小山羊在森林
里迷了路，哭
了起来。

①

你为什么哭?

我找不到家了。

②

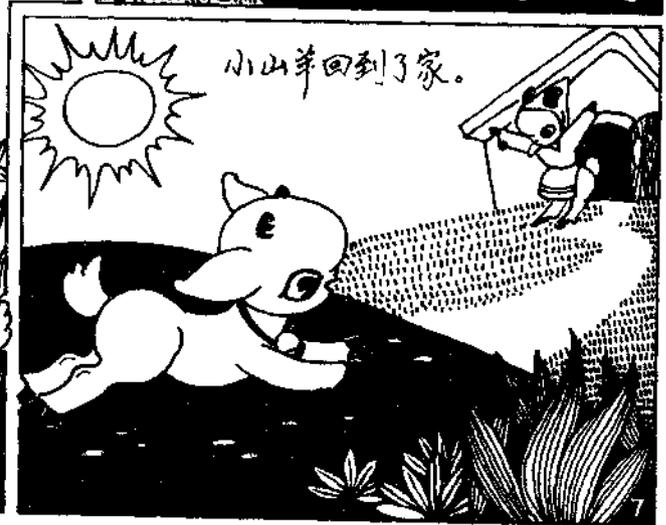

森林迷路摸
树干，光侧面是
南，粗的面是北。

WHICH WAY IS NORTH?

1. The little goat gets lost in the woods. He cries and cries.
2. "Why are you crying?" asks the squirrel. "I can't find my way home," answers the goat.
3. "Well, you can find your way by feeling the trees," advises the squirrel. "The smooth side points to the south, while the rough side points to the north."

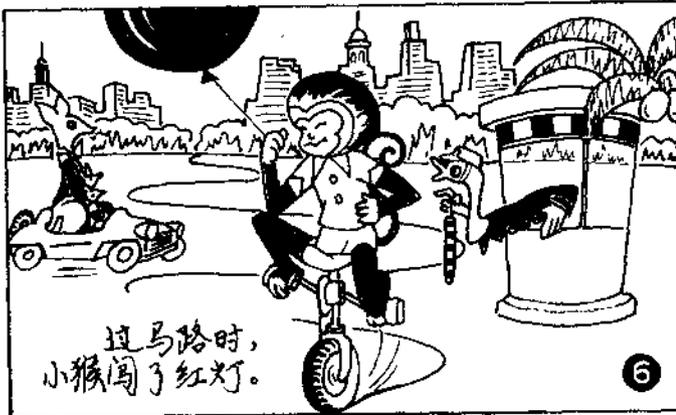

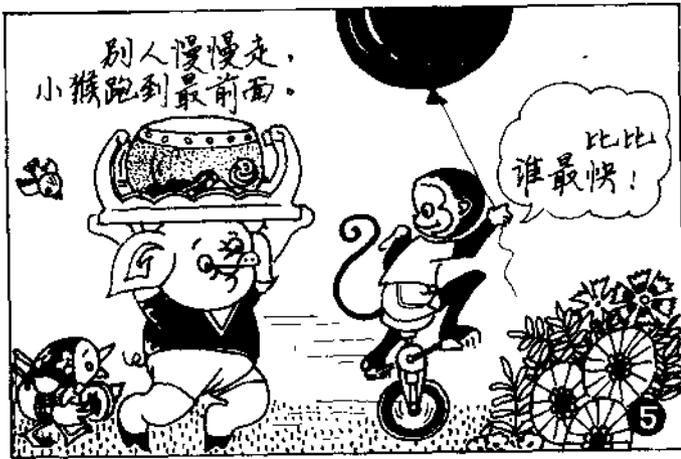

4. The goat walks northward out of the woods. When it gets dark, the owl tells him to look for the Big Dipper to find the north.
5. When it gets light again, the Big Dipper can't be seen. The goat asks the sika deer which way is north.
6. The sika tells him to look at the sun. "If you want to go north, the morning sun should be on your right."
7. In this way the goat finally gets home.

THE BIG BALLOON

1. The circus is going to town. Everyone is carrying something. "Let's see whose is the biggest," shouts the monkey.
2. The rabbit picks up a magic box, and the bear carries two prop boxes.
3. The elephant puts a large tent on its shoulder.
4. The monkey holds a big balloon and says: "Mine is the biggest."

