

*Volume II of the
Proceedings of the*

**1988 International Compressor
Engineering Conference
At Purdue**

July 18-21, 1988
West Lafayette, Indiana, USA

Conference Chairman and Editor:

Werner Soedel

Organizing Committee:

Raymond Cohen

James F. Hamilton

Charles M. Krousgrill

Sponsored By:

Ray W. Herrick Laboratories

School of Mechanical Engineering

Purdue University

Proceedings of the
1988 INTERNATIONAL COMPRESSOR ENGINEERING
CONFERENCE - AT PURDUE

Volume 2

July 18-21, 1988
West Lafayette, Indiana, USA

Conference Chairman and Editor

Werner Soedel

Organizing Committee

Raymond Cohen
James F. Hamilton
Charles M. Krousgrill

Ray W. Herrick Laboratories
School of Mechanical Engineering
Purdue University

COOPERATIVE SOCIETIES AND REPRESENTATIVES:

Air Conditioning and Refrigeration Institute (ARI) - H. Phillips
The American Society of Heating, Refrigerating, and Air-Conditioning Engineers (ASHRAE) - R. Sweetser
The American Society of Mechanical Engineers (ASME), Design Engineering Division and Fluids Engineering Division - D.A. Beaty, K.E. Hickman
The Compressed Air and Gas Institute (CAGI) - J.P. Hansen
Gas Research Institute (GRI)
The Institute of Gas Technology (IGT)
Deutscher Kalte-und Klimatechnischer Verein (DKV) - H. Kruse
The Institute of Engineers (India), Mechanical Engineers Division - S. Dutta
Japanese Association of Refrigeration (JAR) - S. Hutani
Japanese Society of Mechanical Engineers (JSME) - Y. Fujita, A. Futakawa, H. Okatsuka
Royal Institute of Engineers in the Netherlands (Klvi) - D. van Moorsel
Refrigeration and Fluid Machinery Association of China - Y. Chen

ADVISORY COMMITTEE:

A. Bar, Vice President, Compressor Division, Necchi S.p.A., Italy
T.R. Barratt, Vice President, Design Engineering, Rotorex Company
F.V. Boldvig, Manager, Marketing Service, SABROE Refrigeration, Denmark
J. Crespín, Director, Marketing and Development, L'Unite Hermetique, S.A., France
R. Dusil, President, J.N. Eberle & Cie. GmbH, West Germany
E. Eisele, Vice President of Technology, Whirlpool Appliance Group
R.C. Elliott, Executive Vice President, Vilter Manufacturing Corporation
Y. Fujita, Group Manager, Air-Conditioning and Refrigeration Machinery Division, Mitsubishi Heavy Industries, Ltd., Japan
A. Futakawa, Manager, Mechanical Systems and Technology Department, Mitsubishi Electric Corporation, Japan
E. Heinzelmann, Research and Development Manager, EMBRACO, Brazil
J.H. Jacobs, Director, Commercial Compressor Engineering, United Technologies Carrier Corporation
N.J. Josiassen, Manager, Advanced Engineering, Compressor Group, Danfoss A/S, Denmark
H. Kruse, Professor, Technische Universität, Hannover, Germany
Y. Kuramitsu, Executive, Technology, Air Conditioner and Compressor Division, Toshiba Corporation, Japan
J. Loprete, Executive Vice President, Bristol Corporation
A. Lundberg, Vice President, Marketing and Engineering, STAL Refrigeration, Sweden
R.J.L. McLaren, Engineering Director, Prestcold Ltd., England
E. Muir, Vice President, Engineering and Research, Copeland Corporation
H. Nordberg, Head of Steel Research, Uddeholm AB, Sweden
G. Persson, Manager, Quality Assurance, Steel Products, AB Sandvik Steel, Sweden
H. Phillips, Vice President of Engineering, Air Conditioning and Refrigeration Institute
C.K. Powell, Director, Reciprocating Technology, Ingersoll Rand Company
F.D. Randall, Vice President, Tecumseh Products Company
C.R. Slayton, Manager, Mechanical Design Engineering, General Electric Company
C.F. Speich, Staff Engineer, The Trane Company
R.L. Swadner, Staff Engineer, Harrison Radiator Division of General Motors Corporation
S. Touber, Professor, University of Strathclyde, Glasgow, Scotland
W.W. von Nimitz, Principal, Machinery and Piping Dynamics Int'l.
D. Woollatt, Manager, Advanced Engineering, Dresser-Rand Co.
J.R. Wright, Director of Technology, ASHRAE
Y. Yu, Professor, Head of Chemical Engineering Dept., Xi'an Jiaotong University, China

