Most people in other countries have \_\_\_\_\_names—two given names and a family name. The family name is also called the \_\_\_\_\_2 \_\_name.

English family names can come 3 long time ago. Some family names come from a person's work many years ago. Family names like Baker and Cook are names that come from a person's work. Some 4 names come from where a person lives. Many years ago, a person named John, who lived near apple trees chose his new family name. He is now 5 John Appleby. Another person could be John Woods, or John Hill, or John Water. Some family names come from what a person 6. An English person 7 red hair could choose a name like Reid, Read, or Reed. ### X. 阅读理解。

From a plane we can see the fields, cities, mountains, or seas below. If we go into space (太空), we see more and more of the earth. People and man-made satellites (卫星) have been sent up into space to look at the earth carefully and people have learned more about the earth in the last few years.

The sea looks very beautiful when the sun is shinning on it. But it can be very terrible when there is a strong wind.

The sea is very big. It nearly ( 几乎) covers ( 覆盖) three quarters of the earth. The sea is also very deep in some places. There is one place and at that place the sea is about 11 kilometres deep. The highest mountain in the world is about 9 kilometers high. If that mountain was put into the sea at that place, there would be still 2 kilometres of water above it!

In some parts of the sea, there are many kinds of fishes and plants (植物). Some live near the top of the sea. Others live deep down. There are also a lot of small living things, and lots of fishes live by eating them.

The sea can be very cold. When people go down, the sea becomes colder and colder. Only some men can go down into the deep sea. But, in 1970, five women scientists lived in the deep sea for fourteen days.

Mary wished she had listened to the weather report on TV. Then she wouldn't be in the mess (混乱) she was in right now. When she got up in the morning, it was a beautiful spring day. The sun was shining and the birds were singing. She saw a few clouds far away in the sky, but she didn't think about them at all. She got her dog, No. 1, and put him into the car. Then she drove out into the countryside for a picnic with her dog.

They had a wonderful time playing ball and running around the fields. Soon the wind began to blow and it turned cold. Mary and No. 1 were warm from running for playing the ball, so they weren't cold. Then when No. 1 was chasing (追逐) the ball, Mary saw snowflakes (雪片) in the sky. She called to No. 1, picked up the picnic things and got back into the car. As she was driving home, the snow became heavier and heavier. Soon all Mary could see was white all around her. The road became slippery (滑的) and she had to drive very slowly. Then, the car hit ice and went around in circle (圖子). It went down a hill and finally stopped.

Mary reached over for No. 1. He was shaking (顫抖), but he was OK. She got her mobile phone (移动电话) and called for help. The police said they would send a truck to help get her car out of the snow, but it would be about two hours before they could get to her. The policeman asked, "Didn't you watch the weather report this morning? They said it would snow heavily this afternoon. You know, this time of year, the weather can
