加图医学之光

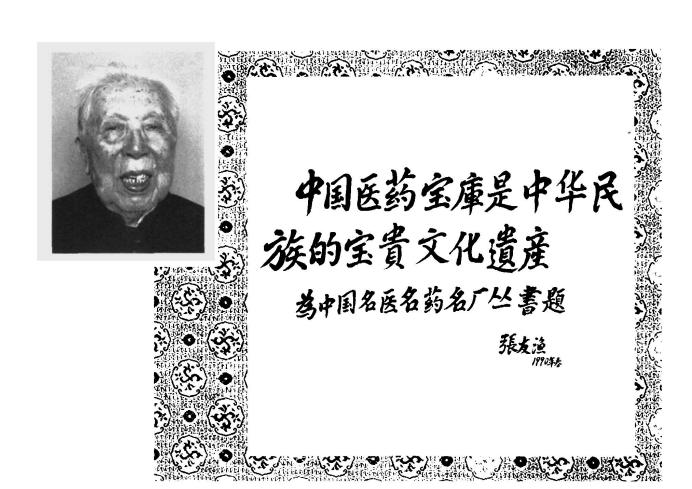

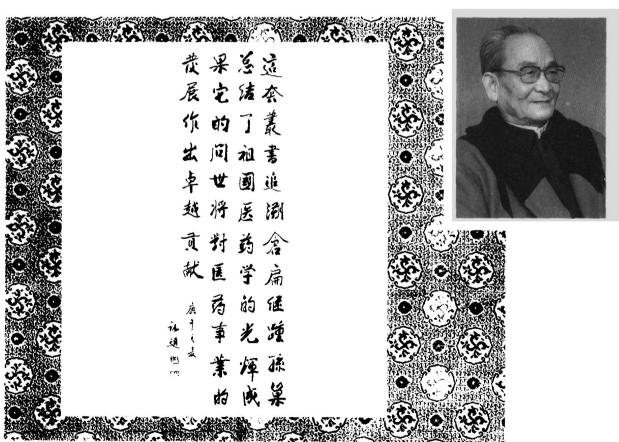

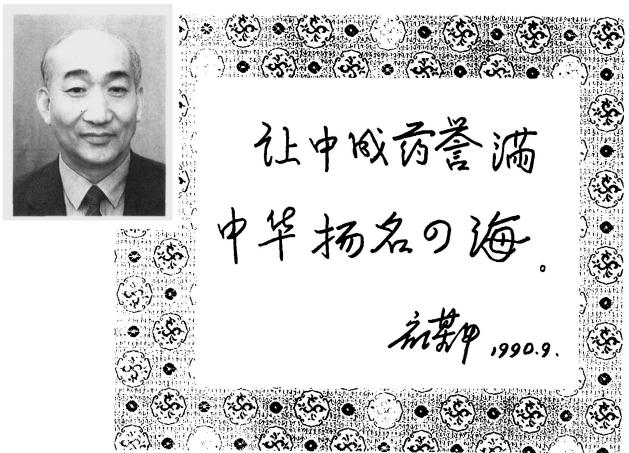

編者説明

爲了弘揚中華民族的優秀文化,發掘和繼承中華醫藥學的精華,進一步提高中華醫藥的現代化水平,我與中醫古籍出版社研究、協商決定編輯出版這套反映中華醫藥事業發展整體面貌的《中國名醫名藥名廠叢書》,並達到作爲全國性的中醫藥資料和歷史文獻的水平。聘王綿之教授主持,籌組了《中國名醫名藥名廠叢書》編委會,《叢書》按省、市、自治區分册出版。

《叢書》編委會以彭冲、方毅、錢正英爲名譽主任,王綿之爲編委會主任。各分册由各地區有關領導及醫藥界同志組成各自的編委會,主持編寫工作。各分册的編輯出版,由《叢書》編委會統籌其事。

爲了全面地反映中華醫藥學多姿多彩的風貌,各分册將結合各省、市、自治區的實際情况,在《叢書》體例一致的總要求下,充分展現各自的特點,以利各地同行、同業了解和交流。

《叢書》圖文並重,文字力求簡明,扼要,圖片務求生動,清晰,相得益彰。

編寫過程中,我們榮幸地得到了中央及各地許多革命前輩和黨 政領導的支持。彭眞同志親自爲《叢書》題寫了書名,李瑞環同志 爲《叢書》撰寫了總序,彭冲、方毅、錢正英爲《叢書》題詞,便 《叢書》增添了難以泯滅的光輝。

各省、市、自治區,不少領導同志不僅熱情支持了《叢書》的 組織工作,而且還積極參與了各分册的編寫工作,各省、市、自治 區的衞生廳局、醫藥局,以及各地藥材公司、各生產廠家都從人 力、物力、財力上積極支持了《叢書》的工作,令我終生難忘。