TABLE OF CONTENTS

Preface	iii
Author Index	vi
Key Word Index	viii

SESSION: LUBRICATION, BEARINGS

Chairperson: F. Sadeghi, Purdue University

William R. Lane and James S. Laub, Carrier Corporation - United Technologies, "Designing for Cantilevered Bearing Loads: Approach to Scroll Design"	1
Kaoru Okoma and Izumi Onoda, Toshiba Corporation Fuji Works, Japan, "Study of Lubrication Mechanism for Horizontal Type Rolling Piston Rotary Compressor"	11
Masahiro Takebayashi, Hiroshi Iwata, Akio Sakazume and Hiroaki Hata, Hitachi, Ltd., Japan, "Discharge Characteristics of an Oil Feeder Pump Using Nozzle Type Fluidic Diodes for a Horizontal Compressor Depending on the Driving Speed"	19
Keum Mo Kim and Kwang Yun Cho, Daewoo Electronics Co., Ltd., Korea, "A Study on Lubricating System of Hermetic Rotary Compressor"	27
A.T. Prata and R.T.S. Ferriera, Federal University of Santa Catarina, D.E.B. Lilie and M.G.D. Bortoli, Empresa Brasileira de Compressores S/A-Embraco, Brazil, "Dynamically Loaded Journal Bearings: Finite Volume Method Analysis"	34
Qu Zongchang, Liu Yong and Feng Quanke, Xi'an Jiaotong University, People's Republic of China, "Optimization Method for Lubricating Oil Selection of Reciprocating Compressors"	42

SESSION: SCROLL COMPRESSORS I

Chairperson: H.H. Fraser, Jr., Carrier Corporation - United Technologies

Jean-Luc Caillat, Shimao Ni and Michael Daniels, Copeland Corporation, "A Computer Model for Scroll Compressors"	47
Shahrokh Etemad and Jeff Nieter, Carrier Corporation - United Technologies, "Computational Parametric Study of Scroll Compressor Efficiency, Design, and Manufacturing Issues"	56
Takahisa Hirano, Noriaki Matsumura and Kimiharu Takeda, Mitsubishi Heavy Industries, Ltd., Japan, "Development of High Efficiency Scroll Compressors for Air Conditioners"	65
Noriaki Ishii and Manabu Sakai, Osaka Electro-Communication University, Michio Yamamura, Hiroshi Morokoshi, Masafumi Fukushima and Shuichi Yamamoto, Matsushita Electric Industrial Co. Ltd. (Panasonic), Japan, "On the Superior Dynamic Behavior of a Variable Rotating Speed Scroll Compressor"	75

James W. Bush and John P. Elson, Copeland Corporation, "Scroll Compressor Design Criteria for Residential Air Conditioning and Heat Pump Applications, Part I: Mechanics"	83
James W. Bush and John P. Elson, Copeland Corporation, "Scroll Compressor Design Criteria for Residential Air Conditioning and Heat Pump Applications, Part II: Design Criteria"	93

