About the Author

It is not surprising that Mary Shelley became a writer, since her parents were famous writers in 18th-century England. What is surprising, however, is that when Mary was barely nineteen, her imagination created one of the greatest horror stories of all time.

As a child, Mary loved to read and to "scribble"—her description of her favorite pastime of writing stories. Her childhood was spent in the company of many famous writers and poets, who were her father's friends. Among these poets was Percy Bysshe Shelley, who later became Mary's husband.

Percy Shelley encouraged his wife to write, but Mary was happy being a wife and mother, and traveling with her husband. She gave little thought to writing until the summer of 1816, when the Shelleys were on a vacation at a lakeside villa in Switzerland.

The weather at Lake Geneva had turned cold and rainy, and Mary and Percy spent many days and nights in front of the fire with their very good friend, the poet Lord Byron.

To pass the time, the group began reading ghost stories to each other, then decided to make up their own. The men made up their stories easily, but Mary spent days trying to make up one that would be as exciting and horrifying as those they had been reading.

One night, Mary lay awake thinking about a discussion the men had had earlier that evening about the possibility of a corpse being "reanimated" and "a creature manufactured." When she finally fell asleep, Mary's dreams were filled with a story of just such a creature. She told the story to

Percy and Lord Byron the following day—the day that *Frankenstein* was born.

Since its publication 175 years ago, this immortal horror story, from the pen of a nineteen-year-old girl, has been fascinating millions of readers and movie audiences, in hundreds of languages, all over the world!

作者简介

孩提时,玛丽很喜爱读书而且喜欢涂涂画画——她是这样形容自己在业余时间所从事的写作的。那时她父亲的很多朋友都是有名的作家和诗人,其中一位便是珀西·雪莱,他后来成为玛丽的丈夫。

珀西·雪莱鼓励妻子写作,但玛丽乐于做贤妻良母,和丈夫一起四处旅游。直到 1816 年夏季,雪莱夫妇在瑞士的湖滨别墅度假时,玛丽才认真地考虑了这件事。

日内瓦湖畔天气寒冷,且阴雨连绵。雪莱夫妇常和 好朋友、诗人拜伦一起围在壁炉旁聊天。

为了打发时间,他们经常聚在一起谈论"鬼"的故事,接着又各自即兴创作。这对男士们来说很容易,而玛丽得花好几天时间才能想出一则恐怖又刺激的故事。

一天夜里,玛丽躺在床上,想着当天晚上朋友们就"尸体复活"和"创造生物"所做的讨论。慢慢地她进入梦乡,梦里浮现出一个他们所描述的"生物"。第二天,玛丽把这则故事讲给丈夫和拜伦听,就在这一天,"弗兰肯斯坦"这样一个人物形象便产生了。

这本出自19岁女孩笔下的恐怖小说,自175年前出版以来,吸引了成于上万的读者及电影观众,并被译成百余种文字广为流传。

The Threatening Arctic Ice 危险的北极寒冰

一大片漂浮在北极地区的薄冰块正慢慢地冻结在一起,那 只小帆船因此正面临着被挤碎的危险。

年轻的英国船长罗伯特·沃尔顿站在甲板上,他在想,为了自己的个人目标——探索这片从来无船航行、无人登陆的海洋——而以一队勇敢的水手的性命作赌注是否真的太自私了。

Rescued¹ from the Frozen Sea

冰海获救

The floating² sheets³ of Arctic⁴ ice were slowly freezing⁵ together, threatening⁶ to crush⁷ the small sailing ship.

Robert Walton, its young English captain, stood on deck⁸, wondering if he were wrong risking⁹ the lives of his brave crew¹⁰ for his own ambitions¹¹—to explore oceans ships had never sailed on and land men had never walked on.

He dreamed of the benefits¹² this discovery would have for all mankind if he were to discover a sea route¹³ near the North Pole from Europe to Asia.

Walton had been born into wealth and could have chosen to spend his life in ease and luxury¹. Instead, he had spent the last six years at sea, working as a common sailor, enduring² cold, hunger, thirst³, sleeplessness⁴, and often brutal⁵ discipline⁶, just to prepare his body and mind for this long and dangerous voyage⁷.

But now, with the ice threatening his ship and the lives of his crew, it was doubtful⁸ whether or not any of them would ever see their homes and families in England again!

At about two o'clock in the afternoon, the thick, heavy fog⁹ that had surrounded¹⁰ the ship all morning began to lift¹¹. As it did, a strange sight appeared on the ice.

"Look, Captain!" called a crewman, pointing to a dark spot¹² a half-mile away. "It's a sledge¹³, sir. And those dogs are pulling it as if their feet had wings!"

Walton lifted his telescope¹⁴ to his eye. "And look at that driver!" he cried. "He has to be the

沃尔顿出身富有,本可以过着舒适安逸的生活。然而,他却选择成为一名普通的水手。在这最近 6 年的海上生活中,他经受着寒冷、饥饿、缺水、失眠的痛苦煎熬,还受着近乎苛刻的纪律约束。而这一切都是为了这次漫长而艰险的航程而作的必要的心理和生理准备。

Within minutes, though, the mysterious³ traveler had disappeared on the ice, leaving Walton and his crew stunned⁴ and speechless⁵!

The next morning at dawn⁶, Walton came up on deck to find his sailors leaning⁷ over the rail⁸, apparently⁹ talking to someone on the ice below.

"What's happening, lads¹⁰?" he asked as he joined them at the rail.

"It's a sledge, sir, "said a sailor, "much like the one we saw yesterday."

Walton looked out over the rail. There, frozen into a block of ice drifting 11 towards the ship was a sledge, a dog team, and a driver. All the dogs were dead except one, and its reins 12 were being held limply 13 by a frost-covered man as he paddled 14 the block of ice with a piece of wood. He appeared to be barely 15 alive.
