第 四 届  
复 赛

You are to write an essay at about 300 words in 60 minutes on the following situation. You may supply a topic of your own.

According to a recent report from the United Nations, the world population is aging rapidly. Take China as an example, the population 60 and older has reached 134 million (accounting for 10% of the Chinese population), 70% of whom are located in the countryside. How would we respond to this social problem, in the next 20 years in particular?

# Nothing is More Important than it

丁可欣

贵州省贵阳市

第一中学

高三17班

1. 改为 There is no denying that the world population is aging...
2. its 指代不明,指的是 the world 呢? 还是 the world population 呢?
3. 单词 dramatically 拼错。另外 dramatically development 应该是 dramatic development。
4. of China 改为 in China。
5. numberer 应为 number。
6. has 应该为 have。
7. a increasing 应为 an increasing。
8. he society's economic aspects has 语法有问题, 应为 have。另外, the society's economic aspects has been in a benifical position 表达含混不清, 可表达为 China has seen a boom in economy, which improves people's qualities of life。
9. people's available age on average has increased 表达不明, 可直接说成 people's average life-span becomes longer。
10. in past 之间加上 the。
11. 一句话中先使用了过去时 were adequate, 又使用了现在时 is proper, 应统一为过去时。

There is no denying the fact that<sup>1</sup> the world population is aging rapidly with its<sup>2</sup> dramatically<sup>3</sup> development over the recent years. According to a recent report, the population 60 and older of China<sup>4</sup> has reached 134 million, 70% of whom are located in the countryside. Therefore, nothing is more important than to solve the social problem of the increasing number<sup>5</sup> of the old.

Why does our society has<sup>6</sup> a<sup>7</sup> increasing number of the old? Maybe there are two major reasons. For one thing, with the development of technology and science, the society's economic aspects has been in a benifical position<sup>8</sup>, which improve people's qualities of life. Consequently, people's available age on average has increased<sup>9</sup>. For another, the resources in past<sup>10</sup> years were adequate and the environment is proper to live<sup>11</sup> in. There

is no doubt that all of these factors has<sup>12</sup> a far-reaching impact on people's population<sup>13</sup>.

Nowadays, increasing number of the old cause<sup>14</sup> wide public concern. The old had devotde<sup>15</sup> their time and energy to construction of countries<sup>16</sup>, which is looked up by the majority of people<sup>17</sup>. Furthermore, everyone is bound to become old, so<sup>18</sup> it's everyone's responsebility<sup>19</sup> to do his best to solve the social problem especially in the next 20 years that<sup>20</sup> the society will be more booming.

In my opinion, firstly, the government should adopt some measure<sup>21</sup> to limit the number of newborns constantly<sup>22</sup>. Because<sup>23</sup> the increasing number of newborns is crucial factor<sup>24</sup> which result in<sup>25</sup> the increasing number of the old especially in the countryside. Moreover, people should be enhanced education<sup>26</sup> to understand the social problem's importance<sup>27</sup>. Secondly, people should

12. has 改为 have。

13. people's population 直接表达为 population。

14. increasing number of the old cause... 为语法错误, 改为 the increasing number of the old causes...

15. devotde 为误写, 应为 devoted。

16. construction of countries 改为 the construction of our country。

17. which is looked up by the majority of people 去掉。

18. so 的使用说明它引导的从句同前面的主句, 即 everyone is bound to become old 之间有着因果的关系, 但是 so 后面的从句与句子 The old had devoted their time and energy to the construction of our country 也有因果关系, 所以建议 so 改为 Therefore, 而前面的逗号改为句号。

19. responsebility 拼错, 应为 responsibility。

20. that 改为 when。

21. measure 改为复数。

22. constantly 放在 limit 之前。

23. Because 换成小写, 前面句号变成逗号。

24. crucial factor 之前缺少不定冠词 a。

25. result in 应为 results in。

26. enhanced education 应为 enhanced in their educational level。

27. the social problem's importance 改为 the seriousness of this social problem。

make the old have<sup>28</sup> a good quality of life. But no account can we break the balance between the development and the environment<sup>29</sup>. Lastly, we can hold some activities fit for the old in order to let them feel the society's concern and our love. What's more<sup>30</sup>, the old can know more about the outside world which lead<sup>31</sup> them to know their value of lives.

28. make the old have 改为 give the old a good quality of life。

29. But no account can we break the balance between the development and the environment 这句话逻辑上十分混乱，与前句不衔接。

30. 前面已经说过 lastly，接着又说了一点 what's more。逻辑错乱。

31. lead 应为 leads

32. it will not long 改为 it will not belong。

33. the old good days 应为 the good old days。

All in all, with everyone doing his bit, it will not long<sup>32</sup> before “the old good days<sup>33</sup>” come back in the future.

