PREFACE

Survey of Economics has been written for students who are interested in taking college economics for the first time. The purpose of the book is to provide some guidance for exploration into the world of economics.

A look at the table of contents will indicate the scope of the book. Economics is a broad subject which we encounter regularly and frequently in our daily lives. This book will provide an orientation to help understand these many encounters with economics. It is a complete book in that it deals with so many different subjects. It is at the same time a limited book in that the treatment of each subject is brief and easy to understand.

Survey of Economics is intended primarily for students who are not likely to take another course in economics. Experience in the classroom has shown that it also functions very well as a means of laying the groundwork for those who do go on to further courses in the principles of economics.

No subject can be learned merely by reading about theories. Therefore, most chapters are followed by short treatments of current public issues of economic importance. Also, there have been included "short-short" biographies of major economic thinkers.

To assist the student and the professor, each chapter ends with a list of important terms and some questions related to the material.

Table of Contents

PART I: INTRODUCTION TO ECONOMICS	1
Chapter 1: What is Economics?	3
Introduction	3
Economics is a Social Science	3
Definition	4
Three Basic Economic Decisions	4
Limited Resources, Scarcity, Choices	5
Cost—Real and Opportunity	6
Utility and Value	6
Exchange and Specialization	7
Resources of Our Economic System	8
Human Resources	8
Natural Resources	8
Capital Resources	9
Entrepreneurship	9
Returns to Resource Owners	9
Labor and Wages	10
Capital and Interest	10
Land and Rent	10
Entrepreneurship and Profit	11
Our Economic Goals	11
Full Employment	12
Stable Prices	12
Growth	12
Equitable Distribution of Income	12
Efficient Use of Resources: Specialization—Technology—Interdependence—	
Absolute Advantage	12
Conflicts Among Goals	13
Production Possibilities	13
Economic Decision Making	14
Alternative Economic Systems	15
Traditional Economic Systems	15
Command Economic Systems	15
Market Economic Systems	16
The Price Mechanism	16
Market Economy and Capitalism	17
The American Economy	18
The Classical Model	18
Does it Work that Way?	19
Important Terms	19
Questions	20
Economic Thinker: Adam Smith	21
Public Issue: Resource Depletion	22

Chapter 2: Supply and Demand: The Basic Market Forces	25
Demand	25
Reasons	26
The Demand Schedule	26
The Demand Curve	26
Graphs	27
The Law of Demand	27
Elasticity	28
Changes in Total Demand (Shift in the Demand Curve)	29
Supply	31
The Law of Supply	31
The Supply Schedule	31
The Supply Curve	32
Shift in the Supply Curve	33
Equilibrium Price and Quantity	34
Change in Supply and Demand Together	36
Related Goods: Complementary and Substitute	37
Conclusions	38
Elasticity	39
Total Revenue Test	39
Utility Theory	44
Indifference Curves and Consumer Choice	46
Government and the Market Mechanism: Price Controls	50
Price Ceiling	50
Price Floor	50
Important Terms	50
Questions	51
Public Issue: Drug Abuse	52
Public Issue: Sex Discrimination/Comparable Worth	54

PART II: MICROECONOMICS

Chapter 3: The Business Firm and Market Structures	59
The Business Firm: Nature, Forms, Problems	59
Legal Aspects of Business Organizations	59
The Single Proprietorship	60
The Partnership	61
The Corporation	62
Formation of a Corporation	62
Structure of a Corporation	62
Nature of the Corporation in American Industry	62
Large and Small Corporations	63
Trading in Stock	63
Shareholders and Managers in the Large Corporation	64
Combinations of Corporations	64
Characteristics of a Corporation	65
The Problem of Size	66
Reasons for the Development of Large Corporations	66
Stock Exchanges	67
Trading	68
Computerized (Program) Trading	68
Averages	69
The Dow-Jones	69

