systems

This TRANSACTIONS is published monthly. Original contributions and tutorial expositions relating to the design, development, integration, and application of computer aids for the design of integrated circuits and systems are considered.

### F. IEEE Circuits and Devices Magazine

The IEEE *Circuits and Devices Magazine* is published bimonthly. It is the primary organ for communications within Division I. It also publishes technical articles of general interest which deal with the tools of the engineering profession.

### G. IEEE International Symposium on Circuits and Systems

This annual symposium, sponsored by the IEEE Circuits and Systems Society, features the presentation of original research papers and invited papers by researchers from both industry and universities. The symposium provides a forum for discussion of topics in circuit and system theory and is held every year. For information on the forthcoming symposiums, contact the VP-Conferences of the IEEE Circuits and Systems Society for programs.

### H. Page Charges

After a manuscript has been accepted for publication, the author's institution will be approached with a request to pay a page charge of \$110 per page to cover part of the cost of publication. If the page charge is honored, the author will receive 100 free reprints (without covers). Otherwise IEEE will charge a mandatory page charge of \$175 per page for each page in excess of 10. Detailed instructions will accompany the page proofs.

### I. Copyright

It is the policy of the IEEE to own the copyright to the technical contributions it publishes. To comply with IEEE copyright policy, authors are required to sign an IEEE Copyright Transfer Form before publication in either the print or electronic medium. The form is provided upon acceptance of their manuscript. Authors must return a signed copy of this form with their manuscript.

### J. Special Issues

Special issues of this TRANSACTIONS may be proposed to the Editor-in-Chief by any individual when a new, unique, exciting, and/or timely subject area is identified.

### K. Electronic Form of Final Manuscript

For final printed production of the manuscript, the author will need to provide a disk (5 1/4" or 3 1/2") and two paper copies of the peer-approved version. Please be certain that changes made to the paper version are incorporated into your disk version and include an ASCII version of the file. Note the operating system (DOS, MAC, UNIX, etc.) and the software used on the label of the disk. Check that your files are complete, including: abstract, text, references, footnotes, biographies, and figure captions. IEEE can process most commercial software, but not page layout programs. Do not send Postscript files. The preferred programs are TeX, LaTeX, and Word Perfect (use standard macros). At IEEE, LaTeX style files can be obtained by e-mail at "help@ep.ieee.org". Authors of accepted manuscripts can e-mail their final version to "tcasl@ieee.org". Two paper copies of the e-mail file along with the original figures and photos should be sent to the Editor-in-Chief.

# IEEE CIRCUITS AND SYSTEMS SOCIETY

The IEEE Circuits and Systems Society is an organization of IEEE members with professional interest in the field of circuits and systems theory. All members of the IEEE are eligible for membership in the Society and will receive this TRANSACTIONS upon payment of the annual Society membership fee of \$7.00, plus an annual subscription fee of \$14.00. For information on joining, write to the IEEE at the address below. *Member copies of Transactions/Journals are for personal use only.*

## INFORMATION FOR AUTHORS

The IEEE TRANSACTIONS ON CIRCUITS AND SYSTEMS—1: FUNDAMENTAL THEORY AND APPLICATIONS is published monthly with a distribution of over 11,000 copies. The field of interest covered includes analog, passive, switched-capacitor, and digital filters; electronic circuits, networks, and graph theory; system theory; discrete, IC, and VLSI circuit design; multidimensional circuits and systems; large-scale systems and power networks; nonlinear circuits and systems, wavelets, filter banks, and applications; neural networks; and signal processing. Submissions dealing with applications of circuits and systems are strongly encouraged. This TRANSACTIONS consists of three sections.

