ADVANCES IN

Surgery

VOLUMES 1 THROUGH 43 (OUT OF PRINT)

VOLUME 47

1. Repair of Giant Ventral Hernias *by Jai Bikhchandani and Robert Joseph Fitzgibbons Jr*
2. Laparoscopic Colon Resection: Is It Being Utilized? *by Sean Joseph Langenfeld, Jon S. Thompson, and Dmitry Oleynikov*
3. Safety of Surgical Resident Training *by Usama Ahmed Ali and Jon D. Vogel*
4. Current Management of the Zollinger-Ellison Syndrome *by Geoffrey W. Krampitz and Jeffrey A. Norton*
5. What Laboratory Tests Are Required for Ambulatory Surgery? *by Jaime Benarroch-Gampel and Taylor S. Riall*
6. Factors Affecting Readmission After Pancreaticoduodenectomy *by Callisia N. Clarke, Jeffrey J. Sussman, Daniel E. Abbott, and Syed A. Ahmad*
7. Should Peritoneal Lavage Be Used with Suction During Laparoscopic Appendectomy for Perforated Appendicitis? *by Shawn D. St. Peter and George W. Holcomb III*
8. Appendicitis: Changing Perspectives *by Pedro G.R. Teixeira and Demetrios Demetriades*
9. Readmission After Abdominal Aortic Aneurysm Repair: What Does it Mean? *by David Yu Greenblatt, Sara Fernandes-Taylor, and K. Craig Kent*
10. Duodenal Switch for Morbid Obesity: Is it Safe? *by Rodney J. Mason*
11. Is Propranolol of Benefit in Pediatric Burn Patients? *by Celeste C. Finnerty and David N. Herndon*
12. What Is the Optimal Means of Staging Colon Cancer? *by Elizabeth A. Arena and Anton J. Bilchik*

13. The Effect of Do-Not-Resuscitate Status on Postoperative Mortality in the Elderly Following Emergency Surgery *by John E. Scarborough and Theodore N. Pappas*
14. Incidental Gall Bladder Cancer *by Anu Behari and Vinay K. Kapoor*
15. General Surgery Residency Training Issues *by Mary E. Klingensmith and Frank R. Lewis*
16. Is the Abdominal Aortic Aneurysm Rupture Rate Decreasing? *by Andy M. Lee and Elliot L. Chaikof*
17. Stress-induced Hyperglycemia: Is It Harmful Following Trauma? *by Patrick L. Bosarge and Jeffrey D. Kerby*
18. Improvement in the Diagnosis of Appendicitis *by Frederick Thurston Drake and David Reed Flum*

VOLUME 46

1. Who Should Have or Not Have an Axillary Node Dissection with Breast Cancer? *by Richelle T. Williams, David P. Winchester, Katharine Yao, and David J. Winchester*
2. Intestinal Stomas: Indications, Management, and Complications *by Sean T. Martin and Jon D. Vogel*
3. Zero Surgical Site Infections: Is It Possible? *by C. Daniel Smith*
4. Does Simulation Training Improve Outcomes in Laparoscopic Procedures? *by Benjamin Zendejas, Roberto Hernandez-Irizarry, and David R. Farley*
5. Hypertonic Resuscitation After Severe Injury: Is it of Benefit? *by Eileen M. Bulger and David B. Hoyt*
6. What is the Prognosis After Retransplantation of the Liver? *by Ali Zarrinpar and Johnny C. Hong*
7. Screening for Abdominal Aortic Aneurysms *by Joseph L. Bobadilla and K. Craig Kent*
8. Novel Management Strategies in the Treatment of Severe *Clostridium difficile* Infection *by Ibrahim Nassour, Evie H. Carchman, Richard L. Simmons, and Brian S. Zuckerbraun*
9. The Genetic Counselor: An Important Surgical Ally in the Optimal Care of the Cancer Patient *by Erin Salo-Mullen and Jose Guillem*

10. Readmission Rates after Abdominal Surgery: Can They Be Decreased to a Minimum? *by Thomas J. Lee and Robert C.G. Martin II*
11. Superiority of Minimally Invasive Parathyroidectomy *by John W. Kunstman and Robert Udelsman*
12. Current Treatment of Papillary Thyroid Microcarcinoma *by Xiao-Min Yu, Ricardo Lloyd, and Herbert Chen*
13. Use of Computed Tomography in the Emergency Room to Evaluate Blunt Cerebrovascular Injury *by Nancy A. Parks and Martin A. Croce*
14. How Important is Glycemic Control During Coronary Artery Bypass? *by Harold L. Lazar*
15. Capillary Leak Syndrome in Trauma: What is it and What are the Consequences? *by Deborah M. Stein and Thomas M. Scalea*
16. Morbidity and Effectiveness of Laparoscopic Sleeve Gastrectomy, Adjustable Gastric Band, and Gastric Bypass for Morbid Obesity *by Timothy D. Jackson and Matthew M. Hutter*
17. Are Cancer Trials Valid and Useful for the General Surgeon and Surgical Oncologist? *by Waddah B. Al-Refaie and Setwyn M. Vickers*
18. The Current Management of Pancreatic Neuroendocrine Tumors *by Trevor A. Ellison and Barish H. Edil*

