New Orleans Global Green Competition

新奥尔良全球绿化竞赛

竞赛背景

Competition Background

In the aftermath of Hurricane Katrina, Global Green sponsored a competition to help build the green building expertise of the local professional community. Entries were required to submit ideas for a 1.25-acre site that was to include multi-family housing, alongside single-family dwellings and community center features all with net-zero energy goals.

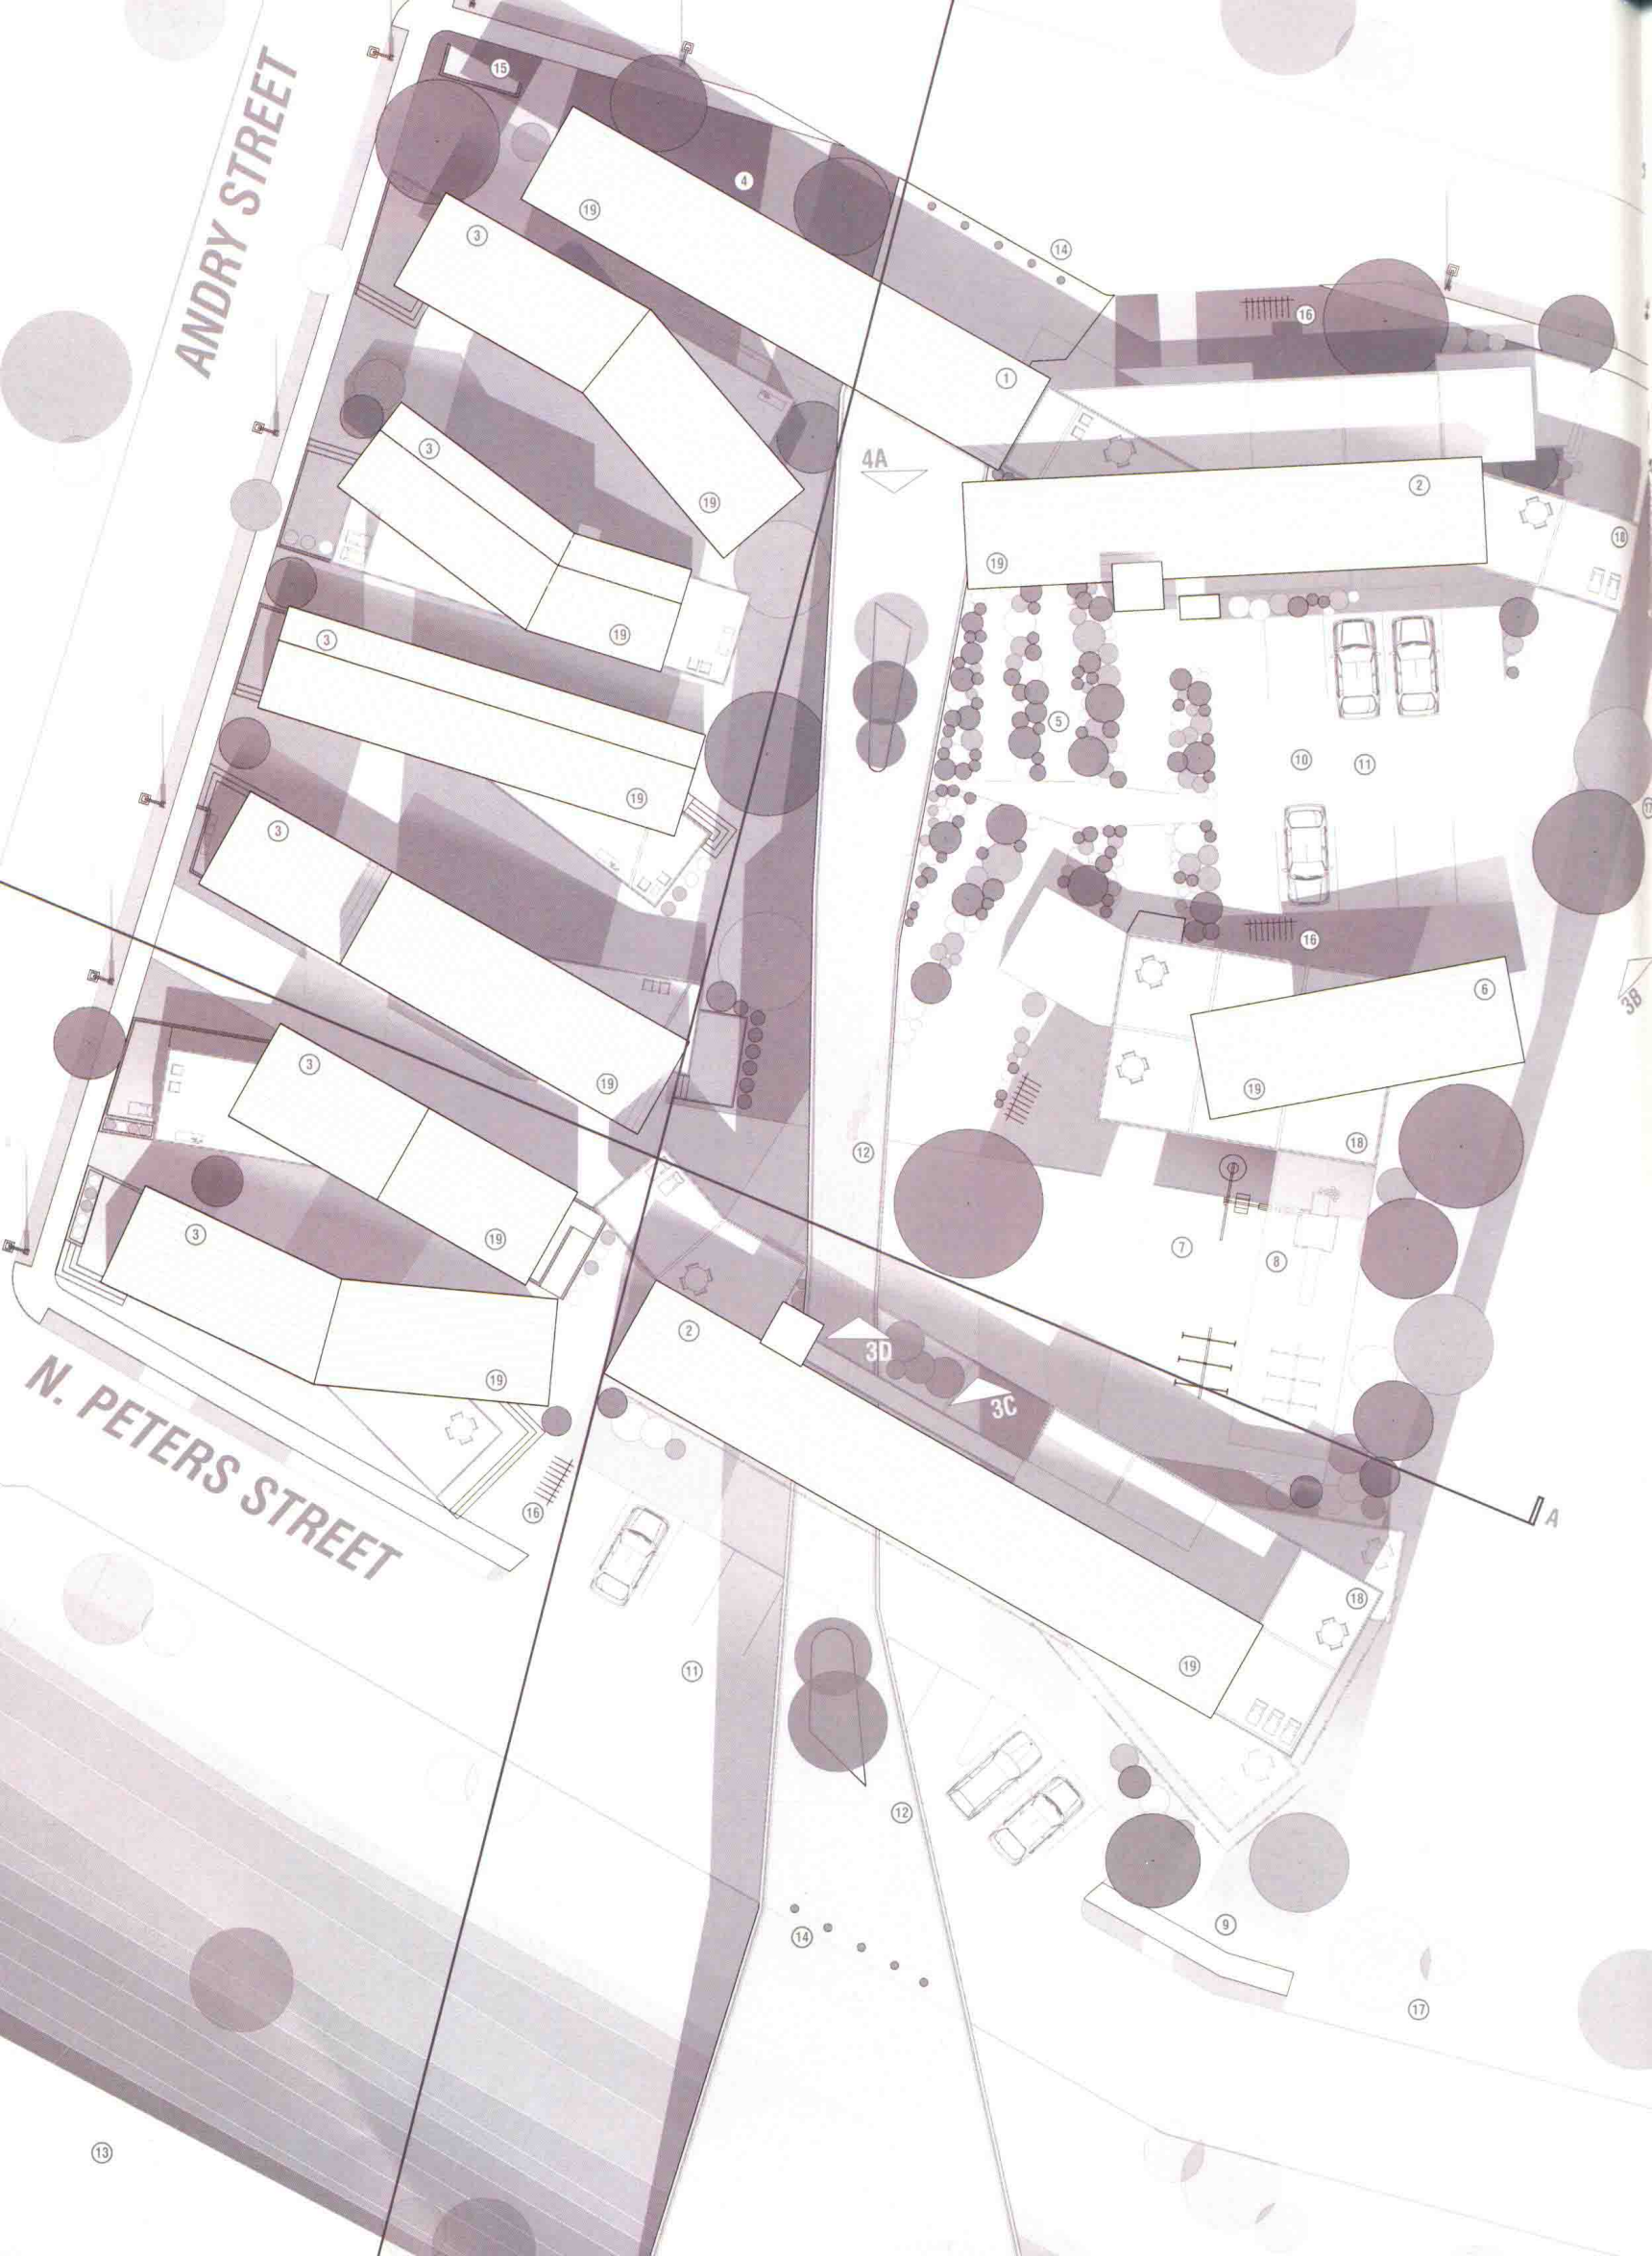

The original goal was to try and do projects in 5 areas of the city, but that proved too difficult to execute in post-Katrina New Orleans at that time, so the Holy Cross site was decided and the entire process was used as a model for how to approach. The entries needed to create a certain comfort level for the residents with the new building type.

全球绿化公司就卡特里娜飓风之后新奥尔良住宅的未来状况举办了一次竞赛，旨在帮助建立起当地专业建筑公司的环保建筑技术。要求参赛者为一块5059平方米的项目地点提供一个可持续性的城市设计方案，重点是伴随单户住宅及其他环境特点设计出一个具有社区中心特点的多户环保健康的住宅建筑，达到几个可持续设计和环保建筑的目标。

最初的项目地点是新奥尔良的五个地区，但施工难度太大，因此最后定在了圣十字，把整个项目过程作为如何在新奥尔良未来推广绿化环保的典范。参赛者在设计过程中应充分考虑到建筑类型的舒适度。