- 1) *Papers*—Contributions in this section describe excellent and useful new results, ideas, or innovations that advance significantly the state-of-the-art in circuits and systems; alternatively, they may present excellent tutorial expositions on topics of current interest.
- 2) *Transactions Briefs*—Contributions in this section describe good new ideas, results, or innovations that advance measurably the state-of-the-art in circuits and systems.
- 3) *Circuits and Systems Expositions (CASE)*—Contributions in this section present, in a clearly readable manner, expositions on topics of interest to TRANSACTIONS readers. These papers lucidly explain new or old topics in a tutorial fashion. They must possess a new or innovative slant in the method of presentation.

Submission of a contribution is taken to manifest the fact that the submission has not been submitted, accepted, published, or copyrighted elsewhere. However, manuscripts submitted to or accepted by this TRANSACTIONS may also be submitted for oral presentation at the IEEE International Symposium on Circuits and Systems or other conferences sponsored by the IEEE Circuits and Systems Society.

Contributions which are of general interest and of value to the entire IEEE membership should be submitted for publication in the PROCEEDINGS OF THE IEEE. Tutorial papers or papers of general interest which deal with the tools of the engineering profession should be submitted to the IEEE CIRCUITS AND DEVICES MAGAZINE (see F below). Contributions dealing with computer aids for the design of integrated circuits and systems should be submitted to IEEE TRANSACTIONS ON COMPUTER-AIDED DESIGN OF INTEGRATED CIRCUITS AND SYSTEMS (see E below).

To avoid publication delays, please send all manuscripts to the Editor-in-Chief and observe the following guidelines.

### A. Submission of a Paper or Transactions Brief

- 1) Send seven copies of your Paper or five copies of a Transactions Brief to the Editor-in-Chief. Each copy should be complete with illustrations (if any), keywords, and abstract. See the front cover of this issue for the name and address of the Editor-in-Chief.
- 2) Manuscripts submitted as Papers should state the significance of the problem in the Introduction.
- 3) The length of a manuscript submitted as a paper should not exceed the equivalent of 30 double-spaced typewritten pages (8 1/2 x 11) including figures, and a Transactions Brief should not exceed six double-spaced typewritten pages and six figures of moderate size, or eight double-spaced typewritten pages but no figures.
- 4) Enclose originals for the illustrations, in the style described below. Alternatively, good quality copies may be sent initially, but the originals should be ready to be sent immediately upon acceptance of the paper or Transactions Brief.
- 5) Enclose a separate signed letter giving your preferred address (including zip code), telephone, fax number, and e-mail address (if available) for correspondence and return of proofs.
- 6) If the manuscript has been presented, published, or submitted for publication elsewhere, please so inform the Editor-in-Chief. Our primary objective is to publish technical material not available elsewhere, but on occasion we publish papers of unusual merit that have appeared or will appear before other audiences.

### B. Submission of Circuits and Systems Expositions (CASE)

- 1) Send seven copies of your manuscript directly to the Editor-in-Chief, each copy complete with illustrations (if any), keywords, and abstract.
- 2) Manuscripts should be intelligible to an average senior undergraduate electrical engineering student. The length of the manuscript is not a relevant criterion for its acceptability as an exposition paper. The chief criterion would be lucidity of exposition, as well as accuracy of technical content.
- 3) Enclose originals for the illustrations, in the style described below. Alternatively, good quality copies may be sent initially, but the originals should be ready to be sent immediately upon acceptance of the paper.
- 4) Enclose a separate signed letter giving your preferred address (including zip code), telephone, fax number, and e-mail address (if available) for correspondence and return of proofs.