### 点 评

作者掌握了一些固定的词组和搭配，并试图在具体的写作中加以运用。但是语法水平还有较大的进步空间，一些较为简单的语法知识运用不当，比如第三人称单数的使用，时态的使用，还有连词的使用等。另外，题目的重点在于我们应“如何面对老龄化问题”，但是作者在这方面的笔墨不多，却花费了过多的精力进行铺垫，入题稍慢。尤其是有关如何面对老龄化问题的讨论中，逻辑组织比较混乱，比如文中提到要控制儿童的出生率，但是这与老龄化问题实际上并不相关。

# No Problem is Big

Recently, a report from the United Nations shows that the world population is becoming older and older. For instance, only in China, the old who have aged 60 and older in nearly 10% of the Chinese population in all<sup>1</sup>. On this phenomenon, people cannot make it out of sight<sup>2</sup>. Because<sup>3</sup> the social problem may bring a lot of trouble<sup>4</sup>, especially in the next two decades.

First of all, it will put more burdens to the government. More old people mean that governments need supply more money for the social welfare. As time goes by, this part of money will become bigger and bigger.

In the second place, there is no doubt that this problem gives families much trouble<sup>5</sup>. Due to the modern families having only one child<sup>6</sup>, in these families<sup>7</sup>, when children grow up, each of them should to<sup>8</sup> consider two old men<sup>9</sup>, let alone<sup>10</sup> they also will<sup>11</sup> face with<sup>12</sup> fierce competitions.

As is stated above, the social problem is indeed a big trouble. However, we also<sup>13</sup> have confidence to

丁彤

山东省潍坊市

第一中学

高三

1. 这句话没有支撑句子的动词，且略显罗嗦，改为 the old aged 60 and older account for nearly 10% of the Chinese population。
2. 表达罗嗦，改为 people cannot make this phenomenon out of sight。
3. because 引导从句，改为小写，前面句号变逗号。
4. trouble 变复数。
5. trouble 可数，变复数，之前的 much 改为 many。
6. 这个从句建议改为 Because the modern families only have one child
7. in these families 罗嗦，可去掉。
8. to 去掉。
9. consider two old men 表达不够准确，改为 take care of their parents。
10. let alone 不妥，改为 and。
11. also will 改为 will also。
12. with 去掉。
13. also 去掉。

face up to it. With the development of the social economic<sup>14</sup>, not only every person but also the government will bring in<sup>15</sup> more money. Therefore, a more completed social system<sup>16</sup> may be built. Old people may depend on the society apart from their children. Recently, some cities have built the policy, which cantons<sup>17</sup> that old people can enjoy free examination<sup>18</sup> in part of

hospital<sup>19</sup>. At the same time, with the family's in come adding<sup>20</sup>, people can take good care of their parents. Also, the rich will donate money to help the old, who is<sup>21</sup> in trouble and without children caring about<sup>22</sup>.

From what is mentioned above, we can make it clear that no problem is big, Inculding<sup>23</sup> this large problem. Thus, we should believe that our life will become more beautiful and happier, the old included<sup>24</sup>.

14. economic 改为 economy。
15. bring in 改为 possess。
16. system 为误拼, 改为 system。
17. cantons 可改为 enforces。
18. examination 含混不清, 可改为 medical examination。
19. part of hospital 改为 some hospitals。
20. with the family's in come adding 改为 with the increase of families' incomes。
21. is 改为 are。
22. caring about 及物动词词组, 所以加上 them。
23. Inculding 误拼, 改为 including。
24. 这个句子建议改成 we should believe that people in our society, including the old, will lead a more beautiful and happier life。

### 点 评

该篇文章逻辑发展比较流畅, 首先提出老龄化这一社会问题, 再进一步列举这一问题将带来的一些后果, 接着详细说明我们应如何面对这个问题, 尤其是文中的第四段对如何面对老龄化的讨论紧扣主题, 条理清晰。希望作者今后能够在英语表达的准确性上再做努力, 包括单复数的使用, 从句的表达, 词汇的选择等。

# Aging Population, Aging Society ?

丁超千

辽宁省鞍山市

第一中学

高二12班

According to a recent report from the United Nations, the population of many countries including China is aging rapidly. Take China as an example, the population 60 and older has reached 134 million, making up a percentage of<sup>1</sup> 10% of the total. What's more, 70% of these olders<sup>2</sup> are located in the countryside.

Though neglected by many people, the problem is more and more serious. First of all, the decrease of the work force will surely affect the production<sup>3</sup> of the whole society, thus show<sup>4</sup> down the pace of the economic development. Secondly, if a couple have to make large sums of money for the high cost of living, for the children's education, for the medical treatment to the elders, can you expect them to care for the olders?