SESSION: VALVES I

Chairperson: F. Simpson, Copeland Corporation

J.S. Fleming, A.B. Tramschek and J.M.H. Abdul-Husain, University of Strathclyde, Scotland, U.K., "A Comparison of Flow and Pressure Distribution in Simple Valves Using Different Computational Methods"	98
C.J. Deschamps, R.T.S. Ferreira and A.T. Prata, Federal University of Santa Catarina, Brazil, "The Effective Flow and Force Areas in Compressor Valves"	104
Minoru Kato, Michiya Kurohashi, Takeshi Fujikawa and Masakatsu Aoshima, Kobe Steel, Ltd., Japan, "Dynamic Behaviour of Valves with Pneumatic Chambers for Reciprocating Compressors (1st Report, Calculations)"	112
D. Moes, Thomassen International bv, The Netherlands, "New Valve Design for Flexible Operation of Reciprocating Compressors"	115
A.B. Tramschek, University of Strathclyde, Scotland, U.K., and R.J. Boyle, National Engineering Laboratory, Scotland, U.K., "A Cautionary Note on Reciprocating Compressor Valve Design"	124

SESSION: PERFORMANCE I

Chairperson: P. Pandeya, Bristol Corporation

Lars Sjöholm, Svenska Rotor Maskiner AB (SRM), Sweden, "Rating Technique for Refrigeration Twin-Screw Compressors"	133
Pradip K. Paul, Chicago Pneumatic Tool Company, "Rotary Compressor: P-V Diagram and Investigation Into Power Requirements"	141
J.A. McGovern, Trinity College, Ireland, "Performance Characteristics of a Reciprocating Refrigerant Compressor Over a Range of Speeds"	146
Janghee Lee and Tae sik Min, Daewoo Electronics Co., Ltd., Korea, "Performance analysis of rolling piston type rotary compressor"	154
H. Doyle Thompson and Ramanujam Srikanth, Purdue University, "How the Design of the Suction Return Affects Compressor Efficiency"	163

SESSION: SCROLL COMPRESSORS II

Chairperson: E. Muir, Copeland Corporation

Jeff J. Nieter, United Technologies Research Center, "Dynamics of Scroll Suction Process"	165
Jeff J. Nieter and Raymond L. DeBlois, United Technologies Research Center, "Counterweighting Scroll Compressor for Minimal Bearing Loads"	175
Raymond L. DeBlois and Richard C. Stoeffler, United Technologies Research Center, "Instrumentation and Data Analysis Techniques for Scroll Compressors"	182
Makoto Hayano, Hirotsugu Sakata, Shigemi Nagatomo and Hiroaki Murasaki, Toshiba Corporation, Japan, "An Analysis of Losses in Scroll Compressor"	189
Etsuo Morishita, Tokyo University, Yoshihisa Kitora, Takuya Suganami, Sakuei Yamamoto and Mitsuhiro Nishida, Mitsubishi Electric Corporation, Japan, "Rotating Scroll Vacuum Pump"	198

SESSION: PERFORMANCE II

Chairperson: H.D. Thompson, Purdue University

Michael G. Duggan, Guy F. Hundy and Stuart Lawson, Prestcold Limited, England, U.K., "Refrigeration Compressor Performance Using Calorimeter and Flowrater Techniques"	206
Ren Shi and Yongzhang Yu, Xi'an Jiaotong University, People's Republic of China, "An Automatic Control and Measurement System for Refrigeration Compressor Performance"	216
Jangbom Chai and Jang Moo Lee, Seoul National University, and Seock Hyun Kim, Kangwon National University, Korea, "A Study on the Performance Improvement of a Rotary Compressor"	221
J. Kim and W. Soedel, Purdue University, "Performance and Gas Pulsations When Pumping Different Gases with the Same Compressor"	227

SESSION: SCREW COMPRESSORS I

Chairperson: J.H. Jacobs, Carrier Corporation - United Technologies

Sven Jonsson, Svenska Rotor Maskiner AB (SRM), Sweden "Performance Simulations of Twin-Screw Compressors with Economizer"	235
David N. Shaw, United Technologies Carrier, "Screw Compressors Control of Vi and Capacity 'The Conflict'"	236
Xiong Zenan, Zhou Jiashen, Wan Dihui and Gu Zhaolin, Xi'an Jiaotong University, People's Republic of China, "The Application of Microcomputer in Optimum Design and Performance Forecast of Screw Compressor"	244