Regulation/Securities and Exchange Commission	69
Over-the-Counter Markets	70
The Primary Market—New Issues	70
Franchising	70
Market Structures: The Different Kinds of Competition	71
Market Structures	71
The Classical Model	72
Pure Competition	73
Many Sellers	73
Homogeneous Product	73
Ease of Entry	73
Profits	74
Mutual Interdependence	74
Knowledgeable Buyers	75
Is Pure Competition Real?	75
Monopoly	75
Types of Monopoly	75
Ease of Entry	76
Other Monopoly Characteristics	76
Strong Demand and No Close Substitute	76
Cartels	77
Antitrust	77
Types of Mergers	78
Criticisms	79
Monopolistic Competition	79
Product Differentiation	79
Number of Competitors	80
Mutual Interdependence	80
Ease of Entry and Profits	80
Oligopoly	81
Mutual Interdependence	81
Profits and Ease of Entry	82
Perfect Competition and Imperfect Competition	83
Important Terms	84
Questions	84
Economic Thinker: Thorstein Veblen 1857-1929	86
Chapter 4: Production Functionl.....	87
Diminishing Returns Revisited	88
Cost Minimization	91
Profit Maximization.....	93
Changes in Resource Demand	93
Important Terms	94
Questions	94
Public Issue: The Farm Problem.....	95
Chapter 5: Costs and Profits.....	97
Profit	97
Profit as Earnings	97
Profit as a Reward	97
Two Functions of Profits	98
Costs	98
Various Ways of Looking at Cost—Direct Costs and Opportunity Costs	98
Explicit and Implicit Costs	99
Profit as a Cost	99

Short Run Costs/Long Run Costs.....	99
Fixed and Variable Costs	100
Social or External Costs	100
Marginal Cost	101
Diminishing Returns	101
Economies of Scale and Decreasing Costs	104
Diseconomies of Scale	105
Marginal Revenue	106
Profit and Cost	106
Additional Analysis	108
Costs and Profits—Perfect Competition	108
Imperfect Competition	113
Monopolistic Competition	114
Monopoly	114
Oligopoly	117
Monopolistic Competition	119
Important Terms	120
Questions	121
Economic Thinker: Thomas Robert Malthus 1766-1834	122
Chapter 6: Unions: Employees and Power	123
Some History	124
Obstacles to Unionism	124
The National Labor Relations Act (Wagner Act)	125
The CIO Enters the Picture	125
Craft and Industrial Unionism.....	125
The Taft-Hartley Act of 1947.....	126
Landrum-Griffin Act.....	126
Collective Bargaining	126
Union Recognition	127
Third Party Participation	127
The Union Contract.....	127
Strikes and Other Labor-Management Actions	127
Union Security	128
Union Contract Provisions	129
Union Operations.....	129
Typical Union Structure	130
AFL/CIO National Structure.....	130
Current Developments Regarding Unions.....	131
The Public Interest	131
Public Employees	131
Unionization of Professionals	131
Relationships Between Members and Their Union	132
Functions Performed by Unions	132
Union Wage Levels and Mergers: An Empirical Study	133
Important Terms	133
Questions	133
Public Issue: Labor and Management: Cooperation and Confrontation	135
PART III: MACROECONOMICS	137
Chapter 7: The Government and the Economy: We May Not Like It But We Seem to Need It	139
Some Background.....	139
The Difference Between Public and Private	139

The Growth of the Public Sector	140
Causes of Growth in the Public Sector	141
Government Spending	142
Federal Government Spending	143
Distribution of State and Local Expenditures	143
Breakdown of Federal Tax Revenues	144
Breakdown of State and Local Tax Revenues	144
Intergovernmental Transfer of Funds	144
Federal Taxes and Early U.S. History	145
The Whiskey Rebellion	146
Tariffs and Nullification	146
Classification of Taxes	146
The Different Kinds of Taxes	146
Income Taxes	146
Personal Income Tax	146
Corporate Income Tax	147
Capital Gains Taxes	148
Social Security Taxes (FICA)	148
Excise and Sales Taxes	148
Customs Duties (Tariffs)	149
Real Property Taxes	149
Personal Property Taxes	149
Gift and Estate Taxes	150
Good Taxes and Bad Taxes	150
Fairness	150
Ability to Pay	150
Other Principles of Taxation	151
Incidence of Taxation—Tax Shifting	151
Loopholes, Evasion, and Good Sense	151
Evaluating the Tax System	152
Public Reaction Against Taxes	152
Important Terms	153
Questions	153
Public Issue: Social Security	154
Economic Thinker: John Maynard Keynes 1883-1946	156
 Chapter 8: Gross Domestic Product and National Income Accounts	 157
Money Value	158
Current and Constant Dollars	158
Is There Anything We Do Not Count?	160
How Do We Get the Final Figure?	162
Income Approach	162
Expenditure Approach	162
Consumer Spending	163
Private Investment Spending	163
Government Spending	164
Foreign Spending	164
Summary of Expenditure Approach	164
Elements of Consumer and Business Spending	165
Determinants of Consumer Spending	165
Determinants of Business Spending	165
Further Analysis of GDP	166
The Net Domestic Product	166
The National Income	166
Personal Income	167

