ACKNOWLEDGMENTS

I would like to thank the Dade County Medical Examiner's Office for putting up with me for a week, and particularly Dr. Charles Wetlie, whose patience talking with someone trained in Ophthalmology and Surgery instead of Forensic Pathology was extraordinary. I would also like to thank Dr. Charles Hirsh, Chief Medical Examiner for the City of New York, for his hospitality, and Dr. Jackie Lee for her willingness to share a glimpse into the more personal side of Forensic Pathology.

Last, but not least, I would like to thank Jean Reeds, whose intuitive sense of psychology makes her support, advice, and criticism inordinately valuable.