D. Mosemann and S. Krienki, VEB K�hlautomat Berlin, and S. Nowotny, VEB Kombinat ILKA Luft- und K�ltetechnik, German Democratic Republic, "Improvements on Refrigerating Screw Compressors of Large Capacity"	250
Guangsan Sun, Jiao Tong University, People's Republic of China, "The Investigation of Some Basic Geometric Problems of the Single Screw Compressor"	256

SESSION: VALVES II

Chairperson: G.W. Gatecliff, Tecumseh Products Company

Friedrich Bauer, Hoerbiger Ventilwerke AG, Austria, "Valve Losses in Reciprocating Compressors"	263
Ryousuke Ohta and Katsuhiko Hojoh, Osaka Institute of Technology, Japan, "Effect of Spring on Operating Characteristic of Spring Loaded Safety Valves"	271
T. Tajima, K. Sakitani, S. Fujimoto and H. Hara, Daikin Industries Ltd., Japan, "A Study on Impact Fatigue of Compressor Valve"	277
S. Akella, N.J. Rao, E.V. Venugopal and K. Venkateswarlu, Shriram Refrigeration Industried Ltd., India, "Finite Element Analysis of Compressor Valve Dynamics"	285
Wang Disheng and Jiang Bo, Xi'an Jiaotong University, People's Republic of China, "Optimum Part Shape of Reed Valve of Reciprocate Compressor"	291
Cheng Yong-jiang, Xi'an Jiaotong University, People's Republic of China, "A New-Type Sliding Valve for Reciprocating Compressor"	297

SESSION: VIBRATIONS AND ACOUSTICS

Chairperson: C.M. Krousgrill, Jr., Purdue University

Massoud S. Tavakoli, Georgia Institute of Technology, and Rajendra Singh, The Ohio State University, "Alternate Models of the Dynamics of a Refrigeration Compressor Shell"	300
Hideki Kawai, Hiroshi Sasano, Ichiro Kita and Toshihiko Ohta, Matsushita Refrigeration Company, Japan, "The Compressor Noise - Shell and Steel Materials"	307
Tetsuya Mochizuki, Kohji Ishijima and Kazutomo Asami, Mitsubishi Electric Corporation, Japan, "Research on Electromagnetic Noise of Rotary Compressor for Household Refrigerator"	315
Nobutaka Tsujiuchi, Takayuki Koizumi, Shigeo Usui and Kazuhide Tsukiori, Mitsubishi Electric Corporation, Japan, "Vibration and Noise Reduction of Household Refrigerator Using Modal Component Synthesis Technique"	322
Qian Xinghua, Xi'an Jiaotong University, People's Republic of China, "Shift Peak Frequency of Jet Noise to Reducing Jet Noise of Compressor Valve"	323
J. Kim and W. Soedel, Purdue University, "Four Pole Parameters of Shell Cavity and Application to Gas Pulsation Modeling"	331

SCREW COMPRESSORS II

Chairperson: J.F. Hamilton, Purdue University

J.C. Blaise and T. Dutto, Electricite de France, France, "Influence of Oil Injection and Pressure Ratio on Single Screw Performances at High Temperature"338

John F. Weinbrecht, Baseline Engineering Company, Inc., "The High-Ratio Circulating Compressor"346

N. Stosic, A. Kovacevic, K. Hanjalic and Lj. Milutinovic, University of Sarajevo, Yugoslavia, "Mathematical Modelling of the Oil Influence Upon the Working Cycle of Screw Compressors"354

Wu Jianhua and Jin Guangxi, Xi'an Jiaotong University, People's Republic of China, "The Computer Simulation of Oil-Flooded Single Screw Compressors"362