It's high time for us to take measures. No doubt the key lies in building a firm economic foundation,

1. making up a percentage of 可去掉。
2. these olders 改为 these old people。
3. production 改为 productivity。
4. Show 误拼, 应为 slow。

especially for China especially<sup>5</sup> in the next twenty years. Since China has the most people<sup>6</sup> in the whole world, we should also do our utmost to improve the quality of our people, as the basic State Policy<sup>7</sup> says. Besides, we should change some of the backward situations<sup>8</sup> such as social security, welfare, public facilities and so on to<sup>9</sup> ensure the convinience<sup>10</sup> for the elders.

5. especially 重复出现,可删去。

6. Most people 改为 largest population。

7. the basic State Policy 指代不明。

8. change some of the backward situations 建议改为 improve our social conditions from the following aspects; 再把 such as 去掉。

9. to 可改为 in order to, 之前加逗号。

10. convinience 误拼,应为 convenience。

11. definitely 误拼,应为 definitely。

12. 使用了 fight against, 使得 the aging population 带有比较强烈的贬义色彩。建议改为 in solving the problem of the aging population。

There is no doubt that we should pay much attention to the poor areas.

To sum up, we are facing the tough problem of aging population, but there is nothing to be afraid of. At least we are aware of what we can do now. We are determined, and we will definitely<sup>11</sup> succeed in the fight against<sup>12</sup> the aging population!

## 点 评

这篇文章总体上说语言通顺,行文流畅。但是存在以下两个方面不足:第一,这篇文章没有达到 300 词这个要求,只有 271 个词,这说明表达不够充分。比如第三段的最后一句话 There is no doubt that we should pay much attention to the poor areas 给读者的感觉是话没说完,作者应该再深入说明一些什么,如政府可以多投入财政支持等。第二,文章对逻辑性的把握有问题,第三段提到 since China has the largest population in the whole world, we should also do our utmost to improve the quality of our people, 但是这与解决老龄化问题并不相关。而第三段的讨论又是全文的重点所在,因此整个文章力度不够。

马一鸣

辽宁省大连市

二十四中学

高三1班

It has been a common practice that people over 60 should retire from their jobs. But what if there are more people who has<sup>1</sup> reached 60, and most of them are still energetic and healthy enough to do their jobs? It's obvious that human resource is being badly wasted. Faced with<sup>2</sup> this problem, we should consider it again whether people over 60 are really old. As the<sup>3</sup> science and technology are developing at an amazing speed, people can live much longer, and this has made it difficult to judge ones' age, especially mental<sup>4</sup> age. Also, reaching 60 doesn't indicate the person's bad state of health any longer. Given these, should we make it that clear that peopel<sup>5</sup> must retire the moment they reach 60? Of course it's not a wise idea. We need to develop a new system of judging whether the person is suitable for work, both physically and mentally, not according

1. has 改为 have。

2. Faced with 改为 Facing。

3. the 去掉。

4. mental 改为 psychological。

5. peopel 误拼, 应为 people。

to the number of years one has experienced<sup>6</sup>. Or the society should let the person himself decide whether to continue working when he is getting old, and let the person choose a time<sup>7</sup> to retire whenever he feels not like working anymore. In these two ways, we may make the best of the precious human resource. And at the same time, we can lighten the burden of our government.

Another thing that can't be neglected<sup>8</sup> is the<sup>9</sup> 70% of the "socalled"<sup>10</sup> old people are located in the countryside. And this is a more serious problem as China is still a developing country and we haven't yet set up a healthy system and social focus is still out of the countryside<sup>11</sup>. As a result, the old people in the countryside don't have and can't have their health and even life are<sup>12</sup> not secured<sup>13</sup>, and the "seifprotecting"<sup>14</sup> conscious<sup>15</sup> is not yet populized<sup>16</sup> in these areas. So<sup>17</sup> the most important thing we should do is improving the medical level to give them a more comfortable and helping<sup>18</sup> environment to enjoy their life<sup>19</sup>.

6. 这句话改为 on the basis of one's physical and mental states, rather than one's age.

7. a time 去掉。

8. neglected 误拼, 应为 neglected。

9. the 去掉。

10. socalled 改为 so-called。

11. 这句话改为 and we have not yet set up a health care system for people in the countryside。

12. 语法错误, 应为 is。

13. secured 为误拼, 应为 secured。

14. seifprotecting 改为 self-protection。

15. conscious 拼错, 应为 conscious。另外, 这里需要一个名词, 而不是形容词, 所以应改为 the consciousness of self-protection。

16. populized 改为 popularized。

17. So 改为 Therefore,。

18. and helping 去掉。

19. life 改为 lives。