中醫古籍出版社的有關領導為《叢書》的出版做出了很大的努力,幾位在編輯出版、裝幀設計方面有豐富經驗的同行為《叢書》的編纂付出了艱辛的勞動,沒有他們的支持與協助,《叢書》的問世是難以想象的。

EDITOR STATEMENT

For the sake of propagating the excellent culture of Chinese nation, exploiting and inheriting the essence of traditional Chinese medicine, enhancing higher the modern level of Chinese medicinal undertakings, I have studied, discussed and decided with the Publishing House of Ancient Books on Traditional Chinese Medicine to publish this Series of Famous Physicians, Famous Drugs and Famous Pharmacies in China. The Series will manifest a general development picture of the cause of Chinese medicine and present nationwide data concerning traditional Chinese therapeutical and pharmaceutical medicine. Professor Wang Mianzhi was invited to preside over the matter and an Editorial Board was organized to carry out the work. The Series will be published in fascicles on the basis of different provinces, cities and autonomous regions.

The Editorial Board invited Peng Chong, Fang Yi, Qian Zhengying as Honourary Directors, and Wang Mianzhi as Director. The editorial work of fascicles of different regions will be presided by their own editorial boards, and the publishing job will be planned overall by the General Editorial Board.

In order to reflect completely the splendid and colourful features of traditional Chinese medicine, different fascicles will exhibit fully the various specialties of different provinces, cities and autonomous regions according to their own real condition in line with the general requirement of a unified <u>Series</u> layout. It will be very helpful for the mutual understanding and interchange of colleagues of the same trade over the country.

The <u>Series</u> lay stress on both literature and illustrations and the two will complement each other. The literature are summary and concise, and the illustrations vivid and clear.

In the course of compiling, we enjoy great honour of the supports of many revolutionaries of the older generation and leaders of the Party and Government central and local. Comrade Peng Zhen himself has inscribed the title of the <u>Series</u>, Comrade Li Ruihuan has written a general preface, and Peng Chong, Fang Yi, Qian Zhengying have made inscriptions for it. All these add indelible glory to the <u>Series</u>.

It would be inforgetable for my whole life that many leading comrades of various provinces, cities and autonomous regions not only backed the organization work of the <u>Series</u> ardently but also joined in the compiling work energetically, and the public health departments, medicinal materials companies and pharmaceutical factories of various provinces, cities and autonomous regions have supported the <u>Series</u> in personnel, materials and finances.

The concerned executives of the Publishing House of Ancient Books on Traditional Chinese Medicine have made great efforts for the publication of this <u>Series</u>, and colleagues experienced thoroughly in editing, publishing and designing have devoted painstaking works in its compilation. It would be unimaginable for the coming out of the Series without their sustention and assistance.

Executive Chief Editor Fan Ziqian March 30, 1990

《中國名醫名藥名廠叢書》序

李瑞環

一年多以前,天津市幾位老同志發大宏願,要把天津中醫中樂界的名家名品名廠搜集整理,編輯成書,以薈精集粹,樹立風範,播揚先進,激勵後來。及後,許多省市也聞風而動,競相響應,正陸續着手編纂本地區的名醫名藥名廠專册,這樣合起來便構成了中國名醫名藥名廠的系列叢書。編者屬我爲這套叢書寫個序言。我以爲這是件大好事,樂於應命。

我歷來主張大力弘揚中華民族的優秀文化,這是建設有中國特色的社會主義新文化的需要。中華民族是一個擁有五千年文明史的偉大民族。在人類歷史發展演進的漫長歲月中,中國人民曾經以辛勤的勞動和卓絕的智慧創造了舉世無雙的科學文化,為人類奉獻了光輝燦爛的文明瑰寶,同時也湧現出一大批飲譽世界的文化大師和科學巨星。中國的醫藥學,作爲中華民族優秀文化寶庫的重要組成部分,同樣具有源遠流長、博大精深、影響深遠的光榮傳統。據史料佐證,我國自有文字時起就有了關於醫學的記載,它的起源可以追溯到遠古時代。中國的醫藥學經歷了幾千年的發展,逐步形成了完整的以追溯到遠古時代。中國的醫藥學經歷了幾千年的發展,逐步形成了完整的以追溯到遠古時代。由國的醫藥學經歷了幾千年的發展,逐步形成了完整的醫療效果,其類煌成就,在世界醫學科學有了飛躍發展的今天,依然熠熠生輝,璀璨奪目,保持着強大的生命力。

我國古代醫學醫術曾長時期在多方面屬於世界首創和領先地位。早在公 元前6世紀春秋時代,當世界上絕大多數人還把疾病的發生歸諸鬼神崇蠱的時 候,中國的醫學已經認識到人體的疾患與飲食起居、喜怒哀樂有關。秦景公
