Meaning of terms used in classifying annotating cases

The different expressions used to describe the effect of the annotating cases have the following meanings, and the classification of the annotating cases has been done strictly in accordance with these meanings. The annotating cases are grouped according to the points in the case which they annotate; within these groups they are listed chronologically. The terms used in classifying the annotating cases are as follows:—

“Applied” (Apld) This expression is used to denote the fact that the principle of law enunciated in the annotated case has been applied to a new set of facts and circumstances in the annotating case.

“Approved” (Apprvd) This expression is used to denote the fact that the annotated case has been considered to be good law in the annotating case where the latter is in a higher court than the former.

“Considered” (Consd) This expression is used where the remarks in the annotating case are devoid of adverse criticism and merely denote the giving of more or less careful consideration to the annotated case.

“Distinguished” (Distd) This expression is used where the earlier case is not necessarily doubted, but where some essential difference (either on the facts or in law) between it and the annotated case is pointed out.

“Doubted” (Dbtd) This expression is used where the court in the annotating case without definitely going to the length of saying that the annotated case is wrong, adduces reasons which seem to show that it is not accurate.

“Explained” (Expld) This expression is used where the earlier case is not necessarily doubted, but the decision arrived at is justified or accounted for by calling attention to some point of fact or of law which is usually but not necessarily, one not obvious on the face of the report.

“Extended” (Extd) Compare “Applied,” *supra*.

“Followed” (Folld) This expression is used to denote that the same principles of law are applied in the two cases. It does not necessarily imply that the facts are substantially identical in the two cases.

“Not Followed” (NF) Compare “Followed,” *supra*, to which it is the adverse.

“Overruled” (Overd) This expression is used where the annotating case is on substantially identical facts with the annotated case and in a higher court and the rule in the latter case is held to be wrong.

TABLE OF CASES

NOTE—Case numbers are printed in bold, thus: **264**, except in the case of cross-references which are printed in ordinary type, thus: 462.
