编辑说明

一、中国政府以 2010 年 11 月 1 日零时为标准时间，成功地进行了第六次全国人口普查，获取了丰富翔实的人口资料，其中也包括大量的民族人口数据，为分析和研究中国 56 个民族人口的发展状况提供了一次难得的机会和有利的条件。为了满足国内外各界人士的需要，国家统计局人口和就业统计司同国家民委经济发展司合作，选取和整理了部分重要的民族人口数据，联合编辑出版本书，以飨读者。

二、本书分上下两册。其中包括：各民族人口综合数据，包括普查表短表、长表中有关民族方面的内容，主要反映民族人口的基本概要和受教育程度、就业状况、婚姻、生育、家庭、住房、迁移、年龄等各种结构情况；全国各市、县分民族、性别的人口分布情况。随书赠送光盘 1 张。

三、第六次全国人口普查的对象是普查标准时点在中华人民共和国境内的自然人以及在中华人民共和国境外但未定居的中国公民，不包括在中华人民共和国境内短期停留的港澳台居民和外籍人员。“境内”指我国海关关境以内，“境外”指我国海关关境以外。

四、第六次全国人口普查采用了长短两种普查表。普查表短表为反映人口基本状况的项目，普查表长表包括所有短表内容和有关迁移、受教育、经济活动、婚姻家庭、生育和住房等情况的项目。根据普查办法和普查表长表抽样细则，10%的户填报长表，短表由其余的户填报。

五、本书中的资料是按照实际普查登记情况直接汇总的数据，不包括人口普查漏登的人口（事后质量抽查表明人口漏登率为 0.12%），不包括 230 万现役军人，不包括 465 万难以确定常住地的人口。

六、由于长表是按户抽样并进行登记，因此人口总数以及各种人口结构数据的抽样比会存在差异，请读者使用本资料推算总体时，对采用的方法予以注意。

七、本书中的资料仅为中国大陆 31 个省、自治区、直辖市人口数据，未包括台湾省和香港、澳门特别行政区的人口数据。

八、资料中空项表示无数字或数字很小。

由于编辑水平有限，疏漏和不妥之处恳请读者指正。同时，谨对有关部门和人士的大力支持深表感谢。

Editorial Note

1. China's sixth national population census was successfully conducted at the reference time of zero o'clock on 1 November 2010. Through the census, a tremendous amount of demographic data has been collected and the data concerning China's nationalities could provide a good opportunity and facility for the analysis and research on the development status of China's 56 nationalities. In order to meet the need of both the domestic and foreign users, the Department of Population and Employment Statistics of the National Bureau of Statistics of China (NBS) and the Department of Economic Development of the State Ethnic Affairs Commission of China has jointly selected and compiled part of the major demographic data on China's nationalities for publishing.

2. The book has two volumes, including the integrated data on China's nationalities derived from the information of different nationalities in the short form and long form of the census questionnaire, such as the basic information on China's nationality population, education attainment, employment, marital status, fertility, family, housing, migration, age, the population distribution of cities and counties by nationality and sex in the country. The CD of the book is also available accompanying the book.

3. The sixth national population census covers all natural persons residing in the territory of the People's Republic of China and the Chinese citizens residing outside but not permanently settled down in locations beyond the territory of the People's Republic of China at the census reference time, excluding residents of Hong Kong, Macao and Taiwan and foreigners temporarily staying in the territory of the People's Republic of China. Territory here refers to the territory of the customs.

4. The sixth national population census used two kinds of questionnaires: the long form and short form. The short form was designed to collect information on basic demographic status while the long form covered both the items in the short form and items including migration, education, economic activities, marital status, fertility and housing etc. According to the census stipulations and the detailed sampling principle for the long form, 10% of the households filled up the long forms while the rest of the households filled up the short form.

5. Results in this publication are based on the processing of data directly from enumeration without any adjustment, excluding population not enumerated in the census (The post-enumeration survey indicates an undercount of 0.12% in the census enumeration), the 2.30 million servicemen and 4.65 million population with permanent residence difficult to define.

6. The sampling ratio for the total population and for various compositions of the population may not be the same, as household is used as the ultimate sampling unit in the enumeration. Users should pay attention to methods when using information in this publication to estimate the total population from the sample results.

7. Statistics in the book only include demographic data of the 31 provinces, municipalities and autonomous regions in the mainland, excluding Taiwan province, Hong Kong and Macao SARs.

8. Empty cells in tables in this publication indicate that no data are available or the value is too small.

Because of the limitations of time, data source and editorial ability, there might be some omissions. The readers' comments will be highly appreciated. Besides, we would like to express our sincere thanks to the strong support of the related agencies and personnel.