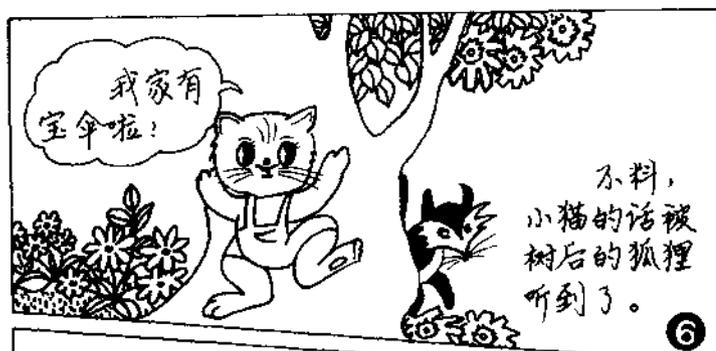

5. Everyone is walking slowly. "Let's see who's the fastest," suggests the monkey as he runs ahead.
6. The monkey crosses the street on a red light.
7. All of a sudden a gust of wind blows the big balloon into the air – and monkey too.
8. The circus show is about to begin, but the monkey hasn't come yet.
9. Finally the monkey is back, injured all over. He had fallen to the ground when the balloon burst.

THE MAGIC UMBRELLA

1. Mother Cat buys an umbrella.
2. When she and her kitten go fishing, Mother Cat opens the umbrella and digs it into the ground.
3. The kitten gets hot, so he goes under the umbrella to get cool. Finding an electric fan running on top of the umbrella, the kitten wonders about it.
4. Soon Mother Cat catches some fish. She turns the umbrella upside down and puts a small pot of fish on it.
5. "How can the umbrella cook; how can it give out electricity?" the kitten asks.

Mother Cat says, "This is a solar-energy umbrella. It can turn the sunshine into electricity."

6. "We have a magic umbrella!" shouts the kitten. But the fox overhears.

7. When it gets dark the fox steals the magic umbrella.

8. The umbrella does not work without sunshine. The ignorant fox angrily throws it onto a heap of firewood.

9. The sun is out and it is shining on the umbrella. All of a sudden the firewood catches fire.

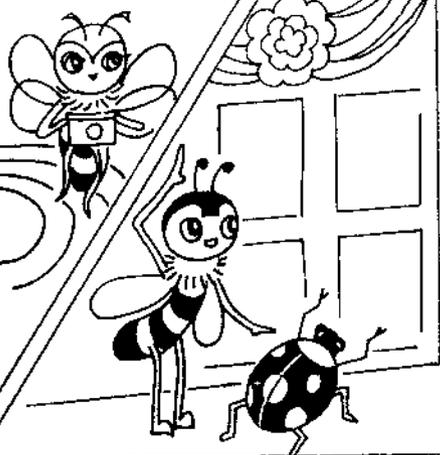

10. Mother Cat and the kitten put out the fire and take the magic umbrella back.

THE BEE TAKES PICTURES

1. The insect kingdom is going to put up an honour roll. The bee is to take pictures.
2. The bee snaps the mantis catching a locust.
3. The mosquito wants to have a picture taken. "You're a bloodsucker," says the bee. "I won't take any of you."
4. Just as the dragonfly flies up and grabs the loathsome mosquito, the bee catches the scene.

5. The fish and tadpoles are seizing mosquito larvae, but the bee doesn't take their pictures because they aren't insects.
6. The bee takes a picture of the silkworm, the great labour hero who always gives out silk.
7. The firefly has a picture taken, too. Its larvae are good at killing harmful insects.
8. The firefly takes a picture of the bee, since it has made so much honey.
9. The fly, butterfly and cicada all wish to have their pictures taken, but the bee doesn't do it. Do you know why?

NIU NIU'S TEETH

1. At night when Niu Niu is sleeping, germs dig a hole in her teeth.
2. "What she ate before going to bed has stuck to her teeth," says Germ No. 1, "and it makes a good treat for us."
3. "She does not brush her teeth," Germ No. 2 adds. "That makes it easier for us to dig the hole."
4. "Come on," Germ No. 3 urges. "Something good to eat is in the hole."

5. The next day Niu Niu has a bad toothache. She can't eat anything cold, sour or sweet.

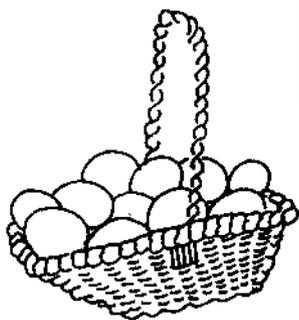

6. The dentist examines Niu Niu's teeth carefully and finds a big cavity.

7. "You should brush your teeth and not eat anything before going to bed," the dentist tells Niu Niu after filling her cavity.

8. Niu Niu does what the dentist tells her and all the germs are scared away.

2. Her little friends miss her too. "I'll send Ding Jie an egg," the class monitor says.

3. The others all want to give Ding Jie eggs too.
