序

這是介紹和宣傳普通高校圖書館的一本讀物，圖文并茂，印制精美，堪稱佳作。

這本書有幾個突出特點：(1)刊登領導同志視察大學圖書館的彩照與題詞多，說明各級領導十分重視圖書建設，為辦好圖書館指明了方向；(2)刊登了衆多名家的詩、詞、書、畫，充分表達了他們對圖書館工作的關心和贊美之情；(3)刊登了許多在圖書館崗位上默默耕耘，并取得業績的新、老圖書館工作者和專家的形象，反映了圖書館職工隊伍數量的增加和素質的提高；(4)刊登了大量關於圖書館基本建設儀器設備、書刊購置等改善的情況，說明建國以來特別是十一屆三中全會以來，大學圖書館事業取得了顯著的成績；(5)圖文說明圖書館的管理水平有很大提高，服務質量有很大改善。上述特點，既深刻地說明了圖書館在提高教學和科研水平，在培養社會主義建設者和接班人的任務中的重要作用，也生動反映了圖書館工作取得的豐碩成果和可喜經驗，事實表明我國高校圖書館事業在改革與發展兩方面都取得了巨大成就。這是與黨的正確方針政策指引，各級政府的關心支持，以及廣大圖書館工作人員的努力分不開的。

普通高校圖書館事業在前進中也面臨着困難和問題。例如：有一部分高校的圖書館尚未建成或者雖已建成但面積不夠，這是亟待解決的困難。大多數高校的圖書館經費不足，難以滿足購置書刊改善館藏條件的需要。圖書館隊伍的素質有待進一步提高，待遇有待進一步改善。圖書館的現代化管理和服務水平還不能滿足教學和科研的需要。圖書館的法規制度建設需要進一步完善。

本書的出版發行，是對普通高校圖書館事業的一次檢閱和展示，反映在書中多是絢麗多姿的畫卷。圖書館工作不足方面，特別是那些在現實中嚴重落后的地方，在書中則看不清楚，因此，各級領導同志和廣大圖書館工作人員在閱讀本書的時候，一定要保持清醒頭腦，一定要堅持“兩點論”，既看到絢麗的畫卷，又要看到暗淡的角落。要更加重視振奮精神，忠于職守，團結協作，真抓實干，下定決心，限期去消滅那些落后的因素，把普通高校圖書館的建設管理與服務提高到一個新水平。

FOREWORD

This book presents you a brief introduction of university libraries of China. It is endowed with the following features: 1. It carries pictures of leaders inspecting university libraries and their inscriptions, demonstrating that authorities of different levels attach great importance to the construction of university libraries and that they show a way to run libraries well; 2. It carries a large number of poems, "ci", calligraphies and paintings of celebrities, showing their solicitude and praises for the libraries; 3. It carries myriads of hardworking librarians and experts of the libraries, indicating the expansion and quality - improvement of librarian teams; 4. It carries many descriptions of the capital construction, equipment improvement and literature increase of the libraries, exempling the remarkable achievements of our university libraries after the founding of the People's Republic of China and especially after the Third Plenary Session of the Eleventh Central Committee of the Party; 5. The pictures and language of this book tell the substantial improvement in both the management and service of the libraries. On the whole, the above feature, in a profound sense, display the important role the libraries play in the improvement of teaching and research and in the training of socialist builders & successors and vividly depict their rich achievements & encouraging experience. The facts manifest their great achievements both in reform and development. This is due to the correct policies of the Party, the assistance from the governments of different levels and the industry of librarians.

There exist some difficulties and problems in libraries, for instance, some university libraries have no library buildings, or if have, the floor space is not enough. This should be put an end to as soon as possible. Funds of most libraries are not sufficient enough for the purchasing of books & magazines and the improvement of library conditions. The quality of librarians needs improving and their salaries need increasing. The management and service can't fully satisfy the needs by teaching and research. The rules and regulations of libraries should be further perfected.

In a sense, the publication of this book is a review and exhibition of university libraries. In the book, most are bright pictures, but there are not many shortcomings and even backwardness. When reading this book, you should keep aware of both the advantages and shortcomings. So, we can rouse ourselves, unite as one and endeavour to overcome the shortcomings in a shortest possible time and upgrade the management and service of university libraries.

科技現刊閱覽室 Technical Magazines Reading Room

圖書館始建於1952年，當時書庫和閱覽室不足500m²。1986年，一座建築面積13,932m²，擁有大、中、小型閱覽室16個，5個書刊出納臺，閱覽座位1,600席並設有小型計算機、微機網絡系統、光盤驅動系統、視聽設備、縮微閱讀機和復印機等現代化設備的嶄新圖書館樓建成并投入使用。

本館藏書主要側重於航空航天等工程學科，從本館發展歷史看，它由兩部分組成：一部分是建國初期清華、京工、廈大、川大等8院校的航空書刊約1,000餘冊，雖然數量不多，却都是極為珍貴的文獻。另一部分是1952年至今的收藏，它是經過精心積累起來的書刊資料，是本館的主要館藏。本館收藏比較豐富，到1991年底已擁有中外文圖書610,000餘冊，期刊和特刊290,000餘冊(件)，報紙150種。匯集有本世紀初飛機剛發明時，直至當代航空航天最新技術的各階段重要文獻。除此之外，還有哲學、社會科學、管理科學、機械、電子、計算機、自動控制、材料、文學和藝術等書刊。

本館機構5部1室，共有各類管理與情報諮詢人員近百名。每年為教學、科研提供大量書刊資料，僅1991年共借出書刊320,000餘冊，接待各類讀者近百萬人次。每學期還為本科生、研究生開設文獻檢索課。

為了提高業務管理和學術水平，每年召開學術研討會，1987年

以來共宣讀和發表論文60餘篇。1984年獲得航空部科技情報服務成果三等獎，1991年參加《中文核心期刊要目總覽》工程技術部分航空航天核心期刊的研制工作，獲得校科學技術進步獎。1986年被評為北京市“文明單位”。

40年來，圖書館履行教育職能和情報職能，積極為學校教學、科研服務，培養有理想、有道德、有文化、有紀律的社會主義建設人材，取得了令人矚目的成就。

The library was set up in 1952. The floor for stacks and reading rooms then was less than 500m². In 1986, a new library building with a floor space of 13,932m² was constructed, with 16 reading rooms (1600 seats) and 5 circulation desks. It is furnished with modern equipments including computers, microcomputer network system, CD-ROM driving system, audio/video facilities, microfilm readers and duplicators.

Our collection is mainly on aeronautics and astronautics. It can be divided into two parts: the collection of 1000-odd very rare books from 8 universities including Tsinghua University, Xiamen University, etc. during the founding period of P.R.China; the collection of books since 1952 when the university was founded, which is the main part. By the end of 1991, we had had

610,000 volumes, 290,000 files of periodicals & special issues, 150 kinds of newspapers.

Under the library, there are 5 departments and an administrative office, which are staffed by 100 employees. Each year, we supply large quantities of books and materials for teaching and research. In 1991 alone, we loaned out 320,000 books and handled 1 million admissions. The library also offers the courses of User Instruction to under and postgraduates.

Since 1987, we have got 60 theses published or sent to seminars. We won a third prize for excellent technical information service awarded by the Ministry of Aerospace Industry in 1984 and a prize for technical advancement awarded by the BUAA in 1991. Our library was honoured with "Civilized Unit" of Beijing in 1986.

Over the past 40 years, we have faithfully performed our education and

information functions and made striking achievements in the training of socialist professionals.
