Note

Medical knowledge is constantly changing. As new information becomes available, changes in treatment, procedures, equipment and the use of drugs become necessary. The editors and the publishers have taken care to ensure that the information given in this text is accurate and up to date. However, readers are strongly advised to confirm that the information, especially with regard to drug usage, complies with the latest legislation and standards of practice.

Surgery of the Liver and Biliary Tract

Volume II

Prometheus, chained to the rocky Mount Caucasus, has his liver eaten by the eagle of Zeus. (Engraving, 1566, possibly after a work by Titian. Reproduced by permission of the Hulton Getty Picture Collection, London)

Commissioning Editor: Miranda Bromage
Project Manager: Ian Stoneham
Project Controller: Helen Sofio
Proof-reader: J. Ian Ross

Contributors
