About the Author

Doug Lowe has written more than 20 computer books, including *PowerPoint 97 For Windows For Dummies* and *Internet Explorer 5 For Windows For Dummies*. Doug enjoys presenting boring technostuff in a style that is both entertaining and enlightening.

ABOUT IDG BOOKS WORLDWIDE

Welcome to the world of IDG Books Worldwide.

IDG Books Worldwide, Inc., is a subsidiary of International Data Group, the world's largest publisher of computer-related information and the leading global provider of information services on information technology. IDG was founded more than 30 years ago by Patrick J. McGovern and now employs more than 9,000 people worldwide. IDG publishes more than 290 computer publications in over 75 countries. More than 90 million people read one or more IDG publications each month.

Launched in 1990, IDG Books Worldwide is today the #1 publisher of best-selling computer books in the United States. We are proud to have received eight awards from the Computer Press Association in recognition of editorial excellence and three from Computer Currents' First Annual Readers' Choice Awards. Our best-selling ...*For Dummies*® series has more than 50 million copies in print with translations in 31 languages. IDG Books Worldwide, through a joint venture with IDG's Hi-Tech Beijing, became the first U.S. publisher to publish a computer book in the People's Republic of China. In record time, IDG Books Worldwide has become the first choice for millions of readers around the world who want to learn how to better manage their businesses.

Our mission is simple: Every one of our books is designed to bring extra value and skill-building instructions to the reader. Our books are written by experts who understand and care about our readers. The knowledge base of our editorial staff comes from years of experience in publishing, education, and journalism — experience we use to produce books to carry us into the new millennium. In short, we care about books, so we attract the best people. We devote special attention to details such as audience, interior design, use of icons, and illustrations. And because we use an efficient process of authoring, editing, and desktop publishing our books electronically, we can spend more time ensuring superior content and less time on the technicalities of making books.

You can count on our commitment to deliver high-quality books at competitive prices on topics you want to read about. At IDG Books Worldwide, we continue in the IDG tradition of delivering quality for more than 30 years. You'll find no better book on a subject than one from IDG Books Worldwide.

IDG is the world's leading IT media, research and exposition company. Founded in 1964, IDG had 1997 revenues of \$2.05 billion and has more than 9,000 employees worldwide. IDG offers the widest range of media options that reach IT buyers in 75 countries representing 95% of worldwide IT spending. IDG's diverse product and services portfolio spans six key areas including print publishing, online publishing, expositions and conferences, market research, education and training, and global marketing services. More than 90 million people read one or more of IDG's 290 magazines and newspapers, including IDG's leading global brands — Computerworld, PC World, Network World, Macworld and the Channel World family of publications. IDG Books Worldwide is one of the fastest-growing computer book publishers in the world, with more than 700 titles in 36 languages. The "...*For Dummies*®" series alone has more than 50 million copies in print. IDG offers online users the largest network of technology-specific Web sites around the world through IDG.net (<http://www.idg.net>), which comprises more than 225 targeted Web sites in 55 countries worldwide. International Data Corporation (IDC) is the world's largest provider of information technology data, analysis and consulting, with research centers in over 41 countries and more than 400 research analysts worldwide. IDG World Expo is a leading producer of more than 168 globally branded conferences and expositions in 35 countries including E3 (Electronic Entertainment Expo), Macworld Expo, ComNet, Windows World Expo, ICE (Internet Commerce Expo), Agenda, DEMO, and Spotlight. IDG's training subsidiary, ExecuTrain, is the world's largest computer training company, with more than 230 locations worldwide and 785 training courses. IDG Marketing Services helps industry-leading IT companies build international brand recognition by developing global integrated marketing programs via IDG's print, online and exposition products worldwide. Further information about the company can be found at www.idg.com.

Dedication

To Debbie, Rebecca, Sarah, and Bethany.

Author's Acknowledgments

The list of thank-yous for this book is long and goes back several years. I'd like to first thank John Kilcullen, David Solomon, Janna Custer, Erik Dafforn, Greg Robertson, and Ray Marshall for all their help with the first edition. Then came the second edition, for which I would like to thank Tim Gallan, Mary Goodwin, and Joe Salmeri. For the third edition, I'd like to thank Jennifer Ehrlich, Constance Carlisle, and Jamey L. Marcum.

