Preface

The location was St. Louis and "under" The Arch AAFM celebrated an Anniversary—its 35th. With Pride we reviewed the accomplishments of this Association and, in a special way, recognized our charter members.

As we reflected on the past, we, too, gave thought to the future. Ingredient Emphasis, Annual Short Courses, Regional Short Courses, and Manual Revision were the words frequently spoken. The need for feed microscopy is greater than ever and AAFM intends, as it has for thirty-four years, to lead the way.

Bob Bax, Chairman, and his committee, Sue Jaconis and Scott Webster, are to be commended for making this 35th Annual Meeting outstanding in every way.
