Care has been taken to confirm the accuracy of the information presented and to describe generally accepted practices. However, the authors, editors, and publisher are not responsible for errors or omissions or for any consequences from application of the information in this book and make no warranty, expressed or implied, with respect to the currency, completeness, or accuracy of the contents of the publication. Application of this information in a particular situation remains the professional responsibility of the practitioner.

The authors, editors, and publisher have exerted every effort to ensure that drug selection and dosage set forth in this text are in accordance with current recommendations and practice at the time of publication. However, in view of ongoing research, changes in government regulations, and the constant flow of information relating to drug therapy and drug reactions, the reader is urged to check the package insert for each drug for any change in indications and dosage and for added warnings and precautions. This is particularly important when the recommended agent is a new or infrequently employed drug.

Some drugs and medical devices presented in this publication have Food and Drug Administration (FDA) clearance for limited use in restricted research settings. It is the responsibility of health care providers to ascertain the FDA status of each drug or device planned for use in their clinical practice.

The publishers have made every effort to trace copyright holders for borrowed material. If they have inadvertently overlooked any, they will be pleased to make the necessary arrangements at the first opportunity.

To purchase additional copies of this book, call our customer service department at (800) 638-3030 or fax orders to (301) 223-2320. International customers should call (301) 223-2300.

To the memory of my father, Pietro:
He would have been proud to see the results of my efforts.
To my dear mother Giuliana for her unconditional support.
To my brother Marco, the *real* smart guy of the family.
To my students, friends, and colleagues world wide.
To our patients:
Our inspiration for compassionate care.
—*Andrea Gabrielli*

To my children Maria, Nicolas, and Daniel—who teach me about unconditional love and humility.
To my best friend and partner Susana E. Picado—who taught me to be better.
To my green-eyed kid sister Serena M. Layon, 1954–2008—who taught me that suffering
and dignity were reconcilable.
To those for whom I am honored to care.
To those who struggle for justice and peace—as Brecht noted, these are irreplaceable
—*A. Joseph Layon*

To my Dad, General Jae Hung Yu & the Seventh Division for their sacrifices and
changing history for the better.
To my Mom, the late Esang Yoon who was the wind beneath our wings.
To the late Dr. Thomas J. Whelan Jr. who continues to mentor me in the practice of
Surgery and Code of conduct.
To Joe and Judy Civetta who sparked my continuing love for Critical Care and being the
guiding light for all Peepsters.
And to my daughter Pearl (&CD) who has the Master Key to All...
—*Mihae Yu*