SESSION: GAS PULSATIONS

Chairperson: J. Kim, Thomas Industries

W. Pratt Mounfield, Jr., Louisiana State University, "Low Speed Compressor Instabilities"369

Thomas Morel and Rifat Keribar, Integral Technologies Incorporated, "Comprehensive Model of a Reciprocating Compressor Applicable to Component Design Issues"375

Harlan Kammin, Dresser-Rand Company, "The Development and Experimental Verification of an Acoustic Damping Model for a Frequency Domain Digital Pulsation Simulation"385

Jang Moo Lee, Seoul National University and Byoung Cheol Kim, Daewoo Electronic Co. Ltd., Korea, "A Study on the Cavity Resonance of a Compressor"394

Ting-rong Ren and Si-ying Sun, Xi'an Jiao-tong University, People's Republic of China, "Influence of Valve on Gas Pulsation of Reciprocating Compressor"402

SESSION: ROLLING PISTON AND ROTARY VANE COMPRESSORS

Chairperson: J.E. Beard, Louisiana State University

Thomas Edwards, The ROVAC Corporation, "The Controlled Rotary Vane Gas-Handling Machine"407

William J. Godecker and Charles B. Parme, Sundstrand Pneumatics Systems, "Further Results of a Rotary Compressor for an Aircraft Pod Cooling System"416

Tatsuhisa Taguchi, Yoshikazu Abe, Teruo Maruyama, Kiyoji Aburaya and Nobuo Kagoroku, Matsushita Electric Industrial Co., Ltd., Japan, "New Capacity Control in Vane Rotary Type Compressor for Automotive Air Conditioners"424

Caio Franco da Costa, EMBRACO - Empresa Brasileira de Compressores S/A, Brazil, "The Analysis of Dimensional Commonization Procedures Considering the Efficiency for the Rolling Piston Compressors"	432
John E. Beard, Louisiana State University, "Epitrochoidal Versus Hypotrochoidal Gerotor Type Pumps With Special Attention to Rubbing Velocities"	439
Zhou Zicheng and Gong Ying, Xi'an Jiaotong University, People's Republic of China, "The Estimation of the Frictional Losses of the Rolling Piston Type Refrigerant Compressors"	446

SESSION: HEAT TRANSFER

Chairperson: R.J. Schoenhals, Purdue University

Rifat Keribar and Thomas Morel, Integral Technologies Incorporated, "Heat Transfer and Component Temperature Prediction in Reciprocating Compressors"	454
Hurjan Zhang and Yezheng Wu, Xi'an Jiaotong University, People's Republic of China, "An Investigation on Heat Transfer in Reed Valve Passage"	464
Kang Yong, North-west Institute of Textile Science and Technology, People's Republic of China, "Calculations of the Heat and Mass Transfer in Reciprocating Compressor with Spraying Water Into Cylinders"	472
William A. Meyer and H. Doyle Thompson, Purdue University, "An Experimental Investigation Into Heat Transfer to the Suction Gas in a Low-Side Hermetic Refrigeration Compressor"	477
William A. Meyer and H. Doyle Thompson, Purdue University, "An Analytical Model of Heat Transfer to the Suction Gas in a Low-Side Hermetic Refrigeration Compressor"	478

SESSION: SLUGGING AND OTHER TOPICS

Chairperson: C. Speich, The Trane Company

Fran Simpson and Gordon Lis, Copeland Corporation, "Liquid Slugging Measurements in Reciprocating Compressors"	479
Douglas A. Schrank, Joseph P. Vaccaro and Russell G. Lewis, Carrier Corporation, "The Design and Analysis of a Relief Plate to Reduce Cylinder Pressures in a Reciprocating Refrigerant Compressor Under Liquid Slugging Conditions"	488
Kenji Tojo, Kunihiro Takao, Youzou Nakamura, Kenichi Kawasima and Yukio Takahashi, Hitachi Ltd., Japan, "A Study on the Kinematics of a Variable Displacement Compressor for Automotive Air Conditioners"	496
Edson Pereira Parreira, Universidade Federal de Uberlandia, and Jose Alberto dos Reis Parise, Pontificia Universidade Catolica do Rio de Janeiro, Brazil, "Performance Analysis of Capacity Control Devices for Heat Pump Reciprocating Compressors"	505
Ronald J. Vincent, Mechanical Technology Incorporated, "Dynamic Behavior of a Free-Piston Stirling Engine Driven Heat Pump With Magnetic Coupling"	511

