By Liu Xu, the President of Chinese Interior Decoration Society

October, 2012

我认识徐敏博士是在2006年第六届中国室内设计双年展上。他参展的苏州狮山基督教堂的室内设计作品,给了全体评委和我很深的印象。他的设计和该教堂典型的哥特式建筑风格完美地融为一体,每个细节都经过认真细致地推敲,体现了精纯的艺术技巧,是当时国内建筑室内装饰艺术的杰出作品,被评为该届双年展的室内设计金奖。

从此以后,每届室内设计双年展,他都有作 品参展并获奖。我了解到,他将基督教堂建筑与 室内设计作为他近期的主攻方向。为了更好地提 升自己的人文素质和艺术素养,他带职攻读了 南京艺术学院的美术学博士学位,以中国近现 代基督教堂建筑作为自己的研究方向。他利用 假日和休息时间,对我国现存的近现代著名基 督教堂进行了全面认真的考察研究, 为从事基 督教堂设计打下了厚实的基础。在这期间,他 完成了题为《中国近代基督宗教教堂建筑考察研 究》的博士论文并顺利地通过了答辩,获得了 美术学博士学位。同时, 又完成了南京金陵协和 神学院大教堂(2006年)、温州柳市基督教堂 (2007年)、温州状元镇石坦基督教堂(2008 年)、苏州独墅湖基督教堂(2008年)、温州苍 南基督教堂(2009年)、温州苍南县凤池乡基 督教堂(2009年)、温州龙华基督教堂(2009 年)、温州永中基督教堂(2009年)、周口基督 教堂(2010年)、南京高楼门基督教堂(2010 年)、南京小市基督教堂(2010年)、南京基 督教圣训堂(2011年)、重庆基督教福音堂 (2012年)、重庆天主教圣德肋撒堂(2012 年)等的建筑与室内装饰设计。其中,苏州狮山基督教堂、温州状元镇石坦基督教堂、苏州独墅湖基督教堂已建成。其他一些教堂大多在规划或施工阶段。金陵协和神学院大教堂的室内装饰设计荣获2007年IFI国际室内设计大奖赛一等奖、中国室内设计大奖赛一等奖;温州状元镇石坦基督教堂和苏州独墅湖基督教堂的室内装饰设计荣获2008年第七届中国国际室内设计双年展金奖;温州龙华基督教堂和温州永中基督教堂的室内装饰设计分别获得2009年江苏省第七届室内装饰设计大奖赛特等奖和一等奖等等。

我之所以要将徐敏博士这几年所从事的基督 教堂设计及其获奖情况——列出,是为我国室内 装饰设计开辟的一个新的设计领域及其他所取得 的突出成就而高兴。徐敏博士之所以取得如此突 出的成就,是和他长期坚持艺术设计实践并且不 断探索建筑与室内设计的新的领域分不开的,也 与他在原中央工艺美术学院学习期间奠定的坚实 的艺术设计基础有密切的关系。现在社会上弥漫 着一种急功近利的浮躁心态,价值观念的取向也 变换不定,有些设计师急干找到自己理想的坐 标,却不愿意踏踏实实地付出辛勤的劳动,这对 我国室内设计事业的发展和设计师个人的成长都 是很不利的。值此徐敏博士的基督教堂建筑与室 内设计作品出版之际, 他要我写几句话, 我除了 为本书的出版表示祝贺并希望他在事业上取得更 大的成功外, 也希望读者从这本书中能得到一些 收益和启发。

Foreword

Foreword

17-

I made the acquaintance of Dr. Xu Min at the 6th Session of Biennale Exposition of Chinese Interior Design. His interior design of Suzhou Mount Lion Church exhibited in that year deeply impressed us commentators. As the outstanding works of national architecture interior decoration of that time, it was awarded the gold medal for its integral style with the typically gothic church, its delicately designed details, and its exquisite techniques.

Thereafter, Dr. Xu Min participated in every session of Biennale Exposition of Chinese Interior Design and won awards. I get to know that he has taken the architecture and interior design of Christian church as his recent research interest. To promote his cultivation in humanities and arts, while working, he entered into Nanjing Institute of Arts to study for the doctoral degree in fine arts, and mainly did researches on modern Chinese church architecture. He dedicated all his spare time to doing a comprehensive study upon the existing well-known modern churches in China, which laid a solid foundation for his church design career. During this period, he finished the thesis "An Investigation upon Modern Chinese Church Architecture" and successfully passed the doctoral thesis defense, and finally attained the doctoral degree in fine arts. Meanwhile, he finished the design of architecture and interior decoration of churches listed as follows: The Cathedral of Nanjing Union Seminary (2006), The Church in Liu City, Wenzhou (2007), Shitan Church in Zhuangyuan Town, Wenzhou (2008), Dushu Lake Church in Suzhou (2008), Cangnan Church in Wenzhou (2009), Fengchi Church in Cangnan Town, Wenzhou (2009), Longhua Church in Wenzhou (2009), Yongzhong Church in Wenzhou (2009), Zhoukou Church (2010), Gaoloumen Church in Nanjing (2010), Xiaoshi Church in Nanjing (2010), Nanjing Shengxun Cathedral (2011), Chongqing Gospel Church (2012), St. Teresa Catholic Church in Chongging (2012). Of all the above-mentioned churches, Mount Lion Church, Shitan Church,