### C. Style for Submission of Manuscript

- 1) The manuscript should be typewritten using double space; use one side of sheet only. (Good office-duplicated copies are acceptable.)
- 2) Provide an informative 100- to 250-word abstract, and index terms at the head of the manuscript.
- 3) Provide a separate double-spaced sheet listing all footnotes, beginning with "Manuscript received \_\_\_\_\_" and "Affiliation of author" and continuing with numbered footnotes. Acknowledgment of financial support is often placed at the end of the footnote.
- 4) References may appear as numbered footnotes, or in a separate bibliography at the end of the paper, with items referred to by numerals in square brackets, e.g., [12]. In either case, references should be complete and in IEEE style (see item 6).  
*Style for papers:* Author, first initials followed by last name, title, volume, inclusive page numbers, month, and year.  
*Style for books:* Author, title, location and publisher, year, chapter or page numbers (if desired). See this or previous issues for examples.
- 5) Provide a separate sheet listing all figure captions, in proper style for the typesetter, e.g., "Fig. 6. The final wide-band amplifier design."
- 6) For further information see the booklet *Information for IEEE Transactions and Journal Authors*, available from the IEEE Periodicals Department, 445 Hoes Lane, P.O. Box 1331, Piscataway, NJ 08855-1331, or by email to "trans@ieee.org" or by fax at +1 732 562 0545.

### D. Style for Illustrations

Figures and photos should be the original proofs and not copies. Photos must be glossy prints without screens. Laser prints are not acceptable in place of photos or where greyscale graphics are involved. All line drawings and photos should be in black and white, unless color is specifically requested. Font size should be readily legible when the drawing is reduced to a 1 or 2 column width and as much as a 4:1 reduction from the original. All original materials should not be larger than 22 x 28 cm (8 1/2 by 11 in.). Do not import electronic graphics into your paper.

### E. IEEE Transactions on Computer-Aided Design of Integrated Circuits and Systems

This TRANSACTIONS is published monthly. Original contributions and tutorial expositions relating to the design, development, integration, and application of computer aids for the design of integrated circuits and systems are considered.

### F. IEEE Circuits and Devices Magazine

The IEEE *Circuits and Devices Magazine* is published bimonthly. It is the primary organ for communications within Division I. It also publishes technical articles of general interest which deal with the tools of the engineering profession.

### G. IEEE International Symposium on Circuits and Systems

This annual symposium, sponsored by the IEEE Circuits and Systems Society, features the presentation of original research papers and invited papers by researchers from both industry and universities. The symposium provides a forum for discussion of topics in circuit and system theory and is held every year. For information on the forthcoming symposiums, contact the VP-Conferences of the IEEE Circuits and Systems Society for programs.

### H. Page Charges

After a manuscript has been accepted for publication, the author's institution will be approached with a request to pay a page charge of \$110 per page to cover part of the cost of publication. If the page charge is honored, the author will receive 100 free reprints (without covers). Otherwise IEEE will charge a mandatory page charge of \$175 per page for each page in excess of 10. Detailed instructions will accompany the page proofs.

### I. Copyright

It is the policy of the IEEE to own the copyright to the technical contributions it publishes. To comply with IEEE copyright policy, authors are required to sign an IEEE Copyright Transfer Form before publication in either the print or electronic medium. The form is provided upon acceptance of their manuscript. Authors must return a signed copy of this form with their manuscript.

### J. Special Issues

Special issues of this TRANSACTIONS may be proposed to the Editor-in-Chief by any individual when a new, unique, exciting, and/or timely subject area is identified.

### K. Electronic Form of Final Manuscript

For final printed production of the manuscript, the author will need to provide a disk (5 1/4" or 3 1/2") and two paper copies of the peer-approved version. Please be certain that changes made to the paper version are incorporated into your disk version and include an ASCII version of the file. Note the operating system (DOS, MAC, UNIX, etc.) and the software used on the label of the disk. Check that your files are complete, including: abstract, text, references, footnotes, bibliographies, and figure captions. IEEE can process most commercial software, but not page layout programs. Do not send Postscript files. The preferred programs are T<sub>E</sub>X, L<sup>A</sup>T<sub>E</sub>X, and Word Perfect (use standard macros). At IEEE, L<sup>A</sup>T<sub>E</sub>X style files can be obtained by e-mail at "help@ep.ieee.org". Authors of accepted manuscripts can e-mail their final version to "tcasl@ieee.org". Two paper copies of the e-mail file along with the original figures and photos should be sent to the Editor-in-Chief.

