Analytical Strategies for the Analysis of Related Compounds

Table of Contents

Subject	Page
List of Tables.....	5
List of Figures.....	13
List of Schemes.....	18
List of Abbreviations.....	19
Preface.....	22
 PART I: General Introduction.....	 25
I.1. Related Substances.....	27
I.2. Aim of the Work.....	28
 PART II: Derivative Spectrophotometric Analysis of a Mixture of Glibenclamide and Metformin Hydrochloride in Pharmaceutical Preparations	 31
II.1. Introduction.....	33
II.2. The Studied Compounds.....	38
II.2.A. Glibenclamide.....	38
II.2.A.i. Pharmacological Action.....	39
II.2.A.ii. Literature Review.....	39

Table of Contents

Subject	Page
II.2.B. Metformin Hydrochloride.....	43
II.2.B.i. Pharmacological Action.....	44
II.2.B.ii. Literature Review.....	45
II.2.C. Glibenclamide and Metformin HCl Combination	50
II.2.C.i. Pharmacological Action.....	50
II.2.C.ii. Literature Review.....	51
II.3. Aim of the Work.....	56
II.4. Experimental.....	56
II.5. Results and Discussion.....	62
II.6. Conclusion.....	95
PART III: Fluorometric Determination of Bopindolol and Celiprolol in Pharmaceutical Preparations and Biological Fluids.	97
III.1. Introduction.....	99
PART IIIA: Fluorometric Determination of Bopindolol in Its Tablet Dosage Form: Application to Content Uniformity Testing	103
III.A.1. Bopindolol.....	105
III.A.1.i. Pharmacological Action.....	105
III.A.1.ii. Literature Review.....	106

Table of Contents

Subject	Page
III.A.2. Aim of the Work.....	110
III.A.3. Experimental.....	110
III.A.4. Results and Discussion.....	114
III.A.5. Conclusion.....	135
<i>PART IIIB: Fluorometric Determination of Celiprolol HCl in Pharmaceutical Preparations and Biological Fluids</i>	137
III.B.1. Celiprolol HCl.....	139
III.B.1.i. Pharmacological Action.....	139
III.B.1.ii. Literature Review.....	140
III.B.2. Aim of the Work.....	146
III.B.3. Experimental.....	146
III.B.4. Results and Discussion.....	151
III.B.5. Conclusion.....	176
PART IV: Colorimetric Determination of 2-Amino-4-Chlorophenol as a Potential Impurity in Chlorzoxazone Bulk Drug	177
IV.1. Introduction.....	179
IV.2. 2-Amino-4-Chlorophenol.....	180
IV.2.A. Literature Review.....	182

Table of Contents

Subject	Page
IV.3. Aim of the Work.....	186
IV.4. Experimental.....	186
IV.5. Results and Discussion.....	191
IV.6. Conclusion.....	214
PART V: High-Pressure Liquid Chromatographic Determination of Atenolol in Its Tablets	215
V.1. Introduction.....	217
V.2. Atenolol.....	218
V.2.A. Pharmacological Action.....	219
V.2.B. Literature Review.....	219
V.3. Aim of the Work.....	232
V.4. Experimental.....	232
V.5. Results and Discussion.....	238
V.6. Conclusion.....	267
Summary	269
References.....	273
Acknowledgement	323

LIST OF TABLES

	Title	Page
Table (1):	Analytical performance data for the determination of glibenclamide and metformin HCl by the first derivative spectrophotometric method.....	76
Table (2):	Analytical performance data for the determination of glibenclamide and metformin HCl by the ratio derivative spectrophotometric method.....	77
Table (3):	Calibration data for the determination of glibenclamide and metformin HCl by the first derivative spectrophotometric method.....	79
Table (4):	Statistical analysis of the results of glibenclamide and metformin HCl obtained by the first derivative spectrophotometric method..	80
Table (5):	Calibration data for the determination of glibenclamide and metformin HCl by the ratio derivative spectrophotometric method.....	81
Table (6):	Statistical analysis of the results of glibenclamide and metformin HCl obtained by the ratio derivative spectrophotometric method..	82

List of Tables

	Title	Page
Table (7):	Assay results for the determination of glibenclamide and metformin HCl in pure form by the first derivative spectrophotometric and official methods.....	83
Table (8):	Assay results for the determination of glibenclamide and metformin HCl in synthetic mixtures by the first derivative spectrophotometric and comparison methods...	84
Table (9):	Assay results for the determination of glibenclamide and metformin HCl in commercial tablets by the first derivative spectrophotometric and comparison methods...	85
Table (10):	Assay results for the determination of glibenclamide and metformin HCl in pure form by the ratio derivative spectrophotometric and official methods.....	87
Table (11):	Assay results for the determination of glibenclamide and metformin HCl in synthetic mixtures by the ratio derivative spectrophotometric and comparison methods....	88
Table (12):	Assay results for the determination of glibenclamide and metformin HCl in commercial tablets by the ratio derivative spectrophotometric and comparison methods....	89