and Dushu Lake Church have already been built. Other churches are either in planning or under construction. The interior decoration design of the Cathedral of Nanjing Union Seminary won the first prize of IFI International Interior Design Competition and the first prize of Chinese Interior Design Competition in 2007. The interior decoration designs of Shitan Church in Zhuangyuan Town and Dushu Lake Church in Suzhou were awarded the gold medal in the 7th Session of Biennale Exposition of Chinese International Interior Design in 2008. The interior decoration designs of Longhua Church and Yongzhong Church were respectively awarded the special prize and the first prize on the 7th Session of Interior Design Competition of Jiangsu Province in 2009, and etc.

I have shown concretely the churches designed by Dr. Xu Min and prizes he has won, for I am so pleased to see that there is a whole new field developed in our national decoration design and that it advances so fast. Dr. Xu Min deserves all these honors and medals since he has been working on art design for a long time and has dedicated himself to exploring new fields of architecture and interior design. There is no doubt that the art design experience he attained in Central Academy of Craft Art has resulted in his success. Nowadays, people are guided by a utilitarian attitude and the orientation of their value conception is changing all the time. Many a designer is anxious to find his ideal state, yet, he does not want to do any endeavor. This no doubt is neither good for personal development nor for the development of national interior design. Dr. Xu Min asks me to write some words for his collection of "Works of Church Architecture and Interior Design", and I would like to say congratulations, and wish that he could make greater progress in his career. Finally, I hope that readers could benefit from this book.

宗教艺术是以表现宗教观念,宣扬宗教教理,跟宗教仪式结合在一起或者以宗教崇拜为目的的艺术。它是宗教观念、宗教情感、宗教精神、宗教仪式与艺术形式的结合。

就宗教艺术的成分而言,其中宗教的意义是主要的,艺术的成分是次要的,但是恰恰是这次要的成分,使宗教教义的渗透力、影响力得以增强,使宗教艺术变得活泼而有生气,也使宗教艺术更加靠近现实世界,从而凸现出审美的因素,产生出审美价值。

Combined with religious rituals, religious art aims to express religious conception, publicize its doctrine, and advocate religious worship. It is a compound of religious conception, emotion, rituals and artistic forms.

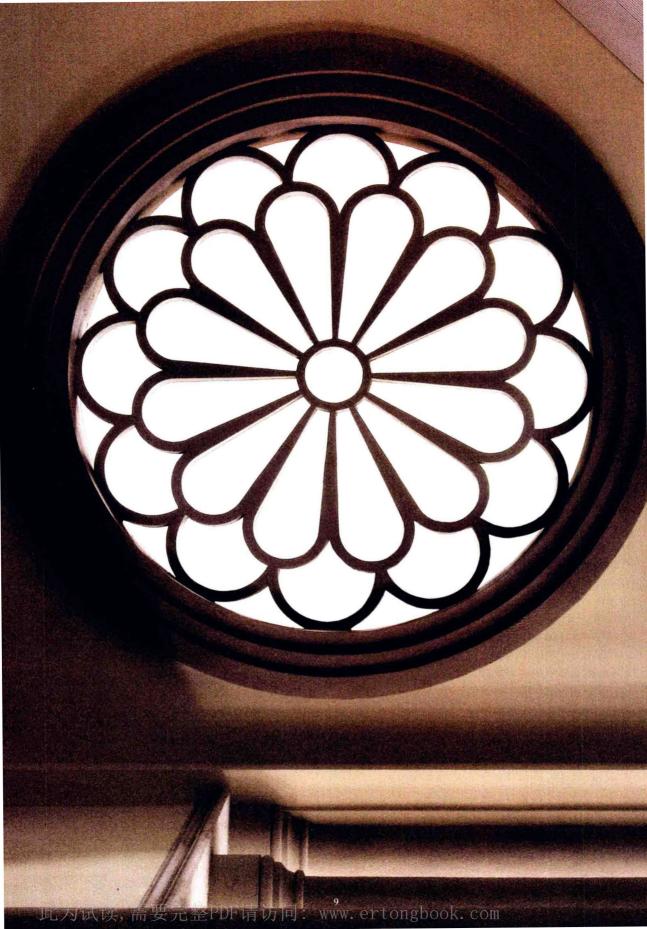

In terms of the composition of religious art, religion takes the most significant role, and art the subordinate one. However subordinated it is, art strengthens the penetrative and influential power of religious doctrine, and it enlivens religious art itself and makes it much closer to the material world, and thus presents its aesthetic value.

人法地, 地法天, 天法道, 道法自然。

Human should take their law from the Earth; the Earth follows the trail of Heaven; the Heaven follows the trail of Tao; the law of the Tao is being what it is.

建筑的要素是光和影,壁体和空间。

Light and shadow, wall and space are requisites for architecture.