# IEEE CIRCUITS AND SYSTEMS SOCIETY

The IEEE Circuits and Systems Society is an organization of IEEE members with professional interest in the field of circuits and systems theory. All members of the IEEE are eligible for membership in the Society and will receive this TRANSACTIONS upon payment of the annual Society membership fee of \$7.00, plus an annual subscription fee of \$14.00. For information on joining, write to the IEEE at the address below. *Member copies of Transactions/Journals are for personal use only.*

**J. A. NOSSEK**

**W. WOLF**  
**E. J. YOFFA**

*Term Ends December 31, 2001*

**E. G. FRIEDMAN**  
**N. FUJII**  
**I. GALTON**

**M. GREEN**  
**C. TOUMAZOU**

*Term Ends December 31, 2002*

**G. E. GIELEN**  
**R. GUPTA**  
**M. HASLER**

**P. PIRSCH**  
**H. YASUURA**

## Representatives

### Solid-State Circuits Society

**E. G. FRIEDMAN**  
Dept. Elect. Eng.  
Univ. Rochester  
Rochester, NY 14627

### IEEE Neural Networks Council

**C. Y. WU**  
Dept. Electron. Eng.  
Nat. Chiao Tung Univ.  
Hsin-Chu City  
300 Taiwan, R. O. C.

### IEEE Sensors Council

**J. M. ZURADA**  
Dept. Elect. Eng.  
Univ. Louisville  
Louisville, KY 40292

### IEEE Press Liaison

**M. E. ZAGHLOUL**  
Dept. Elect. Comput. Eng.  
George Washington Univ.  
Washington, DC 20052

### IEEE Press Liaison

**M. A. BAYOUMI**  
Ctr. Advanced Comput. Studies  
Univ. Louisiana  
Lafayette, LA 70504

## Standing Committees

### Awards

**Mac Van Valkenburg Award**  
**Technical Achievement Award**  
**Meritorious Service Award**  
**Education Award**  
**CAS Industrial Pioneer Award**  
**Darlington Award**  
**Guillemin-Cauer Award**  
**CAD Trans. Best Paper Award**  
**CSVT Trans. Best Paper Award**  
**VLSI Trans. Best Paper Award**

**Outstanding Young Author Award**  
**Chapter-of-the-Year Award**

**G. S. MOSCHYTZ**  
Swiss Federal Inst. of Technol.  
Inst. Signal and Inform.  
Processing  
**ETH Zentrum**  
8092 Zurich, Switzerland

### Constitution & Bylaws

**K. THULASIRAMAN**  
Sch. Comput. Sci.  
Univ. Oklahoma  
Norman, OK 73019

### Fellows

**W. K. CHEN**  
Dept. EECS  
Univ. Illinois  
Chicago,  
IL 60607

### Nominations

**R. J. P. de FIGUEIREDO**  
Dept. ECE,  
Univ. California  
Irvine, CA 92697

### Dist. Lecturer Program

**E. J. YOFFA**  
IBM Corp.  
T.J. Watson Res. Ctr.  
Rm. 39-153  
Yorktown Heights, NY  
10598

## Technical Committees

**Analog Signal Processing**  
**G CAUWENBERGHS**  
Dept. Elect. Comput. Eng.  
Johns Hopkins Univ.  
Baltimore, MD 21218

### Cellular Neural Networks & Array Computing

**T. ROSKA**  
Comput. Automaton  
Res. Inst.  
Hungarian Acad. Sci.  
1111 Budapest, Hungary

### Circuits & Systems for Communications

**M. A. BAYOUMI**  
Ctr. Advanced Comput. Studies  
Univ. Louisiana  
Lafayette, LA 70504

### Computer-Aided Network Design

**R. GUPTA**  
Dep. Inform. Comput. Sci.  
Univ. California  
Irvine, CA 92697

### Digital Signal Processing

**P. S. R. DINIZ**  
Programa de Engenharia  
Eletrica  
COPPE/Fed. Univ.  
Rio de Janeiro  
Rio de Janeiro  
RJ 21945-970, Brazil

