The preparation of this edition of *The European Community* has been a team effort, to which many people have contributed at various times and in various areas. The European Commission Information Office in London has given the greatest possible support and co-operation, and although many members of that office have helped, thanks are due in particular to Giancarlo Pau, former Head of the Information Unit, as well as Marguerite Brencley, Deborah Hall, Geoffrey Lamb and Simon Walsh. Martin Peach of D-G III (Internal Market and Industrial Affairs) in Brussels very kindly assisted in last-minute updating of data. Others who have given assistance in various ways include: Rohan Bolton of the European Parliament Office in London, Penelope Allport and John Hodgson of Macmillan Press, Veronika Ezerkalns, Jane Marcus, John Humphries, Malgorzata Lasocka, Timmothy O'Brien, and Jane Shaw. Finally, special thanks are due to Donna Mc Ginty, who unstintingly assisted in the seemingly undending checking and updating of data, and Aleksandras Vilčinskis, whose advice, encouragement and help proved invaluable throughout the preparation of this edition.

The following is a list of sources of copyright material that were used and consulted in the compilation of this edition. The Directory of the 'Council of Ministers Secretariat' has been reproduced from the *Eighteenth General Report on the Activities of the European Communities, 1984*, Commission of the European Communities (Brussels and Luxembourg, 1985), updated by information published in *Vacher's European Companion & Consultants Register* (A.S. Kerswill Ltd, London) and information supplied by the European Commission Information Office in London. The Directory of the 'Commission of the European Communities' (pp. 6-29) has been reproduced from *Directory of the Commission of the European Communities*, Office for Official Publications of the European Communities (Luxembourg, 1986). The Directory of 'Members of the European Parliament' has been reproduced from *European Parliament: List of Members of the Bureau, Parliament, Political Groups, Committees and Inter-parliamentary Delegations*, Office for Official Publications of the European Communities (Luxembourg, 1985). Many sources were consulted in the compilation of the 'Directory of Representative Organizations', but those which were used as a basis for the Directory include *Directory of the Professional Organizations set up at Community Level* (Brussels, 1980); *Directory of European Associations I: National Industrial, Trade & Professional Associations*, third edition, CBD

Research Ltd (Beckenham, Kent, 1981); *Directory of European Associations II: National Learned, Scientific and Technical Societies*, third edition, CBD Research Ltd (Beckenham, Kent, 1984); *Councils, Committees & Boards: A Handbook of Advisory, Consultative, Executive & Similar Bodies in British Public Life*, fifth edition, CBD Research Ltd (Beckenham, Kent, 1982); *Directory of British Associations*, seventh edition, CBD Research Ltd (Beckenham, Kent, 1982); *Pan-European Associations: A Directory of Multinational Organisations in Europe*, CBD Research Ltd (Beckenham, Kent, 1983); *The Europa Year Book* (editions from 1980-85), Europa Publications Ltd (London). In the Glossary, the list of committees (pp. 223-5) has been reproduced from *Council and Commission Committees* (Bull. EC 2-1980), updated by information from the European Commission Information Office in London; the table for 'Guidelines for a Basic Energy Saving Programme Recommended to Every Member State' (pp. 235-6) has been reproduced from from OJ C 149 (June, 1980 as updated by information in OJ C 20, January 1985); the 'Agreements and other Bilateral Commitments linking the Community with Non-member States' (pp. 252-61) has been reproduced from *Accords et autres engagements bilatéraux qui lient les Communautés à des pays tiers*, Commission of the European Communities, D-G I (External Relations) (Brussels, 1985); 'Eliminating Technical Barriers to Trade within the European Community', Table 1 (pp. 275-87), has been based on information as published in *British Business* (30 August 1985), updated by information from the European Commission Information Office in London and D-G III (Internal Market and Industrial Affairs) in Brussels; the 'Timetable for Completing the Internal Market by 1992' (pp. 289-96) has been reproduced from *Completing the Internal Market: White Paper from the Commission to the European Council* (Comm. (85)310, June 1985), updated by information as supplied by D-G III (Internal Market and Industrial Affairs), Brussels. Other sources consulted include the 1980-81 and 1982-3 editions of *Europe Today: State of European Integration*, European Parliament Secretariat (Luxembourg, 1981 and 1983); *Industrial Innovation: A Guide to Community Action, Services and Funding*, Commission of the European Communities, D-G XIII (Information Market and Innovation) (Luxembourg, 1984); *Grants and Loans from the European Community*, Office for Official Publications of the European Communities (Luxembourg, 1985). The publishers have made every effort to trace the copyright holders, but if they have inadvertently overlooked any, they will be pleased to make the necessary arrangements at the first opportunity.

