## WELCOME TO THE GUILD

THE GUILD is the primary publisher of artist sourcebooks, and the leading provider of information on artists in North America who undertake commissioned projects. This book, *The Architect's Sourcebook*, is one of our three annual publications which function as a conduit between artists and users.

Founded more than 14 years ago, THE GUILD has published over 300,000 books. These books have been translated into several languages and distributed throughout the world. In the process, they have connected artists with design and art professionals as well as individual connoisseurs — generating thousands of new art commissions.

GUILD sourcebooks are juried by professionals who represent the concerns of the books' users, and who review for quality of work and professionalism of the artist. Our staff travels extensively, and we pay special attention to including exciting new artists, as well as the established masters, so that we can present you with the finest work available.

You can count on THE GUILD's continued commitment to deliver *the industry standard in artist sourcebooks*. The next step is up to you! Call one of the artists whose work is displayed on these pages. Take the book along to a client meeting, or just sit with it — dreaming of all the possibilities.

Because the possibilities are endless.

**Toni Fountain Sikes, Publisher**

P.S. In 1997, THE GUILD launched a new imprint, Hand Books Press. HBP publishes visual how-to books in the craft field, as well as coffee-table books that showcase outstanding examples of craft in a particular medium. We are proud of the success of these, our newest publications; they continue our tradition of high-quality reproduction and inspiring art work. Call THE GUILD office to request a catalog.