For this fourth edition, I'd like to thank project editor Jeanne S. Criswell who did a great job of putting this book together in spite of missed deadlines, copy editor Ted Cains who made sure the i's were dotted and the t's were crossed, and technical editor Jamey L. Marcum who made many pertinent suggestions throughout. And, as always, thanks to all the behind-the-scenes people who chipped in with help I'm not even aware of.

Publisher's Acknowledgments

We're proud of this book; please register your comments through our IDG Books Worldwide Online Registration Form located at <http://my2cents.dummies.com>.

Some of the people who helped bring this book to market include the following:

Acquisitions, Editorial, and Media Development

Project Editor: Jeanne S. Criswell
(*Previous Edition: Jennifer Ehrlich*)

Acquisitions Editors: Steven H. Hayes,
Joyce Pepple
(*Previous Edition: Michael Kelly*)

Copy Editor: Ted Cains
(*Previous Edition: Constance Carlisle*)

Technical Editor: Jamey L. Marcum

Editorial Manager: Rev Mingle

Editorial Assistant: Jamila Pree

Production

Project Coordinator: Tom Missler

Layout and Graphics: Linda M. Boyer,
Thomas R. Emrick, Kelly Hardesty,
Angela F. Hunckler, Dave McKelvey,
Brian Torwelle, Brent Savage,
Jacque Schneider, Janet Seib,
Rashell Smith, Michael A. Sullivan

Proofreaders: Laura Bowman, Vicki Broyles,
Sarah Fraser, Brian Massey, Toni Settle,
Janet M. Withers

Indexer: Donald Glassman

Special Help

Barry Childs-Helton, Kim Darosett,
Nicole Haims, Jade Williams

General and Administrative

IDG Books Worldwide, Inc.: John Kilcullen, CEO; Steven Berkowitz, President and Publisher

Introduction 1

- About This Book.....1
- How to Use This Book2
- What You Don't Need to Read3
- Foolish Assumptions3
- How This Book Is Organized.....3
 - Part I: The Absolute Basics (A Network User's Guide).....4
 - Part II: Building Your Own Network4
 - Part III: The Dummies Guide to Network Management4
 - Part IV: Webifying Your Network4
 - Part V: More Ways to Network.....4
 - Part VI: The Part of Tens5
- Icons Used in This Book.....5
- Where to Go from Here.....6

Part 1: The Absolute Basics (A Network User's Guide) 7

Chapter 1: Networks Will Not Take Over the World, and Other Network Basics 9

- What Is a Network?10
- Why Bother?11
- Servers and Clients13
- Dedicated Servers and Peers.....14
- The NOS Choice.....14
- What Makes a Network Tick? (You Should Probably Skip This)16
- It's Not a Personal Computer Anymore!.....17
- The Network Manager18
- What Have They Got That You Don't Got?.....19

Chapter 2: Life on the Network 21

- Distinguishing Local Resources from Network Resources21
- What's in a Name?22
- Logging In to the Network.....23
- Understanding Shared Folders25
- Welcome to the Network 'Hood25
- Mapping Network Drives.....27
- Four Good Uses for a Shared Folder29
 - Use it to store files that everybody needs29
 - Use it to store your own files30
 - Use it as a pit stop for files on their way to other users30
 - Use it to back up your local disk.....31

