部发展研究中心,博士、讲师、硕士生导师。主要从事战略与文化、产业结构与政策等方面的研究。主持教育部人文社会科学项目1项,参与国家自然科学基金项目、国家社会科学基金项目、中央其他部门社会科学研究项目等国家级课题4项,主持和参与省级科研课题、政策咨询课题以及企业管理咨询课题20余项,出版学术著作6部,发表论文10余篇。

赵建凤 山西大学经济与管理学院、山西大学中国中部发展研究中心,博士、讲师。主要从事公司内部控制与财务管理、企业创新、资源型经济转型发展等方面的研究。主持省级课题 2 项,参与国家社会科学基金项目、教育部基金项目等国家级课题 4 项,主持和参与政策咨询课题以及企业管理咨询课题多项,出版学术著作 1 部,在《山西大学学报》等专业期刊上发表学术论文近 10 篇。

站在"十三五"发展的新起点,世界多极化、经济全球化、文化多样化、社会信息化向纵深发展,全球经济在深度调整中曲折复苏,新一轮科技革命和产业变革蓄势待发;我国经济发展方式加快转变,新增长动力正在孕育重构,经济社会发展长期向好趋势依存。但发展方式粗放,不平衡、不协调、不可持续问题仍然突出,经济增速换挡、结构调整阵痛、动能转换困难交织,中国面临稳增长、调结构、促改革、防风险、惠民生等多重任务。面对国际国内的严峻形势,如何抓住"十三五"最后关键窗口期,主动适应新常态,践行发展新理念,加快供给侧改革,提速创新转型,厚植增长新动能、结构新亮点、发展新优势,成为山西"十三五"发展的必然选择和重要任务。

《山西资源型经济转型发展报告》是全国第一部以"资源型经济转型发展"为研究主题,研究"山西省国家资源型经济转型综合配套改革试验区建设"的蓝皮书。继提出"山西'十二五'发展""转变发展方式·转型综改试验""创新驱动·转型综改""全面深化改革·转型综改试验""新常态下资源型经济结构均衡发展"年度研究主题之后,顺应国际国内深刻复杂的环境变化,适应"十三五"山西创新转型发展之需,我们确定"'十三五'发展·创新转型"为2016年度研究主题,对山西"十三五"时期面临的环境特征、主要问题、战略选择、重点任务及实现路径等进行理论与实证分析,提出了兼具理论支撑和实践可行的政策建议。本书的出版将为资源型经济转型发展的理论研究与政策创新提供参考,具有重要的理论价值和实践意义。

本书由总报告、专题报告、试点研究和附录四部分构成。总报告阐述以

加快推进创新转型为主线的结构性改革的大思路。在对"十二五"时期山西转型发展基本情况评估的基础上,指出市场开放、产业开放、对外开放及国企改革严重滞后是制约山西创新转型发展的突出矛盾,提出要践行发展新理念,建立创新转型容错机制;注重热推动,以结构性改革化解结构性矛盾;强化冷思考,促进需求管理与供给管理动态平衡;强力培育增长新动能,促成创新转型新结构;精准发力补齐制度和发展短板,实质性推进国企改革攻坚;建立绿色低碳产业发展体系,用先进标准倒逼制造业转型升级;以融入国家重大战略为契机,厚植开放合作发展新优势。

专题报告一聚焦创新理念,致力提升"十三五"山西发展引领力,提 出以供给侧改革助力发展新动能培育、推进以人为核心的新型城镇化、以创 新理念引领制造业发展,以制度创新提升山西经济增长质量。专题报告二聚 焦科技创新,致力提升"十三五"山西发展驱动力,深入分析制约山西科 技创新的金融因素、科技人才评价体系以及企业层面技术创新能力偏低等问 题、提出加快推进科技创新的政策建议。专题报告三聚焦产业转型、致力提 升"十三五"山西发展支撑力,从装备制造业转型升级、文化产业"走出 去"、互联网金融业发展、内贸流通业平衡等视角探索产业优化升级的新举 措。专题报告四聚焦城乡统筹,致力提升"十三五"山西发展协调力,提 出加快构建城乡均衡发展机制,加快城乡公共服务均等化,重点消除"能 力贫困"和"收入贫困",加快推进"两型社会"建设,实现山西经济社会 结构"再平衡"。专题报告五聚焦标准契合,致力提升"十三五"山西发展 竞争力,提出要以标准化供给侧改革提升目标、提升任务、提升共识,助推 养老服务业健康发展和城中村改造,构建新型农业社会化服务标准体系,在 适应新常态中提升企业标准化水平。试点研究持续跟踪转型综改工作、提出 深人推进试点县转型综改、乡村治理体系现代化、加快县级综合档案馆建设 的政策建议。附录精选收录书记省长谈山西"十三五"发展、社科界部分 专家学者建言山西"十三五"发展及大事记。

#### Abstract

At the new starting point of the Thirteenth Five-year Plan period, we are facing an increasingly complex world economic environment. With the further development of world multipolarization, economic globalization, cultural diversity, social informatization, the world economy is recovering with difficulty through further painful adjustments and a new round of science & technology and industrial revolution has made its debut. China is accelerating her change in economic development pattern, new rise engines are shaping and restructuring with good economic and social developments momentum. But with the extensive development pattern and unbalanced, uncoordinated and unsustainable development problems, China is faced with a series of problems such as shift of economic rise rate, pains in economic restructuring process and difficulties in motion energy conversion together with priority tasks such as stabilizing economic rise, restructuring economic pattern, promoting reform, preventing risks and improving people's well-being. With the serious situation at home and abroad, Shanxi should take into consideration its key choices and missions during the Thirteenth Five-year Plan period such as grasping the last and decisive chances in the development period, adapting to the New Normal, putting the new development ideas into practice, speeding up reforming of the supply side, accelerating innovation-driven transformation and accumulating potential for new motion energy, cultivating new highlights in structure and new advantages of development.

