Acknowledgments

Several people worked hard to produce this book. Chris Williams suggested the idea and got it all started. Trudy Neuhaus was the book's first reader, and expertly directed the editorial and production processes. Susan Pink edited the manuscript with poise and skill. Don Hergert searched carefully for errors. And Claudette Moore provided guidance, advice, and encouragement. My sincere thanks to all.

ABOUT IDG BOOKS WORLDWIDE

Welcome to the world of IDG Books Worldwide.

IDG Books Worldwide, Inc., is a subsidiary of International Data Group, the world's largest publisher of computer-related information and the leading global provider of information services on information technology. IDG was founded more than 25 years ago and now employs more than 8,500 people worldwide. IDG publishes more than 270 computer publications in over 75 countries (see listing below). More than 90 million people read one or more IDG publications each month.

Launched in 1990, IDG Books Worldwide is today the #1 publisher of best-selling computer books in the United States. We are proud to have received eight awards from the Computer Press Association in recognition of editorial excellence and three from *Computer Currents'* First Annual Readers' Choice Awards, and our best-selling... *For Dummies®* series has more than 25 million copies in print with translations in 28 languages. IDG Books Worldwide, through a joint venture with IDG's Hi-Tech Beijing, became the first U.S. publisher to publish a computer book in the People's Republic of China. In record time, IDG Books Worldwide has become the first choice for millions of readers around the world who want to learn how to better manage their businesses.

Our mission is simple: Every one of our books is designed to bring extra value and skill-building instructions to the reader. Our books are written by experts who understand and care about our readers. The knowledge base of our editorial staff comes from years of experience in publishing, education, and journalism — experience which we use to produce books for the '90s. In short, we care about books, so we attract the best people. We devote special attention to details such as audience, interior design, use of icons, and illustrations. And because we use an efficient process of authoring, editing, and desktop publishing our books electronically, we can spend more time ensuring superior content and spend less time on the technicalities of making books.

You can count on our commitment to deliver high-quality books at competitive prices on topics you want to read about. At IDG Books Worldwide, we continue in the IDG tradition of delivering quality for more than 25 years. You'll find no better book on a subject than one from IDG Books Worldwide.