Using a Network Printer	31
Logging Off of the Network	32
Chapter 3: Using a Network Printer	33
What's So Special about Network Printing?	33
A printer in every port	34
Printer configuration	35
Spooling and the print queue	36
What is a print job?	37
Adding a Network Printer	38
Using a Network Printer	40
Playing with the Print Queue	40
Using Windows Print Queue Tricks	41
What to Do When the Printer Jams	42
Chapter 4: Becoming a Server	43
Enabling File and Printer Sharing	43
Sharing a Disk Drive or Folder	45
Sharing a Printer	48
Chapter 5: Mr. McFeeley's Guide to E-Mail	51
E-Mail and Why It's So Cool	51
Sending and receiving e-mail	52
Understanding the post office	52
Microsoft Outlook	53
Sending e-mail	53
Reading your e-mail	55
Electronic Scheduling	56
Electronic Conferencing	56
E-Mail Etiquette	57
Chapter 6: Help! The Network's Down!	59
When Bad Things Happen to Good Computers	59
My Computer's Dead!	60
Ways to Check Your Network Connection	61
A Bunch of Error Messages Flew By!	62
The Windows 98 Networking Troubleshooter	63
Time to Experiment	64
How to Restart Your Computer	65
How to Restart the Network	66
The Care and Feeding of Your Network Guru	67
Computer Bribes for Serious Network Trouble	68

Part II: Building Your Own Network.....71

Chapter 7: The Bad News: You Have to Plan Ahead73

Making a Network Plan.....	73
Taking Stock.....	74
What you need to know.....	74
Programs that gather information for you.....	76
Considering Why You Need a Network, Anyway.....	78
Making Three Basic Network Decisions That You Can't Avoid.....	78
BND 1: What network operating system will you use?.....	79
BND 2: What arrangement of server computers will you use?.....	80
BND 3: How will you cable the network?.....	81
Using a Network Starter Kit — Networks to Go.....	81
Looking at a Sample Network Plan.....	82
The Cleavers' computer inventory.....	82
Why the Cleavers need a network.....	83
Network operating system.....	83
Server configuration.....	83
Network cabling.....	84

Chapter 8: Choose Your Weapon (Or Which Network Should I Use?)85

Novell NetWare.....	85
What's so great about NetWare?.....	86
The disadvantages of NetWare.....	87
Network Directory Service (also known as NDS).....	88
NetWare 4.2.....	89
NetWare 5.....	90
Windows NT Server 4.0.....	91
Windows 2000 Server.....	93
Other Server Operating Systems.....	94
OS/2 Warp Server.....	94
Banyan VINES.....	94
UNIX.....	94
Linux.....	95
Peer-to-Peer Networking with Windows.....	95
Why peer-to-peer networks are easier to use.....	95
Drawbacks of peer-to-peer networks.....	96
Windows 98.....	96
Windows NT Workstation 4.0.....	97
Artisoft's LANtastic.....	97

Chapter 9: Planning Your Servers99

To Dedicate or Not to Dedicate.....	99
How Much Disk Space?.....	101

What to Put on a File Server	101
The network itself	102
Shared data files	102
Private data files	102
Shared programs	103
Planning Your Network Drive Mapping	104
Sharing CD-ROM Drives	104
Using a Separate Print Server	106
Buying a Server Computer	106
Keeping the Power On	106
Location, Location, and Location	107

Chapter 10: Oh, What a Tangled Web We Weave (Cables, Adapters, and Other Stuff) 109

What Is Ethernet?	110
Three Types of Ethernet Cable	111
The yellow stuff	112
Thinnet	113
Unshielded twisted-pair (UTP) cable	115
Hubs and the Network	116
Network Interface Cards	119
Network Starter Kits	120
Professional Touches	121
Hints for Reading Network Ads	123

Chapter 11: Putting It Together (Or Insert Tab A into Slot B) 125

Getting the Tools You Need	125
Configuring Network Interface Cards	126
Installing the Network Card	127
Working with Cable	129
Attaching a BNC connector to thinnet cable	130
Attaching an RJ-45 connector to UTP cable	131
Installing the Network Software	133
Installing the server software	133
Installing client software	134
Testing Your Network Installation	136

Part III: The Dummies Guide to Network Management..... 137

Chapter 12: Help Wanted (A Network Manager's Job Description) 139

Identifying the Network Manager: A Closet Computer Geek	139
Throwing the Book at It	140
Managing the Network	142

