With the support and close concerm of Chinese and foreign photographers, "China 10th International Photographic Art Exhibition" organized by Chinese Photographers Association is held in December 2003.

Though effected by SARS and the Iraqi War, it honored that there are 22,271 prints shot by 3,940 photographers from 67 countries and regions all over the world submitted to the exhibition. The countries submitting entries in this exhibition was an all–time high. Compared with the last, there are 3 countries more and 5,062 prints more in this exhibition than those in previous exhibitions. All these data show that China International Photographic Art Exhibitions held by Chinese Photographers Association since the year of 1981 have become a well–known international photographic art exhibition, which enjoys high international prestige and exert tremendous influence in the world.

Selected seriously by 11 judges of great attainments in photography from the mainland of China, HongKong Special Administrative Region, Taiwan Province, the Republic of Korea, the United Stated of America and France, 356 works, among which 82 works have won Gold, Silver, Bronze medals, FIAP ribbons and awards recommended by the judges, are accepted. Here we extend our sincere thanks to those who submitted their works to our exhibition and warm congratulations on the great success of the prizewinners.

The judges from different countries and regions have set a high value on the works of the exhibition. They evaluated that the works on the whole are in good taste and many of them have brought new ideas in the forms of expressions and put much more attention to big events and topics of general interest. Because of the difference of cultural backgrounds and ways of admiration, in addition, because of the differences of understanding of the images and analysis of the events, it is hardly avoidable to have contention of different standpoints among the judges from various countries and regions. This academic discussion is good for judging the sociality and artistry of the works.

To present the excellent works of the exhibition to the broad masses of people, we have edited this album. We can learn something from the album about the new exploration and new development in photography created by photographers from different countries in different environments recent years. It is not only to provide mass of photographers a platform for photo exchange, but also to give us an artistic treat and promote the mutual understanding and friendship among the peoples in the world as well.

In the days to come, Chinese Photographers Association is going on building a friendly bridge for photo exchange and using the each other's experience for reference. We cordially hope to get the support from photographers in various countries and regions all over the world just as in the past to further promote the progress of the world photography and usher in a new era of photographic art of the mankind.

We would like to express our wholehearted gratitude to all friendly photographic organizations, institutions, photographers and people concerned at home and abroad for their fervent support and sincere cooperation.