SESSION: PERFORMANCE III

Chairperson: D. Woollatt, Dresser-Rand Co.

K. Venkateswarlu, N.J. Rao, E.V. Venugopal and S. Akella, Shriram Refrigeration Industries Ltd., India, "Performance Optimization of a 1.5 Ton Hermetically Sealed Compressor Through Parameter Design"	520
Shao-kai Yang, Sen-quan Zhou and Si-ying Sun, Xi'an Jiao-tong University, People's Republic of China, "Internal Water-Spray Cooling in the Reciprocating Compressor"	526
L.X. Li, H.P. Yuan and P.C. Shu, Xi'an Jiaotong University, People's Republic of China, "Automatic Performance Control of Compressor by Micro-Computer"	532
V. Yee and W. Soedel, Purdue University, "On Transfer Slot Design in Rotary Sliding Vane Compressors with Special Attention to Gas Pulsation Losses"	539
Dusan Jankov and Werner Soedel, Purdue University "Pressure Signatures of Damaged Valves"	546

APPENDIX A: Late Papers of the 1986 International Compressor Engineering Conference - at Purdue

Thomas L. Kassouf, Edward A. Tomayko and Joseph P. Vaccaro, United Technologies, Carrier, "Selection Considerations for Rotary Compressor Shaft Geometries"	555
Jin Nin and Miao Dao-Ping, Shanghai Institute of Mechanical Engineering, and Chen Fu-Chang, Shanghai Refrigerating Machinery Works, China, "The Influence of Cylinder Wall Ports on the Performance of a Refrigerant Compressor"	571

APPENDIX B: Additional papers of the 1988 International Compressor Engineering Conference - at Purdue

Kazutaka Suefuji, Masao Shiibayshi, Rumi Minakata and Kenji Tojo, Hitachi, Ltd., Japan, "Deformation Analysis of Scroll Members in Hermetic Scroll Compressors for Air Conditioners"	583
Masayuki Kakuda, Yoshihisa Kitora, Takuho Hirahara and Takashi Yamamoto, Mitsubishi Electric Corporation, Japan, "Investigation of Pressure Pulsation in Suction Pipe on Rotary Compressor"	591
G.R. Pennock, Purdue University, and J.E. Beard, Louisiana State University, "The Beard-Pennock Variable-Stroke Compressor"	599
Wu Danqing, Cong Jingtong and Huang Dianxun, Xi'an Jiaotong University, People's Republic of China, "The Theoretical Analysis and Experimental Investigation on the Natural Frequencies and Vibration Patterns of Compressor Reed Valves"	608
Srikanth, Ramanujam and Thompson, H. Doyle, Purdue University "How the Design of the Suction Return Affects Compressor Efficiency"	615
Kazemzadeh, Farhad, Compression Technologies, Inc., "A Simple Method of Approximating the Efficiency of a Rotary Freon Compressor"	623

Sadeghi, Fardshid and Sui, Ping C., Purdue University "Subsurface Stresses in Rolling/Sliding Machine Components"	629
Liska, A. and Novak, P., Czech Technical University, Czechoslovakia, and J. Wurm, Institute of Gas Technology, USA, "Rating and Diagnostic Parameters for High-Speed Reciprocating-Piston Air Compressors"	639
Kazemzadeh, Farhad, Compression Technologies, Inc., "The Effect of Intercooler Size and Temperature on Performance of Two-Stage Rotary Trochoidal Air Compressor"	648

