ACKNOWLEDGEMENTS

This book is not a one-man-operation. Two sources of inspiration and guidance have greatly contributed to its realisation. As the topic of this study is so much entwined with practice it seems justified to mention its representatives first. For a number of years I have had the good fortune to maintain invaluable as well as congenial contacts with the banking community. I would especially like to mention Mr. F. Bauling (NMB), Mr. J. van den Berg (RABObank Nederland), Mr. J.W.H. Blomkwist (AMRO), Mr. J.A.H.M. Boerhof (ABN), Mr. H.A. Cysouw (AMRO), Mr. P. Kaarls (ABN), Mr. G.P. Steinrath (NMB) and Mr. N.W. Stut (NMB). From the perspective of the building industry Mr. H.C.J. Cavadino, Mr. J.E. van Doorn, Mr. J.W. Tuininga and Mr. W.H. van de Wal (Ballast Nedam), and Mr. H. Hammelbroek (Netherlands Association of International Contractors) provided me with important information, insights and materials. Another angle to bank guarantees was kindly highlighted by Mr. A. Kalff, Mr. J.A. Kuhlman, Mr. H.M. van Leuven and Mr. J.S.M. Schrijver of the Dutch Export Credit Insurance Company (NCM). Mr. P. Cornet of the Dutch Central Bank assisted me in matters of statistics and accountancy.

The second source of inspiration and guidance was the academic one. I express my gratitude to Professor F.H.J. Mijnsen in particular. Working with him was a privilege and pleasure. Many thanks are also due to Professor R. van Delden, Mr. A.S. Hartkamp, Professor E.H. Hondius, Professor P. Vlas, Professor A.J.O. van Wassenae van Catwijck and Professor B. Wessels. I have benefited from their comments.

Many others gave technical assistance which I have greatly appreciated. I may mention some of them in particular. Ms. Sylvia Kneller carefully checked the text and scrutinised the proofs; Mr. W. Bouman was responsible for the editing of this book, while the staff of the Law Department library managed to obtain unobtainable documents and materials.
