It is the careful endeavor of *Chemical Industry Notes* to publish adequate and accurate extracts of business-oriented articles of interest to the chemical industry, but the American Chemical Society is not responsible for omissions or for such mistakes as may be made in extracts and index entries.

All questions regarding editorial content should be addressed to the Editorial Office, Chemical Abstracts Service, 2540 Olentangy River Road, P.O. Box 3012, Columbus, Ohio 43210.

Library of Congress Card Number is 78-184077.

SUBSCRIPTION INFORMATION

Subscription Rate Volume 17: for the first copy of the *Chemical Industry Notes Index* \$280.00 (postage included), \$37.00 for each additional copy. Claims for missing printed issues must be submitted within 90 days of normal delivery date.

Claims for missing printed indexes from residents of the United States, Canada, and Mexico must be submitted within 9 months after the end of a Volume; from all other countries, within 12 months after the end of a Volume.

No claims allowed because of failure to report a change of address or because copy is missing from files.

Report a subscription address change immediately. Include the following information: (1) name of printed publication(s); (2) Customer Account Number (first 8 characters on address label); (3) old mailing address for each publication (include a recent mailing label when possible); (4) new mailing address with ZIP Code or equivalent for each publication.

Depending on country of residence, questions regarding CAS services, subscriptions, and distribution should be directed to the organizations listed below. The prices quoted above may vary in Europe and Japan where rates may be quoted in other currencies.

1. Residents of the **United Kingdom of Great Britain and Northern Ireland** and the **Republic of Ireland** should contact The Royal Society of Chemistry (RSC), The University, Nottingham NG7 2RD, United Kingdom.
2. Residents of **Austria**, the **Federal Republic of Germany**, and **Switzerland** should contact VCH Verlagsgesellschaft mbH, CA-Vertrieb, Postfach 1260/1280, D-6940 Weinheim, Federal Republic of Germany.
3. Residents of **France**, **Monaco** and the **French-speaking African nations** should contact Centre National de l'Information Chimique (CNIC), La Maison de la Chimie, 28 ter rue Saint Dominique, 75007 Paris, France.
4. Residents of **Japan** should contact the Japan Association for International Chemical Information (JAICI), Gakkai Center Bldg., 2-4-16 Yayoi, Bunkyo-ku, Tokyo 113, Japan.
5. Residents of the **United States and other countries not listed above** should contact Customer Services Department, Customer Services Department, 2540 Olentangy River Road, P.O. INTRODUCTION

This Volume Index cumulates all index entries for document extracts that have been published in the fifty-two weekly issues of *Chemical Industry Notes (CIN)* Volume 17, 1988. Each index entry is followed by references that cite the issue number in which the extract appeared and the extract number. The Volume Index is divided into three sections: Keyword Index, Corporate Name Index, and Personal Name Index.

The **Keyword Index** contains keyword phrases that describe the subject content of each extract published in this volume. Additional key terms not found within the extract also are entered in the Keyword Index to provide supplementary access to important subjects mentioned in the original documents. Keyword phrases are permuted to create an index entry at each significant term within the phrase.

The **Corporate Name Index** contains the names of all organizations cited in the extracts published in this volume. For the more frequently cited corporate names, computer edits are employed to standardize the form of the name. For less frequently cited names, every effort is made to enter the name in a constant form, but some minor variations occur.

The **Personal Name Index** contains the names of all individuals cited in the extracts published in Section H - People in this volume. The names are listed in surname order and in the form in which they appeared in the original document. No attempt is made to distinguish between people with the same name or to resolve variations of names for the same person.

The CODEN-based coded bibliographic strip, found in the upper right corner of the cover, provides a concise summary of the bibliographic reference data required to identify uniquely each issue of *Chemical Industry Notes Index*. Its format complies with *Guidelines for the Coded Bibliographic Strip for Serial Publications* published by UNESCO/ICSU-AB/ISOS in 1975 and includes the CODEN for *CIN Index*, volume and issue numbers, inclusive pagination, and year.

The International Standard Serial Number (ISSN) is also found in the upper right corner of the cover immediately below the CODEN-based coded bibliographic strip. The ISSN provides a concise, unique, and unambiguous identification of serial titles. ISSN are assigned by International Serials Data System (ISDS) national centers which are coordinated by the ISDS International Center in Paris, France. Its format complies with a standard established by the International Organization for Standards, ISO 3297-1986: *Documentation-International Standard Serial Numbering (ISSN)*.
