CREATIVITY

前 盲 Preface

室内设计是艺术和技术相结合的综合性学科,具有理性又富有感性,是非常具创造性的一项工作。具有扎实基础知识和浓厚的文化艺术修养的设计师们,在一个个新的创作冲动中"神寓迹化"地把灵感转化为特定含意的界面、空间,进而充实为具有使用功能和文化内涵的环境。由于人类文化博大精深和业主、设计师们的文化背景不同,室内设计作品呈现的艺术品味和文化氛围千姿百态。《创意空间设计方案》一书展现给读者一个室内设计的大千世界,人们可能会从中受到启迪,憧憬自己美好的家园和理想的工作、娱乐休闲环境,也可能会满怀激情地与设计师们一道进行新的创作。

创意装饰设计公司在实践中深深体会到:作为一家设计工程公司不仅要有很强的设计实力,创新的设计理念和旺盛的创造力,而且还要有科学的经营理念,把产业策划、设计、经营三个环节有机地融合为一体,全方位为业主服务,才能成就具有超前意识的崭新作品。

张世礼 清华大学美术学院教授 中国建筑学会室内设计分会理事长

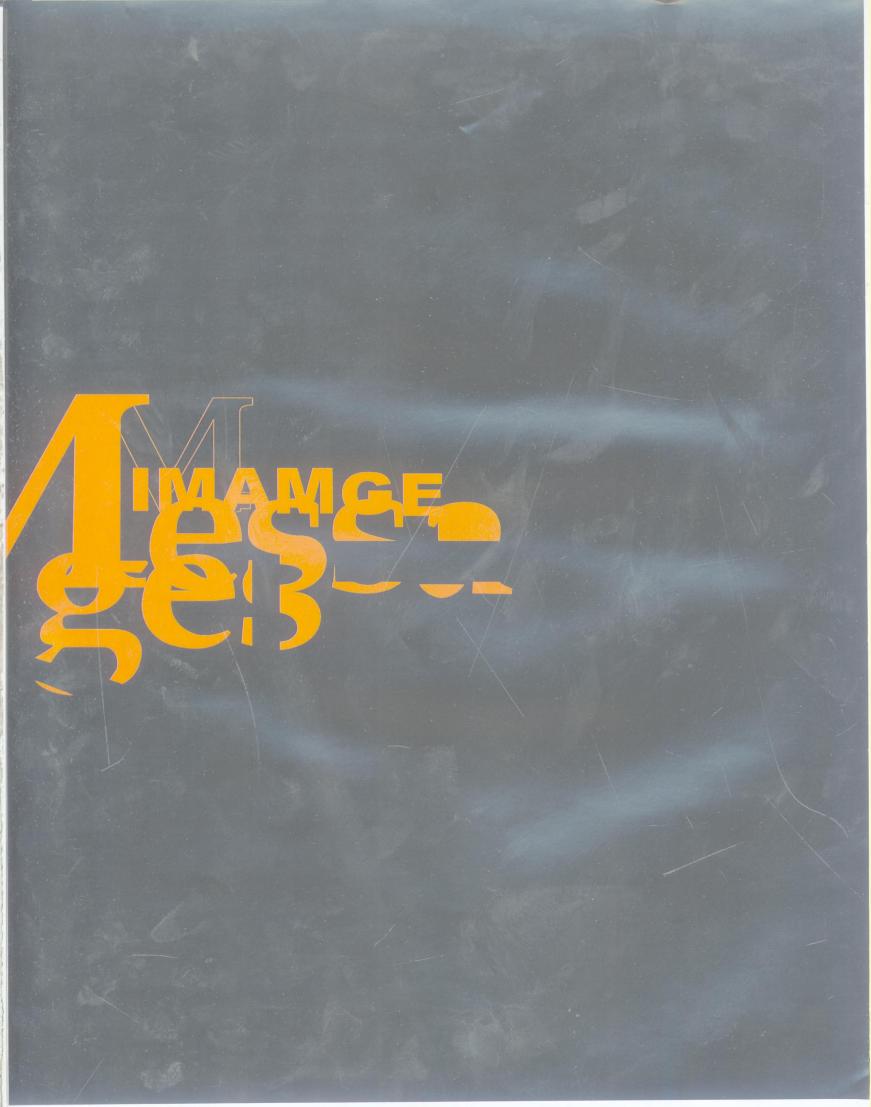

Interior design is a field that blends creative expression with practical application, bringing together art and technology. The interior designers, equipped with solid knowledge and aesthetic principles, tend to create environments that meet the physical and psychological needs of individuals and institutions, which seek useful, rich and rewarding contexts for their activities. They do so by transforming inspirations into specific symbolic dimensions and spaces. As for contemporary interior design, it encompasses various styles suggesting polyvalent cultural understanding and artistic atmospheres, since human ideas evolve in scope and sophistication and because the professional background of clients and designers differs. Inspirational Solutions for Space Designs offers readers an opportunity to see the world of interiors through a window, in order to gain insight into the dreams of spaces devoted to life, work and recreation. This approach is likely to generate a passion joining the designers in their creative efforts.

Through years of practice, Original Design Co. has gained an understanding of how to fulfill the requirements that best fit a qualified design engineering company. A scientific formula should be stressed, besides having substantial capacity means, ideas, will and creativity. Only by weaving planning, design and operations into an integrated whole will one be able to deliver complete services to clients and develop creative, inspired and functional solutions to their briefs.