VOLUME 45

1. Current Management of Small Bowel Obstruction *by Martin Donald Zielinski and Michael Patrick Bannon*
2. Screening for Colorectal Cancer *by Jin He and Jonathan E. Efron*
3. Varicose Vein: Current Management *by Beejay A. Feliciano and Michael C. Dalsing*
4. Geographic Variation in Health Care and the Affluence-Poverty Nexus *by Richard A. Cooper*
5. Endovascular Approaches to Arteriovenous Fistula *by Jennifer A. Sexton and John J. Ricotta*
6. Local and Regional Control in Breast Cancer: Role of Sentinel Node Biopsy *by Armando E. Giuliano and Soo Hwa Han*

7. Stem Cells in Acute Liver Failure *by Russell N. Wesson and Andrew M. Cameron*
8. Is There a Role for Bowel Preparation and Oral or Parenteral Antibiotics In Infection Control in Contemporary Colon Surgery? *by Susan Galandiuk, Donald E. Fry, Hiram C. Polk Jr*
9. Oral Antibiotics to Prevent Surgical Site Infections Following Colon Surgery *by Danielle Fritze, Michael J. Englesbe, and Darrell A. Campbell Jr*
10. Pancreatic Necrosectomy *by Jordan R. Stern and Jeffrey B. Matthews*
11. The Impact of Health Care Reform on Surgery *by Donald D. Trunkey*
12. Glucose Elevations and Outcome in Critically Injured Trauma Patients *by Joseph J. DuBose and Thomas M. Scalea*
13. Advances in the Surgical Management of Gastrointestinal Stromal Tumor *by Umer I. Chaudhry and Ronald P. DeMatteo*
14. Choledochoceles: Are They Choledochal Cysts? *by Kathryn M. Ziegler and Nicholas J. Zyromski*
15. What Does Ulceration of a Melanoma Mean for Prognosis? *by Glenda G. Callender and Kelly M. McMasters*
16. Influence of Surgical Volume on Operative Failures for Hyperparathyroidism *by Barbara Zarebczan and Herbert Chen*
17. Perioperative Normothermia During Major Surgery: Is It Important? *by Nestor F. Esnaola and David J. Cole*
18. Surgical Management of Hereditary Nonpolyposis Colorectal Cancer *by Matthew F. Kalady*
19. How to Change General Surgery Residency Training *by Steven C. Stain*
20. Recent Advances in the Diagnosis and Treatment of Gastrointestinal Carcinoids *by Joseph Valentino and B. Mark Evers*
21. The Past, Present, and Future of Biomarkers: A Need for Molecular Beacons for the Clinical Management of Pancreatic Cancer *by Jonathan R. Brody, Agnieszka K. Witkiewicz, and Charles J. Yeo*
22. Robotic-Assisted Major Pancreatic Resection *by H.J. Zeh III, David L. Bartlett, and A. James Moser*
23. Immunotherapy for Metastatic Solid Cancers *by Simon Turcotte and Steven A. Rosenberg*

24. Prophylaxis for Deep Vein Thrombosis and Pulmonary Embolism in the Surgical Patient *by Taki Galanis, Walter K. Kraft, and Geno J. Merli*

