社会各界人士

With this pictorial

To the labors who made great contributions to  
the construction of chengdu

To the enterprising leaders in all levels  
who paid painstaking efforts to  
the construction of Chengdu, and the figures of all the fields

# 序

成都市建设管理委员会主任

刘斌

**《成都建设》**是一部着力反映建国50年，特别是改革开放20余年来成都市各条建设战线决策者、建设者和科技工作者开拓创新，在现代化建设中所取得的卓越成就，展现成都市跨世纪宏图大略，具有时代性、文化性、系统性的大型画册。她的出版发行确是一件盛事。

改革开放以来，成都市始终坚持把加快城市基础设施建设作为城市发展的战略任务来抓，使城市综合服务功能进一步得到增强。主要表现在：城市规划日趋完善，城市建设日新月异，开放的成都已成为全省乃至我国西南地区重要的中心城市；城市基础设施建设步伐大大加快。科技、文教、文化、体育、卫生、交通、电力、邮电、通讯、金融、商贸、市政公用、环境卫生、园林绿化等各项事业迅速发展，成都已成为我国西南地区的商贸中心、科技中心、金融中心和交通、通讯枢纽；城市生态环境质量大幅度提高。通过府南河综合整治、开展创建国家卫生城市、加强城市环境综合整治、推进城市园林绿化建设、实施城市“光彩工程”等，使城市环境质量进一步改善。成都市已被命名为“国家卫生城市”、“全国绿化先进城市”和“全国城市环境综合整治优秀城市”，府南河综合整治工程荣获联合国人居奖。

编辑出版《成都建设》大型画册，适应了成都城市发展的新形势。画册对全市城市规划设计、建筑装饰、城市建设、开发区、居住小区、风景名胜、邮电通讯、交通、电力、旅游、金融、科技教育、文化卫生、体育、城镇建设事业的主要成就作了翔实的介绍。这对进一步研究成都经济社会的发展，使人们进一步了解成都的过去、现在和未来，扩大成都的对外开放，为国内外各界朋友来成都投资、共谋发展，将产生积极的影响。

党的十五届四中全会和随后召开的中央经济工作会议提出，国家要着手实施西部地区大开发战略。朱镕基总理在我国西部地区考察工作时强调：“进一步加快基础设施建设，是实施西部大开发的基础”。成都不仅是四川省省会、西南地区重要的中心城市，还将是西部大开发的“战略高地”。我们一定要抓住历史机遇，以新观念、新思路，实现“赶超式”、“跨越式”发展，采取有效措施，加快城市基础设施建设。可以预料，21世纪的成都在全市人民的共同努力下，城市现代化水平将会大大提高，城市经济社会必将更加繁荣，城市风貌更具有历史内涵和时代特色，一座新型的社会主义现代化城市必将在我国西部地区崛起！

## Preface

LIU Yucheng

Director of Chengdu Municipal Construction  
Administrative Committee

**C**hengdu in Construction is a large scaled timely cultural systematical pictorial. It shows the outstanding achievements and great progresses won in the construction of modernization, the huge contributions of leaders; constructors; scientists and technicians in all fields over the past 50 years since the founding of New China and especially the past 20 years of carrying out the policy of reform and opening to the world, the grand strategy of Chengdu across the century. The publishing of this pictorial is a great event.

Since the reform and opening to the world, the city has being insisted to speed the construction of municipal basic facilities as a strategic task of civic development, and strengthened the functions of municipal complex services. The civic planning is becoming perfect day by day. The civic construction is changing the city into a new look every day. The opening Chengdu has become an important central city in Sichuan and even in southwestern district of China. The construction of civic basic facilities is highly strengthened. Traffic; power; post; telecommunication; finance; trade & commerce; science & education; health; culture & sports; municipal works & public utilities; garden & planting etc. are developed rapidly. Chengdu has become the center of trade & commerce; science & technology and finance, the junction of traffic and communication. The quality of civic ecological environment is heightened. The city took a series of measurement such as complexly dredging Funanhe River; establishing national sanitary city; strengthening the full tackling of civic environment; promoting the construction of civic garden and planting; working at "civic lightening project" etc. to improve the civic environmental quality. Chengdu is named as "National Sanitary City"; "National Advanced City of Green Planting"; "National Advanced City of Civic Environmental Tackling". The project of complex dredging Funanhe River was awarded "Habitat Scroll of Honour" by the United Nations.

The edition and publishing of the large scaled pictorial <<Chengdu in Construction>> matches the new situation of civic development of Chengdu. The pictorial fully provides and introduces the main achievements in design of civic planning; architectural decoration; civic construction; development areas; residential districts; scenic spots; post & telecommunication; traffic; power; tourism; finance; science & technology; education; culture & health; sports; cause of civic construction. It is a promotion to further study the economic and social development of Chengdu and aids readers to know the past, the present and the future of the city. Enlarging the door of the city to the world and attracting investment from the world for common development will be of an active influence.

At the 4th Plenary Session of 15th National Congress of CPC and at the Economic Session of Central Government, the strategy to develop the western district of China was raised. During his inspection in the western district of China Premier ZHU Rongji emphasized: "To further speed the construction of basic facilities is the foundation of carrying out the strategy to develop the western district of China". Chengdu is the capital of Sichuan Province, also the important central city in the western district of China and even "the strategic strong point" of the development of the western district of China. We must catch the historical opportunity with our new thinking; new concept to realize the development of "overtaking" and "leaping over", take the effective measurements to speed the civic construction of basic facilities. We can predict that with the hard working of the people in Chengdu during the 21st century the level of civic modernization will be highly raised, the civic economic society will be more flourishing, the civic look will be of historical connotation and characteristics of times. A new-type socialist modern city will rise abruptly in the western district of China!
