OPENING SPEECH

First of all, I wish to express, on behalf of the Chinese Pharmacological Society(CNPHARS), our warm welcome to all the pharmacologists, scholars and scientists from different institutions of the Southeast Asian and Western Pacific Region and other countries, especially all the members of the Executive Committee of IUPHAR. Here I would like to introduce to you all, the president of IUPHAR, Prof. C. T. Dollery and the president of the meeting and Australian Pharmacological Society, Prof. M. J. Rand.

We, all the Chinese pharmacologists feel very glad and much honored that Beijing has been chosen as the venue of such an important meeting (The 5th SEA/WP RMP). Nearly 250 participants from abroad and 700 from home are attended.

It is my wish that this meeting will no doubt contribute positively to the furtherance of the international cooperation in pharmacological sciences and promotion of the friendship among pharmacologists all over the world.

Ladies and gentlemen, you are going to join the scientific activities, five days will pass quickly. I sincerely wish you will enjoy all the programmes, and then you will go to visit other cities other than Beijing. You will have opportunities to meet with more Chinese counterparts. At the same time you will also have the chances to see the Chinese culture, history and people, we hope you will enjoy a pleasant stay in China.

Lastly, on behalf of the Chinese Pharmacological Society, I wish to also express my appreciation for the generous support given to us by Australian Pharmacological Society, CIBA-GEIGY Co. and some other pharmaceutical companies which have made this meeting possible.

I wish the meeting a complete success both scientifically and socially. Thank you.

Wang Zhen-Gang, Professor
President
Chinese Pharmacological Society
Vice President
5th SEA/WP RMP
