NOTE

1. This book is compiled on the basis of the revised Chinese edition of «The administrative divisions of the People's Republic of China, 1980», containing all the administrative divisions at and above county-level ratified by the State Council up to the end of 1980. It consists mainly of 2 parts:
 - (1) Tables of the administrative divisions at and above county-level of provinces, autonomous regions and municipalities with sketch maps;
 - (2) Index of the administrative divisions of the PRC.
2. In the tables of administrative divisions, in addition to the proper name, each of the administrative units is given a number representing the administrative system it directly belongs, and used as a means to look up its approximate location in the provincial sketch map. For example, the numerals "1" and "3" indicate the province-level units "Beijing Municipality" and "Hebei Province" respectively; "4" in "3-4" indicates the prefecture-level unit "Handan Prefecture of Hebei Province"; and "12" in "3-4-12" indicates the county-level unit "Daming County" of the said prefecture and province.
3. The names of seats are shown in parentheses following the names of the administrative units.
