## VOLUME II WORKING PAPERS TO ACCOMPANY CHAPTERS 13-24 OF

#### Welsch, Newman, and Zlatkovich, Intermediate Accounting, 7th Edition

The working papers provide appropriate forms for solutions of the Exercises (approximately 199), and Problems (approximately 182), included in the above textbook. These working papers are assembled in two separate volumes as follows:

Volume I—For Chapters 1-13 inclusive. Volume II—For Chapters 13-24 inclusive.

Each volume includes five groups of forms as follows (each group is in a separate section):	Number of Forms Provided Volume II
Specially designed forms—These forms are specially designed for each selected exercise and problem. Typically, they provide most of the top and side captions required to solve the exercise or problem	343
number of exercises and problems	149
number of the exercises and problems  Form C—Three money-column form—needed for a number of	163
exercises and problems	7
Form D—T-account form—needed for only a few exercises	
and problems	0
Total forms provided in Volume II	662

#### HOW TO SELECT THE APPROPRIATE FORMS FOR AN EXERCISE OR PROBLEM

On the next several pages is a list of the exercises, problems, and cases by **chapter** for which forms have been provided. There is a **separate line** for each exercise, problem, and case. The line for each exercise, problem, and case lists the **forms** and the **number** of each form needed for the solution. Each of the five groups of forms listed above is in a **separate section** in the above order.

To solve a particular exercise or problem, first consult the list that follows and identify the forms needed. Next turn to the appropriate sections and select the required forms; then proceed with the solution. In formulating your response, do not hesitate to use scratch paper, aside from the standard forms.