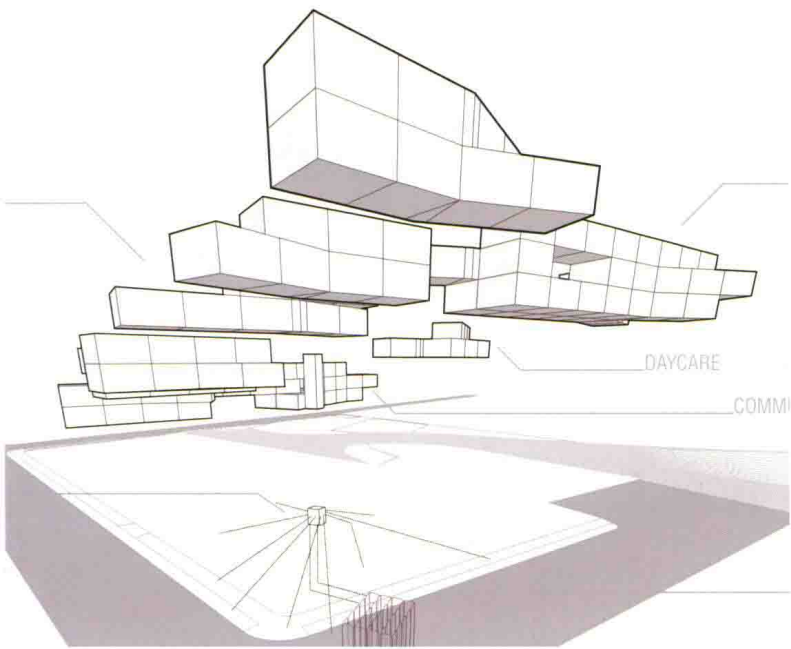

ANDRY STREET

N. PETERS STREET

专家点评 Remarks

The Global Green Competition provides a picture of what post-Katrina New Orleans can become — livable, modern, organized, and sustainable. In the competition the designers look ahead at how to create something completely new while keeping tradition as a possible reference point.

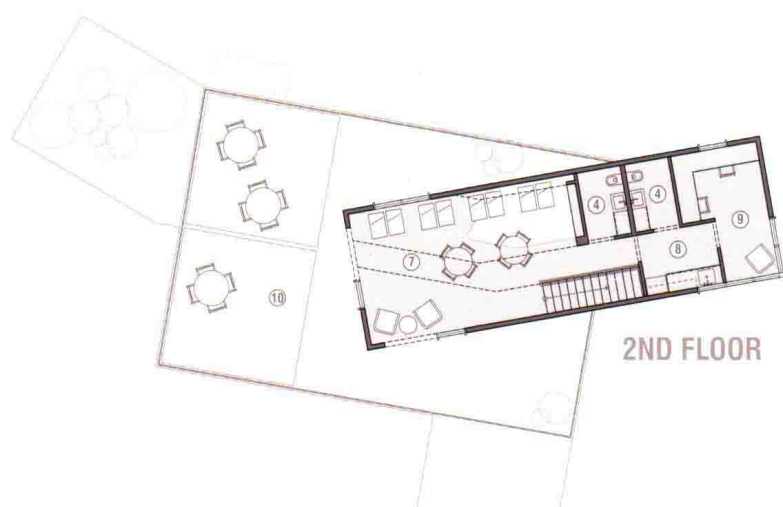

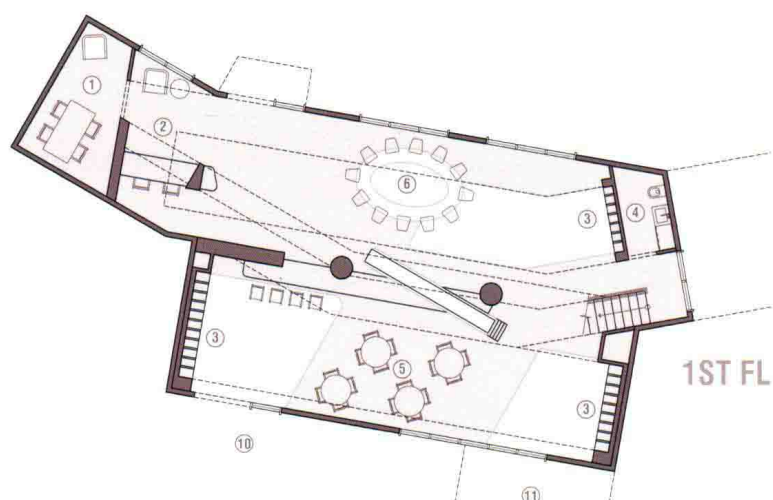

全球绿化竞赛为我们提供了卡特里娜飓风之后的新奥尔良：动感，现代，有序，而且具有可持续性。在新奥尔良竞赛中，我们在参考传统的同时，应该努力设计出完全新颖的东西。

工作间APD建筑事务所/安德鲁·科特晨/马修·伯曼 参赛项目1 (一等奖)

WorkshopAPD/Andrew Kotchen/ Matthew Berman Project 1 the first prize

A main feature of WorkshopAPD's design was the use of modular components, which reduces cost, construction time and can improve overall quality. Another argument for this approach is that jobsite pollution is minimized and transportation-related fuel costs are substantially reduced. The scheme can be replicated in various way on other sites.

工作间APD建筑事务所方案的一个主要特点是运用住宅组合单元以降低成本，节约建筑时间，同时提高项目的整体质量。该项目的另一个优点是施工现场污染被降到最低，运输相关的燃料成本也大大降低。该方案可以在其他项目地点用不同方法进行效仿。
