Progress in Science & Technology and Serving National Economy

Achievements of Science and Technology

A List of Projects of State Seismological Bureau Receiving National Awards for Scientific and Technological Progress in 1995	(255)
A List of Projects Receiving State Seismological Bureau Awards for Scientific and Technological Progress in 1995	(256)
A List of Projects Receiving Provincial Awards for Scientific and Technological Progress in 1995	(261)
1995 Projects Appraised by State Seismological Bureau	(262)
1995 Projects Appraised by Provincial Scientific and Technological Commissions	(268)
Technology Export of State Seismological Bureau	(271)

Developments of Science and technology

A Discussion on the Standard for Engineering Earthquake Protection	(272)
Several Recent Developments in the Research of Deformation and Strain Precursor	(283)
Consistently Observing Technology of Crustal Deformation in China	(288)
Great Development of Research and Producing on Digital Observing Test System of Earthquake and Precursor	(291)
Development of the Work of Basic Probing	(293)
Prospecting of Deflection/Wide - Angle Refraction Section of Deep Earthquake in Daibie Mount Orogenic Zone	(294)
The Research for the Velocity Structure of Lithosphere in Yanhuai Basin and Neighboring Areas —— Development of the Research for the Seismic Network of Continental Lithosphere in China	(300)
The Most Recent Development of the Research and Application for Ground	

Electromagnetic Sounding	(301)
Development of the Research for Chronology of Active Tectonics	(303)
The Discovery and Its Significance of Far Well Water Precursor of Strong Earthquake ...	(304)
The Research for Present Tectonic Stress Field of the Continental Active Tectonic Region in China	(306)
A Brief of The Crustal Stress Map of China	(308)
The Development of the Research for Structure and Tectonics of Deep Crust in Shengli Oil - Gas Region	(310)
Application Research for Morden Digital Seismic Information Analysis	(311)
Analytic Research for Elastic Wave Scattering in Irregular and Heterogeneous Areas	(312)
Test Research for the Antiseismicity of Typical Buildings in Beijing Municipality	(314)
Initiative Research for the Symbol of Micro Mechanic Characters of Deformed Material under different Depth (Temperature)	(316)
Redon and Mercury Measurement Applied for the Research for Activity and Segmentation of Faults	(317)
Compiling and Implementing of 《Classification Table of Earthquake Archive of Chinese Archive Classification》	(321)
Academic Activities	
The 5th. Plenary Session of the Third. Scientific and Technological Committee of the State Seismological Bureau in Beijing	(324)
Minutes of the Third Standing Committee of the 4th. Council of China Seismology Society	(325)
Minutes of the First Session of 4Th. Seismology Committee of China Seismology Society	(325)
Minutes of the Meeting of Seismic Geology Committee of China Seismology Society	(326)
Minutes of the Annual Conference of the 4Th. Seismic Engineering Committee of China Seismology Society	(327)
Minutes of the Meeting of Seismic Technology Committee of China Seismology Society	(328)
Minutes of the Meeting of Crustal Deformation Measurement Committee of China Seismology Society	(330)
Minutes of the Meeting of Deep Sounding Committee of China Seismology Society	(331)
Minutes of the meeting of Chronicle Earthquake Committee and Academic Discussion Meeting of China Seismology Society	(331)
Minutes of the First Meeting of Seismic Sociology Committee of China Seismology Society	(332)
Establishment of Seismic Hydromechanics Committee of China Seismology Society and Minutes of the First Academic Exchange Meeting	(333)
Third National Appraisal for Excellent Scientific and Technological Thesis of