	Title	Page
Table (13):	Accuracy and precision data for the determination of glibenclamide and metformin HCl by the first derivative spectrophotometric method.....	92
Table (14):	Accuracy and precision data for the determination of glibenclamide and metformin HCl by the ratio derivative spectrophotometric method.....	93
Table (15):	Effect of solvents on the fluorescence intensity of bopindolol malonate.....	116
Table (16):	Effect of methanol volume on the fluorescence intensity of bopindolol malonate.....	117
Table (17):	Effect of organized media on the fluorescence intensity of bopindolol malonate.....	119
Table (18):	Analytical performance data for the fluorometric determination of bopindolol malonate.....	122
Table (19):	Calibration data for the fluorometric determination of bopindolol malonate.....	123
Table (20):	Statistical analysis of the results of bopindolol malonate obtained by the fluorometric method...	124

List of Tables

	Title	Page
Table (21):	Assay results for the determination of bopindolol malonate in pure form by the fluorometric and comparison methods.....	126
Table (22):	Assay results for the determination of bopindolol malonate in commercial tablets by the fluorometric and comparison methods.....	127
Table (23):	Accuracy and precision data for the determination of bopindolol malonate by the fluorometric method.....	128
Table (24):	Effect of some related drugs on the fluorometric determination of bopindolol malonate.....	130
Table (25):	Assay results for the fluorometric determination of bopindolol malonate in synthetic mixtures with chlorthalidone.....	131
Table (26):	Results of content uniformity testing of bopindolol malonate tablets using the fluorometric method.....	134
Table (27):	Effect of solvents on the fluorescence intensity of celiprolol HCl.....	153
Table (28):	Effect of organized media on the fluorescence intensity of celiprolol HCl.....	155

List of Tables

	Title	Page
Table (29):	Analytical performance data for the fluorometric determination of celiprolol HCl.....	159
Table (30):	Calibration data for the fluorometric determination of celiprolol HCl.....	160
Table (31):	Statistical analysis of the results of celiprolol HCl obtained by the fluorometric method.....	161
Table (32):	Assay results for the determination of celiprolol HCl in pure form by the fluorometric and official methods.....	163
Table (33):	Assay results for the determination of celiprolol HCl in commercial tablets by the fluorometric and comparison methods.....	164
Table (34):	Accuracy and precision data for the determination of celiprolol HCl by the fluorometric method.....	165
Table (35):	Effect of some related drugs on the fluorometric determination of celiprolol HCl.....	167
Table (36):	Assay results for the fluorometric determination of celiprolol HCl in synthetic mixtures with chlorthalidone.....	169

List of Tables

	Title	Page
Table (37):	Assay results for the fluorometric determination of celiprolol HCl in spiked human plasma and urine.....	175
Table (38):	Analytical performance data for the colorimetric determination of 2-amino-4-chlorophenol.....	205
Table (39):	Calibration data for the colorimetric determination of 2-amino-4-chlorophenol.....	206
Table (40):	Statistical analysis of the results of 2-amino-4-chlorophenol obtained by the colorimetric method.....	207
Table (41):	Assay results for the determination of 2-amino-4-chlorophenol in pure form by the colorimetric and comparison methods.....	209
Table (42):	Assay results for the determination of 2-amino-4-chlorophenol in spiked chlorzoxazone powder by the fluorometric and comparison methods.....	210
Table (43):	Accuracy and precision data for the determination of 2-amino-4-chlorophenol by the colorimetric method.....	211

List of Tables

	Title	Page
Table (44):	Effect of the ratio of mobile phase components on the chromatographic performance of the HPLC method.....	241
Table (45):	Effect of pH of phosphate buffer on the chromatographic performance of the HPLC method.....	243
Table (46):	Effect of concentration of phosphate buffer on the chromatographic performance of the HPLC method.....	246
Table (47):	Effect of flow rate on the chromatographic performance of the HPLC method.....	248
Table (48):	Typical chromatographic conditions for the HPLC determination of atenolol.....	251
Table (49):	Typical chromatographic parameters for the HPLC determination of atenolol.....	252
Table (50):	Analytical performance data for the HPLC determination of atenolol.....	258
Table (51):	Calibration data for the HPLC determination of atenolol.....	259
Table (52):	Statistical analysis of the results of atenolol obtained by the HPLC method.....	260

List of Tables

	Title	Page
Table (53):	Assay results for the determination of atenolol in pure form by the HPLC and official methods.....	262
Table (54):	Assay results for the determination of atenolol in commercial tablets by the HPLC and official methods.....	263,264
Table (55):	Accuracy and precision data for the determination of atenolol by the HPLC method..	265

LIST OF FIGURES

	Title	Page
Figure (1):	Zero-order absorption spectra of 25 $\mu\text{g/ml}$ glibenclamide and 18 $\mu\text{g/ml}$ metformin HCl in methanol.....	63
Figure (2):	First-order derivative spectra of 25 $\mu\text{g/ml}$ glibenclamide and 18 $\mu\text{g/ml}$ metformin HCl in methanol.....	65
Figure (3):	Ratio spectra of varying concentrations of glibenclamide using 18 $\mu\text{g/ml}$ metformin HCl as divisor.....	67
Figure (4):	First derivative of the ratio spectra of varying concentrations of glibenclamide using 18 $\mu\text{g/ml}$ metformin HCl as divisor.....	68
Figure (5):	Ratio spectra of varying concentrations of metformin HCl using 1 $\mu\text{g/ml}$ glibenclamide as divisor.....	69
Figure (6):	First derivative of the ratio spectra of varying concentrations of metformin HCl using 1 $\mu\text{g/ml}$ glibenclamide as divisor.....	70
Figure (7):	Calibration curve for the determination of glibenclamide by the first derivative spectrophotometric method at 314.7 nm.....	72