Doing the Routine Stuff You Hate to Do	143
Managing Network Users	143
Getting the Tools of a Network Manager.....	144
Chapter 13: Who Are You? (Or Big Brother's Guide to Network Security)	147
Do You Need Security?	148
User Accounts	148
Passwords	149
A Password Generator for Dummies	150
User Rights.....	151
File System Rights (Who Gets What)	151
God (also known as the Administrator).....	154
User Profiles.....	155
Too Many Lists! (How to Manage Multiple Servers).....	156
Chapter 14: If I Could Save Time in a Bottleneck (Or Optimizing Your Network's Performance)	159
What Exactly Is a Bottleneck?.....	160
What Are the Eight Most Common Network Bottlenecks?	161
Tuning Your Network the Compulsive Way	162
Tuning a Windows 95 or 98 Server	164
Setting the File System performance option.....	164
Using the FAT32 file system.....	166
Tuning up Windows 98	166
Tuning a Windows NT Server	167
Tuning a NetWare Server.....	168
Chapter 15: Things That Go Bump in the Night (How to Protect Your Network Data)	169
Planning for Disaster	169
Backing Up Your Data	171
Why you should buy a tape drive	171
Backup programs	172
You don't have to back up every file every day	172
Server versus client backups	173
How many sets of backups should you keep?	174
A word about tape reliability	176
Changing the Oil Every 3,000 Miles	176
ScanDisk	176
Disk defragmenting	178
Guarding against the Dreaded Computer Virus	178
What is a virus?	178
The antivirus program	179
Safe computing	180

Chapter 16: How to Stay on Top of Your Network and Keep the Users Off Your Back	181
Training Your Users	181
Organizing a Library	182
Keeping Up with the Computer Industry	183
The Guru Needs a Guru, Too	184
Network Manager BS	185

Part IV: Webifying Your Network..... **187**

Chapter 17: Welcome to the Internet	189
What Is the Internet?	189
What Does the Internet Have to Offer?	190
File Transfer Protocol (FTP)	190
Internet e-mail	191
Internet Relay Chat (IRC)	191
Mailing lists	192
Telnet	192
Usenet newsgroups	192
World Wide Web	193
Understanding Internet Addresses	194
Coping with TCP/IP	197
What Is an Intranet?	197
Chapter 18: Connecting to the Internet	201
Connecting Your Network to the Internet	201
Connecting with modems	201
Connecting with high-speed private lines T1 and T3	204
Choosing a Web Browser	204
Worrying about Security Issues	206
Securing your network	207
Disabling TCP/IP file sharing on a modem connection	207
Considering other Internet security issues	209
Chapter 19: Hosting Your Own Web Site	211
Serving Up Your Web Page	211
Selecting a Web server	212
Selecting a Web-friendly operating system	212
Selecting Web server software	212
Protecting Your LAN from the Internet	213
Choosing Tools for Creating Web Pages	214
Dealing with CGI	215
Wake Up and Smell the Java	216

Scripts	217
JavaBeans and ActiveX	218
Active Server Pages (ASP)	218
Chapter 20: Creating an Intranet	219
What Is an Intranet?	219
What Do You Use an Intranet For?	220
What You Need to Set Up an Intranet	221
How You Create a Small Intranet with Personal Web Server	221
Starting Personal Web Server	222
Publishing a Web page to Personal Web Server	223
Accessing a Web page on Personal Web Server	224
Using the Home Page Wizard	225
 <i>Part V: More Ways to Network</i>	 227
Chapter 21: Networking Your Home	229
Step 1: Go Shopping	229
Step 2: Install the Cards	230
Step 3: Connect the Cable	230
Step 4: Restart the Computers	231
Step 5: Check the Network Settings	231
Step 6: Share Your Disk Drives	232
Step 7: Share Your Printers	233
Managing Your Home Network	235
Chapter 22: Dialing In to Your Network	237
Dial-Up Networking	238
Installing the dial-up server feature	239
Configuring a dial-up server	241
Configuring your home computer for Dial-Up Networking	243
Making the connection	244
Other Ways to Let Users Dial In	246
Using software for remote access	246
Using hardware for remote access	247
Chapter 23: Using Microsoft Office on a Network	249
Installing Office on a Network — Some Options	250
Accessing Network Files	251
Using Workgroup Templates	253
Working with Collaboration Features	255
Routing documents	255
Tracking changes	256
Replying with discussions	257
Networking an Access Database	257