As the first blue book of Shanxi to focus on the research issue of Resource-reliant Economy's Transformational Development, Annual Report on Resource-reliant Economy's Transformational Development in Shanxi centers about the construction of Integrated Reforming Pilot Area for Shanxi's Transformational Development. Succeeding the annual themes of Shanxi's Twelfth Five-Year-Plan, Transforming

Development Model, Innovation-driven Development and Overall and Thorough Reforming, Balanced Structure in the Context of New Normal, the topic of 2016 is the Thirteenth Five-year Plan and innovative development, which attempts to provide theoretical and empirical studies on the development environment, key issues, strategic choices, key tasks, approaches and policy-making suggestions with theoretical support and feasible advice. The publishing of this book is expected to provide reference for theoretical research and policy-making innovation, with theoretical significance and practical value.

The Book is made up of four parts: General Report, Special Reports, Pilot Project Study and Appendix. The General Report elaborates the structure reform featured by innovation-driven transformation. On the basis of an assessment of the transformational developments in the Twelfth Five-year Plan period, the author concludes that the prominent problems preventing Shanxi's further innovative transformational developments include the lagging status in marketing, industrial and overall opening-up and state-owned enterprises reforming. The author proposes that Shanxi should introduce and put into practice new ideas of developments, establish mistake-tolerant mechanism in the efforts of innovationdriven transformation, emphasize "hot" push to solve the structural problems with structural reform and "calm" thinking to gain dynamic balance between the demand and supply, cultivate new energies for economic rise, establish green, low-carbon industry development system and force manufacturing industry's transforming and upgrading with advanced standardization endeavors and grasp opportunities provided by the national strategies and cultivate new competitiveness in opening-up and cooperation.

Special Report One focuses on innovative ideas to promote Shanxi's leading capability during the Thirteenth Five-year Plan period including introducing reforming of the supply side to help cultivate new engines for economic rise, promoting new urbanization centering about peoples' well being, introducing innovative ideas to guide the manufacturing industry developments and improving the quality of economic rise with institutional innovation. Special Report Two elaborates science & technology innovation to enhance the driving force for Shanxi's development. The topics are introduced such as the financial bottlenecks

preventing science & technology innovation, science & technology talents assessment system construction, enterprises' incapability in technological innovation and policy-making suggestions on speeding up science &technology innovation. The industrial transformation and new measures to upgrade industrial structure are highlighted in Special Report Three to support Shanxi's development. Issues are discussed concerning equipments manufacturing industries' transformation and upgrading, cultural industries' going global, Internet financing service industry and balanced development of circulation industry in domestic trade. Coordinated developments of rural and urban areas are introduced in Special Report Four to gain a rebalanced state in Shanxi economic and social structure. The topics include establishing the balanced development mechanism of urban and rural development, speeding up the equalization of public service in urban and rural areas, shaking off capability poverty and income poverty and accelerating the Two-oriented society characterized with resource-saving and friendly environment. Special Report Five addresses the issues of standardization development so as to promote Shanxi's competitiveness. Reforms on standardization supply are proposed to improve the aged people service industry development and the urban villages' urbanization quality, construct new standardization systems for agricultural service and promote the enterprises' standardization level in the new normal context. The pilot project study makes a follow-up research on the Integrated Reforming Pilot Area for Shanxi's Transformational Development: the pilot counties' further and sound developments, the modernization of the rural management and the construction of the county archives. The Appendix excerpts remarks on the Thirteenth Five-year Plan by the Secretary of CCP's Shanxi Committee and the Provincial Governor and proposals by experts and scholars concerning the Shanxi's development in the Thirteenth Five-year Plan. The great events are also included.

#### I General Report

Shanxi's Innovation-driven Transformation in the Thirteenth

Economic Structure

Five-year Plan Period: New Trends, New Structure and Initiatives

Li Zhiqiang / 001

1. A Review of Developments in the Twelfth Five-year Plan Period / 002

2. The New Trends of Shanxi's Innovation-driven Transformation:

Fairly Well-off Society and Through Reforming / 006

3. Towards a New Structure for Shanxi's Innovation-driven

Transformation: Reform of the Supply Side and Balance in

4. Initiatives for Shanxi's Innovative Transformation:

/ 011

/ 016

#### II Special Reports

Innovation-driven Transformation and Upgrading

Special Report One: Innovative Ideas to Promote Leading Capability for Shanxi's Development

B.2 Five Development Ideas to Guide Shanxi's Transformational
Developments
Li Zhiqiang, Zhang Qinqing and Wu Xinyi / 026

**B**.1