### Multimedia Syst. & Appl.

**C.-S. Li**  
IBM T. J. Watson Res. Ctr.  
30 Sawmill River Rd.  
Hawthorne, NY 10532

**Neural Syst. & Appl.**  
**M. AHMADI**  
Dept. Elect. Comput.  
Eng.  
Univ. Windsor  
Windsor, ON N9B 3P4  
Canada

### Nonlinear Circuits & Syst.

**G. R. CHEN**  
Dept. Electron. Eng.  
City Univ. Hong Kong  
Hong Kong, SAR

### Power Syst. & Power Elect. Circuits

**A. IOINOVICI**  
Dept. Elect. Electron. Eng.  
Holon Inst. Technol.  
Education  
Holon 58102, Israel

### Sensors & Micromachining

**G. BARROWS**  
Naval Res. Lab.  
Code 5722  
Washington, DC 20375

### Visual Signal Proc. & Commun.

**J. OSTERMANN**  
AT&T Labs-Res.  
Rm. 3-231  
Red Bank, NJ 07701

### VLSI Syst. & Appl.

**R. SRIDHAR**  
Dept. Comput. Sci.  
& Eng.  
SUNY at Buffalo  
Buffalo, NY 14260

### IEEE CAD Trans.

**G. DE MICHELI, Editor**  
Gates Comp. Science,  
Rm 333  
Stanford Univ.  
Stanford, CA 94305

### IEEE CAS I Trans.

**M. N. S. SWAMY, Editor**  
Dept. Elect. Comput. Eng.  
Concordia Univ.  
Montreal, PQ H3G 1M8  
Canada

### IEEE CAS II Trans.

**C. TOUMAZOU, Editor**  
Dept. Elect. Electron. Eng.  
Imperial College  
Exhibition Road  
London SW7 2BT, U.K.

**A. J. PAYNE, Corresponding Editor**  
Dept. Elect. Electron. Eng.  
Imperial College  
Exhibition Road  
London SW7 2BT, U.K.

### IEEE CSVT Trans.

**W. LI, Editor**  
WebCast Technol., Inc.  
257 Castro St., Ste. 209  
Mountain View, CA 94041

### IEEE Multimedia Trans.

**M.-T. SUN, Editor**  
Dept. Elect. Eng.  
Univ. Washington  
Seattle, WA 98195

### IEEE VLSI Syst. Trans.

**W. WOLF, Editor**  
Dept. Elect. Eng.  
Princeton Univ.  
Princeton, NJ 08544

### IEEE CAS Newsletter

**M. K. SAIN, Editor**  
Dept. Elect. Eng.  
Univ. Notre Dame  
Notre Dame, IN 46556

### IEEE Circuits and Devices Mag.

**M. E. ZAGHLOUL, Editor for CAS Society**  
Dept. Elect. Comput. Eng.  
George Washington Univ.  
Washington, DC 20052

### APCCAS Gen. Chair

**Y.-S. WU**  
Tianjin University  
Tianjin 300072  
China

### DAC Gen. Chair

**G. DE MICHELI**  
Gates Comp. Sci.,  
Rm. 333  
Stanford Univ.  
Stanford, CA 94305

### ICCAD Gen. Chair

**E. M. SENTOVICH**  
Cadence Berkeley Labs.  
2001 Addison St., 3rd fl.  
Berkeley, CA 94704

### ICCD Gen. Chair

**C. CHASE**  
Dept. ECE  
Univ. Texas  
Austin, TX 78712

### ICECS Gen. Chair

**A. A. SFEIR**  
Lebanese American  
Univ.  
Beirut, Lebanon

### ISCAS Gen. Chair

**M. HASLER**  
Dept. Elect. Eng.  
Swiss Federal Inst.  
Technol., EPFL  
1015 Lausanne,  
Switzerland

### MWSCAS Gen. Chair

**F. SALAM**  
Dept. Elect. Eng.  
Michigan State Univ.  
East Lansing, MI 48824