VOLUME 44

1. Single-Port Laparoscopic Surgery *by Anthony Y. Tsai and Don J. Selzer*
2. Combating Stress and Burnout in Surgical Practice: A Review *by Charles M. Balch and Tait Shanafelt*
3. Laparoscopic Gastric Bypass or Gastric Banding: Which Operation is Best? *by Ninh T. Nguyen, Johnathan Sloan, and Xuan-Mai T. Nguyen*
4. Prevention, Detection, and Management of Leaks Following Gastric Bypass for Obesity *by Ashish Agarwala and John M. Kellum*
5. Distinguishing Acute from Ruptured Appendicitis Preoperatively in the Pediatric Patient *by Ankush Gosain, Regan F. Williams, and Martin L. Blakely*
6. Screening Criteria for Breast Cancer *by Subhasis Misra, Naveenraj L. Solomon, Frederick L. Moffat, and Leonidas G. Koniaris*
7. Laparoscopic and Thoracoscopic Esophagectomy *by Ryan M. Levy, Joseph Wizorek, Manisha Shende, and James D. Luketich*
8. Biomedical and Health Informatics for Surgery *by Genevieve B. Melton*
9. Does the Type of Pancreaticojejunostomy After Whipple Alter the Leak Rate? *by Chad G. Ball and Thomas J. Howard*
10. Adjuvant Chemoradiation Therapy for Pancreas Cancer: Who Really Benefits? *by Nipun B. Merchant, Alexander A. Parikh, and Eric H. Liu*
11. Real-Time Glucose Monitoring in the Hospital: Future or Now? *by Jeffrey I. Joseph and Brian Hipszer*
12. Minimally Invasive Thyroid and Parathyroid Operations: Surgical Techniques and Pearls *by Brian Hung-Hin Lang*
13. What's New in Neoadjuvant Therapy for Breast Cancer? *by Georgia M. Beasley and John A. Olson Jr*
14. The Impact of Frailty on the Elderly on the Outcome of Surgery in the Aged *by Nefertiti A. Brown and Michael E. Zenilman*
15. Quality Improvement in Surgery: the American College of Surgeons National Surgical Quality Improvement Program Approach *by Angela M. Ingraham, Karen E. Richards, Bruce L. Hall, and Clifford Y. Ko*

16. Management of Disappearing Colorectal Hepatic Metastases
by Susanne Carpenter and Yuman Fong
17. Endovascular Repair of Traumatic Aortic Injuries *by David G. Neschis and Thomas M. Scalea*
18. Update on Familial Pancreatic Cancer *by Ralph H. Hruban, Marcia I. Canto, Michael Goggins, Richard Schulick, and Alison P. Klein*
19. The Role of PET Scanning in Pancreatic Cancer *by Oscar K. Serrano, Muhammad A. Chaudhry, and Steven D. Leach*
20. Reoperative Surgery for the Zollinger-Ellison Syndrome
by Stephen R. Grobmyer and Steven N. Hochwald
21. Computerized Physician Order Entry System in a Surgical Practice
by William M. Stone

Photocopying

Single photocopies of single articles may be made for personal use as allowed by national copyright laws. Permission of the Publisher and payment of a fee is required for all other photocopying, including multiple or systematic copying, copying for advertising or promotional purposes, resale, and all forms of document delivery. Special rates are available for educational institutions that wish to make photocopies for non-profit educational classroom use.

For information on how to seek permission visit www.elsevier.com/permissions or call: (+44) 1865 843830 (UK)/(+1) 215 239 3804 (USA).

Derivative Works

Subscribers may reproduce tables of contents or prepare lists of articles including abstracts for internal circulation within their institutions. Permission of the Publisher is required for resale or distribution outside the institution. Permission of the Publisher is required for all other derivative works, including compilations and translations (please consult www.elsevier.com/permissions).

Electronic Storage or Usage

Permission of the Publisher is required to store or use electronically any material contained in this periodical, including any article or part of an article (please consult www.elsevier.com/permissions). Except as outlined above, no part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the Publisher.

Notice

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Because of rapid advances in the medical sciences, in particular, independent verification of diagnoses and drug dosages should be made.

Although all advertising material is expected to conform to ethical (medical) standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

Inguinal Hernia: Follow or Repair?

Bala Ramanan, Brittney J. Maloley, and Robert J. Fitzgibbons Jr

Introduction	1
Incidence	2
Cause and natural history	2
Clinical presentation and diagnosis	3
Economic impact	4
Management	4
Women	4
Men	5
Long-term results of the randomized controlled trials	8
The North American hernia trial	8
UK trial	8
Comparison between the 2 trials and their long-term follow-up studies	9
Summary	10
References	10

Is It Safe to Follow Side Branch IPMNs?

Giovanni Marchegiani and Carlos Fernández-del Castillo

Introduction	13
Epidemiology	14
Diagnosis of Bd-IPMN	14
Transabdominal ultrasonography	14
Contrast-enhanced CT scan	15
MRI with MR cholangiopancreatography	15
Endoscopic US with cystic fluid analysis and cytology	15
Management of Bd-IPMN	17
Validation of the international guidelines for the management of Bd-IPMN	19
Summary	22
References	22

Endoscopic Myotomy for Achalasia

Christy M. Dunst, Ashwin A. Kurian, and Lee L. Swanstrom

Background	27
Technique	29

xvii

Efficacy	33
POEM in the setting of prior achalasia treatments	34
End-stage achalasia	36
Achalasia subtypes	36
Extended indications: nonachalasia neuromotor disorders	37
Gastroesophageal reflux disease	38
Comparison with heller myotomy	38
Summary	39
References	39

Can Interventionalists do Endovascular Aortic Aneurysm Repair As Well As Vascular Surgeons?