Disposable Personal Income	168
GDP as a Circular Flow: The Relationship Between Spending, Product, and Income	168
Circular Flow and Change	169
GDP and GNP	169
Important Terms	171
Questions	171
Public Issue: Crime	172
Chapter 9: Economic Instability: Government Intervention	177
The Macroeconomic Approach	177
Business Cycles	177
Explanations for Business Cycle Fluctuations	181
Other Fluctuations in the Economy	181
Confronting the Business Cycle	181
Unemployment	182
Disguised Unemployment	182
Types of Unemployment	183
Unemployment in the "Secondary" Labor Market	183
Unemployment Insurance Can Cause Unemployment	184
The Costs of Unemployment	184
Full Employment	184
Dealing With Business Cycles	184
How to Measure an Economy	185
Indicators	186
Classical Versus Keynesian Analysis	186
A Quick Look at the "Classical" Approach	187
1. Supply Creates Its Own Demand	187
2. The Economic System is One of "Perfect Competition"	187
3. The Purpose of Income is to Spend it on Output	187
4. Savings Do Not Reduce Demand for Long	188
5. All Prices Are Flexible, Including Labor	188
6. The System is Self-Correcting	188
What is New About "New Economics?"	189
1. Supply Does Not Necessarily Create Its Own Demand	189
2. Saving and Investing Don't Necessarily Fit Together	189
3. There May Never Be a State of Equilibrium	189
4. Prices Are Not Flexible	189
5. Output is Determined by Demand Regardless of Level of Employment	190
GDP and Demand	190
Supply Side Emphasis	190
How to Change the GDP—Through Government	191
Government Spending	191
Taxes	191
Fiscal Policy	191
Income and Demand	192
Marginal Propensity to Consume and Marginal Propensity to Save	192
Important Terms	194
Questions	194
Public Issue: The Great Depression	195
Chapter 10: National Income Determination and Fiscal Policy	199
Investment Spending	205
GDP Above Equilibrium	207
GDP Below Equilibrium	208
"The Paradox of Thrift"	212

Government and the Model	214
The Multiplier	216
Fiscal Policy	218
Time Lags	219
Political Overtones to Economic Decisions	220
Automatic Stabilizers	221
Unemployment Insurance Collections and Payments	221
Agricultural Price Supports	221
Tax Receipts	221
Social Security	221
Public Assistance-Welfare	221
An Alternate Macro View	222
Reconciling the Two Macro Models	224
Important Terms	226
Questions	226
Economic Thinker: Karl Marx (1818-1883)	228
Chapter 11: The Twin Deficits Problems: Budget Deficits and Trade Deficits	229
The Federal Debt and Budget Deficits	229
Quantitative Aspects	229
Causes of the Federal Debt	232
Implications of the Deficit and the Debt and Related Issues	235
The Crowding Out Effect	235
International Ownership of the Debt	235
International Ownership of American Businesses and Other Assets	236
Danger of National Bankruptcy	237
The Debt is Unimportant Because We Owe the Money to Ourselves	237
The Debt Causes Inflation	238
The Debt Passes a Burden on to Future Generations	238
Our International Balance of Trade Deficits	238
Current Account	239
Capital Account	240
Implications of the Trade Deficit	241
The Recession of 1990-1992	241
Important Terms	243
Questions	243
Public Issue: The Savings and Loan Crisis and the Banking Industry	244
Chapter 12: Money and Its Functions	249
What is Money?	249
Acceptability	249
Uses of Money	250
Measure of Value	250
Medium of Exchange	250
Store of Value	250
Characteristics of Money	251
The Money Supply	251
Metal Coinage	251
Paper Currency	251
Demand Deposits	251
Liquidity	252
M1 - M2 - M3	252
Near-Money	253
A Short History of Money	253
Barter	253

Commodity Money	254
Paper Money	254
Gold and Money	254
The Gold Standard	255
Velocity of Money	255
The Equation of Exchange	255
Prices and Money	256
Price Levels—Price Index	256
Inflation	257
Creeping Inflation	257
Demand-Pull Inflation	257
Structural Inflation	258
Cost-Push Inflation	258
Costs of Inflation—What's Bad and What's Good About Inflation?	258
Inflation and Unemployment	259
Inflation in the Seventies	259
Inflation in the Eighties	260
Stagflation	260
Summary	261
