USE OF OFFICIAL SOURCES

St. Anthony's ICD-9-CM Code Book contains the official U.S. Department of Health and Human Services, Ninth Revision, Sixth Edition ICD-9-CM codes, effective for the current year.

The color coding, footnotes and symbols, which identify coding and reimbursement issues, have been derived from official federal government sources, including the Medicare code editor (MCE).

The American Hospital Association (AHA) *Coding Clinic for ICD-9-CM* references are used with permission of the AHA.

DISCLAIMER

All the codes, indices and other material in *St. Anthony's ICD-9-CM Code Book* are compiled from official ICD-9-CM codes and instructions as well as the Medicare regulations and manuals issued or authorized by the Health Care Financing Administration. The code book is designed to provide accurate and authoritative information in regard to the subject covered, and every reasonable effort has been made to ensure the accuracy of the information within these pages. However, the ultimate responsibility for correct coding lies with the provider of services.

St. Anthony Publishing, its employees, agents and staff make no representation, warranty or guarantee that this compilation of codes and narratives is error-free or that the use of this code book will prevent differences of opinion or disputes with Medicare or other third-party payers as to the codes that are accepted or the amounts that will be paid to providers of services, and will bear no responsibility or liability for the results or consequences of the use of this code book.