Tazo Inui and Dennis F. Bandyk

Background	43
Who should perform EVAR?	44
Centers of excellence for AAA management and EVAR	47
EVAR skills of surgeons and interventionalists	48
Is there a role for multidisciplinary EVAR care?	49
References	50

Does Walking Speed Predict Postoperative Morbidity?

Nicole T. Townsend and Thomas N. Robinson

Introduction	53
Importance of preoperative risk assessment for the older adult	54
History of preoperative risk assessment	54
Preoperative assessment: frailty	55
Walking speed alone reflects multidimensional frailty	56
Slow walking speed predicts adverse health outcomes	58
Walking speed predicts adverse surgical outcomes	59
Practical ways to measure walking speed	60
Future directions	61
References	62

Does Close Temperature Regulation Affect Surgical Site Infection Rates?

Ira L. Leeds, Elizabeth C. Wick, and Genevieve B. Melton

Introduction	65
Pathophysiology principles	66
Increased total oxygen consumption and decreased peripheral perfusion	66
Induced coagulopathy	67
Reduced immune response	68
Principles applied to surgical practice	68
Evidence base of clinical practice	70
Summary	74
References	74

The Utility of the Robot in Pancreatic Resections

Amer H. Zureikat, Melissa E. Hogg, and Herbert J. Zeh III

Introduction	77
Distal pancreatectomy	78
Outcomes	78
Specific steps where the robot offers technical improvement in distal pancreatectomy	82
RDP	82
Outcomes	82
Specific steps where the robot offers technical improvement in minimally invasive pancreaticoduodenectomy	87
Versatility of the robotic platform	90
Dissemination	92
Potential oncologic advantages to robotic pancreatic resections	92
Summary	93
References	93

Current Treatment for Small (<5 cm) Hepatocellular Carcinoma: Evolving Roles for Ablation and Resection

Amudhan Pugalenth, C. Suzanne Cutter, and Yuman Fong

Introduction	97
Outcomes after resection	99
Thermal ablation	100
RFA	100
Resection versus RFA	101
Resection and ablation	108
Algorithm for care	109
References	110

Screening for Pancreatic Cancer

Katherine E. Poruk, Matthew A. Firpo, and Sean J. Mulvihill

Background	115
The need for pancreatic cancer screening	116
Benefit of early detection in other common cancers	119
Potential difficulties with early detection screening	120
Problems related to lead-time and length bias	120
Problems related to screening test accuracy	121
Who and how to screen?	123
Groups at high risk of pancreatic adenocarcinoma	123
High-risk premalignant lesions: PanINs and IPMNs	124
Early mutations in pancreatic cancer development	125
Screening tools for pancreatic cancer	126
Current biomarkers for pancreatic cancer	126
Potential novel biomarkers for pancreatic cancer	127
Role of imaging in screening for pancreatic cancer	127
Opportunities for prevention	128
Practitioners and early detection	128

Summary	129
References	129

Tissue Engineering

Ravi S. Katari, Andrea Peloso, and Giuseppe Orlando

Introduction	137
Methods in tissue engineering	139
Cells	140
Biomaterials and scaffolds	141
Vascularization	142
Bioengineered constructs in surgery	143
Skin	143
Hollow structures: vessels, upper airways, and lower urinary tract	144
Solid organs: the next frontier	146
Heart	146
Liver	147
Kidney	148
Pancreas	148
Summary	149
References	149

Acute Cholecystitis: Early Versus Delayed Surgery

Werner Hartwig and Markus W. B  chler

Introduction	155
Pathogenesis	156
Clinical manifestation	156
Imaging	157
Severity of acute cholecystitis and treatment	158
Timing of cholecystectomy	159
Open versus laparoscopic cholecystectomy	161
Summary	162
References	162

Gastrointestinal Stromal Tumors: Who Should Get Imatinib and for How Long?

Vinod P. Balachandran and Ronald P. DeMatteo

Introduction	165
Oncogenic kinase mutations and imatinib	166
Metastatic GIST and imatinib	167
Is imatinib effective in metastatic GIST?	167
What is the optimal initial dosing scheme in metastatic GIST?	168
Is higher-dose imatinib ever appropriate as first-line therapy?	169
How is response to therapy optimally assessed?	170
Does the type of mutation affect prognosis in advanced GIST?	171
How long does imatinib treatment continue?	171
Is there a role for surgery in metastatic patients treated with imatinib?	172
What is appropriate therapy with evidence of disease progression?	173
