## Read This First

**T**he information in this book is as up to date and accurate as we can make it. But it's important to realize that the law changes frequently, as do fees, forms and other important legal details. If you handle your own legal matters, it's up to you to be sure that all information you use—including the information in this book—is accurate. Here are some suggestions to help you do this:

**First**, check the edition number on the book's spine to make sure you've got the most recent edition of this book. To learn whether a later edition is available, go to Nolo's online Law Store at [www.nolo.com](http://www.nolo.com) or call Nolo's Customer Service Department at 800-728-3555.

**Next**, because the law can change overnight, users of even a current edition need to be sure it's fully up to date. At [www.nolo.com](http://www.nolo.com), we post notices of major legal and practical changes that affect a book's current edition only. To check for updates, go to the Law Store portion of Nolo's website and find the page devoted to the book (use the "A to Z Product List" and click on the book's title). If you see an "Updates" link on the left side of the page, click on it. If you don't see a link, there are no posted changes—but check back regularly.

**Finally**, while Nolo believes that accurate and current legal information in its books can help you solve many of your legal problems on a cost-effective basis, this book is not intended to be a substitute for personalized advice from a knowledgeable lawyer. If you want the help of a trained professional, consult an attorney licensed to practice in your state.