Cooperative Societies and Representatives:

Air Conditioning and Refrigeration Institute (ARI) - H. Phillips
The American Society of Heating, Refrigerating, and
Air-Conditioning Engineers (ASHRAE) - R. Sweetser
The American Society of Mechanical Engineers (ASME),
Design Engineering Division and Fluids Engineering Division - D.A. Beaty, K.E. Hickman
The Compressed Air and Gas Institute (CAGI) - J.P. Hansen
Gas Research Institute (GRI)
The Institute of Gas Technology (IGT)
Deutscher Kalte-und Klimatechnischer Verein (DKV) - H. Kruse
The Institute of Engineers (India), Mechanical Engineers Division - S. Dutta
The Japanese Association of Refrigeration (JAR) - S. Hutani
Japanese Society of Mechanical Engineers (JSME) - Y. Fujita, A. Futakawa, H. Okatsuka
Royal Institute of Engineers in the Netherlands (KIVI) - D. van Moorsel
Refrigeration and Fluid Machinery Associations of China. - Y. Chen

Advisory Committee:

A. Bar, Vice President, Compressor Division, Necchi S.p.A., Italy
T.R. Barratt, Vice President, Design Engineering, Rotorex Company
F. V. Boldvig, Manager, Marketing Service, SABROE Refrigeration, Denmark
J. Crespin, Director, Marketing and Development, L'Unite Hermetique, S.A., France
R. Dusil, President, J.N. Eberle & Cie. GmbH, West Germany
E. Eisele, Vice President of Technology, Whirlpool Appliance Group
R. C. Elliott, Executive Vice President, Vilter Manufacturing Corporation
Y. Fujita, Group Manager, Air-Conditioning and Refrigeration
Machinery Division, Mitsubishi Heavy Industries, Ltd., Japan
A. Futakawa, Manager, Mechanical Systems and Technology Department,
Mitsubishi Electric Corporation, Japan
E. Heinzelmann, Research and Development Manager, EMBRACO, Brazil
J.H. Jacobs, Director, Commercial Compressor Engineering, United Technologies Carrier Corporation
N.J. Josiassen, Manager, Advanced Engineering, Compressor Group, Danfoss A/S, Denmark
H. Kruse, Professor, Technische Universitat, Hannover, Germany
Y. Kuramitsu, Executive of the Division, Technology, Air Conditioner and Compressor Division,
Toshiba Corporation, Japan
J. Loprete, Executive Vice President, Bristol Corporation
A. Lundberg, Vice President, Marketing and Engineering, STAL Refrigeration, Sweden
R.J.L. McLaren, Engineering Director, Prestcold Ltd., England
E. Muir, Vice President, Engineering and Research, Copeland Corporation
H. Nordberg, Head of Steel Research, Uddeholm AB, Sweden
G. Persson, Manager, Quality Assurance, Steel Products, AB Sandvik Steel, Sweden
H. Phillips, Vice President of Engineering, Air Conditioning and Refrigeration Institute
C.K. Powell, Director, Reciprocating Technology, Ingersoll Rand Company
F.D. Randall, Vice President, Tecumseh Products Company
C.R. Slayton, Manager, Mechanical Design Engineering, General Electric Company
C.F. Speich, Staff Engineer, The Trane Company
R.L. Swadner, Staff Engineer, Harrison Radiator Division of General Motors Corporation
S. Toubert, Professor, University of Technology, Delft, The Netherlands
A.B. Tramschek, University of Strathclyde, Glasgow, Scotland
W.W. von Nimitz, Principal, Machinery and Piping Dynamics Int'l.
D. Woollatt, Manager, Advanced Engineering, Dresser-Rand Co.
J.R. Wright, Director of Technology, ASHRAE
Y. Yu, Professor, Head of Chemical Engineering Dept., Xi'an Jiaotong University, China