How to Use the Book

The book consists of four major sections: (i) the Directory of Community Institutions (including directories of the Secretariat of the European Parliament; the Council of Ministers Secretariat; the Commission of the European Communities; and Members of the European Parliament); (ii) the Directory of Government Departments; (iii) the Directory of Representative Organizations (including directories of representative organizations for: Industry; Services Industries; Wholesale and Retail Trade; Small and Medium-sized Enterprises; Professions; Trade Unions; Employers; and Consumers); and (iv) the Glossary.

The Directory of Government Departments is arranged in alphabetical order by department, with countries arranged in alphabetical order therein.

The Directory of Representative Organizations is based on the Standard Industrial Classification System (CSO), as revised in 1980. Within each major area (Industry, Trade etc) subject areas are presented in alphabetical order, with subdivisions within each section organized in alphabetical order. Within each subject area, entries are given in alphabetical order by country and therein alphabetically by the name of the organization.

Throughout the Directory Sections, entries comprise the name of the institution/organization/department, address, and telephone and telex number where known.

The descriptive material in the Glossary is designed for general guidance. Precise contact points as found in the Directory sections are given for complete, and as far as possible, up-to-date advice. The Glossary comprises entries arranged in alphabetical order, and figures and tables attached to individual entries. For briefing and contact points on European Community interest in a specific matter: (i) check for a relevant alphabetical entry; (ii) check the Index, which gives references to all the entries in which each subject is mentioned; (iii) check the various Directories for additional contact points relating to specific interests. For briefing on broad aspects of European Community constitution or policy: (i) refer to the figures, which give the framework of Community organization and interest for 17 broad areas, attached to relevant summary entries by selecting the appropriate figure from the List of Figures on p. ix; (ii) within each figure, subjects in **bold type** are cross-references to

entries in the book giving more detail. Entries are arranged alphabetically, and give, as appropriate: (i) a brief description of the subject matter, supplements for certain summary entries with figures giving an overview; (ii) references to European Community publications, such as the *Official Journal of the European Communities* and the *Bulletin of the European Communities*; (iii) cross-references to other relevant entries and figures in the book (in **bold face**); (iv) contact points at national level in each of the governments of member states, contact points at national level for Community and national representative organizations, and contact points at Community level in the relevant institution (such as the European Commission or the Council of Ministers Secretariat), by cross-reference (in *italics*) to the Directories; (v) a list of any relevant Community-level consultative and management committees (for which references in European Community publications are found in the article on Committees); and (vi) further details as appropriate, mainly in the form of tables, or any other relevant contact points (with addresses given either directly in the entry, or, if the address relates to more than one entry, by cross-reference in *italics* to the Directories). Entries have been placed where the majority of users of the Glossary will expect to find them. In entry headings in the text, and in the Index, where more than one word forms part of the heading, the words are alphabetized as if continuous up to the first mark of punctuation, then again thereafter if that mark is a comma.

The Index presents all of the entries of the Glossary (given in **bold face**) as well as subjects that do not have an entry in the Glossary in their own right, but which are included in the body of book. Where page numbers are given in **bold face**, that number indicates the main source of information in the Glossary on that subject; where page numbers are given in *italics*, that number indicates that the subject is mentioned in one of the figures in the Glossary; where the same page number appears twice in succession in the index, those numbers indicate that the subject is mentioned in the text of the Glossary as well as in one of the figures.

The running heads throughout the book give, on the left-hand page, the first complete entry beginning in the first column, and on the right-hand page, the last entry beginning in the second column. Exceptionally, in the Glossary, if a running head is for a figure or a table that is alphabetically out of sequence, it is shown in square brackets.
